RECOUNT FOR TAX COLLECTOR

Randolph, Mass.

March 12, 1932.

Upon petition duly filed with the Town Clerk and dated March 8, 1932, the Registrars of Voters of Randolph met this day to recount the Ballots cast March 7, 1932 for the Tax Collector. The envelopes were delivered to the Registrars by the Town Clerk, then opened and ballots counted, with the following result:

	Original Count	Recount	Gains	Losses
Kennedy	1,157	1,158	1	0
Mason	1,150	1,150	0	0
Blanks	173	172	0	1
	<hr/> 2,480	<hr/> 2,480	<hr/> 1	<hr/> 1

The Registrars present were Hickey, Dench and Lyons, and John B. McNeill, ex-officio.

RECOUNT FOR PLANNING BOARD (1 year term)

Randolph, Mass.

March 12, 1932.

Upon petition duly filed with the Town Clerk dated March 8, 1932, the Registrars of Voters of Randolph met

TOWN OF RANDOLPH, MASS.

this day to recount the ballots cast March 7, 1932 for the one (1) year term for Planning Board. The envelopes were delivered to the Registrars by the Town Clerk, then opened and ballots counted, with the following result:

	Original Count	Recount	Gains	Losses
Corp	907	898	0	9
Cox	1,192	1,201	9	0
Forrest	907	908	1	0
Webber	630	624	0	6
Blanks	1,324	1,329	5	0
	<hr/>	<hr/>	<hr/>	<hr/>
	4,960	4,960	15	15

The Registrars present were Hickey, Dench and Lyons, and John B. McNeill, ex-officio.

At the Annual and Special Town Meetings, all of the appropriations made may be found in the Town Accountant's Report and Assessors' Report taken from an attested list made by the Town Clerk.

It was VOTED UNANIMOUSLY, under Article 1, That the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time, in anticipation of revenue of the financial year, January 1 to December 31, 1932, both dates inclusive, and to issue a note or notes therefor, and the indebtedness incurred by reason of the issuance of said note or notes to be provided for from the revenue of said financial year, January 1, to December 31, 1932.

It was VOTED UNANIMOUSLY, under Article 2, That the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to refund any and all of

NINETY-SEVENTH ANNUAL REPORT

the revenue notes issued in anticipation of revenue of the year 1932, in accordance with the provisions of Section 17, of Chapter 44 of the General Laws, any debt so incurred to be paid from the revenue of 1932.

It was VOTED, under Article 3, that the Highway and Water Departments work in conjunction with the Board of Public Welfare and that all able-bodied men who apply to the Board of Public Welfare for assistance be referred to either of the above departments for work, and that the above departments give work to above applicants, insofar as is possible, in preference to others; should any applicant either decline to accept work or not give a day's work for a day's pay, such applicant shall be deprived of aid by the Board of Public Welfare.

It was VOTED, under Article 8, that laborers employed by the Town be compensated as follows:

All labor, both day and night be paid sixty
(60) cents per hour.

All horses fifty (50) cents per hour.

It was VOTED, under Article 15, that the office of Town Auditors be abolished under the Provisions of Chapter 41, Section 55 of the General Laws.

It was VOTED, under Article 16, that the Selectmen be authorized to petition the Director of Accounts to have the Town Accounts audited yearly by State Auditors.

Article 19. To see if the Town will vote to accept building lines as established on Main Street by the Planning Board.

VOTED: That all action under this article be postponed until the 1933 Annual Town Meeting.

TOWN OF RANDOLPH, MASS.

ADJOURNED ANNUAL TOWN MEETING

May 9, 1932

It was VOTED, under Article 8, that none but citizens of the Town of Randolph be employed on any town labor.

It was VOTED, under Article 22, to accept as a Town Way, CASTLETON AVENUE, as laid out by the Selectmen.

It was VOTED, under Article 23, to accept DRUID HILL AVENUE, as laid out by the Selectmen, a distance of two hundred (200) feet from the 1931 acceptance (726 feet).

Under Article 24, a motion to accept GORDON STREET was voted in the negative.

It was VOTED, under Article 25, to accept as a Town Way, INTERVALE TERRACE, as laid out by the Selectmen.

It was VOTED, under Article 26, to accept RUSS STREET, as laid out by the Selectmen, a distance of seven hundred and fifty (750) feet from the end of property of Mr. Burns.

It was VOTED, under Article 27, to accept WILMARTH ROAD, as laid out by the Selectmen, a distance of nine hundred and fifty (950) feet from Mill Street.

ADJOURNED ANNUAL TOWN MEETING

June 6, 1932

At this meeting, at which there was not a quorum present, it was voted that it be the sense of this meeting that an article be placed in the next Annual Town

NINETY-SEVENTH ANNUAL REPORT

Meeting Warrant to amend the by-laws to reduce the number required for a quorum to two hundred.

The Selectmen, at their meeting held in the Town Hall on March 21st, voted unanimously to accept the provisions of Chapter 94 of the Acts of 1932, an act providing for advance payments on account of taxes for the current year in certain cities and towns.

PRESIDENTIAL PRIMARIES, 1932

Randolph, April 26, 1932

Pursuant to a Warrant issued by the Selectmen, dated April 4, 1932 and duly posted by Patrick T. McDonnell, Constable, the voters of Randolph assembled at Stetson Hall this twenty-sixth day of April, 1932.

The polls were declared open for the reception of ballots at four o'clock P. M. At eight o'clock the polls were closed, 361 ballots having been cast; Democratic, 311—Republican, 50.

The ballots were sorted and counted and declaration of the result made at 9.40 o'clock P. M.

Blanks	58	30	62	150
Total	<hr/> 2967	<hr/> 1061	<hr/> 1560	<hr/> 5588

John B. McNeill,
Town Clerk of Randolph.
John J. Collins,
Town Clerk of Avon.
Bennett V. McLaughlin,
Town Clerk of Holbrook.

A true record, Attest:

JOHN B. McNEILL,
Town Clerk.

Randolph, Mass., December 13, 1932

The Board of Registrars of Voters of Randolph met this thirteenth day of December 1932, at 7.30 o'clock P. M., in G. A. R. Hall in Stetson Building, on orders from the Secretary of State, for a State-wide re-count for the offices of Lieutenant Governor and Secretary of State.

It was unanimously voted that, as we had already re-counted the votes for the office of Lieutenant Governor,

NINETY-SEVENTH ANNUAL REPORT

we would only recount for the office of Secretary of State.

The envelopes containing the ballots were inspected by the parties representing the different candidates and the envelopes were opened and the ballots recounted.

Returns were made to the Secretary of State and the results declared at 9.30 o'clock P. M. Time of recount, two hours.

The following was the result of the recount.

	Original Count	Recount	Gains	Losses
John F. Buckley	1377	1379	2	0
Frederic W. Cook	1356	1357	1	0
Albert S. Coolidge	33	32	0	1
Max Lerner	4	4	0	0
Albert L. Waterman	11	11	0	0
Blanks	186	184	0	2
	<hr/>	<hr/>	<hr/>	<hr/>
Total	2967	2967	3	3

Walter L. Hickey,
Joseph J. Dench,
Charles F. Blakely,
Registrars of Voters
of Randolph.

JOHN B. McNEILI.,

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects to do so for ten days after the time limited therefor, . . . shall forfeit not more than five dollars for each offence.

Attention of PHYSICIANS and MIDWIVES is called to Chap. 280, Sec. 1, Acts of 1912: Sec. 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offence.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

Bank		\$274.37

Randolph, December 31, 1932.
Examined and found correct.

ELMER L. BURCHELL,
Town Accountant.

Report of the Town Accountant

Citizens of Randolph:

In my report of the current year you will notice that there are three over-drafts, namely in Public Welfare, Soldiers' Relief and Snow Removal. Below is my authority for having allowed same.

August 29, 1932.

At a regular meeting of the Selectmen and Overseers of the Public Welfare held on the above date, it was voted by more than two-thirds of the Selectmen that an extreme emergency involving the health of persons existed in the Town of Randolph necessitating the incurring of liability and the expenditure of money in excess of the appropriation made for the use of the Department of Public Welfare.

This vote was cast in pursuance of the provisions of Section 31 of Chapter 44 of the General Laws.

Signed,

WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,
Selectmen of Randolph.

November 21, 1932.

At a regular meeting of the Overseers of the Public Welfare held on the above date, it was voted by more than two thirds of the membership of the Board that an extreme emergency involving the health of persons ex-

TOWN OF RANDOLPH, MASS.

isted in the Town of Randolph, necessitating the incurrence of liability and the expenditure of money in excess of the appropriation made for the use of the Department of Soldiers' Welfare.

This vote was cast in pursuance of the provision of Section 31, of Chapter 44, of the General Laws.

Signed,
WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,
Selectmen of Randolph.

December 23, 1932.

At a regular meeting of the Selectmen of the Town of Randolph, held on Monday, December 19, 1932, it was voted by more than two-thirds of said Board that an extreme emergency involving the health and safety of persons existed in the Town of Randolph, necessitating the incurrence of liability and expenditure of money in excess of the appropriation made for Snow Removal.

This vote was in pursuance of the provision of Section 31, of Chapter 44, of the General Laws, and at the request of the Highway Surveyor.

Signed,
WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,
Selectmen of Randolph.

Respectfully submitted,

ELMER L. BURCHELL,
Town Accountant.

Report of the Board of Selectmen

In normal times the report of the Board of Selectmen requires little more than the routine presentation of the financial statements of the various departments.

Periods of business and political disturbance, however, bring forth a great deal of discussion of a sensational character which naturally stimulates the circulation of unfounded statements concerning the financial condition of existing institutions.

Discussion of this kind is destructive of public confidence and frequently creates false impressions which are detrimental to the community. Its effect can best be offset by sounding a note of optimism which is justified by the facts.

Public discussion of municipal affairs should be encouraged. Honest inquiry should be respected. Helpful criticism should be welcomed. Intelligent suggestion should receive careful consideration. Such discussion, inquiry, criticism or suggestion, however, should be made in the spirit of cooperation and not for partisan advantage. He who seeks to capitalize a crisis, whether in war or in peace, is a profiteer and not a patriot.

Without minimizing the dangers which confront practically every municipal government in the land—dangers arising out of mounting costs of government, difficulty in raising revenue loans, and tardy tax collections, it can be confidently asserted that the financial condition of the Town is fundamentally sound.

NINETY-SEVENTH ANNUAL REPORT

As a community we suffer from the afflictions which are common to all communities, but in lesser degree than most. Judged by every test and standard of municipal accounting we are better off than most of our neighbors.

In the matter of our public welfare activities we have been much more fortunate than the great majority of towns and cities in the Commonwealth. Our expenditures for this purpose are far below the average of other towns of similar or even smaller size. In short we have much to be thankful for and little to be critical about.

In our community the taxpayer has borne practically the entire burden. The "drives" for unemployment relief and the "benefit" performances which have been so common elsewhere, have not yet been resorted to in this town.

While intelligent economy must be practised it is difficult to see how appropriations can be cut in this particular department.

The citizens, however, can do much to hold the tax rate within reasonable limits by scrutinizing closely the expenditures of every department, by adjusting their activities to current conditions and by acting conservatively upon new projects.

WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON.

Assessor's Report---1932

The Board of Assessors submit their report for the year 1932 for the consideration of the Tax Payers of the Town of Randolph.

Poll List

We have made a separate Poll List which was committed to the Tax Collector early in the year so that he would have a better chance of collecting from those who leave the Town and State.

Persons Listed

A book of persons listed by the Assessors has been compiled in conformity with the provisions of Section 4, 5, 6 and 7 of Chapter 51 of the General Laws.

Valuation

Increase in Real and Personal Property Valuation \$154,400.00.

By reference to the table of assessed valuation appended hereto it will be seen that the total assessed valuation of taxable Real Estate indicates an increase of \$142,350.00 and an increase in valuation of Personal Property \$12,050.00.

The decrease of \$117,500.00 of Excise Valuation was caused by the fact that 170 less cars were registered, also the retail prices on new cars were much lower than in 1931.

NINETY-SEVENTH ANNUAL REPORT

Reduction in Tax Rate of \$3.60

Total Town Appropriations for the year 1932 were \$11,587.01 less than in year 1931, this reduction being brought about through the co-operation of the Finance Committee and good judgment of the Citizens in Town Meeting.

The increase in value of Real and Personal Property, also the increase in credits picked up by the Assessors, enabled us to reduce the Tax Rate \$3.60.

Board of Assessors—
WALDO E. MANN,
FRANK F. TEED,
JAMES P. DUFFY.

Again, I wish to thank you all sincerely for your hearty cooperation.

Believe me, I am still your friend,

WALTER H. LYONS,
Collector of Taxes.

Report of Tax Collection

Levy of 1932

Since the collection of taxes is inseparably connected with town appropriations and financing it seems that nothing can be gained by soft pedaling the present financial crisis confronting our town.

Unless expenditures are drastically curtailed or economic conditions vastly improve, bankruptcy will face the town.

This was averted during the past year, after bank loans in anticipation of taxes became impossible to get, through private "tiding over" loans secured from citizens and our local banks through the energetic efforts of our Town Treasurer. But these loans have simply postponed the day of reckoning and they must be repaid.

Were tax collections to be enforced as the tax commitment warrants call for, tax titles would accrue on two-fifths of the homes of the town.

It appears therefore that appropriations should be curtailed until the home owners who have to stand the burden, are in a position to meet them and pay their taxes. Were collections to be made by enforced tax titles sales, it would produce a lot of valueless tax titles credits, but bring little money into the town treasury. No one relishes the idea of a tax title sale upon his home, yet that is just what we are headed for unless citizens at the annual Town Meeting restrict appropriations to the ability of the home owners to pay for them.

NINETY-SEVENTH ANNUAL REPORT

The tax collection figures for 1932 speak for themselves, hardly better than 50 per cent.

One of the worst in the state, so they tell us at the State House.

It seems reasonable to expect that the auto excise tax should and must be paid. If one can afford to run an auto, one should also afford to pay the small excise tax for the privilege of operating it over the public highways which are built and improved largely through this tax.

On the small poll tax of two dollars and old age tax of one dollar, there should be more pride taken in the thought that they have been paid, than in the hope they won't be—unless they have to be.

When it comes to the real estate tax, largely on homes, a more serious situation confronts us. Due to the depression many are out of work and cannot pay now. If the whole amount cannot be paid at one time, save small amounts from time to time until one-quarter is accumulated and turn that in.

The daily deposit of 15 cents to 45 cents in some sort of home bank if one does not join a tax club at our local banks, would pay the taxes on seventy-five percent of all the homes in town.

Let's all awaken to a realization that the town's business is everyone's business and effects everyone personally; take a personal interest in town appropriations and in selecting the people who administer them, and endeavor to pay the taxes which these town appropriations produce, as promptly as economic and financial conditions will permit.

TOWN OF RANDOLPH, MASS.

Following is the Tax Summary for 1932:

*Resigned December 5, 1932. Joseph D. Wales elected Secretary to fill vacancy.

PUBLIC LIBRARY

To the Citizens of Randolph:

Pursuant to the provisions of Article 3 of the By-laws of The Turner Free Library, this report, covering the calendar year 1932, and being the fifty-seventh annual report, is submitted, showing the condition of the trust consisting of the building, library, and funds, together with the reports of the Librarian and Treasurer and so much of the reports submitted to the Trustees by the various committees as seems of general interest.

The Library Committee reports that the books, charts, and furnishings are in good condition and that all

TOWN OF RANDOLPH, MASS.

books belonging to the library are accounted for by the Librarian.

The Building Committee reports that the renovation of the reference room which was postponed from 1931, on account of the unexpected emergency expense required for the installation of a new boiler, has been carried out. The front door has been painted and a considerable amount of work has been done upon the exterior of the building, including caulking. Chimney repairs and repairs to the slate work and flashings of the roof have been made. Old flashings have been replaced by new where the old ones appeared to have deteriorated to such an extent as to be no longer serviceable. Repairs have been made to the gutters and work was done upon the dry well at the south side of the building to insure the proper carrying away of the water led into it by conductors from the roof. All of the work was done by residents of Randolph.

The trustees feel that the building is in good condition and they hope that during 1933, particularly in view of the need for economy under present conditions, little or no expenditure for repairs will be necessary. Nevertheless, it is impossible to foresee what emergencies may arise and they, therefore, ask an appropriation for the current year of \$200 to cover the cost of such exterior and interior repairs as may be necessary. They hope that they will actually have to call upon the Town for little or none of the appropriation.

The Librarian's report is interesting as indicating a very large increase in the use of the library. The increase over 1931 is in books loaned, 39%, and in magazines loaned, 49%.

During the year the trustees were regretfully compelled to accept the resignation of Mr. William H. Leav-

NINETY-SEVENTH ANNUAL REPORT

itt as secretary at the conclusion of thirty-two years of faithful and painstaking service to the Library in that capacity.

The trustees take this opportunity again to express their appreciation of the loyal and efficient work of the Librarian, Miss Eunice L. Belcher, and her assistants, Miss Ellen P. Henry and Mrs. Ellen C. Elden.

The report of the Librarian, the report of the Treasurer showing the investment of the funds and the receipts and expenditures of the Library, and the report of the Finance Committee are hereunto subjoined.

Respectfully submitted,

SETH T. CRAWFORD,

President, Board of Trustees.

Randolph, Mass., January 26, 1933.

REPORT OF THE LIBRARIAN

To the Trustees of the Turner Free Library:

I have the honor to submit the annual report of the Librarian for the year ending December 31, 1932.

We have issued 372 borrower's cards, making a total of 3,354 cards in use.

There have been 326 books added during the past year; 309 purchased, 17 gifts. This makes a total of 32,679 accessioned volumes.

It is interesting to note that the circulation of books and magazines has increased greatly over last year. The

TOWN OF RANDOLPH, MASS.

total number of books loaned this year was 27,877, an increase over last year of 7,868. The total number of magazines loaned this year was 492, an increase over last year of 162.

I wish to express my appreciation of the increasing interest and cooperation of the Trustees and the faithful services of my assistants.

Respectfully submitted,

EUNICE L. BELCHER,
Librarian.

Randolph, Mass., January 9, 1933.

REPORT OF THE TREASURER

To the Trustees of the Turner Free Library:

In compliance with the requirements of the By-Laws, I hereby submit the annual report of the Treasurer of the Turner Free Library.

There has been a loss of \$311.00 in the income of the Royal W. Turner Fund for the past year, four companies having omitted their dividends as follows:

REPORT OF THE FINANCE COMMITTEE

To the Trustees of the Turner Free Library:

Your committee on finance submits the following report:

The committee has audited the accounts of the Treasurer for the year 1932, and found them correct. All moneys received have been duly accounted for, and no moneys have been paid out except upon vouchers properly approved.

TOWN OF RANDOLPH, MASS.

The committee has examined, also, the securities representing the investments of the funds of the Library, and has found them to be intact, and as represented.

The following changes were made in the investments:

Two bonds Western Tel. & Tel. Company were sold for \$2,000.00 and we purchased 1 bond Pacific Gas & Electric Company at \$985.00 and 1 bond American Tel. & Tel. Company at \$1,017.50.

Respectfully submitted,

RAYMOND L. MASON,
Chairman.

Report of the Board of Health

During the past year, the work of the Board of Health has proceeded in an orderly and systematic manner, with reference to the many duties involved in the enforcement of the health laws, and we are pleased to render the following account of our efforts to better the sanitary and communicable disease situation in our town.

The inspection of foods and places where the same are manufactured or offered for sale, has revealed from time to time conditions which had to be remedied, and, in most instances, we were accorded the finest of cooperation, and our suggestions were received as constructive criticisms. We wish to acknowledge here the fine cooperation of such public spirited citizens. The latter do not regard the Board of Health as a prying body of men, seeking trouble, but rather look to us for guidance in their endeavor to obey the laws.

There have been a large number of communicable diseases reported during the year, although it has been only an average year in this respect, and, when so reported, have been isolated for the prescribed periods. However, we know that there are many unreported cases of contagious disease—a condition which is dangerous not only because not quarantined, but unfair to the public at large, the carrier of disease being a very vital factor. We urge all our citizens to report to us any such disease of which they may have knowledge in the interest of the public health.

The water supply and its possible pollution have

TOWN OF RANDOLPH, MASS.

been the subject of several conferences held at the State House, and which were attended by the full board in every case. There everything pertaining to this condition was discussed. These matters have been explained in detail to us by our State Health Commissioner and the Chief Sanitary Engineer, whose department has made a painstaking survey of our town, and has done everything feasible to remedy all conditions pertaining to this subject. An appropriation of \$4,000.00 will be asked this year, for the purpose of diverting certain streams from the watershed of Great Pond.

Many swamp holes and unauthorized dumping holes have been filled with gravel and material removed in the construction of our new highway. These places not only invited the dumping of the usual materials, which is a grave nuisance, but constituted an ideal breeding ground for mosquitoes. The further fact that several were on the watershed of Great Pond has made it imperative to remove a source of direct pollution due to decayed materials. This work is far from completed and the interests of the public health require that the Board of Health be alert to these possibilities at all times.

Through the efforts of our Board the Metropolitan District Commission was persuaded to build a cement wall to protect the waters of Cold Spring from pollution by surface water, as was formerly the case. The bushes and shrubbery adjacent to it have been cut away and the general improvement will be appreciated by our people, so many of whom obtain drinking water from that source.

The health of our school children, with reference to oral infection and future health, demands that we provide an adequate dental clinic for children from Grade 1 to High School age, these services to be rendered by our local dentists but who are willing to accept a very small fee. To do this work the sum of One Thousand (\$1,000)

dollars is the minimum amount which we shall ask the town to appropriate. It is easily seen that each dentist will be paid but a very small fee, and that the accomplishment of this purpose will be realized at a very small expense. Under the law, the sum appropriated for this purpose must be expended by the Board of Health and its allocation determined after a conference with our local dentists has resulted in an agreement as to uniform fees, hours, etc.

We would be lax in our duty if we failed to bring the matter of anti-diphtheritic inoculation before our people. This immunization has been carried on for several years in nearly every town and city of the Commonwealth, ours being one of the few exceptions. The tremendously reduced incidence of diphtheria in the communities where this procedure has been carried out is convincingly shown in the charts on file at the office of the State Board of Health. Since its benefits are so well established and the question of unfavorable reaction to the Toxin-Antitoxin has been eliminated there can be no reason advanced, in our opinion, for the further postponement of this duty. This subject will be further explained at a public meeting in the near future. The material is supplied free by the State and our physicians, we feel, will be glad to subscribe to this idea and accept a very small remuneration for their services. Literature dealing with this subject is available and will gladly be sent to all who request it. It is true that our community has enjoyed a period of relative freedom from this disease, but statistics show that such diseases occur in waves, and no person is competent to state that we shall continue to enjoy this immunity.

REPORT OF THE PLUMBING INSPECTOR

To the Board of Selectmen of the Town of Randolph:
Gentlemen:

I hereby submit my report as Plumbing Inspector for the year ending December 31, 1932.

There have been 76 permits issued to install plumbing. Of this number 68 have passed inspection and 8 are held over for final inspection. There have been installed in new and old houses the following fixtures: 69 closets,

NINETY-SEVENTH ANNUAL REPORT

52 lavatories, 42 bath tubs, 66 sinks, 8 shower baths, 33 wash trays, 31 pressure boilers, 12 refrigerator wastes, the estimated value of which was \$16,958. The number of old and new buildings in which plumbing was installed are as follows: 40 old houses, 22 new houses, 13 old stores, 8 new stores. There have been 3 arrests and convictions for violation of plumbing laws by out of town men and one by a resident of the town.

Respectfully submitted,

ARTHUR L. MANN,
Plumbing Inspector.

REPORT OF THE ANIMAL INSPECTOR

To the Board of Selectmen, Randolph, Mass.:

Gentlemen:

For the year ending Dec. 31, 1932, the following animals were duly inspected in this town:

Cattle	223
Swine	1,210
Goats	9

Stables housing these animals were also inspected. Improvements recommended in nine instances. Fifteen (15) dog cases were handled by this department. One dog shot, believed to have rabies, was found negative.

Respectfully submitted,

CHARLES R. POWERS, Jr.

Report of the Water Commissioners

To the Citizens of the Town of Randolph:

The forty-seventh annual report of the Water Commissioners is herewith submitted for the year ending December 31, 1932.

Organization of the Board of Water Commissioners for the year 1932 was effected as follows:

John B. McNeill. Chairman

Richard F. Forrest. . Superintendent

Frederick D. Driscoll. Clerk

During the past year 31 new services were connected.

For the year 1932 we had 27 service pipe leaks; meters were installed on 48 services, bringing the total number of meters now in use to 1,318; 39 services pumped and cleaned; 5 hydrants broken; renewed 3 services from main to street line; removed and repaired 3 hydrants and installed independent gates on same; repaired 6 leaks in 6x8 inch mains; repaired 5 leaks on 14 inch mains; made 6 inch connection to Van Beal Road.

EXTENSIONS

100 ft. of 6 in. main was laid on Overlook Road. This was through solid ledge which had to be removed.

500 ft. 6 in. main on Centre Street.

100 ft. 6 in. main on Russ Street.

700 ft. 6 in. main on Old Street connecting Canton and Chestnut Streets.

850 ft. 6 in. main on High Street. There is a complete circulation from Main St. at West Corners through Chestnut Street, High Street, Lafayette Street and West Street to Main Street again.

550 ft. 8 in. main on North Main Street.

HYDRANTS INSTALLED

1 Hydrant on Centre Street.

1 Hydrant on North Main Street.

1 Hydrant on Russ Street.

1 Hydrant on Old Street.

1 Hydrant on High Street.

GATES INSTALLED

2 6-in. gates on Centre Street.

2 6-in. and 1 8-in. gates on North Main Street.

7 6-in. gates on Old Street.

3 6-in. gates on High Street.

On July 21 an accident occurred to our Epping-Carpenter Flywheel Pump which caused an expense of \$215.42. This amount was paid by the company in which we are insured against accidents.

Considerable repairs were made on our auxiliary pump during the year. This unit has proved to be very costly in operation, consuming more than double the amount of coal for the same results as we get on our fly-wheel pump. It may be advisable to discard this unit in the near future for one that will be more economical and efficient.

Our boilers have been inspected and reported to be in good condition.

Six times during the year water was taken from Great Pond and its tributaries and submitted to the State Department of Health for analysis. The result of

TOWN OF RANDOLPH, MASS.

these analyses is on file in the office of the Water Commissioners where any person interested may inspect them.

Your Commissioners have reported, from time to time, on our very dangerous watershed. As we understand it, we have the most thickly settled unseweraged watershed in the Commonwealth. As you know, the Town has been warned of this condition from time to time by the State Department of Public Health, ever since the water of Great Pond has been used for domestic purposes.

In recent years the State Department of Public Works, in building highways on Main and Pond Streets, have installed a system of drain pipes into which most of the surface water from West Corners to what was formerly called Pole 43 on top of the hill beyond Pond Street runs directly into the streams that flow into the Great Pond. They have also entered Norroway River (one of our tributaries) with a system of drain pipes which carries water from Grove Street down Main Street to the entrance to the barn of the Boston School for the Deaf, where they deposit it into Norroway River. Previous to such time this water reached the pond through seepage into the ground and was well filtered before reaching our water supply. Protest was made by your Water Commissioners and with the Water Commissioners of Braintree and Holbrook several conferences were held with representatives of the Highway Commission before the State Department of Public Health in the State House and also on the grounds where this drainage was installed. The only result of these conferences was that the State Department of Health recommended a number of filter beds at different points on the watershed principally where this drainage system deposited the water.

NINETY-SEVENTH ANNUAL REPORT

In 1932 the Town of Randolph voted to construct a drainage system in front of the Devine School on Old Street, which carried all the water from that portion of Old Street directly into the drainage system installed by the State Department of Public Works. With all the drainage that now goes directly into the Pond from our thickly settled watershed it is our opinion that the time is now right to prepare for building a filtration plant that will preserve the purity of the water for a great many years.

While we are not unduly alarmed, as all the analyses which we have had have shown the water to be safe for drinking purposes, yet we think the time has arrived to place conditions squarely up to the citizens of the Town. We are therefore having an article placed in the Town Meeting Warrant which will be broad enough to cover any action the Town may take for the preservation and purity of its water supply.

The expenditures of the Water Department will be found in the Town Accountant's Report.

Outstanding water rates will be found in the report of the Water Collector.

Largest day's pumping—July 15, 1932: 1,699,748 gallons.

Largest week's pumping ended July 23, 1932: 8,542,539 gallons.

Respectfully submitted,

JOHN J. McNEILL,
Engineer.

TOWN OF RANDOLPH, MASS.

RULES AND REGULATIONS

The following regulations, until further notice, shall be considered a part of the contract with every person who uses water:

1. All applications for use of water must be made at the office of the Water Commissioners, and state fully the purposes for which it is intended to be used. Water will not be introduced to premises except on the written application of the owner thereof, or by a duly authorized agent. The property will in all cases be held responsible for the water rates.

2. All persons taking water must keep their water pipes and fixtures in good repair and protected from the frost at their own expense. They will be held liable for all damages resulting from their failure to do so. They shall prevent all unnecessary waste, and water shall not be left running to prevent freezing. The Water Commissioners or their agents may, from time to time, ascertain the quantity of water used, the manner of its use, and whether there is any unnecessary waste. They and their agents shall have free access to the premises supplied, to examine the apparatus, and if any fixtures are found not to be in good order, they shall direct them repaired, and if not repaired within two days the water shall be shut off and not let on again until such repairs are made, and the sum of two dollars paid for shutting off and turning on the water.

3. The occupant of any premises, when unnecessary waste of water occurs, shall be liable to a fine of two dollars for the first offense, and four dollars for the second offense during the same year, and shall be

NINETY-SEVENTH ANNUAL REPORT

notified thereof in writing; and if such waste is not prevented and the aforesaid paid within two days from the time when the said notice is given, the water shall be shut off the premises, and shall not be again let on for the same occupant until the waste be stopped and the fine paid, together with an additional sum of two dollars for shutting off and letting on the water, and in case of a third or subsequent offense the water shall be shut off, and shall not again be let on except by a vote of the Water Commissioners and the payment of such fine, not exceeding ten dollars, as the Water Commissioners may impose.

4. Any person supplied with water shall not allow another to take water from their fixtures without the written permission of the Water Commissioners. If any tenant having no fixtures, has any use of such fixtures, full rates will be charged for such use by each tenant.

5. All parties using water in stables, for horses or other animals, will be charged scheduled rates for the same, whether it be carried by hand or through hose.

6. All persons using water for building purposes are required to obtain a permit from the Water Commissioners before taking water from any faucet or fixtures connected with the water works, and all water takers are warned not to let any party take water from their premises until they show a permit from the Water Commissioners. Any person furnishing water in violation of this section will be subject to a fine of not less than five nor more than twenty dollars, and if the same when levied is not paid within three days from the time when the notice thereof is given, the water will be shut off from the premises and will not be let on again until such fine is paid.

TOWN OF RANDOLPH, MASS.

7. All fixtures and water closets and urinals must be of a kind and quality approved by the Water Commissioners, also a vacuum valve must be installed on all pressure range boilers connected with the system.

8. No person shall in any case be allowed to open any fire hydrants except by a written permit from the Water Commissioners; but the Engineers of the Fire Department shall in all cases have control of hydrants at fires and for practice.

9. The Commissioners reserve the right to restrict the use of hose or fountain, to shut off the water in all cases when it becomes necessary to make extensions or repairs, or for violations of any of the regulations, or whenever they deem it expedient.

10. The regular rates for the use of water shall be payable in advance on the first days of January and July of each year, except where water is supplied to manufacturers by special agreement. In all cases of non-payment of the water rates within ten days after same is due, as well as for any violations of these rules and regulations, the supply will be shut off, and payment of the amount due, and payment of two dollars for shutting off and letting on the water.

11. The Water Commissioners reserve the right to change the water rates at any time except in cases of dwelling houses and established special rates.

12. For business requiring large quantities of water, and all supplies not enumerated in the tariff of rates, special rates will be made.

13. Parties using water for manufacturing or do-

NINETY-SEVENTH ANNUAL REPORT

mestic purposes can erect hydrants on their grounds or standpipes in their buildings to be used only as a protection against fire without additional charge for water.

14. All applicants for the introduction of service pipes to premises are required to make written application therefor at the office of the Water Commissioners.

And in no case will the main be tapped more than once for the same premises, unless the additional expense is borne by the owner.

Charged as follows:

The following water rates are established until further notice:

No connection made with the main for any purpose for less than	\$6.00
--	--------

Dwelling Houses

Occupied by one family, for the first faucet	6.00
Each additional faucet to be used by the same family	2.00
Two or more families occupying one house, one faucet for all, each family	5.00
One faucet for each family	6.00
For first bathtub	5.00
If used by more than one family in same house, each family	4.00
Each additional bathtub	2.00
For first pan or self-acting watercloset	5.00
If used by more than one family in same house, each family	4.00
Each additional pan or self-acting water closet	2.00
In no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	20.00

TOWN OF RANDOLPH, MASS.

Where two faucets are used, one for hot and one for cold water, emptying into the same basin, only one charge will be made for both.

Laundry tub	3.00
-------------	------

Boarding Houses and Hotels

First faucet	\$10.00
Each additional faucet	3.00
First bathtub	10.00
Each additional bathtub	3.00
First pan or self-acting water closet	10.00

Each additional horse	3.00
Each cow or ox	1.00

Livery, Express and Boarding Stables

For the first four horses	12.00
From five to twelve horses, each	2.00

The above prices to include water for washing carriages.

Offices, Stores, Markets, Barber Shops, Restaurants. When used for ordinary purposes, same as for dwelling houses.

Building purposes. Each cask of lime or cement .05

NINETY-SEVENTH ANNUAL REPORT

Hose

For sprinkling streets, washing windows and similar uses, $\frac{1}{4}$ -inch nozzle, to be used only on premises and street opposite, not exceeding two hours per day for six months in the year 5.00

For any use not herein enumerated, special rates will be made.

Meter Rates payable at Time of Reading.

For not over 133 cubic feet average per day, per 100 cubic feet .23

For over 133 cubic feet and not exceeding 266 cubic feet average per day, per 100 cubic feet .19

For over 266 cubic feet average per day .15

Provided that in no case where a meter is used shall the annual charge be less than \$7.00.

Meters may be supplied by the Water Commissioners, for which annual rental will be charged as follows:

Size $\frac{5}{8}$ -inch	\$1.00 per year
Size $\frac{3}{4}$ -inch	\$1.00 per year
Size 1-inch	\$4.00 per year
Size 2-inch	\$6.00 per year

All needed repairs, damages by frost and heat excepted, will be made at the expense of the town.

JOHN B. McNEILL,
RICHARD F. FORREST,
FRED D. DRISCOLL,
Water Commissioners.

Report of the Planning Board

The Planning Board hereby presents its report for the year 1932.

At this time, more than ever before, it is imperative that every dollar raised by taxation should be expended with the greatest care and every kind of inefficiency and waste in public business should be stopped. Insofar as possible and practicable, the hiring of men, on part time or otherwise, for public work, should be designed to relieve industrial unemployment. The careful scrutiny of expenditures, the determination not to proceed with any ill advised undertaking and the determination to proceed with any and all work only according to well thought out carefully prepared plans, with due relation of each project to the other and the needs of the whole community, is bound to result in great benefits and economies to the Town.

During the year 1932 your Planning Board has studied the zoning regulations and their relations to the future growth and needs of the community, and they are more than even convinced of the absolute necessity for this legislation as a means of protecting our homes and areas.

The Zoning Ordinance would make permanent the desirable features incorporated in past endeavors and so promote the development of the community for the best interest of all.

People seeking homes are fully aware of the advantages of zoning, and the careful citizen locates in a

NINETY-SEVENTH ANNUAL REPORT

zoned community where his investment in a home will be protected, while the careless home owner overlooks this important feature and may be induced to live in an unzoned community, where his investments are unprotected from the encroachment of business houses, gas stations, factories and other forms of development detrimental to a residential community.

The Zoning regulation, therefore, would attract to our Town the careful citizen and would undeniably result in the building of higher civic standards, and make for a more prospect town.

Your Planning Board is not yet satisfied with the specific form of a zoning law, and they feel they have not yet made a study sufficiently careful, owing to our lack of any funds for the purpose, to submit a zoning law to the Town that they could recommend and defend.

However, the location of Randolph in the path of the spread of populations from the larger cities of Boston, Quincy, etc., the improved rapid transit, and the undeniable natural beauty and high altitude of our Town makes it inevitable that there will be a rapid growth in residential areas as soon as economic conditions permit. To the end, therefore, that when this time comes, as it will come, we may be prepared not to hinder nor retard, but to guide and assist in that development and to offer a greater measure of protection to the home owner and the invested capital, we ask you, the people of Randolph, to cooperate with your Planning Board in the framing of an adequate zoning and building regulation.

Your Planning Board recommends the widening of Main Street through the business section of the Town to 85 feet, with three lanes of travel and diagonal parking at each curb, and the establishment of adequate parking spaces on each side of this street in the rear of the busi-

TOWN OF RANDOLPH, MASS.

ness houses. This may be in the nature of a dream for the future, but the certainty of future necessity demands that we establish, in the present, building lines in this district to save expense when the street widening takes place by preventing erection of buildings on the land reserved for this widening.

Also in the nature of a dream for the future is the vision of the widening and rebuilding of South Street to connect with the County road at the Holbrook line, and the continuation of Highland Avenue to the Avon line and thence continuing through Avon to the Field's Memorial Parkway in Brockton.

Your Planning Board recommends that the next major construction project be the building of High Street from the Quincy line to North Stoughton where it would from there continue to Brockton Heights, this would divert much of the heavy traffic at the Quincy line and relieve to a great extent the congestion of our Main Street through Central Square. It would greatly assist in the development of North Randolph and the Tower Hill section, one of the oldest settlements in this Town.

It has been very gratifying to the committee to watch the filling in of the dangerous depression on the northeast side of the High School lot and the beautification of the grounds, and we recommend that this work be continued and that the grounds be properly surfaced, seeded and planted.

Interpreting the functions of the Planning Board to be the intelligent supervision of civic growth and development your Board has endeavored to advise and guide wherever possible.

One of the activities which this Board set in motion was the George Washington Bi-Centennial celebration at

NINETY-SEVENTH ANNUAL REPORT

the Stetson Hall on April 23. This movement was carried to its successful conclusion by the Superintendent of our Schools in the Game Plan, which was sponsored by the Norfolk County George Washington Bi-Centennial Committee. The Game plan took the form of a Town Planning contest between the children of the Junior and Senior High Schools of the various cities and towns of the county. An exhibition was held at Dedham, the county seat, with ten entries from our schools, and prizes were awarded to the successful contestants.

Your Planning Board recommends that work on the assessors' map be continued and that a substantial appropriation be made for that purpose. This map, while yet only partially completed, has added greatly to the Town revenue by revealing to the Assessors much taxable property.

Your Planning Board asks for an appropriation of \$25.00 to meet incidental expenses for the year 1933.

Our Chairman attended the Planning Board Convention held at Springfield in the month of October where many hundreds of delegates from cities and towns of Massachusetts and other New England states were gathered.

Respectfully submitted,

JOHN EDMUND KELLEY, Chairman,
FRANK A. FORREST, Secretary,
JOHN J. MADDAN,
EDGAR B. COLE,
HELEN M. HANEY.

Report of the Highway Surveyor

To the Citizens of the Town of Randolph:

The Highway Department of the Town of Randolph respectfully submits its report for the year ending December 31, 1932.

During the year 1932 it has been the purpose of the Highway Department to apply the available money that was appropriated for labor rather than for material. From the general fund, \$6,005.24 was expended for labor, and from the special fund of \$2,079.53 there was spent \$1,501.70 for labor and from the appropriation of \$850.00, voted by the Town, for the drain on Old Street, the sum of \$562.80 was spent for labor, making a total expenditure for labor \$8,069.19, benefiting thereby approximately 200 workers. When the special fund of \$2,079.53 was voted at the Town Meeting it seemed advisable to apply the money where there would be the greatest benefit to the unemployed rather than where it would require an expenditure for material and equipment.

There has been laid 1,200 feet of drainage and eight basins have been constructed up to date.

The car tracks have been resurfaced on North Main Street for a distance of 720 feet, and paid for out of the general fund.

The spring scraping was attended to as soon as the weather permitted and patching has been looked into carefully and repairs made where necessary. The gravel roads have been regraveled and many tar roads have been given a new surfacing.

NINETY-SEVENTH ANNUAL REPORT

Street signs have been painted and replaced and most fences have been inspected and repaired.

The Highway Equipment has been overhauled and painted and put in good condition, thereby giving work to several men.

All snow storms during the year have been attended to promptly and efficiently and the roads and sidewalks sanded before they became dangerous.

There are 150 tons of sand stored in the Town barn for emergency.

The total amount expended during the year is \$13,429.50; of this \$10,500 was from the general fund; \$2,079.53 was from the special fund, and \$849.97 for the drain on Old Street, making a total of \$13,429.50 appropriated, and \$8,069.19 was spent for labor.

I take this opportunity to thank the citizens of the town for their splendid cooperation during these trying times of unemployment.

Respectfully submitted,

JOHN A. FREDERICKSON,
Highway Surveyor.

Report of the Tree Warden

January 15, 1933.

To the Citizens of the Town of Randolph:

The public shade trees of any community are an asset and ornament to the lovers of nature. What gives you more pleasure than to motor along the highways lined with beautiful shade trees when the foliage is in full bloom.

Your trees, many of them, are many years old and can never be replaced if removed. Conditions under which some of these trees are growing are against the life of them, owing to the cement highways and the want of proper nourishment, and should be fertilized if they are to be preserved.

Roadside trimming was carried on as much as possible and all brush burned. More work needs to be done this year.

It would be a good idea to establish a nursery so that young trees could be transplanted and raised for street tree planting.

Let our motto be: Plan to Plant Another Tree.

Respectfully submitted,

JOHN T. MOORE,
Tree Warden.

Report of the Moth Superintendent

January 15, 1933.

To the Honorable Board of Selectmen:

The Gypsy moth situation for the year ending December 31, 1932, was very satisfactory.

We were unable to do any creosoting the past year owing to lack of money. Spraying was carried on as far as possible all over town.

Brown Tail moth nests were found in the north end of the Town and in that section removed and burned.

The Satin moth was not found in any section in any great numbers.

The Elm beetle was bad the past year and much spraying was done to prevent the spread in the residential and other sections where they were the worst.

The Tent caterpillar and the Fall webworms were bad and should receive more attention.

The Japanese beetle was not found in Town but has been found in the towns of Braintree and Stoughton, bordering on our Town, and should be watched sharply as they are very destructive.

Some new parts will have to be had for the spraying machine.

Respectfully submitted,

JOHN T. MOORE,
Local Moth Supt.

TOWN OF RANDOLPH, MASS.

Report of Police Department

To the Board of Selectmen:

Gentlemen:

I herewith submit report of the work done by the Police Department of the Town of Randolph, for the year ending December 31, 1932.

Calls answered and investigations made	2,437
*Summons served	201
*Arrests	345
Arraignments in Court	333
Bound over to Grand Jury	9
Pending in District Court	6
Found guilty in District Court	290
**Dismissed for want of Prosecution	17
Appealed to Superior Court	8
***Found guilty in Superior Court	15
Pending in Superior Court	5
Nol-prossed in Superior Court	1
Acquitted	2
Placed on file	28
Placed on Probation	47
Fined	206
Committed to House of Correction	17
Committed to State Farm	3
Committed to Shirley Industrial School	1
Committed to State Prison	1
Nights' Lodging	4
Stolen Property Recovered	\$1,320.42.

NINETY-SEVENTH ANNUAL REPORT

Net Returns paid to Town Treasurer from fines
over and above expenses of prosecution \$276.61

****Fines taken in by the District and Superior
Court \$3,843.00

*Some arrests and summons were served for out of
town police.

***Includes 9 cases bound over to the Grand Jury,
all of which were found guilty in Superior Court.

**Of the 17 cases dismissed for want of prosecution,
the police were complainants on seven.

****This includes motor violations which the town
gets no returns.

Respectfully submitted,

PATRICK T. McDONNELL,
Chief of Police.

Report of the Fire Department

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report of the Fire Department of the Town of Randolph for the year ending December 31, 1932.

The department has responded to 60 bell alarms and 138 still alarms during the year, classified as follows:

Building fires	50
Wood and grass fires	123
Automobile fires	15
Lungmotor calls	6
Call for gas masks	1
Rescue calls	2
Feet of hose used	27,940
Feet of ladder used	767
Gallons of chemical used	70
Gallons of foam used	321½
Gallons of water pumped from booster tank	6,325

Assessed value of buildings damaged by fire	\$158,147.00
Amount of damage caused by fire	27,425.86
Amount of insurance on buildings	193,600.00
Amount of insurance paid on loss	27,125.86
Loss not covered by insurance	300.00
Value of contents	16,600.00
Insurance on contents	19,600.00
Damage to contents	3,502.25
Insurance paid on loss	1,402.25
Loss on contents not covered by insurance	2,100.00

NINETY-SEVENTH ANNUAL REPORT

The buildings and apparatus connected with this department are in good condition at the present time.

Several sections of the Town were assigned numbers (phantom boxes) during the year. This has proved a great help to the firemen in quickly locating the fires.

It was necessary to call the State pump from Stoughton to assist us on two different occasions, and Canton was called once.

I shall try to make my recommendations for the ensuing year consistent with the existing conditions.

In closing I wish to thank the Town officials and the Citizens for the assistance rendered this department during the year.

Respectfully submitted,

HAROLD L. BAILEY,
Chief.

Report of the Park Commissioners

We, the members of the Park Commission of the Town of Randolph, report that we have held semi-monthly meetings since last March and have carefully considered the recreational needs of the people of this town, with especial thought given to the healthful play needs of the children.

Our chief work has been the clearing and improving of approximately ten acres of Fannie Belcher Park, and the making available of a three-acre skating pond.

We would respectfully call to the attention of the citizens of this town that while our progress in the development of the Park, above mentioned, has not been as great as they, or we, ourselves, would have wished, nevertheless, the work there has been almost entirely accomplished by hand labor, furnished from the Welfare Board of the town, rather than by high powered machinery. We feel that work thus made possible for many unemployed has been much appreciated by the recipients and their families.

We beg to report that our appropriation of \$500 has been used for Park drainage purposes, and for the spreading of the material which has been dumped there from the adjacent highway.

The Park Commission cordially invites the people of the town to visit the Fannie Belcher Park and to give us their constructive criticisms thereon. We also cordially invite all suggestions as to further activities of our Commission.

NINETY-SEVENTH ANNUAL REPORT

As we are fully cognizant of the necessity of the most rigid economy in the conduct of our town government, your Park Commission will not ask for an appropriation this year.

Respectfully submitted,

JOHN J. MADDEN,
JOHN S. KELLEY,
EDGAR B. COLE,
FRANK A. FORREST,
HELEN M. HANEY.

TOWN OF RANDOLPH, MASS.

Sealer of Weights and Measures

To the Board of Selectmen,
Randolph, Mass.

Gentlemen:

During the year 1932 I have sealed:

Scales	111
Weights	170
Liquid Measures	545
Gasoline Pumps	71
Kerosene Pumps	9
Yard Sticks	7

These were re-sealed and tested:

Gasoline Pumps	22
Scales	24

Inspections made:

Pedlars' Licenses	12
Pedlars' Scales	12

Fees collected and turned over to
the Town Treasurer

\$111.58

Equipment purchases	\$13.56
Expenses	26.44
Salary of Sealer	150.00

\$190.00

Appropriation

\$190.00

Respectfully submitted,

DANIEL P. LYONS,
Sealer of Weights and Measures.

Report of the School Committee

Improvements in and around our school buildings have received the attention of your school committee during the past year. At the McNeil School in East Randolph a very satisfactory grading has been effected, and the grounds now present a creditable appearance; three entrances have been given, Ferncourt Avenue, and Carlton Avenue from Center Street, and Castleton Avenue from South Street. Much of this work has been done by welfare workers; it would be advisable to add a tract of land on the west side of the present school property in East Randolph. This tract is large enough for a ball field and other playground activities for school and community.

At Tower Hill the premises have been given a treatment which includes a circular approach, ballasted by cinders, and enclosing a grass plot; the fence about the yard ought to be replaced by one which would add to the attractiveness of the grounds. Some outdoor athletic equipment should be installed.

The portable one-room building in the yard of the Belcher School has been the target of much criticism, particularly in regard to toilet facilities; parents object to having the small pupils cross the yard to the main building, especially in bad weather. Your Committee think that the criticism is well-founded; this portable building has long outlived its usefulness, and repairs appear out of the question. The solution which your Committee recommends is the addition of two rooms to the present Belcher building, as shown in another part of this report. The unsightly bank on the

TOWN OF RANDOLPH, MASS.

east side of the yard bordering on Belcher Street has been replaced by a cemented wall extending along the entire east side of the yard, and surmounted by a cement curbing and a strong iron fence; this wall adds much to the appearance of Belcher Street and removes the element of danger to pupils. The yard at the Belcher building ought to be leveled, and some playground facilities provided. The Belcher building is pronounced by the State Department of Public Safety to be in good condition structurally and will probably be in use for a long time; eight new windows, two in each of four rooms, have been constructed, giving the lighting which is required in a modern school room—one-fifth as much window space as floor area. The exterior of the Belcher building has been painted and the entrance on the north side thoroughly overhauled and repaired.

The primary building at the Prescott School has been improved by the insertion of twelve windows, two in each of six rooms. There is need of repairs to the roof of this building.

The ceilings and walls of three rooms at the Prescott School have been painted, and the fire exit from the basement enlarged. The Prescott building is in good condition for a building of its type, and is capable of giving satisfactory service for years to come.

At the Devine School the damage caused by the fire in one of the small closets has been repaired; it would be advisable to build a cement curbing about the curved portion of the lawn and along the front of the yard; a cement sidewalk ought to be constructed in front of the premises. A suitable basket-ball court would be a welcome addition to the playground in the rear.

At Stetson High School four of the class rooms in the original building, together with the office, library

NINETY-SEVENTH ANNUAL REPORT

and teachers' room, have been given a treatment which thoroughly restores the walls and ceilings. The outside woodwork has been painted; the locker rooms have been put in condition for the use of the pupils as was intended when the building was remodeled in 1925. The old batteries for the clock system has been removed and a modern rectifier installed by the Howard Clock Co. The clocks are operated with electric current with an auxiliary dry cell battery arrangement to carry over a period when the electric current may be cut off. Additional heating units have been placed in the lunch room. A room for storing of athletic equipment has been provided in the basement; a very liberal amount has been expended for books of reference in the school library. The unsightly tract on the north side of the grounds has been filled and graded; a septic tank, two large leaching cesspools and a leaching drain 60 feet long has been constructed on the same side. Much of the grading and other work has been done by welfare workers. A backstop has been built on the baseball field. The wooded tract on the west side of the ball field has been cleared of underbrush. There is an opportunity to lay out a field suitable for football and baseball on that part of the school lot along Highland Avenue. Some surface boulders would have to be removed; the field here is very level and dry and is adapted for athletic improvement. Tennis courts have been provided for at the rear of the newly graded area on the north side of the High School building; the ground has been leveled, the necessary space allowed for, and it only remains to give the courts a surfacing of clay or cement, and to put up backstops.

The School Committee is in favor of a dental clinic for the pupils in our schools; the report of the Superintendent of Schools gives some details in regard to such a clinic. The importance of this service can-

TOWN OF RANDOLPH, MASS.

not be overestimated. Nothing which your committee could say would add to the conviction of parents that the health of the child is closely related to the care of his teeth, and that during the period of growth there should be careful attention given to the formation of good dental habits, and to the correction of tooth ailments.

Your committee is of the opinion that needed improvements which are reasonably possible should be advocated and brought about. The School Committee can go only as far as appropriations warrant.

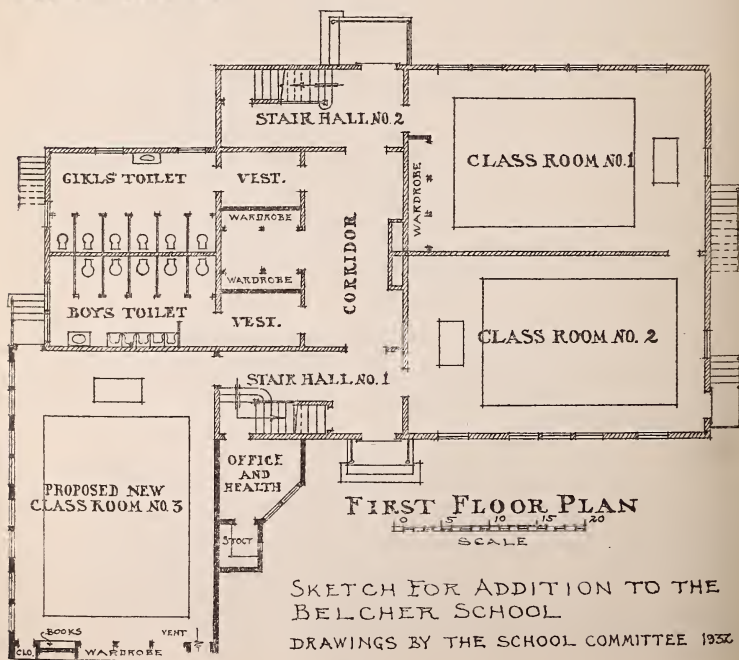

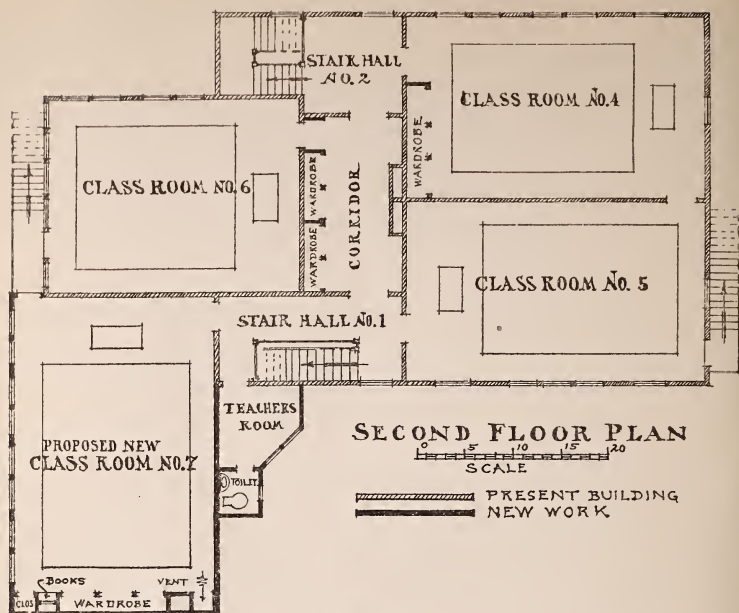

Miss Katherine J. Riley, long one of the most efficient teachers, passed away in August. She had rendered an extremely valuable service in the schools of Randolph. The influence of a teacher such as Miss Riley cannot be estimated except in terms of general community uplift.

At the close of the school year in June, Miss Fannie Campbell retired. She was a graduate of Notre Dame Academy, and had been teaching in our schools since 1898. The committee regret her enforced retirement because of the Massachusetts State law, and wish her the satisfaction which the memory of long and faithful service brings.

Your Committee makes the following recommendations for improvement in the Belcher School building and grounds:

We recommend the abandonment of the Portable building and its removal from the school grounds to give additional play space. This building has long since out-lived its usefulness, has no toilet accommodations, and is rather cheerless and barren, and is very wasteful and expensive to heat.

NINETY-SEVENTH ANNUAL REPORT

SKETCH FOR ADDITION TO THE
 BELCHER SCHOOL
 DRAWINGS BY THE SCHOOL COMMITTEE 1932

TOWN OF RANDOLPH, MASS.

We recommend building a two-room addition to the Belcher School as shown by accompanying floor plans.

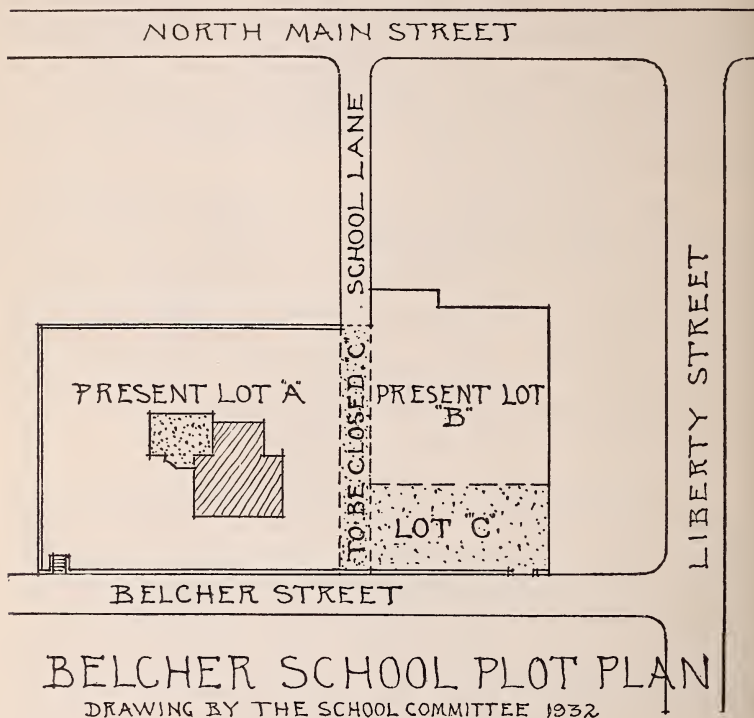

Provision would be made for ample wardrobe space, health room and office with stock room on the first floor and teachers' room with toilet on second floor.

Your committee believes that with the addition of these two rooms and the expenditure of a small sum of money each year for the addition of a ventilating system and other modern equipment, the building can be made to serve the needs of this community for many years.

The cost of this addition has been estimated at \$7,000, of this amount \$1,000 could be raised on the tax levy of this year and the remaining \$6,000 bonded over a period of 12 years at the rate of \$500 per year. Your Committee believe this construction program would make for economy of operation far greater than the expense incurred by the new construction spread over a period of 12 years.

As an alternate to the building program outlined above, your committee would be forced to open the old two-roomed building at North Randolph to house the additional school enrollment. The opening of the old building at North Randolph would necessitate an immediate expense greater than the amount raised on this years tax levy for the new construction without serving any permanent purpose. The old building would have to be cleaned, painted and furnished, hot air furnace overhauled, plumbing overhauled and repaired, new janitor would have to be employed and additional transportation provided for, at a total expense not less than \$1,600. It may well be assumed that the two items, transportation and janitor, would exceed the additional bonded indebtedness carried by the new building program.

Your committee recommends that the lot of land on the Corner of School Lane and Belcher Street be purchased by the Town and added to the Belcher School lot, and that School Lane, so called, be discontinued at the school property line and that that portion of school lane lying within the bounds of the school property be closed to public traffic.

We believe this School Lane to be a source of great danger to the children attending the Belcher School. It is inevitable that serious accident may be caused by automobiles swinging out of Belcher Street up the steep incline into School Lane.

The purchase of the lot of land on the corner of Belcher Street and School Lane, and the addition of

TOWN OF RANDOLPH, MASS.

this land, marked "C" on the plot plan, to the school lot, together with the School Lane, marked "C" on plot plan, would make very comfortable school grounds, giving ample space for the development of a proper play yard and Junior Ball field for the school children of the Belcher District.

Your committee is desirous of acquiring these additions to the Belcher School lot mentioned above, at this time because we feel that by continued cooperation with the Department of Public Welfare we might hope during the coming season to properly grade and surface this land and make it of great benefit to the Community at no great expense to the Tax-payers.

We believe School Lane to be a source of great danger and we believe our failure to recommend the closing of this Lane to public traffic would be a wilful neglect of duty on our part.

In preparing a budget for the year 1933 your committee has endeavored to keep in mind the economic conditions of the country and the great necessity for economy of operation in all branches of local government. However, it must be borne in mind that the first duty of the community is the education and training of her children. The prosperity and stability of the future, and the respect for constituted authority, can only be assured by the determination of the citizens of today to see to it that the services of our free public schools are not weakened or hampered, but strengthened and improved where possible.

A glance at the charts on the following pages will show our rank among the cities and towns of Massachusetts. They indicate no extravagance in operating expense. Chart number 3 shows no great increased costs in operating expense over the increased number of children in the public schools or increase in town valuation. Chart No. 3 shows the average cost per pupil from local taxation to be \$49.25, this figure multi-

plied by 12 (years) give the total cost per pupil from the first grade to his graduation from the High School, a sum of \$590.80, certainly not an extravagant contribution to the future well being of our town.

Among the 83 towns of 5000 population and over in Massachusetts, 64 of these towns pay higher salaries to elementary school teachers and 54 pay greater salaries to High School teachers. In this classification:

The average salary per teacher is	\$1690.43
Randolph's average salary per teacher is	1309.59

The average salary per teacher for the whole State is	1909.82
---	---------

During the school year 1919 and 1920 the town of Randolph paid \$26,186.05 to 25 teachers, principals and supervisors, an average salary of \$1,047.44 and received as reimbursement on teachers' salaries from the State the sum of \$4,307.86, an average reimbursement of \$172.32, making the net average salary per teacher from local taxation for that year \$875.12.

During the school year 1932 and 1933 the Town of Randolph will pay the sum of \$70,717.76 to 54 teachers, principals and supervisors, an average salary of \$1,309.59 and received as reimbursement on teachers' salaries from the State, the sum of \$22,255.12, an average reimbursement of \$412.13, making the net average salary to be paid from local taxation, \$897.46.

The above comparison over a period of some 13 years showing an average increase in teachers' salaries from local taxation of only \$22.34 per teacher indicates no extravagant salaries being paid to the teachers in our schools.

It is interesting to note that during the same period the number of children registered in our public schools, all grades, increased from 874 in 1919-1920 to 1720 in 1932-1933.

AMONG THE 83 TOWNS OF 5,000 POPULATION OR OVER RANDOLPH RANKS AS SHOWN ON CHART.

- 1 TAX RATE PER \$1000 (1931)
- 2 VALUATION PER PUPIL AVERAGE MEMBERSHIP
- 3 TOTAL COST PER PUPIL
- 4 COST PER PUPIL FROM LOCAL TAXATION
- 5 COST PER PUPIL PAID FROM REIMBURSEMENTS
- 6 EXPENDITURES FOR SCHOOL SUPPORT FROM LOCAL TAXATION PER \$1000 VALUATION

[illegible]

163
AMONG THE 355 CITIES AND TOWNS IN MASS. RANDOLPH RANKS
AS SHOWN ON CHART.

- 1 VALUATION PER PUPIL. AVERAGE MEMSHIP
- 2 COST PER PUPIL FROM LOCAL TAXATION.
- 3 TOTAL COST PER PUPIL
- 4 EXPENDITURES FOR SCHOOL SUPPORT FROM
LOCAL TAXATION PER \$1,000 VALUATION

[illegible]

CHART No. 1 shows our rank among the 83 towns of 5,000 population or over:

83 towns pay more per pupil.

29 pay more per \$1,000 valuation.

6 receive more from General School Fund and other reimbursements.

CHART No. 2 shows our rank among 355 towns and cities in Massachusetts:

354 pay more per pupil.

3325 pay more from local taxation pere pupil.

325 have greater valuations per average membership.
98 pay more per \$1,000 valuation.

DIAGRAM SHOWING PERCENTAGE OF INCREASE FROM 1920 TO 1932 INCLUSIVE

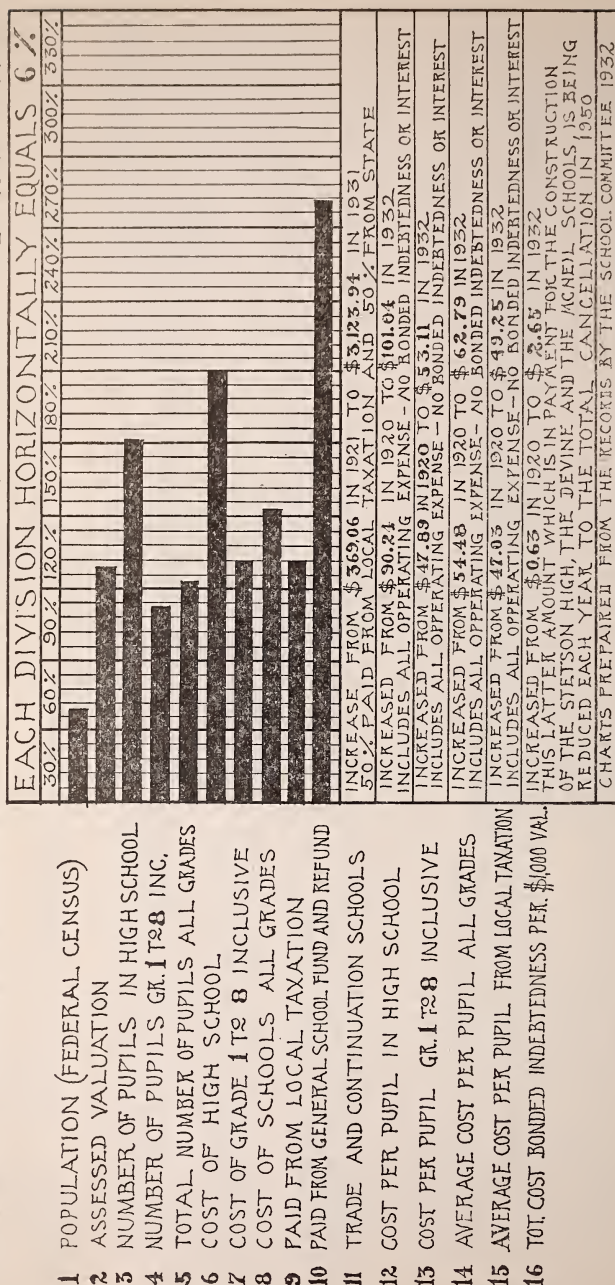

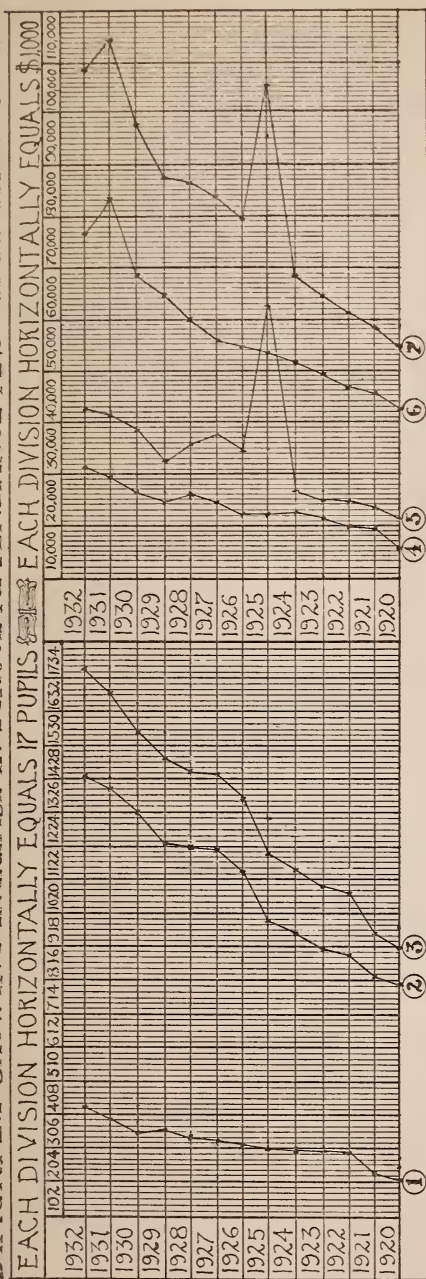

CHART No. 3 shows the percentage of increase from 1929 to 1932 inclusive.

Population Increase	39%	Total Number of Pupils, all grades	93%
Valuation Increase	98 1/2%	Cost of Schools, all grades, from local taxation	102%
Number of Children in High School	150 1/2%	Amount received from General School Fund and other reimbursements	251%
Costs of High School	180%		

DIAGRAM SHOWING INCREASE IN SCHOOL ATTENDANCE AND OPERATING COSTS

NO. 1 REPRESENTS PUPILS IN HIGH SCHOOL
 NO. 2 REPRESENTS PUPILS IN GRADES 1 TO 8 INCLUSIVE
 NO. 3 REPRESENTS TOTAL NUMBER OF PUPILS ALL GRADES
 NO. 4 REPRESENTS AMOUNT RECEIVED FROM GENERAL SCHOOL FUND AND OTHER REVENUES
 NO. 5 REPRESENTS COST OF HIGH SCHOOL
 NO. 6 REPRESENTS COST OF ALL SCHOOLS
 NO. 7 REPRESENTS THE SCHOOL COMMITTEE 1932

CHART No. 4 shows the year by year increase in pupils in our Public Schools and the corresponding increase in expenditure for operating expense.

It is interesting to note the steady advance without any appreciable backward movement of the number of children attending public schools of all grades, also the great percentage of increase in the number of children in the High School.

The increased cost in the High School in 1925 was caused by the destruction of that school building by fire, and the backward movement of the line between 1927 and 1929 undoubtedly shows a further adjustment back to normal. The increased cost in grade schools in 1931 was caused by the opening of the new Charles Gabriel Devine School and the Daniel Joseph McNeil Schools.

NINETY-SEVENTH ANNUAL REPORT

Cost of Instruction

	Salaries	General Expense	Total
Salaries of Teachers, Principal and Su- pervisors	\$73,386.00		
Books and supplies		\$3,300.00	
			<hr/> \$76,686.00

			<hr/> \$9,710.74

TOWN OF RANDOLPH, MASS.

General Control

	Salaries	General Expense	Total
Salary of Superinten- tendent	\$1,520.00		
Salary of Superin- tendent's Clerk	168.80		
Salary of Attenden- dent's officer	250.00		
Superintendent's expense		165.00	
School Committee, office expense		100.00	
			<hr/> \$2,203.80
Totals	<hr/> \$83,459.04	<hr/> \$18,325.74	<hr/> \$101,784.78
Less dog tax \$764.88			
Less Coddington Fund	86.45	851.33	851.33
	<hr/> \$83,459.04	<hr/> \$17,474.41	<hr/> \$100,933.45

We respectfully ask that the above be appropriated as two items, one as salaries and the other as general expense.

Estimated net cost of operating all schools for the year 1933.

Receipts from State and Other Sources

General School Fund	\$22,255.12	
Tuition, State wards	2,766.68	
Tuition, City wards	1,573.58	
Tuition, trade and con- tinuation schools	1,082.74	\$27,678.13

NINETY-SEVENTH ANNUAL REPORT

Estimated total costs for support of all schools from local taxation for the year 1933	\$73,055.32
--	-------------

The cost of last year (1932) was \$77,822.92, a net reduction for operating expense from local taxation of 6.6 percent. With our increased number of children in public schools of approximately $5\frac{1}{2}$ percent per year over a period of 12 years and our saving of about $6\frac{2}{3}$ percent in operating expense from local taxation this year, this would make a saving of about $12\frac{1}{6}$ percent per pupil over the 1932 cost.

Respectfully submitted,

JOHN E. KELLEY, Chairman,
WILLIAM S. CONDON,
FREDERICK E. CHAPIN.

TOWN OF RANDOLPH, MASS.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee, Randolph,

Mr. Chairman and Members:

I have the honor of submitting my annual report of the public schools of Randolph.

Our greatest national institution—the American Public School System—had its origin in Massachusetts. It found its highest expression and support in the New England town meeting where it was recognized that a free public education was necessary for the proper training and development of its citizens. It was the birth of one of the great social instruments for law and order and for the stability of government. Education for the masses has since been accepted and maintained by progressive nations the world over. Randolph has never deviated from that point of view nor have the citizens questioned the high ideals involved.

Education is the child's birthright. It is a fundamental necessity and not a luxury. If it must be admitted that we are passing through an economic crisis at this time, let it not be said that the town took it out on her children. It must be remembered that all demoralizing forces in society leave their deepest marks on the youth. We appeal to the good citizens of Randolph that there shall be no interruption or curtailment of the regular routine and business of public school education. Education is needed more today than it was in your day or mine. It is the gyroscope of our social order and what stability that order will have will depend upon the preparation which you are willing to invest in your children at this, another New England town meeting.

Net Cost of Schools, 1932

Our education program stresses fundamentals only. Its cost is therefore low. The critic would say, "It is too low—you get only what you pay for." Although recognizing some weight to that statement, your superintendent comes to the defense of teachers who, with parents and pupils, have made that cost possible. It has not been an easy task to conduct schools on such a low margin. It has meant to teachers full classes, full periods and extra hours of work outside of school. Teachers have made no complaint to date concerning this nor have they made any during the last four years. Their services, therefore, should not now be judged solely on the basis of its low operating cost for there remains on our school records and in the class rooms ample proof that their work is well done.

*Randolph's expenditure for the support of all public schools is \$62.85 per pupil. In a group of 83 towns having a population of 5,000 people or more, the average expenditure is \$93.11. Randolph is included in that group. This operating cost places Randolph LAST in the list. This cost of \$62.85 per pupil is of further interest to the tax payer when it is realized that that sum includes moneys received from the State and other sources. See table below.

Net Cost of Schools, 1932

Appropriation for Public Schools, 1932,	\$101,252.71
Receipts from the State:	
Gen. School Fund, Part 1	\$17,658.10
Tuition, State Wards	2,304.53
Tuition, City Wards	1,275.85

TOWN OF RANDOLPH, MASS.

The low per capita cost for the support of public schools from all sources is evinced by the fact that out of a grand total of 355 cities and towns in Massachusetts, RANDOLPH ranks SECOND LAST in the list.

*Mass. Dept. of Education, Nov. 1932.

Enrolment

The enrolment in our High School is somewhat larger this year. This was expected because of the inability to find employment by pupils who would normally leave school to enter some field of work. Post graduates have to some extent added to our problem of instruction, although no new subject has been added to the teaching load.

Below will be found an outline of the courses of instruction offered in the High School. It is a matter of regret that this program, like so many if not all programs found in High Schools, is influenced by the requirements laid down by the higher institutions of learning. No one school system alone can make radical changes in its scope or kind of instruction. The process of elimination as to what subjects are most essential and most useful must necessarily be slow and in conformity with general educational practices. Much can be done and is done towards directing the pupil in the best choice of subjects most fitted to his needs. Flexibility in the choice of subjects is desired but often limited because of the teaching load. Pupils are encouraged to study that they may experience the joy of a task well done. It is our effort also to minimize failures. Here we must ask the home for cooperation to the end that home study be encouraged and sympathetically supervised and that regular attendance at school be observed at all times.

It is essential that all pupils who select the college or normal school course maintain a rank of "B" or better

NINETY-SEVENTH ANNUAL REPORT

in each subject in order to receive college or normal certification.

It is a source of pride to report that the work of the teachers is most commendable. A spirit of cooperation and loyalty prevails. The work in the High School under Mr. Gilgan is painstaking and orderly and bids fair to produce the quality of instruction which makes for a good school. On Jan. 17 last, Mr. Frank Morse of the State Department of Education, inspected the school. His report of the organization, its personel and work undertaken is awaited with no forboding.

Extra-curricula activities so essential to pupils in schools today are likewise encouraged and well supervised. Children find a field of expression and appreciation in their various organizations such as clubs, school paper, Glee Club, orchestra, band, 4-H Clubs, dramatics and athletics. Such activities are arranged so as not to interfere with regular school work and are conducted by teachers who have volunteered their services. To this list must be added the volunteer services of Mr. Willard Smith who has very ably banded together a very promising group of young musicians.

My grammar school principals are greatly handicapped in that they must teach regular classes beside the many duties demanded of them in the school office. In the interest of supervision it is urgent that in the very near future all principals of schools having six or more rooms be relieved of part, if not all regular class room instruction.

<p>IN MEMORIAM KATHERINE RILEY Teacher, Charles G. Devine School</p>
--

TOWN OF RANDOLPH, MASS.

During the year we lost by death, Miss Katherine Riley, for many years a teacher in our schools. We miss Miss Riley keenly. Her work was always painstaking and sincere; her teaching always sweetened and tempered by patience, love and charity.

Last July we lost by retirement, Miss Fannie Campbell, also a teacher for many years in Randolph. Miss Campbell closes a long, faithful service to the school and town, but through her many pupils her work still goes on.

The reports of the supervisors of music and drawing follow this report. They are worthy of your attention and study for they represent a very real phase of our educational efforts. The orchestra under Miss Hand's direction is doing excellent work.

I wish to make a somewhat detailed report of the accomplishment of the Domestic Art Classes under the very efficient instruction of Miss Mildred Sullivan. These classes have been organized a little over a year and in that short space of time have established an unquestionable proof of their value and usefulness as a part of our school work. Instruction is open to both senior and junior high school girls. The enrolment to date is 160 girls. Time allotment for each class varies from one hour and thirty minutes to one hour and forty minutes a week. Aside from the list of articles given below, Miss Sullivan does not mention her personal gift of over 300 yards of cloth for class room use, particularly for girls who found the purchase of material a hardship.

Articles completed during the year 1930-1931 include 140 dresses, 150 towels, 156 pieces of underwear and 10 pairs of lounging pajamas.

NINETY-SEVENTH ANNUAL REPORT

Articles completed during the year 1931-1932 include 20 dresses (wool, cotton and silk), 72 pieces of underwear and 10 dresses for needy families in town, the material furnished by the local Red Cross.

Although your superintendent has no supervisor of courses of study to assist him with the 103 teaching positions in the district, he feels that through the cooperation of Miss Fay of the High School faculty, Mrs. Powderly and Grade School principals, a very constructive beginning has been made to evaluate and unify the work in English. One of the outstanding features in this, as in other subjects, is the daily check-up and class room exhibition of work done. Teachers are conscious of the fact that good work pays and pays dividends to the pupil who sees his work appreciated. Such methods moreover act as keys both to the superintendent and teachers for the purpose of noting progress and achievements.

It is very evident that we are passing through a period of social, economic and political unrest. To what extent our American educational system today will weather the inroads of conflicting opinions and complex problems will depend upon how well it is rooted in the hearts of the people. The present day tendencies are placing new demands on our schools if not in the nature of an actual challenge. Teachers and school officials are aware that educational objectives must be enlarged so as to prepare our pupils now in school to cope more intelligently with conditions which are sure to attack them upon leaving the class room. It is the business of the school, therefore, to teach more thoroughly the fundamental ideals upon which our American institutions rest. It is the business of the school to unfold to the pupil these principles that he may be the more able to handle the invasions of new and conflicting ideas and

TOWN OF RANDOLPH, MASS.

solve wisely and quickly untried, if not dangerous political and social doctrines.

During the year various activities have been carried on by the teachers for local welfare relief. Aside from their own contribution to this work, teachers and pupils have contributed and collected a very creditable quantity of vegetables, canned goods and clothing for the needy in town. I wish, therefore, to thank the teachers, pupils and parents for this spirit of help and cooperation.

All repairs and improvement made on our schools make for deeper respect and school consciousness. We are pleased to have so much thorough, permanent grading around our school buildings. Special mention must be made of the work on the High School grounds, the McNeill School, Belcher and the Tower Hill School grounds. The planting of trees and shrubbery under the care of Mrs. Isaac has added beauty and dignity to our public institutions. Proper classroom lighting facilities at the Prescott and Belcher schools filled a long standing want and great need. The recent installation of a strong, steel safe in the High School office now makes possible a proper filing of school records as required by law.

It is sincerely hoped that the citizens will approve the two-room addition to the Belcher School. This will do away with the old portable building and its inconveniences besides reduce the cost of fuel operation and transportation. The Devine school now already crowded is obliged to exchange pupils with the Belcher school for the reason that there is no 7th grade in the latter school. To open the old North Randolph school, now closed, would be to invite an outlay of money for temporary use only. There are conditions in that school or building which would call for plans and extensive alterations before the Dept. of Public Safety would approve its re-opening.

NINETY-SEVENTH ANNUAL REPORT

Public institutions are built and supported by the citizens who believe in them. They represent the vehicle of service and principals dear to the hearts and happiness of the people. Those who are selected to render service therein take on a deep and profound public obligation. Too often a public trust becomes merely a job. The intrinsic value of the teaching profession is more than a job. It is an obligation of faithful service to children regardless of personal gain, party, color or creed. We have teachers who feel keenly this weight and responsibility. They are, nevertheless, human and know their limitations. They teach daily the advantages and desirability of social cooperation and common faith and yet yearn for a little of that same sustenance that they may have renewed strength to carry on. They want to have a part in making the Randolph schools good schools and Randolph children the best found anywhere. In this aspiration they secretly long for a word of approval from the outside world, from the people they serve and whose children are left daily in their trust.

In this respect I am happy, indeed, to record here what individuals and organizations have done for us this year. It is most encouraging and we thank them sincerely for their good deeds.

1. The Lieut. Thomas W. Desmond Post, American Legion, for their essay medal and kind cooperation.

2. The Woman's Catholic Club for donations and care of needy school children.

3. The Ladies' Library Association for gifts and donations and for the supervision of the planting of trees and shrubbery by Mrs. Harry C. Isaac.

4. The Chamber of Commerce for their delightful Christmas party given school children.

TOWN OF RANDOLPH, MASS.

5. The Randolph-Holbrook Rotary Club for donations.

6. The local Red Cross organization for donations.

7. The Randolph Scholarship Committee for their interest in raising money for a High School scholarship.

8. The North Randolph Woman's Club for the promise of a High School scholarship.

9. The Welfare Dept. for its cooperation in directing its activities and services for school improvements.

10. To the many individuals, known and unknown, who have lightened our problems in the intelligent solution of our daily tasks.

The following is a tabulated list of appointments for 1932-33:

Mr. Hurbert F. Gilgan, Principal	High School
Mr. Alfred E. Whitney, Mathematics	High School
Miss Marjorie Fay, English	High School
Miss Eleanor L. Brewster, Latin	High School
Miss Eleanor M. Kelley, English	High School
Mr. Hugh W. Heney, Grade 7	Prescott School
Miss Mabel Forrest, Grades 1 and 2	Prescott School
Miss Margaret Sullivan, Grade 3	Devine School
Miss Lillian Elliott, Drawing	All Schools
Mrs. Jessica Mitchell, Nurse	All Schools

I wish to recommend for your consideration that the School Committee, the local Board of Health and the School Physician, Dr. Higgins, study the possibility of organizing and maintaining the following health clinics:

NINETY-SEVENTH ANNUAL REPORT

1. Dental Clinic for school children. There is great need for such an agency here. Those who care and know what the children are suffering from lack of proper attention to their teeth will not deny them this service.

2. A clinic for diphtheria immunization of all children in town.

In closing my report I wish to express my thanks to the School Committee and teachers for their loyal support. I am not unmindful of that support and good will which comes from the home, the keystone in the structure of our American institutions.

Respectfully submitted,

A. O. CHRISTIANSEN.
Superintendent of Schools.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. A. O. Christensen,
Superintendent of Schools,
Randolph, Massachusetts:

In accordance with your request, I wish to submit my first report as principal of Stetson High School.

First of all, I should like to comment on the general spirit prevailing in the school. The attitude of the faculty has been fine; they have always been responsive to any suggestions made. I have been especially pleased with the student body, and I cannot recall a single instance where they have failed to give a wholehearted and wholesome support to any undertaking.

Enrollment

Stetson High School opened its doors for the present school year on September 12, and as was expected, a crowded condition resulted. The balcony of Chapin Hall and the sewing room have been converted into homerooms and in addition we have had to use the balcony as a class room, a wholly undesirable condition. Every classroom has its quota of study pupils in the rear of the room. This situation is not only a source of annoyance to pupils in the reciting classes and to teachers alike, but also prevents study pupils from getting full benefit from the period which should be devoted to study.

Teaching Force

There have been some changes in the faculty and the opening day saw Miss Marjory Fay, as head of the English department, teaching English, Miss Eleanor Kelley, English and History, Miss Eleanor Brewster, English and Latin, Mr. Alfred G. Whitney, Mathematics.

TOWN OF RANDOLPH, MASS.

An attempt has been made to departmentalize more thoroughly the work in the school, and a few changes have been made in the course of study. As a result, it has been possible to segregate the college preparatory pupils in English, History and French. It is expected that such a move will be advantageous to all concerned.

The next step should be the adoption of a new program of studies which would more adequately meet the demands of present trends in secondary education. The program as it is now does not permit much choice in selection of studies, but I believe that the course of study could be enriched without introducing any so-called frills. Ordinarily such a plan would mean more teachers, but by increasing the number of daily periods from six to seven, our purpose would be accomplished and no new teachers would be necessary. This would mean one extra period each day for each teacher, and could be used for relieving over-crowded conditions, reducing the size of classes, and introducing more studies. All this could be done without harm or loss of time to pupils, because the present period, which is fifty minutes, could be reduced by seven minutes and still leave ample time for classwork. A seven period day is used effectively in many other schools, and I know it could be done here.

Afternoon Sessions

It is our custom to make it possible for pupils to gain as much help from teachers as necessary. To this end, each teacher spends one afternoon a week, giving assistance to any pupil needing it. The following is the schedule; the time is from 2.00 P. M. on.

Monday—Miss Gavin, Miss Connors, Miss Fay, Miss Brennan.

NINETY-SEVENTH ANNUAL REPORT

Tuesday—Mrs. McCann, Miss Steffy, Miss Brewster,, Miss Kelley and Mr. Whitney.

Wednesday—Mr. Powderly, Miss Jane Good, Miss Mildred Sullivan and Mr. Riley.

Thursday—Mrs. Powderly, Miss Foley, Miss Anna Good.

This also affords parents an opportunity of meeting the teachers for consultation concerning the scholastic work of their children. The faculty is always glad to welcome parents at the school at any time. Educators like to see a closer union between the school and the home. It is a self-evident fact that those children who are trained in the home, in the church, and in the schools to be good citizens are the greatest asset in any community. It is not sufficient, however, that each agency shall know the child from its own angle, regardless of any other, but all agencies should organize, for by such organization results can be achieved which individuals or groups of individuals cannot bring to pass. I suggest that a Parent-Teacher Association would be just the agency to meet such a contingency.

Musical Organizations

An orchestra has been formed with Miss Rose G. Hand in charge. This group meets every Wednesday afternoon at two o'clock for practice and while this organization is not as large as was hoped, it is expected to grow.

Through the interest and cooperation of Mr. Willard Smith of this town, a band has been organized, a new departure for the school. From the start, enthusiasm has been great, and at the present, the band numbers twenty-five musicians. The school is indebted

TOWN OF RANDOLPH, MASS.

to various clubs and societies of the town for their financial cooperation, without which it would have been impossible to proceed. The following is a list of the donors:

Belcher School	\$75.00
Ladies' Library Association	25.00
Chamber of Commerce	10.00
Ladies' Auxiliary	5.00
Class of 1933	10.00
American Legion Auxiliary	5.00
Rising Star Lodge, I. O. O. F.	5.00

The sincere gratitude of the students is here expressed for the splendid interest and cooperation shown by these organizations.

It is the policy of the school to purchase instruments not owned privately by students. To that end, the school has already purchased one bass drum, two bass horns, one baritone, four alto horns, one trombone, and one pair of cymbals. It is planned to buy others when more money is available. All credit for the success of the band should go to Mr. Smith, who so generously has volunteered his time and energy to this organization.

I should like to express my thanks to Miss Hand, Mr. Smith and everyone who has helped to make our endeavors in the musical phase of schoolwork so successful.

Extra-Curricula Activities

A policy of bi-monthly assemblies has been instituted, and has met with instant approval. Programs are given by pupils under the supervision of the faculty and have been both educational and entertaining.

NINETY-SEVENTH ANNUAL REPORT

Athletics have claimed their share of participants in football, basketball, and in the spring, baseball. Naturally, the number of pupils taking part in sports is limited by the number required to make up a team. It will be our aim, during another season, to develop inter-mural games so that every boy and girl will have an opportunity to participate in some form of athletic activity.

Dramatics appeal to some, and much talent is uncovered in this manner. At present, the annual senior play is in preparation for presentation at a future date.

For those of literary bent, the student publication, the Oracle, presents a medium of expression which has unlimited possibilities.

It is hoped that during the coming months, in addition to music, athletics, dramatics, and literature, we can organize such club work as will enable us to have every member of the school entered in some wholesome, recreational activity.

Library

The school is very fortunate in having a fine library available for use by the pupils and it is our aim to make it a vital unit in our school life. During the summer, considerable time was spent cataloging the books and getting the library ready for use in September. This was accomplished with the valuable assistance of Misses Eleanor M. Kelley and Anna Good of the faculty. Approximately seventy volumes have been added during the present school year, and I suggest that as each year goes by, we should add worthwhile books to those already on the shelves.

Open House

During the evening of December 14, the school building was thrown open to the public, that parents

TOWN OF RANDOLPH, MASS.

might visit the school and meet the teachers. All the teachers were in their rooms from 7.30 P. M. to 8.30 P. M. to meet teachers and parents. Judging from the numbers who responded to the invitation, it is believed that this innovation is of value and one that should be continued.

Game Plan

This was a new idea which was tried out in many schools in Norfolk county. It was a contest idea which involved three different exercises. The students participating were asked to describe their town as it exists today, to describe the town as they imagined it would be in 2032, and to draw plans of their ideal town. The students of Stetson High School who took part in this contest spent many hours of work in drawing their plans, and are to be congratulated for the good work they did.

The following are the prize winners:

Junior High division—Lillian Macauley, first; Ruth Brown, second; Rose Morrissey, Charles Devine School, third.

Senior High division—Marguerite Williams, first; Bernice Wilbur and Barbara Teed, second; Harold Flynn, third.

Additional prizes were also awarded to Walter Morse, Edwin Burchell, Arnold Little and Henry Anderson.

Conclusion

May I, at this time, thank the School Board, Superintendent, Teachers and Pupils for their sincere co-operation during the few months I have been principal. It is with genuine pleasure that I submit this report.

Very truly yours,

HUBERT F. GILGAN,
Principal.

REPORT OF THE SCHOOL PHYSICIAN

To the Citizens of the Town of Randolph:

During the 1932 school year approximately nine hundred (900) children were given physical examination. A large percentage was found to be in good condition. Some cases of faulty posture were noted and advice was given.

The State Health Commission had a re-examination of all children found to have any question of tuberculosis. So far the children of the town have a very good health record with the State Health Commission-Board.

We are still having cases of Scarlet Fever among our children but no alarming epidemic has resulted. This condition is not confined to any special school building in our town and for that reason it is not easy to find the source of the infection.

The Randolph Board of Health is most interested in these problems and is always most willing and ready to offer suggestions and aid in tracing any contagious diseases. The School Nurse is continually and faithfully watching our school children and reports every suspicious case immediately.

Summing up the health condition of the school children, I report to you that it is exceptionally good and I wish at this time to thank the Teachers, the School Committee, our Superintendent, our Board of Health and School Nurse for their most hearty co-operation during the past year.

GEORGE V. HIGGINS, M. D.,
School Physician.

TOWN OF RANDOLPH, MASS.

REPORT OF THE SCHOOL NURSE

September 12 to December 31, 1932

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts:

All pupils weighed and measured.

Pupils found 15 per cent underweight, 88 (less
than previous years)

Pupils examined and x-rayed at Chadwick	28
---	----

School room visits	438
--------------------	-----

Number of home visits	101
-----------------------	-----

Pupils taken to Braintree Hospital for x-ray and Von Pirquet test	4
--	---

Sent home, Impetigo	7
---------------------	---

Sent home, Pediculosis	3
------------------------	---

The physical examination of pupils has not yet been completed, due to absentees from colds and minor illnesses.

The Chadwick follow-up clinic was held at the Ladies' Library Association. This clinic is conducted by the State Board of Health. Twenty-eight pupils were re-examined and x-rayed. This is the yearly attention given by the State on the ten year program which began its second period last year.

Four tonsil and adenoid cases have been operated on. This was made possible by Miss Thomas, who is the South Shore representative of the S. P. C. C. All of the children from these families were taken to Quincy to a Christmas party given by this organization.

Thanksgiving and Christmas baskets of food were given by the pupils. This year has far surpassed the generosity of past years. Food and clothes have been needed as never before, and in going about to the

NINETY-SEVENTH ANNUAL REPORT

homes, it has been found that there was need of welfare work among the children.

Realizing this, the Teachers' Club proposed a bridge party as the means of raising funds, that shoes might be provided for those who were unable to come to school because of lack of them. The sum of \$110.00 was raised and is being used only after investigation of each family has been made.

Many generous donations of clothes have been given and immediately put to use.

The need of free milk in the schools has also been an important factor this winter, and to the organizations who answered my appeal so generously, please accept the appreciation from those children who have benefited by the donations.

In my routine of school room visits, a great stress has been placed on the care of the teeth, and all pupils are enthusiastic over the project. A contest is now in progress to see which room will be 100 per cent clean first, and from then on to see which school will keep the lead. A broadcast of the winner is the goal to be attained. The enthusiasm with which the pupils are working proves conclusively that a dental clinic would be of special benefit to those who are handicapped, yet enthusiastic in the care of their teeth.

I take this opportunity to thank the Superintendent and teachers in their cooperation in the promotion of health work, the care given the prevention and the spreading of contagion and colds. The absence of these illnesses proves conclusively the care that has been taken. I also wish to thank the School Committee for their consideration, the Board of Health for the reports of contagion among the children, the teachers, and Doctor Higgins for their hearty support.

Respectfully submitted,

MRS. JESSICA MITCHELL,
School Nurse.

REPORT OF THE SUPERVISOR OF MUSIC

Mr. A. O. Christiansen :

Dear Sir :

It is my pleasure to state that the music throughout the schools manifests proficient and earnest efforts on the part of the teachers.

Many and vigorous attempts have been made to spur the diffident children on by means of individual work. Considering the limited amount of time given to music the general average has been excellent.

Very little, if any, money has been expended on music material this year. At the present time there is an urgent need of material in several of the schools.

Classes in instrumental music are active in the Prescott, Belcher and Devine Schools under the direction of Mr. George Dunham. For the past few years this work done in the grade schools has proven its worth in as much as it has laid the foundation for band and orchestral work which later follows in the High School.

Last year we lost four valuable members from our High School Orchestra at graduation. However, others are trying to fill their places. I believe that boys and girls thus inclined should be granted the privilege of retaining their places in the orchestra, as their practice in group playing ceases when they leave school. Why stunt their progress just when their interest in the work has been stimulated? Such pupils would not only help themselves but would be of valuable assistance to others.

I take the opportunity to thank all who have co-operated with me in my work.

Respectfully submitted,

ROSE G. HAND,
Supervisor of Music.

REPORT OF THE SUPERVISOR OF DRAWING

Mr. A. O. Christiansen,
Superintendent of Schools:
Dear Sir:

I herewith submit my report as Art Supervisor for four months work in the Town of Randolph.

My aim in teaching Art in Grades I to VIII has been designed to offer a minimum of prescribed work and to encourage a maximum of self-directed effort. This association is traced in all my approaches to Art from figure study, design, representation and color. The aim is lost if one cannot give the student the association or mental picture one is to study. When the student receives an association or mental picture, one's aim is accomplished. We have used local landmarks for illustration as our boys and girls know well their homes and association bring a keener interest in their local environment. The correlation of Art with other scholastic subjects such as History, Geography, Reading and English is carried out from the first grade to the eighth.

In the grades the teachers have a yearly outline and a set of holiday projects each holiday. An individual monthly schedule is now being supplied to the teachers.

The Stetson High School has the choice of free-hand or mechanical drawing. These courses are elective and have one forty-five minute period a week. The object of the freehand drawing is to give the student the ability to draw common objects correctly in general proportions and shape with the appearance of either two or three dimensions. Poster design or layout is correlated with the school programs as the needs arise.

TOWN OF RANDOLPH, MASS.

Figure study, design, and creative expression balance the outline. The object in mechanical drawing is to give the student a working ability to draft concrete problems and to read mechanical terms. The drawings vary from three-view projection through to advanced machine drawing. This course gives the student a general working knowledge of the principles of mechanical drawing.

Several of the students of the Stetson High School, Stetson Junior High School, and the Charles Devine School entered the first Game Plan Exhibit of Norfolk County in which the students described their town as they see it today and described the town of their imagination for the year 2032 and finally drafted their map for the town of their vision in the year 2032. At the final exhibition in Dedham, December 17, 1932, the work of the students received high compliments for their skill in execution and visualization.

At this time I extend my appreciation to the teachers of Randolph for their cooperation and kindness.

I thank you for your advice and counsel.

Respectfully submitted,

LILLIAN E. ELLIOTT.

Report of the Trustees of Stetson Hall Fund

An oil burning equipment has been installed in Stetson Hall, the expense being shared by the Town and the trustees. This improvement has been advocated for a number of years; the results have been very gratifying. Twenty-five windows in the hall have been thoroughly repaired, and no longer admit cold air in severe weather. The circular road in front of the building has been resurfaced at an expense of about five hundred dollars (\$500), appropriated from the Stetson Hall Fund; this improvement sets off the beautiful lines of the hall, which is admitted to be one of the finest colonial structures of its kind in Massachusetts. Curtains have been placed over the windows in the auditorium. These curtains are of heavy dark red material and together with a large curtain of the same kind over the Amasa Stetson portrait, greatly improve the acoustic qualities of Stetson Hall. The screen on which motion pictures are thrown can now be pushed to the rear of the stage and need no longer be rolled up when not in use. It will be necessary to paint Stetson Hall in the near future. The lawn on the north side of the building has been reseeded and in spite of shade on that side promises to add to the good appearance of the premises.

Randolph, Massachusetts
January 12, 1933.

The undersigned of the Town of Randolph have this day examined Investment of Stetson School Funds, and find same to be as follows:

1933 Town Meeting Warrant

Commonwealth of Massachusetts.

Norfolk, ss.

To either of the Constables of the Town of Randolph,
in said County, Greeting:

In the name of the Commonwealth of Massachusetts
you are hereby directed to notify and warn the inhabi-
tants of the Town of Randolph, qualified to vote in elec-
tions therein, to meet at the polling places in their respec-
tive precincts, to wit:

**Polling Place in Precinct No. 1,
STETSON HALL, IN SAID TOWN**

Polling Place in Precinct No. 2

**NORTH RANDOLPH IMPROVEMENT ASSOCIATION
HALL IN SAID TOWN**

**ON MONDAY, THE SIXTH DAY OF MARCH, 1933
at 5:45 o'clock in the forenoon**

then and there to bring in to the Wardens of their respec-
tive precincts their votes on the official ballot for a Town
Clerk for one year, Town Treasurer for one year, Moder-
ator for one year, three Selectmen and Overseers of the
Public Welfare for one year, two members of the School
Committee for three years, one member of the Stetson
School Fund for three years, one Tax Collector for one
year, one Assessor for three years, one Water Commis-
sioner for three years, one member of the Board of
Health for three years, one Tree Warden for one year,
one Highway Surveyor for one year, two members of the

TOWN OF RANDOLPH, MASS.

Planning Board for three years and seven Constables for one year.

THE POLLS WILL BE OPENED AT FIVE FORTY-FIVE O'CLOCK IN THE FORENOON AND WILL BE CLOSED AT FOUR O'CLOCK IN THE AFTERNOON.

You are further directed to notify and warn the inhabitants qualified to vote as aforesaid to meet at the Town Hall in said Randolph on Monday, the 13th day of March, 1933, at 7:30 P. M., then and there to act on the following articles:

Article 1. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to refund money from time to time in anticipation of the revenue of the financial year beginning January 1, 1933, and issue a note or notes therefor, payable within one year, and any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Article 2. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to refund any and all of the revenue notes issued in anticipation of revenue of the year 1933, in accordance with the provisions of Section 17, of Chapter 44 of the General Laws, any debt so incurred to be paid from the revenue of 1933.

Article 3. To see if the Town will vote to raise and appropriate money to defray the General Town Expenses for the current year, under the following headings:

Article 12. To see if the Town will authorize the Water Commissioners to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

NINETY-SEVENTH ANNUAL REPORT

Article 13. To see if the Town will authorize the Board of Health to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

Article 14. To see if the Town will vote to appoint a Committee to investigate the Advisability of purchasing the rights and property of the Randolph and Holbrook Power and Electric Company and report on the same to any Special or Annual Town Meeting.

Article 15. To see what action the Town will take relative to applying the net revenue of the Water Department to new water extensions under the direction of the Water Commissioners.

Article 16. To see what action the Town will take regarding filtration of the water supply at Great Pond, or to take any action relative to preserving the supply and purity of the water, and raise and appropriate money therefor.

Article 17. To see if the Town will vote to discontinue to Public Traffic, the easterly end of School Lane—so called—adjoining the Belcher School property as recommended by the School Committee.

Article 18. To see if the Town will authorize the School Committee to purchase a certain piece of land located on the corner of Belcher Street and School Lane—so called—and extending from the present school lot to Belcher Street, consisting of feet more or less, and raise and appropriate money therefor as recommended by the School Committee.

TOWN OF RANDOLPH, MASS.

Article 19. To see if the Town will vote to erect

and originally equip a two room addition to the Belcher School, under the direction of the School Committee and raise and appropriate money therefor as recommended by the School Committee.

Article 20. To see if the Town will vote to abandon that portion of Canton Street as a Town Way, between that point in the boundary line of the Towns of Canton and Randolph, where the old location line of said Canton Street, as it exists as a Town Way, intersects the southwesterly side line of the roadbed of Canton Street, as established and constructed by the County Commissioners for the County of Norfolk by order of Taking dated February 5, 1929, to that point about twelve hundred (1200) feet distant southeasterly therefrom where the said old location line of Canton Street, as it exists as a Town Way, again intersects the southwesterly side line of the roadbed of said Canton Street as relocated and constructed by virtue of said relocation dated February 5, 1929, as recommended by James D. Bradley, James H. Hurley, William J. O'Connor and others.

Article 21. To see what action the Town will take in regards to raising and appropriating \$1,500.00 for the leasing of the building occupied by Lieut. Thomas W. Desmond Post No. 169, American Legion, as petitioned for by Charles E. Albritton, William A. Connell, M. E. Young and others.

Article 22. To see if the Town will vote to hold a Town Caucus for the nomination of candidates for Town Officers required to be voted for by official ballot at its Annual Town Meeting, according to the provisions of Section 121 of Chapter 53 of the General Laws as amend-

ed by Chapter 141, Acts of 1932, and as petitioned for by Theodore S. Luddington, Louis J. Courtney, James F. Kennedy and others.

Article 23. To see if the Town will vote to raise and appropriate \$1,000.00 for the use of the Park Commission in the development of the E. Fannie Belcher Park as petitioned for by John J. Madden, Howard P. Rich, Patrick Sullivan and others.

Article 24. To see if the Town will vote to raise and appropriate a sum not exceeding \$4,000.00 for drainage purposes, with particular reference to the diversion of certain water courses from Great Pond as petitioned for by Arthur L. Mann, Dr. William M. Colby, Dr. William W. Buck and others.

REPAIRS AND REBUILDING OF STREETS

Article 25 To see if the Town will vote to repair High Street from Lafayette Street to Chestnut Street and raise and appropriate the sum of \$800.00 therefor as petitioned for by John Stevenson, C. S. Brown, Walter L. Hickey and others.

Article 26. To see if the Town will vote to build Wilmarth Road as far as accepted and raise and appropriate the sum of \$1,000.00 therefor as petitioned for by George W. Butler, Emily P. Kachele, R. W. Coburn and others.

Article 27. To see if the Town will vote to raise and appropriate the sum of \$1,200.00 for the building and construction of Russ Street from opposite the residence of John Burns to Dorr Street as petitioned for by Stanley W. Powers, Leonard D. Shanks, Frank W. Proctor and others.

TOWN OF RANDOLPH, MASS.

Article 28. To see if the Town will vote to construct a drainage system on Wales Avenue a distance of three hundred and sixty feet and raise and appropriate money therefor as petitioned for by Walter A. Billingham, Lewis LaCounte, Margaret Crowley and others.

Article 29. To see if the Town will vote to raise and appropriate the sum of \$700.00 for the rebuilding of Stacey Street including two treatments of tar as petitioned for by Frank M. Downes, Albert C. Webber, William VanTassel and others.

Article 30. To see if the Town will vote to raise and appropriate the sum of \$700.00 for the rebuilding of Hall Street including two treatments of tar as petitioned for by John F. Deitrick, Fred J. Soule, Albert C. Webber and others.

ELECTRIC LIGHT EXTENSIONS

Article 31. To see if the Town will vote to install two additional lights on Park Street, and raise and appropriate money therefor as petitioned for by Adrian J. Iorio, William H. Morgan, Mrs. John Harty and others.

WATER EXTENSIONS

Article 32. To see if the Town will vote to instruct the Water Commissioners to extend the water main on North Main Street a distance of six hundred and fifty feet from its present terminus and raise and appropriate money therefore as petitioned for by Ernest H. Bossi, Joseph W. O'Mahoney, Marino Rota and others.

Article 33. To see if the Town will instruct the Water Commissioners to lay the water main from Mill Street on Wilmarth Road as far as has been accepted, and raise and appropriate money therefor as petitioned

NINETY-SEVENTH ANNUAL REPORT

for by George W. Butler, Emily P. Kachele, Ralph W. Coburn and others.

Article 24. To see if the Town will instruct the Water Commissioners to install a six-inch water main with necessary hydrants, on Russ Street from its present terminus in an easterly direction, one thousand feet, and raise and appropriate money therefor as petitioned for by Stanley W. Powers, Leonard D. Shanks, Frank W. Proctor and others.

MISCELLANEOUS

Article 35. To see if the Town will raise and appropriate the sum of one thousand dollars (\$1,000.00) for a Dental Clinic to be under the direction of the Board of Health.

Article 36. To see if the Town will vote as follows: "That no money be expended by the Police Department for undercover men or spotter investigation" as petitioned for by Theodore S. Luddington, Frank M. Condon, Joseph W. O'Mahoney and others.

Article 37. To see what action the Town will take in regard to raising and appropriating money for the erection of a suitable fence or wall on North Main Street within the vicinity of the present existing railroad bridge as petitioned for by William E. Hanson, Ross Johnston, Elmer J. DeLorey and others.

Article 38. To see if the Town will vote to accept the Hugh Alexander MacDonald memorial at North Randolph and raise and appropriate money to secure a suitable site and place same thereon under the direction of the Board of Selectmen as petitioned for by Fred J. Soule, Frank M. Downes, Albert D. Godfrey and others.

TOWN OF RANDOLPH, MASS.

Article 39. To see if the Town will vote to amend the Town By-Laws as follows: "That the Finance Committee be given access to all books and all records of every Town Department, and be empowered to investigate every Town Department whenever in their judgment such investigation may be necessary" as petitioned for by John R. Luddington, John Banahan, Fred P. Chase and others.

Article 40. To see what action the Town will take relative to acquiring the rights and property of the Randolph and Holbrook Power and Electric Company as petitioned for by Elmer J. DeLorey, John A. Burns, William VanTassel and others.

And you are directed to serve this Warrant by posting attested copies thereof at five or more public places in said Town seven days at least, before the day and hour for holding said meeting.

Hereof, fail not, and make return of this Warrant with your doings thereon, to the Town Clerk, on or before the day and hour appointed for holding said meeting.

Given under our hands at Randolph, this 11th day of February, A. D. 1933.

WALTER F. STEVENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,
Selectmen of Randolph.

JOHN B. McNEILL, Town Clerk.

All of the appropriations made may be found in the Town Accountant's Report and Assessors' Report taken from an attested list made by the Town Clerk.

VOTED: Under Article 11, that a committee of five be appointed by the Moderator to work with the Board of

TOWN OF RANDOLPH, MASS.

Selectmen to look into the advisability of adjusting the insured values of all town buildings.

Article 12. To see if the Town will authorize the Water Commissioners to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

VOTED: That the Water Commissioners be so authorized.

Article 13. To see if the Town will authorize the Board of Health to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

VOTED: That the Board of Health be so authorized.

Article 14. To see if the Town will vote to appoint a Committee to investigate the advisability of purchasing the rights and property of the Randolph and Holbrook Power and Electric Company and report on the same to any Special or Annual Town Meeting.

VOTED: That a Committee of seven be appointed by the Selectmen to investigate above article (at no cost to the Town) and report back at the next Annual Town Meeting or Special Town Meeting called for that purpose; and that all previous Electric Light Committees be discharged.

Article 16. To see what action the Town will take regarding filtration of the water supply at Great Pond, or to take any action relative to preserving the supply and purity of the water, and raise and appropriate money therefor.

NINETY-EIGHTH ANNUAL REPORT

VOTED: That the Water Commissioners be instructed to investigate, prepare a report and present same at the next Annual Town Meeting.

Article 19. To see if the Town will vote to erect and originally equip a two room addition to the Belcher School, under the direction of the School Committee and raise and appropriate money therefor as recommended by the School Committee.

VOTED: That the sum of \$7,000.00 be raised and appropriated to build and originally equip a two room addition to the Belcher School; that all work be put out on sealed bids, all labor to be performed by residents of Randolph; that all specifications be filed with the Town Clerk and that the contracts to be let out be turned over to the Board of Selectmen who will be agents and attorneys of the Town for their approval.

Article 20. To see if the Town will vote to abandon that portion of Canton Street as a Town Way, between that point in the boundary line of the Towns of Canton and Randolph, where the old location line of said Canton Street, as it exists as a Town Way, intersects the Southwesterly side line of the roadbed of Canton Street, as established and constructed by the County Commissioners for the County of Norfolk by order of Taking dated February 5, 1929, to that point about twelve hundred (1200) feet distance southeasterly therefrom where the said old location line of Canton Street, as it exists as a Town Way, again intersects the southwesterly side line of the roadbed of said Canton Street as relocated and constructed by virtue of said relocation dated February 5, 1929, as recommended by James D. Bradley, James H. Hurley, William J. O'Connor and others.

VOTED: That the Town abandon that portion (or portions) of Canton Street specified in this article.

TOWN OF RANDOLPH, MASS.

Article 37. To see what action the Town will take in regard to raising and appropriating money for the erection of a suitable fence or wall on North Main Street within the vicinity of the present existing railroad bridge as petitioned for by William E. Hanson, Ross Johnston, Elmer J. Delorey and others.

VOTED: That the Board of Selectmen take up this matter with the officials of the New York, New Haven and Hartford Railroad Co., with view towards having the above Railroad Company erect said wall or fence, and bring in a report of their doings at the next Annual Town Meeting.

Article 38. To see if the Town will vote to accept the Hugh Alexander MacDonald Memorial at North Randolph and raise and appropriate money to secure a suitable site and place same thereon under the direction of the Board of Selectmen, as petitioned for by Fred J. Soule, Frank M. Downes, Albert D. Godfrey and others.

VOTED: That the Hugh Alexander MacDonald Memorial now located at North Main and Pond Streets be at this time accepted by the Town, and that the School Committee be designated as the custodians of the memorial, and that it be moved from its present site and relocated in front of the Charles Gabriel Devine School on Old Street, the operation to be carried out under the supervision of the Highway Surveyor with the approval of the School Committee, and all without expense to the Town.

Article 39. To see if the Town will vote to amend the Town By-laws as follows: "That the Finance Committee be given access to all books and all records of Every Town Department, and be empowered to investigate every Town Department whenever in their judgment such investigation may be necessary as petitioned for by John R. Ludington, John Banahan, Fred P. Chase and others."

NINETY-EIGHTH ANNUAL REPORT

VOTED: To amend the Town By-Laws as follows: That the Finance Committee be given access to all books and all records of every Town Department, and be empowered to investigate every Town Department whenever in their judgment such investigation may be necessary, insofar as same may legally be done.

The foregoing amendment to by-law is hereby approved.

(Signed) JOSEPH E. WARNER,

Attorney General.

Published in Randolph-Sentinel News, April 28, May 5, May 12, 1933.

JOHN B. McNEILL, Town Clerk.

SPECIAL STATE ELECTION

Randolph, Mass., June 13, 1933.

The ballots, ballot boxes and all election paraphernalia for the Special State Election was given out to the Wardens of the different precincts at 5.30 o'clock A. M. and returns were made from Precinct 2 at 2.15 o'clock P. M., from Precinct 1 at 2.35 o'clock P. M.

Total number of votes cast in Precinct 1: 649

Total number of votes cast in Precinct 2: 178

— 827

The vote was tabulated by the Town Clerk, with the following results:

Delegates opposed to Ratification
(Against Repeal)

	Pre. 1	Pre. 2	Total
George W. Alden of 11 Newbury St., Brockton	73	17	90

TOWN OF RANDOLPH, MASS.

Claire H. Gurney of 188 Warren Ave., Quincy	70	17	87
Alice G. Ropes of 15 Wollaston Ave., Quincy	69	17	86

Shall licenses be granted in this town for the sale therein of wines and malt beverages:

Yes	549	159	708
No	82	16	98
Blanks	18	3	21
	<hr/>	<hr/>	<hr/>
	649	178	827

Returns were made to the State and the vote declared at 2:40 o'clock P. M.

JOHN B. McNEILL,
Town Clerk.

Special Town Meeting was held December 7, 1933.

Article 3. To see if the Town will vote to authorize the School Committee to sell or otherwise dispose of the portable school building in the yard of the Belcher School, or take any action relative thereto as petitioned for by the School Committee.

NINETY-EIGHTH ANNUAL REPORT

VOTED: That the School Committee sell or otherwise dispose of portable school building in the yard of the Belcher School.

Article 4. To see if the Town will vote to raise and appropriate a sum of money for rebuilding (or repairing) North Street, and authorize the Selectmen to petition the Federal Government for a grant of money under the National Industrial Recovery Act and accept such grant, and to provide by borrowing or otherwise any sum of money that is required to be raised by the Town for completing said project, or take any action relative thereto as petitioned for by Albert Broad, Thomas Carpenter, James Lynch and others.

Under this article a committee of five was appointed by the Moderator to confer with State and County Officials regarding the building or construction of North Street, and report at a Town Meeting to be held at a future date.

The Committee appointed:

Martin E. Young
Albert Broad
Thomas H. Carpenter
James H. Hurley
Timothy Lyons, Sr.

A true record of the meeting.

Attest: JOHN B. McNEILL, Town Clerk.

The Selectmen, at their meeting held in the Town Hall on April 10, voted unanimously to accept the provisions of Chapter 99 of the Acts of 1933, an act providing for advance payments on account of taxes for the years nineteen hundred and thirty-three and nineteen hundred and thirty-four in certain cities and towns.

TOWN OF RANDOLPH, MASS.

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of PHYSICIANS and MIDWIVES is called to Chap 280, Sec. 1, Acts of 1912: Sec. 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

— IN MEMORIAM —

HELEN M. BRADY

March, 1931 — February 12, 1933

Assistant Town Clerk

Randolph, December 31, 1933.

Examined and found correct.

ELMER L. BURCHELL,

Town Accountant.

Report of the Town Accountant

Citizens of Randolph:

I herewith submit my report for the year ending December 31, 1933. Owing to extreme emergencies in the following departments, we have overdrafts, and below is my authorization for having allowed same.

Randolph, Mass.

July 10, 1933.

At a regular meeting of the Overseers of the Public Welfare held on the above date, it was voted by more than two-thirds of the Board that an extreme emergency involving the health of persons existed in the Town of Randolph, necessitating the incurring of liability and expenditure of money in excess of the appropriations made for the use of the Department of Public Welfare.

This vote was passed in pursuance of the provisions of Section 31 of Chapter 44 of the General Laws.

Signed,

WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,

Randolph, Mass.

November 27, 1933.

At a regular meeting of the Overseers of the Board of Public Welfare held on the above date, it was voted by more than two-thirds of the Board that an extreme emergency involving the health of persons existed in the Town

TOWN OF RANDOLPH, MASS.

of Randolph, necessitating the incurring of liability and the expenditure of money in excess of the appropriation made for the use of the Old Age Assistance.

This vote was passed in pursuance of the provisions of Section 31 of Chapter 44 of the General Laws.

WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,
Overseers of Public Welfare.

Randolph, Mass.
December 18, 1933.

At a meeting of the Board of Selectmen held on the above date, it was voted by more than two-thirds of the Board that an extreme emergency involving the lives of persons existed in the Town of Randolph, necessitating the incurring of liability and expenditure of money in excess of the appropriation made for the removal of snow.

This vote was passed in pursuance of the provisions of Section 31 of Chapter 44 General Laws.

WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,
Selectmen of Randolph.

Respectfully submitted,

ELMER L. BURCHELL.

NINETY-EIGHTH ANNUAL REPORT

REPORT OF THE TREE WARDEN

January 15, 1934.

To the Citizens of the Town of Randolph:

The public shade trees of your town are in danger. With the building of new highways and widening of the roads for automobile travel, little regard is shown for the preseervation of the trees.

With the rebuilding of North Street it looks as though we would lose more of our beautiful trees.

While I made application for some C. W. A. funds for pruning and removing dead branches, I was unable to obtain any money for this work.

Roadside trimming was carried on as far as possible. Much more work could be done.

I still advocate establishing a nursery for the raising of new trees for street planting.

I also recommend setting out some new trees this year.

Let our motto be: Plan to Plant Another Tree.

Respectfully submitted

JOHN T. MOORE,
Tree Warden.

TOWN OF RANDOLPH, MASS.

REPORT OF THE MOTH SUPERINTENDENT

January 15, 1934.

To the Honorable Board of Selectmen:

The Gypsy and Brown Tail moth situation for the year ending December 31, 1933 was very satisfactory.

The town this year was fortunate, owing to the C. W. A., to be able to scout all of the woodland, something that has never been done before.

Spraying was carried on during the Spring and early Summer as far as our appropriation lasted.

All Gypsy moth egg clusters have been creosoted where found and Brown Tail nests destroyed.

The Elm tree beetle situation in the town was very serious. Spraying for this pest must be carried on this year in order to keep it under control and save our fine old Elms.

The Tent caterpillar and Fall webworms were bad; more work should be done in regard to this evil.

The Satin moth, or the Japanese beetle, was not found in the town.

The spraying machine needs to be overhauled and some new parts will be needed for same.

Respectfully submitted,

JOHN T. MOORE,
Local Moth Supt.

NINETY-EIGHTH ANNUAL REPORT

REPORT OF THE ANIMAL INSPECTOR

Randolph, Mass., January 8, 1934.

To the Board of Selectmen:

Dear Sirs:

I herewith submit my report as Inspector of Animals for the year ending December 31, 1933:

Cattle	244
Swine	1,234
Sheep	4
Goats	10

The stables housing these animals were inspected and recommendations for thorough cleaning and more light and ventilation were given, which have been carried out.

Two new stables have been erected by their owners to displace some that were old and unsanitary. Three herds have been added to the list of those under Federal Supervision making six in town which have passed the test as free from Tuberculosis.

The demand of the State for more sanitary conditions in the production of milk has had its effect as results show since the inspection of 1932.

Seventeen dogs were quarantined by this department, but none were found rabid.

Respectfully submitted,

CHARLES R. POWERS, JR.,
Inspector of Animals.

TOWN OF RANDOLPH, MASS.

REPORT OF POLICE DEPARTMENT

Randolph, Mass., January 13, 1934.

To the Board of Selectmen:

Gentlemen:

I herewith submit report of the work done by the Police Department of the Town of Randolph for the year ending December 31, 1933.

Respectfully submitted,

DANIEL P. LYONS,
Sealer of Weights and Measures.

REPORT OF THE PLUMBING INSPECTOR

Randolph, Mass., December 31, 1933.

To the Board of Selectmen of the Town of Randolph:

Gentlemen:

I hereby submit my report as Plumbing Inspector for the year ending December 31, 1933:

There have been 57 permits issued to install plumbing; of this number, 54 have passed inspection and three are held over for final inspection. There have been installed in new and old buildings the following fixtures:

Fifty-six closets, 45 wash bowls, 40 sinks, 37 bathtubs, 31 pressure boilers, 25 wash trays, four shower baths, one slop sink, one urinal, two drinking fountains, one glass washer, one refrigerator—the estimated value of which was \$12,991.

The number of old and new buildings in which plumbing was installed is, as follows: forty-one old houses, eight new houses, two old stores, two new stores, one addition to schoolhouse, one old schoolhouse, one dining room, and two ice cream stands.

Respectfully submitted,

ARTHUR L. MANN,

Plumbing Inspector

TOWN OF RANDOLPH, MASS.

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

I respectfully submit to you the annual report of the Fire Department for the year ending December 31, 1933.

This department has responded to 143 calls during the year, divided as follows:

Bell alarms	61
Still alarms	82
Building fires	39
Wood and grass fires	84
Automobiles	11
Gas mains	1
Automatic sprinkler	2
Broken hydrants	1
Lungmotor	1
Aid calls	3

No. of feet of 2½ in. hose used	10,650
No. of feet of chemical hose used	8,800
No. of feet of ladder used	735
No. of gallons of chemical used	72½
No. of gallons of foam used	17½
No. of gallons pumped from booster tanks	4,730

Assessed value of buildings involved in fire	\$ 70,700
Insurance on property	400,200
Damage to property	13,725
Insurance paid on loss	13,725
Loss not covered by insurance	330

NINETY-EIGHTH ANNUAL REPORT

Number of permits issued:

Power burners	95
Storage of oil	475
Fires in the open air	300
Fireworks	8
Blasting	2

The apparatus and appliances of this department are in good condition at the present time.

It will be necessary to shingle the roof of station No. 2 this year and both buildings should be painted.

Firemen Paul Anderson and John Boyle have attended and have been graduated from the Firemen's Drill School conducted by the Massachusetts Department of Education at Brockton, Mass.

Two other members will enroll as soon as a new class is started.

In conclusion I wish to thank the town officials and citizens for the co-operation and assistance rendered this department during the past year.

Respectfully submitted,

HAROLD L. BAILEY,
Chief of Fire Department

TAX COLLECTORS REPORT

Levies of 1932-33

Of those citizens interested in town government, and particularly in the financial side of it because they have to foot the bills, I ask a re-reading of my report for 1932 on pages 107 and 108 in last year's (1932) town book. Every statement contained in that report I repeat and re-emphasize this year.

The immense amount of outstanding unpaid taxes as of January 1, 1934, should give cause for sober reflection to every honest intentioned citizen of the town. It is one thing to vote large sums of money at town meetings, or place in the warrant articles calling for a vote on them. It is quite another when the financially over-burdened citizen and taxpayer, who wants to pay his bills, if he can, is called upon later to meet the cost of the unbridled expenditures voted at previous town meetings.

Yet so long as those who have to foot the bills do not make their influence and votes felt at town meetings, where the appropriations are made, nothing apparently except the prompt return of better times can halt the inevitable bankruptcy toward which the town is headed.

There comes a time for every tax collector when patience ceases to be a virtue. To protect himself and cover his bond he must clear his books. That time is now close at hand on the outstanding unpaid accounts of 1932. Those unable to meet their obligations, now nearly two years outstanding, should consult with the mortgagees. In cases where mortgagees are agreeable and no other possible

NINETY-EIGHTH ANNUAL REPORT

financial aid is procurable, the home owning taxpayer should without further delay get in touch with the Home Owners' Loan Corporation of Devonshire Street, Boston.

Poll and old age taxes if still due should be paid promptly. If for any good reason one is still unable to pay, the Tax Collector or Board of Assessors should be promptly advised, in which case a further extension of the time for payment may be granted, or in case of inability to pay because of absolute irretrievable poverty or any other just cause, an abatement may be granted.

In regard to the auto taxes, I have always felt that anyone who can purchase, insure, register, and operate a car, can also afford to pay the comparatively small excise tax assessed upon it. Therefore, unless abatements of payment are obtained, this tax must be paid, or will be collected.

Below is appended a summary of the 1932 and 1933 tax statement.

PUBLIC LIBRARY

To the Citizens of Randolph:

Pursuant to the provision of Article 3 of the By-Laws of The Turner Free Library, this, the fifty-eighth

NINETY-EIGHTH ANNUAL REPORT

annual report covering the calendar year 1933, is submitted, showing the condition of the trust consisting of the building, library, and funds, together with the reports of the Librarian and Treasurer and so much of the reports submitted to the Trustees by the various committees as seems of general interest.

The Library Committee reports that the books, charts, and furnishings are in good condition and that all books belonging to the library are accounted for by the Librarian.

The Building Committee reports that during the latter part of the year it appeared that substantial funds might become available under the auspices of the Civil Works Administration for repairs on the building. A survey was taken of the building's needs and estimates were made of the number of men who might be advantageously employed and the number of hours of work required. The proposal covering the project was submitted and approved by the State Board having such matters in charge and the work was done. It included repairs to a considerable portion of the slate on the top of the building, the painting of all of the exterior woodwork, the renewal of window glass which had become defective, the replacement of worn out flashings, the removal of deteriorated mortar between the stones wherever discovered, and the rejoining of the masonry in all such areas. All of the work was done by residents of Randolph on the lists of the unemployed and, aside from the benefit to the building, constituted a substantial contribution to the well being of the community.

In addition to the above, certain minor repairs were made and paid for out of the Town's appropriation.

As a result of what has been done, the building seems, so far as can be ascertained, to be in excellent condition, but no building can be assumed to be beyond the need of

TOWN OF RANDOLPH, MASS.

repairs for any future period and it would be unwise not to make a reasonable preparation for emergencies. Therefore, the Trustees ask an appropriation of \$250.00 for the current year to cover the cost of such exterior and interior repairs as may be required. One proof of the wisdom of having such an appropriation available is to be found in the fact that if it had not been possible for the Town to contribute out of its 1932 appropriation \$100.00 toward the cost of the Civil Works Administration project, it is extremely doubtful if that project would have been approved by the State Board.

The Librarian's report again shows an increase in circulation, both of books and magazines.

The Trustees record with much sorrow the death on January 12, 1934, of their associate, Mrs. Helen White Saben, who had been a Trustee of the library since January 24, 1921. By her death the library has lost a valued friend and the board a loyal and faithful member.

The Trustees take this opportunity again to express their appreciation of the painstaking and efficient services and co-operation of the Librarian, Miss Eunice L. Belcher, and her assistants, Miss Ellen P. Henry and Miss Helen C. Elden.

A copy of each of the following reports is hereunto subjoined: the report of the Librarian; the report of the Treasurer showing the investment of the funds and the receipts and expenditures of the library; and the report of the Finance Committee.

Respectfully submitted,

SETH T. CRAWFORD,

President, Board of Trustees.

Randolph, Mass., January 19, 1934.

NINETY-EIGHTH ANNUAL REPORT

REPORT OF THE LIBRARIAN

To the Trustees of the Turner Free Library:

I have the honor to submit the annual report of the Librarian for the year ending December 31, 1933.

There have been 397 books added to the Library this year, 348 purchased and 49 given, making the accession number 33,075. Forty-four well chosen children's books were given by Mrs. Seth T. Crawford, for which we are very grateful.

The circulation shows a gain over last year, 29,213 books having been loaned and 765 magazines. 354 borrowers' cards have been issued.

We have co-operated with the schools by setting aside a number of books for the use of the Stetson High and Junior High pupils. We also have borrowed many books from the Inter-Library Loan for teachers, students and members of the Child Study Club.

The Librarian wishes to thank her assistants, Miss Henry and Miss Elden, for their help and faithfulness.

A large amount of mending of the books has been done this year by Miss Henry, which has saved the expense of rebinding.

The co-operation of the Trustees in giving advice and suggestions has been greatly appreciated by the Librarian.

Respectfully submitted,

EUNICE L. BELCHER,

Librarian.

Randolph, Mass., January 8, 1934.

TOWN OF RANDOLPH, MASS.

REPORT OF THE TREASURER

To the Trustees of the Turner Free Library:

In compliance with the requirements of the By-Laws, I hereby submit the annual report of the Treasurer of the Turner Free Library:

There has been a depreciation of \$324.20 in the income of the funds the past year, five companies having omitted or reduced some of their dividends as follows:

Consolidated Gas Company	\$13.20
California Packing Corp.	80.00

Treasurer.

Randolph, Mass., January 8, 1934.

REPORT OF THE FINANCE COMMITTEE

To the Trustees of the Turner Free Library:

Your committee on finance submits the following report:

The committee has audited the accounts of the Treasurer for the year 1933, and found them correct. All moneys received have been duly accounted for, and no moneys have been paid out except upon vouchers properly approved.

The committee has examined, also, the securities rep-

TOWN OF RANDOLPH, MASS.

resenting the investments of the funds of the Library, and has found them to be intact, and as represented.

No changes have been made in the investments of the funds the past year. \$1,000.00 was transferred from Randolph Trust Company checking account to the Randolph Savings Bank.

Respectfully submitted,

RAYMOND L. MASON,
Chairman.

Randolph, Mass., January 8, 1934.

Report of the Board of Health

To the Citizens of the Town of Randolph:

The Board of Health respectfully submits its report for the year ending December 31, 1933:

The Board of Health has inspected all stores and places where food and other goods are distributed, and has found them clean and safe for the sale of their goods. Sanitary conditions were up to the regulations of the Board.

In regard to the health conditions of the town—there were not as many contagious cases as in the year previous, due, doubtless, to the anti-diphtheric inoculation of over three thousand children. The treatment was administered by the physicians and nurses of the town, and by the State physicians. We wish to express our thanks to the doctors and nurses of our town who gave their time and work for the same.

The Dental Clinic was a success, while funds were available, but we need more money to continue this work, and thus combat one of the most important hindrances to public health.

We ask the people of the town to appropriate more money for cases which we are obliged to send to the hospital. The Board well knows it has been a year—I should say years—of depression; however, the fact remains that we have had more cases of hospitalization during 1933 than

TOWN OF RANDOLPH, MASS.

ever before. No one knows what will happen during 1934, but please give us enough to do what is needed for the good of the people of the town to keep sickness down!

Communicable diseases during the year 1933 were as follows:

Tuberculosis	14
Scarlet Fever	42
Dog Bite	15
Chicken Pox	10
Measles	12
Mumps	3
Typhoid	1
Poliomyelitis	1

No cases of diphtheria were found in the whole year.

Following is the list of licenses given during the year 1933:

Milk	82
Oleo	1
Alcohol	14
Hairdressing, Manicuring	11
Cesspool cleaning	3
Piggery	12
Pasteurization of Milk	1
Slaughter house	1
Undertakers	3

ARTHUR L. MANN,
WILLIAM M. COLBY, M. D.
WILLIAM E. BUCK, M. D.

NINETY-EIGHTH ANNUAL REPORT

REPORT OF MILK INSPECTOR

Randolph, Mass., January 5, 1933.

Board of Health,
Randolph, Mass.

Gentlemen:

I herewith submit my report for the year ending 1933:

Milk Licenses issued	82
Oleomargarine Licenses issued	1

Total Receipts:

Milk Licenses	\$82.00
Oleomargarine Licenses	.50

Beginning in June 1933, the milk license fee was advanced to \$1.00.

Respectfully submitted,

WILLIAM MAHADY,

Inspector of Milk.

TOWN OF RANDOLPH, MASS.

REPORT OF THE INSPECTOR OF SLAUGHTERING

Herewith is my report for the year ending December 31, 1933:

Inspected	416 heads
Passed	408 heads
Condemned	8 heads
	<hr/>
Total	416 heads

The 416 heads are classified as follows:

Hogs	376
Neat Cattle	14
Calves	17
Goats	4
Sheep	5
	<hr/>
	416 heads

I also inspected 12 sets of livers and lungs.

WESTON L. MANN,

Inspector

Report of the Water Commissioners

To the Citizens of the Town of Randolph:

The forty-eighth annual report of the Water Commissioners is herewith submitted for the year ending December 31, 1933.

Organization of the Board of Water Commissioners for the year 1933 was effected as follows:

John B. McNeill.....	Chairman
Richard F. Forrest.....	Superintendent
Frederick D. Driscoll.....	Clerk

During the past year 24 new services were connected.

For the year 1933 we repaired 17 service pipe leaks; repaired 7 leaks on 6 inch mains; repaired 7 leaks on 14 inch mains; repaired 1 leak on 12 inch main; 36 services pumped and cleaned; renewed 8 services from main to street line; meters were installed on 51 services, bringing the total number of meters now in use to 1,369; repaired 3 main gates; 7 main gate boxes raised to grade; 2 hydrants broken, 2 hydrants re-located; 3 hydrants raised to new grade; 3 hydrants repaired with new bases.

Installed new 2 inch copper pipe main on westerly side of North Main Street from end of 8 inch main, opposite Billings Street to Johnson's Ice Cream Parlor, a distance of 750 feet, labor furnished by Welfare Department, material in part by the abutters; this connection supplying water to 2 families, 2 filling stations, 1 riding school and at 3 other business places.

TOWN OF RANDOLPH, MASS.

A new gasoline diaphragm pump for the use of the Department in draining the trenches while repairing leaks has been purchased.

All machinery at the Pumping Station seems to be in very good condition except the engine of our Epping-Carpenter Pump, which will need repairing before the heavy pumping season is due. No other extensive repairs needed this year so far as we know.

Standpipes were cleaned and painted inside and out and will probably need no outlay in the near future.

Until the people of Randolph and Holbrook are convinced of the need of filter beds for the protection of the waters of Great Pond, used by these towns, we will be obliged to get along with chlorinating the water.

One of the chlorinators at the station was in such condition that it was not worth the cost of repairs. We have ordered from Wallace & Tiernan of Newark, N. J., a new vacuum type MSVM chlorinator. As nearly as we can find out this is the most exact and up-to-date chlorinator produced. We have also ordered one of the very latest outfits for testing the water. With our new testing outfit it will be possible for the engineer to test the water as often as desirable and to know the exact amount of chlorine to inject into the water. This should insure the water being safe for drinking purposes. The new chlorinator will probably be installed before you read this report. Our other Wallace & Tiernan chlorinator will be repaired and kept as a standby unit.

The expenditures of the Water Department will be found in the Town Accountant's Report.

Outstanding water rates will be found in the report of the Water Collector.

Largest day's pumping—July 29, 1933: 1,652,130 Gallons.

Largest week's pumping—Week ending July 1: 7,928,486 Gallons.

Respectfully submitted,

JOHN J. McNEILL,

Engineer.

NINETY-EIGHTH ANNUAL REPORT

TOWN OF RANDOLPH, MASS.

RULES AND REGULATIONS

The following regulations, until further notice, shall be considered a part of the contract with every person who uses water:

1. All applications for use of water must be made at the office of the Water Commissioners, and state fully the purposes for which it is intended to be used. Water will not be introduced to premises except on the written application of the owner thereof, or by a duly authorized agent. The property will in all cases be held responsible for the water rates.

2. All persons taking water must keep their water pipes and fixtures in good repair and protected from the frost at their own expense. They will be held liable for all damages resulting from their failure to do so. They shall prevent all unnecessary waste, and water shall not be left running to prevent freezing. The Water Commissioners or their agents may, from time to time, ascertain the quantity of water used, the manner of its use, and whether there is any unnecessary waste. They and their agents shall have free access to the premises supplied, to examine the apparatus, and if any fixtures are found not to be in good order, they shall direct them repaired, and if not repaired within two days the water shall be shut off and not let on again until such repairs are made, and the sum of two dollars paid for shutting off and turning on the water.

3. The occupant of any premises, when unnecessary waste of water occurs, shall be liable to a fine of two dollars for the first offense, and four dollars for the second

offense during the same year, and shall be notified thereof in writing; and if such waste is not prevented and the aforesaid fines paid within two days from the time when the said notice is given, the water shall be shut off the premises, and shall not be again let on for the same occupant until waste be stopped and the fine paid, together with an additional sum of two dollars for shutting off and letting on the water, and in case of a third or subsequent offense the water shall be shut off, and shall not again be let on except by a vote of the Water Commissioners and the payment of such fine, not exceeding ten dollars, as the Water Commissioners may impose.

4. Any person supplied with water shall not allow another to take water from his fixtures without the written permission of the Water Commissioners. If a tenant has no fixtures, he will be charged full rates for any use which he makes of the fixtures of another.

5. All parties using water in stables, for horses or other animals, will be charged scheduled rates for the same, whether it be carried by hand or through hose.

6. All persons using water for building purposes are required to obtain a permit from the Water Commissioners before taking water from any faucet or fixtures connected with the water works, and all water takers are warned not to let any party take water from their premises until they show a permit from the Water Commissioners. Any person furnishing water in violation of this section will be subject to a fine of not less than five nor more than twenty dollars, and if the same when levied is not paid within three days from the time when the notice thereof is given the water will be shut off from the premises and will not be let on again until such fine is paid.

NINETY-EIGHTH ANNUAL REPORT

7. All fixtures and water closets and urinals must be of a kind and quality approved by the Water Commissioners, also a vacuum valve must be installed on all pressure range boilers connected with the system.

8. No person shall in any case be allowed to open any fire hydrants except by a written permit from the Water Commissioners; but the Engineers of the Fire Department shall in all cases have control of hydrants at fires and for practice.

9. The Commissioners reserve the right to restrict the use of hose or fountain, to shut off the water in all cases when it becomes necessary to make extensions or repairs, or for violations of any of the regulations, or whenever they deem it expedient.

10. The regular rates for the use of water shall be payable in advance on the first days of January and July of each year, except where water is supplied to manufacturers by special agreement. In all cases of non-payment of the water rates within ten days after same is due, as well as for any violations of these rules and regulations, the supply will be shut off, and payment of the amount due, and payment of two dollars for shutting off and letting on the water, shall be made.

11. The Water Commissioners reserve the right to change the water rates at any time except in cases of dwelling houses and established special rates.

12. For business requiring large quantities of water, and all supplies not enumerated in the tariff of rates, special rates will be made.

13. Parties using water for manufacturing or domestic purposes can erect hydrants on their grounds or standpipes in their buildings to be used only as a protection against fire without additional charge for water.

TOWN OF RANDOLPH, MASS.

14. All applicants for the introduction of service pipes to premises are required to make written application therefor at the office of the Water Commissioners.

And in no case will the main be tapped more than once for the same premises, unless the additional expense is borne by the owner.

Charged as follows:

The following water rates are established until further notice:

No connection made with the main for any purpose for less than	\$6.00
---	--------

Dwelling Houses

Occupied by one family, for the first faucet	6.00
Each additional faucet to be used by the same family	2.00
Two or more families occupying one house, one faucet for all, each family	5.00
One faucet for each family	6.00
For first bathtub	5.00
If used by more than one family in same house, each family	4.00
Each additional bathtub	2.00
For first pan or self-acting watercloset	5.00
If used by more than one family in same house, each family	4.00
Each additional pan or self-acting water closet	2.00
Where two faucets are used, one for hot and one for cold water, emptying into the same basin, only one charge will be made for both.	
Laundry tub	3.00

NINETY-EIGHTH ANNUAL REPORT

Hose

For sprinkling streets, washing windows and similar uses, $\frac{1}{4}$ -inch nozzle, to be used only on premises and street opposite, not exceeding two hours per day for six months in the year 5.00

For any use not herein enumerated, special rates will be made.

Meter Rates payable at Time of Reading.

For not over 133 cubic feet average per day, per 100 cubic feet .23

For over 133 cubic feet and not exceeding 266 cubic feet average per day, per 100 cubic feet .19

For over 266 cubic feet average per day .15

Provided that in no case where a meter is used shall the annual charge be less than \$7.00.

Meters may be supplied by the Water Commissioners for which annual rental will be charged as follows:

Size $\frac{5}{8}$ -inch	\$1.00 per year
Size $\frac{3}{4}$ -inch	\$1.00 per year
Size 1-inch	\$4.00 per year
Size 2-inch	\$6.00 per year

All needed repairs, damages by frost and heat excepted, will be made at the expense of the town.

JOHN B. McNEILL,
RICHARD F. FORREST,
FRED D. DRISCOLL,

Water Commissioners.

REPORT OF THE HIGHWAY SURVEYOR

To the Citizens of the Town of Randolph:

The Highway Department of the Town of Randolph respectfully submits its report for the year ending December 31, 1933:

During the year 1933 the Highway Department had an appropriation of \$9,500.00, which is one of the smallest appropriations that has been made in years; out of this amount, \$500.00 was set aside for Special Articles such as drainage, etc.

The usual spring work—such as cleaning catch basins, gutters and repairing fences, street signs, etc., was accomplished as formerly.

The Town, at the present time, has 72 streets which have to be maintained, besides drainage; the above work all had to come out of this appropriation.

The streets are being kept in good condition, both winter and summer.

Out of the \$9,500.00 appropriated, \$5,181.77 was applied to labor, \$1,667.87 for trucks and the balance for material and repairs.

In comparing past years' expenditures, I feel gratified to observe that a larger proportion of money under my control has gone for labor than for material.

Relative to the condition of our roads in winter, it has afforded me great pleasure to have been advised by the

NINETY-EIGHTH ANNUAL REPORT

motoring public that the Town of Randolph has the best cleared roads of any town or city within a radius of several miles.

Owing to the present severe winter, the appropriation allowed me was insufficient to keep the roads properly cleared—therefore I was forced to create an overdraft for snow removal.

At the present time, I am working on specifications for sidewalks on North Main Street, starting at the Square and running northerly to the railroad bridge, and sincerely hope that the citizens will vote an appropriation for this work. I expect the labor part will be furnished by the C. W. A., but the Town will have to pay for some of the material.

Thanking you for your past (and, I hope, future) co-operation, I am,

Respectfully yours,

JOHN. A. FREDERICKSON,

Highway Surveyor.

Report of the School Committee

To the Citizens of Randolph:

The School Committee hereby submits its Annual Report for the year ending December 31, 1933, details of which are contained in the appended Report of the Superintendent of Schools and the Reports of the various Departments.

Continuing the work of last year your Committee has made every endeavor to use to the fullest extent the Welfare Labor of the Town, in grading, cleaning and repairing School buildings and grounds. The School Committee wishes at this time to thank the Board of Selectmen for their kind cooperation, the Highway Surveyor and the Superintendent of the Water Department for their kind assistance, which, always given willingly, must, nevertheless, have been given at great personal inconvenience. That the men assigned to this Department by the Welfare Board, to be placed at work, have given to the Town honest labor in return for aid can be verified by any citizen who will take the time to visit the various projects and inform himself of the results accomplished.

At the High School grounds much work has been done on surface drainage and improving the Ball Field. Some five hundred feet of blind drain has been laid and the Ball Field has been extended at the left and center field; all of this work has been accomplished with the aid of labor assigned to this Department by the Board of Public Welfare.

This Department has been fortunate in securing a Civil Works project for the purpose of draining the swamp at the rear of the Ball field and for surfacing the lot at the

NINETY-EIGHTH ANNUAL REPORT

northerly side of the High School building. A stone culvert 2'-0" wide and 2'-0" high and five hundred and fifty feet long has been built with catch basins, etc., together with some eleven hundred feet of blind drain. We have been granted an extension to this project and it is the purpose of this Committee to endeavor to secure additional extension until the work is completed. The high land on that part of the School lot along Highland Avenue is to be cleared and a much needed additional Ball Field is to be developed in that section of the field.

At the last Annual Town Meeting provision was made for the addition of two rooms to the Belcher School building. This Committee acting as Architect and Master Builder carried the project to a conclusion endeavoring to have all labor performed by local men and to purchase all supplies wherever possible from local dealers.

Some slight changes were made in the plans of this building as printed in our Report of last year. It was decided to construct a fireproof stair hall, and fireproof stairs with a new entrance toward the West. It was also decided to build a new boiler room and chimney. The building is arranged so that an additional two rooms may be added with a new fireproof stair hall and stairs on the Northerly side of the building with new entrance toward the West similar to the present addition. With the aid of the men assigned to this Department by the Welfare Board we have been able to complete the work, notwithstanding, that the entire boiler room was blasted from solid ledge. The equipment of the building, however, and the alterations of the old building, your Committee was compelled to finance from the current funds of the School Department.

It will be necessary to install in this building a new boiler to replace the present old and undersized boiler.

TOWN OF RANDOLPH, MASS.

Your Committee hopes, however, that with some care and extra attention the old boiler may be made to serve the needs of the building for a few more years, but the necessity is imminent and the problem will have to be faced in the near future.

The old portable building in the yard of the Belcher School has been purchased by Mr. Orin E. Reynolds and has been removed from the lot. The yard has been levelled to give additional play space.

NEW ADDITION TO THE BELCHER SCHOOL

Following is a statement of the cost of the Belcher School addition and alterations:

Belcher School Addition

William Hawkins, labor	\$132.37
John Dawe, labor	114.90

	\$2,365.48

NINETY-EIGHTH ANNUAL REPORT

This building is now being occupied to within fourteen pupils of its capacity, which is 280 pupils.

Last year your Committee recommended the purchase of the lot of land located on the corner of Belcher Street and School Lane and the closing of that section of School Lane within the bounds of the Belcher School property to public traffic. To quote from our Report of last year, "We believe this School Lane to be a source of great danger to the children attending the Belcher School. It is inevitable that serious accidents may be caused by automobiles swinging out of Belcher Street up the steep incline into School Lane."

Your Committee still believes School Lane, so called, to be a source of danger to the children attending this School, cutting through the school yard, as it does, with playgrounds extending across the street into the grove on the opposite side; your Committee feels that if it were not for the eternal vigilance of the teachers, serious accidents would be unavoidable.

In the early part of the school year, after much study of the problem, this Committee held two joint meetings with the Planning Board and the Board of Selectmen with a view to applying for Federal funds for additional School accommodations.

It was voted to call a Special Town Meeting and present the questions to the people for their decision.

For the purpose of informing the voters of the Town of the needs for the additional class room space, your Committee printed and distributed on November 20, 1933, a special Report which we reprint below.

"Your School Committee is submitting this report on schoolhouse construction for your careful reading and consideration.

TOWN OF RANDOLPH, MASS.

"There is need for additional school accommodation. The Federal Government through its Emergency Act, in order to create jobs locally, and to stimulate business in general, proposes to loan money to municipalities for such needs and construction. The government will pay 30% of such costs so that the town will not be obliged to raise money for this construction for some three years. At the end of that period the town will pay the remaining 70% of the cost at 4% interest over a period of 17 years.

"The school population of Randolph has jumped consistently each year as your chart shows. In the event the town does not wish to avail itself of this proposition under the Emergency Act, additional school accommodations will still be needed and must be provided. This being the case the town will be obliged to pay the whole cost alone as in former years.

"This chart shows the increased number of children, number of school teachers and the average number of pupils per teacher in our public schools, grades one to twelve.

Year	HIGH SCHOOL				GRADE SCHOOL		
	Teachers	Pupils	Pupils per Teacher	Teachers	Pupils	Pupils per Teacher	Total No. of Pupils
1920	7	156	22.29	18	759	42.17	915
1921	7	182	26.	18	808	44.9	990
1922	7	194	27.7	21	869	41.38	1063
1923	8	215	26.88	23	952	41.39	1167
1924	10	215	21.5	24	962	40.08	1177
1925	10	227	22.7	27	958	35.48	1185
1926	10	230	23.	27	1027	38.04	1257
1927	10	214	21.4	28	1084	38.71	1295
1928	10	252	25.2	28	1116	39.86	1368
1929	10	252	25.2	32	1201	37.53	1453
1930	10	288	28.8	35	1256	35.71	1544
1931	13	338	26.	38	1335	37.76	1673
1932	14	393	28.07	37	1327	35.86	1720
1933	15	417	27.8	37	1378	37.24	1795

NINETY-EIGHTH ANNUAL REPORT

Chart showing number of teachers, number of children and average number of children per teacher in each school building.

Name of School	Teachers	Pupils	Pupils per Teacher
Stetson High School	15	417	27.8
Stetson Junior High	2	70	35.
Prescott and Prescott Primary	13	489	37.61
Prescott Special Class	1	9	9.
Belcher School	7	266	38.
Charles Gabriel Devine School	10	410	41.
Daniel Joseph McNeill School	2	66	33.
Tower Hill School	2	68	34.

"On the basis of the above charts and survey it is apparent that the school population places an extra demand on the Prescott and Devine School districts. Stetson High School building has already reached its maximum accommodation so that the two remaining eighth grades now in that building will have to be removed in the Fall of 1934 in order to make room for the regular four-year high school. As these two eighth grades are composed of pupils living in the Prescott district, they should therefore be accommodated in that district.

"The plan therefore which your School Committee proposes for your consideration is outlined below:

Prescott School:

Add six class rooms and modern toilets to the present grammar school, making it a modern J. H. school of ten rooms to house some 450 pupils.

Devine School:

Complete one of the two wings which were originally planned for this building thereby adding four class rooms and basement to the present structure.

TOWN OF RANDOLPH, MASS.

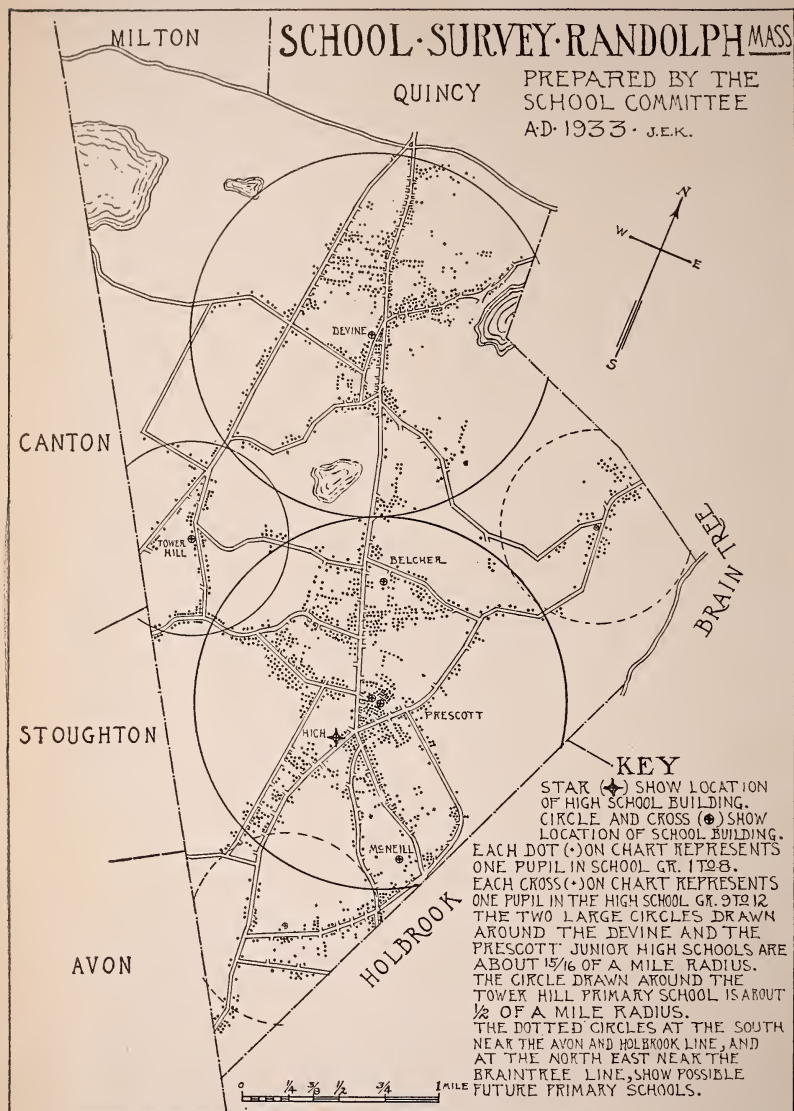

This will provide accommodation in this school for some five to six years at the present rate of increase.

"The cost of these two additions will be \$75,000 at 4% interest, distributed between the Federal Government and the Town of Randolph over a period of twenty years as shown by the following chart:

Year	Paid by Town of Randolph	Paid by Federal Government
1934	\$0,000.00	\$6,750.00
1935	0,000.00	6,600.00
1936	.0,000.00	6,450.00
1937	3,600.00	2,700.00
1938	6,150.00	
1939	6,000.00	
1940	5,850.00	
1941	5,750.00	
1942	5,550.00	
1943	5,400.00	
1944	5,250.00	
1945	5,100.00	
1946	4,950.00	
1947	4,800.00	
1948	4,650.00	
1949	4,500.00	
1950	4,350.00	
1951	4,200.00	
1952	4,050.00	
1953	5,900.00	

"It is to be hoped that you will attend the Special Town Meeting to be held on Thursday evening, November 23rd and express your approval or disapproval of this recommendation."

NINETY-EIGHTH ANNUAL REPORT

TOWN OF RANDOLPH, MASS.

Your Committee regrets very much the failure of the voters to take advantage of the opportunity offered by the Federal Government, not only because there would be no expense incurred by the Town until the year 1937, but because we still have the problem with us, and at the present rate of increase, notwithstanding the proposed reopening of the old two room building at North Randolph, additional accommodations will be very much needed before that date and the Town will be compelled to face the problem in a time of higher price level unassisted by outside aid.

With the present High School overcrowded and with a graduating class from the High School of 78 and a graduating class of 161 from the Junior High School to be registered into the High School in the Fall, it will be seen that if only one-half of this increment is added to the registration of the High School in the Fall of 1934, it will be necessary to remove the two eighth grades from the Stetson High School Building, giving that building over entirely to the ever growing classes of the four grades of the Senior High School.

Where shall these two eighth grades be housed? Accommodations will have to be found at the Prescott and at the Devine Schools.

With this in view, your Committee proposes renovating the old two room building at North Randolph to make it habitable for classes in the Fall of 1934. Your Committee hopes to secure a Civil Works Project covering the labor necessary for these repairs.

But in the event of our failure to receive Civil Works aid, it will become necessary to ask for an appropriation of funds at the forthcoming Town Meeting to cover these repairs. It will also be necessary to increase our budget by an amount sufficient to cover janitor service, heat, light, etc. at this building.

NINETY-EIGHTH ANNUAL REPORT

It is the purpose of this Committee to endeavor to secure a Civil Works Project for repairs and painting in all of our School buildings. This project has been presented to and has been approved by the Civil Works Administration, but owing to the lack of funds it has been deferred until a further appropriation for Civil Works is passed by Congress. This project will relieve the Town of the expense of repairs and painting of School buildings and will enable your Committee to make a more extensive and thorough job than would otherwise be possible.

Your Committee wish once again to stress the great need of a Dental Clinic for the purpose of our pupils. Nothing which your Committee could say would over estimate the importance of this work. Last year a very modest start was made.

It is hoped that the citizens of Randolph may see the great necessity for this service, especially since present economic conditions make the burden too great to be borne individually by the parents of a great number of our children. Your Committee recommends that a substantial appropriation be made for this work, in a separate article, under the Board of Health.

We deeply regret the loss by death of one of our faithful teachers, Constance B. Dolan. Her pleasing personality and keen interest in her pupils won for her an enviable reputation among parents and pupils.

— IN MEMORIAM —

CONSTANCE B. DOLAN

Teacher

Charles G. Devine School

TOWN OF RANDOLPH, MASS.

In preparing a Budget for the year 1934, your Committee is aware that matters of municipal finance are of very serious concern in these times and that all estimates and budgets must of necessity be scrutinized with care.

While your Committee realize the seeming injustice of withholding the automatic increase from young teachers who have not reached the maximum salary, we feel that present economic conditions would not justify salary increases this year.

We hope that it will not be found necessary to further curtail the proper maintenance and upkeep of this department.

A glance at the table of costs of operating our Schools as compared with the operating costs of neighboring towns which is printed in the appended Report of the Superintendent of Schools, will show at a glance no extravagance in the operation of our schools.

Following is a summary of estimates for the year 1934:

Teachers salaries	\$74,159.01	
Superintendent's salary	1,519.92	
Truant officer	250.00	
Nurse	1,350.00	
Physician	700.00	
Superintendent's clerk & bookkeeper	320.00	
Janitors salaries	7,140.00	
Annual census	125.00	
	<hr/>	
Total salaries		\$85,563.93

NINETY-EIGHTH ANNUAL REPORT

Equipment	\$1,875.00	
Repairs, replacements, renewals	3,560.00	
Fuel	2,409.00	
Books & Supplies	4,000.00	
Transportation	3,300.00	
Trade and Continuation School	3,000.00	
Superintendent's expense	175.00	
School Committee expense	100.00	
General expense	2,970.00	
	<hr/>	21,389.00
Total Expense		<hr/> \$106,952.93
Less Dog tax	813.79	
Less Coddington Fund	67.08	880.87
		<hr/>
Total		\$106,072.06

We respectfully ask that the above be appropriated as two items, one as Salaries and the other as General Expense.

Following is a summary of money received by the Town as reimbursements for School Expense:

General School Fund Part 1	\$22,720.55	
Tuition, State wards	3,032.47	
Tuition, City wards	1,850.77	
High School tuition, John Mulhall	22.54	
Trade School	1,555.67	
Cash paid to Town Treasurer	17.00	
Sale, Belcher Portable Building	50.00	
	<hr/>	29,249.00

TOWN OF RANDOLPH, MASS.

Deducting this amount from
our total esetimated budget leaves a
total cost for support of all schools
from local taxation for the year
1934

\$76,823.06

It will be interesting to note with a registration of 133
pupils less than the present registration the cost for the
year 1932 from local taxation was \$77,822.92.

Respectfully submitted,

JOHN E. KELLEY, Chairman,

WILLIAM S. CONDON.

FREDRICK E. CHAPIN.

Report of the Superintendent of Schools

To the School Committee of Randolph,
Mr. Chairman and Members:

I wish to submit herewith my annual report of the public schools of Randolph.

The present economic depression bids fair to be something of the past. There were days therein when the fog of financial distress seemed to obscure and question the very foundation of our social order. Every known and imagined cause for the disturbance was advanced. Remedies were "sold" to the public daily. Business and institutions were challenged and not the least of these, the American Public School System.

It is a matter of local history to which we point with pride that the citizens of Randolph last year took their stand in the support and maintenance of their public schools. Despite powerful activities of certain financial interests the country over to focus publicity and criticism of school expenditures, parents and citizens of Randolph refused to sell their childrens' right to an education for the mistakes of worthless bonds, high-pressured salesmanship and wretched business and real estate investments which these interests then proposed to take out on the school children.

Need it be said again that no government can endure without an adequate system of public school education? An educated citizen is our greatest asset and our greatest

TOWN OF RANDOLPH, MASS.

strength. When the history of this depression is clearly written and well-balanced, it will be found that the "way out" was made easier and with a minimum list of difficulties and a maximum period of security because of peoples' investment in their public schools was not in the red but proved conclusively that it yielded vast dividends at a time when the nation was in need and depended upon its people for sober and constructive thinking.

The cost of maintaining our schools is relatively low. Your superintendent has received inquiries from other school departments relative to our low per capita cost. They ask if our school appropriation is not augmented by some private funds or school endowments. It is generally known to the citizens that we do not have such endowments save a small book-fund yielding annually a sum considerably under one hundred dollars.

Cost Comparison With Neighboring Towns

(Taken from Nov. 1933 Report, Mass Dept. of Education)

Town	Enrolment	Cost per pupil Av. Membership	Cost per pupil Net Av. Membership
Canton	827	\$103.03	\$105.69
Abington	1231	77.02	78.68
Rockland	1579	70.92	72.04
Stoughton	1599	72.95	75.18
RANDOLPH	1709	59.10	62.73
Braintree	3916	80.25	80.30
Average cost for 83 towns		86.25	87.90
Average cost for the State		95.54	—

ENROLMENT

Increased enrolment bears directly on the cost of education. Our total enrollment of 1795 pupils—ten less than

NINETY-EIGHTH ANNUAL REPORT

our maximum registration—is an increase of 75 pupils over last year. This number was absorbed in the various schools at the cost of transportation. To take care of a normal grade-school increase next year means the reopening of the two-room North Randolph school with the added expense of equipment, furnace, fuel, light and janitor service.

In the high school, 78 pupils will graduate and 161 will enter, making an enrolment next September according to our present figure of about 500. Both of the 8th grades in the Stetson building will have to be housed in the Prescott grammar building with a rearrangement and distribution of pupils throughout the schools.

It is not a pleasant topic in these days to be constantly referring to increased enrolment and more school accommodation. It cannot be helped. Another way out of the dilemma might be to organize a half-day session for certain classes next September or limit the entering class in the grades by raising the school age for grade I. Both are poor substitutes for school purposes and very undesirable to parents and school officials alike.

I regret that the Special Town Meeting of last December voted down the plans of the School Committee to take care of this very real school-house problem. It is hoped that the town may see its way clear to reconsider some constructive plan to the end that pupils may be properly accommodated and attend the home-school in their district.

I wish to repeat certain statements in my last year's report relative to enrolment, high school work and college requirements.

In common with the practices and results of the N.R.A. on high school enrolments, we are faced with the so-called "uninterested" pupils who are obliged to re-enter our schools because of their age and lack of employment.

TOWN OF RANDOLPH, MASS.

Formerly, the trades absorbed such pupils between the ages of 14-16 but the schools are now obliged to carry the load. Should this situation prove to be something of a permanent nature it would greatly interfere with our present curriculum to the end that school costs will rise to conform to the demand of the non-academic pupil who has also the right to an education suited to his needs and ability. A change in the curriculum is nevertheless coming. It may prove of such high educational value that both State and Federal funds may be available to augment additional expenditures.

It must be brought home to the parent as well as to the pupil that college requirements and qualifications are determined and fixed by colleges and not by the local school board. It is regretable that our secondary school education should be so dominated. The smaller the high school the more difficult it becomes to prepare students for higher institutions, and yet keep in mind the needs of students who are not going beyond the local school. Both are equally considered and both have succeeded as graduates of our high school. Crowded colleges, however, are raising entrance requirements and are making it more and more difficult for students to enter. The emphasis is marked scholarship—it always has been. Whether you agree with this or wish to take issue with promoters of such qualifications, scholarship attainment in the secondary school will be retained, and a student who is seriously planning a college career must first put himself to this test.

ADULT EDUCATION

The evening classes for adult education sponsored by the Federal Emergency Relief Administration in education met with an early response.

NINETY-EIGHTH ANNUAL REPORT

Three classes were organized, commercial, arts and crafts and physical education, with a total enrolment of 115 young men and women. This large membership of serious-minded young people is a direct answer to the proper use of leisure. Instruction is sought along two lines namely: those wishing to improve or brush up in their own particular field of work and those seeking to develop their talents along entirely new lines of activity.

Teachers

Margaret Forrest, Commercial
Helen Brennan, Arts and Crafts
David Leavitt, Physical Education

NO-SCHOOL SIGNAL

Suspension of school activities due to weather conditions is influenced by two factors: health and safety of school children and the cost to the town and schools because of the interruption. Closing of schools on severe days is unquestioned. There will be days when schools are in session because weather conditions are not severe enough to cause a complete shut-down of all activities. On such days, parents, as in former years, determine whether their children shall attend. This method for years has worked out satisfactorily for both home and school and in its operation has proved flexible enough to allow those who wish to attend and yet at the same time place no undue burden on those who find cause to remain at home.

BELCHER SCHOOL

The very creditable addition to the Belcher School made last summer has greatly facilitated our work here. The construction is modern and substantial and bids fair to be the forerunner of a completed school in this district with modern equipment and ample playground accommodation.

TOWN OF RANDOLPH, MASS.

This work done here, as on the high school field and elsewhere, is ample proof that work done under the local Civil Works Administration has been thoroughly executed. All projects undertaken and completed represent permanent improvements and money well spent and invested.

TEACHERS AND PUPILS

Cooperation between teachers and pupils has been most commendable. From Mr. Gilgan's senior school to the primary grades there is a spirit of work and a determination to make the Randolph schools, good schools and Randolph a good place in which to live.

Aside from the regular classroom activities, teachers are organizing the forces for good among the pupils into bands of clubs for citizenship training and the promotion of such qualities as go to build up character.

In the midst of our daily routine there comes at times a halt and realization that one in our ranks has completed his work among his fellow men. This year we lost by death, Constance B. Dolan who for a number of years served as teacher of the primary grade in the Devine School. Her quality of teaching and deep interest in children have left their marks on her pupils—such worthwhile contribution in a public service will move on and never halt.

DENTAL CLINIC

I hesitate to recommend expenditure of public money this year but the good every dollar does, expended on the teeth of our needy pupils, would warrant a larger appropriation for more effective work.

The constructive work of the Board of Health and the local Red Cross in this service is most praiseworthy.

NINETY-EIGHTH ANNUAL REPORT

COOPERATING ORGANIZATIONS

It would take pages to record here the many and detailed services rendered to our pupils and homes by local organizations. Randolph is fortunate, indeed, to have so many active societies who are interested in their own activities but more interested in the welfare and problems of their neighbor and those in need.

Whatever improvements we have made this year and whatever credit we may humbly assume in this public service of education we owe to the kind and sympathetic advice and counsel of the school committee.

Respectfully submitted,

A. O. CHRISTIANSEN,

Superintendent of Schools.

TOWN OF RANDOLPH, MASS.

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts

Dear Sir:

Herewith is submitted the report of the High School for the year 1933.

Enrolment

The fact of an increased enrolment is not new either to this or other high schools. A high school education is now considered a desirable thing. Where pupils once would leave school at the end of the eighth grade, they now continue on through the twelfth. It is this fact which is now presenting a serious problem.

The following figures, showing the high school enrolment by years, are significant:

Year	Enrolment
1927	200
1928	252
1929	244
1930	286
1931	334
1932	303
1933	418

We should, in the light of these figures, view with concern the situation which will confront us next Septem-

ber. Graduation will reduce our numbers by 78 pupils. Our total membership of 418 less 78 seniors. Next year's entering class will bring into the school 161. This will bring our total enrolment to 501, approximately 83 more than we have today. Of course, some pupils will drop out, but this number will be offset by new members moving in together with tuition pupils. What to do with the increase is problematical. The two eighth grade divisions now housed in the high school could be transferred elsewhere, if accommodations can be found. The removal of one eighth grade division last September alleviated our crowded condition somewhat, but we will soon face a similar situation.

Faculty

Due to the resignation of Miss Mary Sullivan, Mr. R. Prunty MacGerrigle was appointed to the English department; and one new teacher added to the staff, Miss Ruth Moody, who was assigned to the Commercial department to relieve congested conditions. Other than these two, the faculty was returned without change. This brings the number of teachers, including both full and part time, to sixteen, exclusive of the principal. This means that the membership of the school to teachers does not exceed the limit of the thirty pupils per teacher as set by the state department.

Size of Classes

Section six of the regulations for approval of high schools issued by the state department of education says: "In schools of fewer than two hundred pupils, not over fifty percent of the classes in the school shall contain more than twenty-five pupils each, and not over twenty-five percent of the classes shall contain more than thirty pupils each." Although our school is out of the two hundred

TOWN OF RANDOLPH, MASS.

pupil class, the proportion of large-size classes should hold. The average high school class should be twenty-five pupils. Following is the situation in our school:

Size of classes	Number of classes
1-10 pupils	6
11-15 pupils	7
16-20 pupils	18
21-25 pupils	26
26-30 pupils	18
31-33 pupils	2

These large classes make difficult the individual attention necessary for first class college preparatory work, and although the number is not too large, limited facilities prevent further division. This situation is further aggravated by the fact that every recitation room is filled up with study pupils, due to the fact that there is no study room available for the purpose.

Higher School Records

It is a common practice for colleges and higher schools to report back to high school principals the ranks achieved by the first year pupils at the end of the first semester, and for these records, the high schools which certify these pupils are accountable. From such reports that are available at this time, Stetson High School graduates of 1933 have received 8 A's, 21 B's, 5 C's. The distribution of pupils of the last graduating class is as follows:

	College	Normal	Business School	Special	Post Graduates
Boys			3	3	1
Girls	2	2	1	5	2
	—	—	—	—	—
Total	2	2	4	8	3

NINETY-EIGHTH ANNUAL REPORT

The Purpose of the High School

In the past, and even today the primary purpose of the high school is to prepare for college, yet the records of most schools will show that proportionately few pupils who enter high school go to college. Since so much money is spent on high schools, it is logical to assume that we should serve effectively a larger proportion of pupils than we really do. We have here in the high school, many who do not plan to go to college and many who are not fitted for college work. We should not neglect for the sake of a few, this large number, rather we should seek to provide facilities for them along other lines. We should give them the chance to discover for themselves something about their individual aptitudes and abilities. Many boys have unlimited latent possibilities in the manipulation of tools and appreciation for mechanical relationships. They should be given training accordingly. Better opportunities should be given girls for instruction in household arts and management. Sewing is now available, but in the near future we would like to see an adequate course in shop work for boys and a complete course in household arts for girls, for we should assume the obligation of educating **all** the pupils that they may become more useful and desirable citizens.

Physical Education

To comply with the state requirement for compulsory physical education for all, we have this year made a beginning in this phase of school activity. It is required of all pupils, unless excused by the proper authorities, that they take physical education two periods a week. The girls are under the direction of Misses Mary Connors, Mildred Sullivan and Dorothy Gavin of the Faculty; the boys are supervised by Mr. Whitney, and Mr. Powderly, also of the faculty. Mr. Daniel Leavitt and Mr. Lloyd French

TOWN OF RANDOLPH, MASS.

have volunteered their services and at present are carrying on the bulk of the work with the boys. I wish to express the gratitude of all for the whole-hearted and generous way in which these young men are giving of their time that our physical program may be beneficial.

Results are already discernible; posture is better and general health and cleanliness are improved. We recommend that the pupils use regulation gym suits and shoes but in the face of adverse financial conditions, we do not now feel that we should impose this regulation of uniformity but allow pupils to wear such suitable clothing as they may have.

We are offering the pupils such opportunities as basketball, volley-ball, dodge-ball, marching tactics, mass drill and games. We need apparatus such as parallel bars, horizontal bars, tumbling mats, wands, etc. These are the ordinary standard equipment of all school gymnasia and would prove valuable to the work now being done.

We cannot expect that Mr. Leavitt and Mr. French will be with us long. I believe, however, that the work we have begun should be continued not only in the high school, but down through the grades.

Awards

The effect of the scholarship fund recently established was felt last year. Two scholarships were awarded, one for the highest ranking pupil in the commercial course and one for the highest in the college course. The winners were Henry Anderson, commercial, and Bernice Wilbur, college. So much good can be done with scholarships in the way of helping pupils through college that it is regrettable that there are not more available.

NINETY-EIGHTH ANNUAL REPORT

The history medal was awarded to Raymond McGrory.

The Lieutenant Thomas Desmond Post, American Legion Medal, was presented to Henry Anderson.

The Massachusetts Humane Society Poster Contest medals were won by Clara Boothby and Lena Thayer.

The Band

The progress made by this group is gratifying. The band originated with twenty-five members and although it numbers but thirty-four members now, I am of the opinion that it would be much larger if we had funds with which to buy instruments. Under the direction of Mr. Willard R. Smith, the band has made many public appearances all of which were well received. On May 13, 1933 the band took part in the Massachusetts Public School Music Festival held at Arlington, in which there were eighty high school bands, orchestras and choral groups from thirty-five cities and towns of the state. Randolph made a very creditable showing. On May 20, 1933 the band led the Memorial Day parade in Holbrook.

I wish to thank all those who have helped our band; the Dalton Post, American Legion of Holbrook for the use of two street drums; the class of 1933 for the gift of nine dollars; the Randolph Grange for the gift of ten dollars; the Holbrook Legion for the donation of twenty-five dollars; and to Mr. Irving Hill for the loan of a bass drum.

In my last report, acknowledgement of donations to the band were made, but five dollar gifts from the Ladies' Auxiliary, A. O. H. and the Massachusetts Catholic Order of Foresters were not included. Both gifts I wish to acknowledge, with sincere regret for the omission.

Athletics

This year, in football we tried a system of intra-mural games with only two games with other schools. Our season of the year previous was so unsatisfactory and our squad so small that it was thought that the plan of playing among ourselves would bring more boys out and thereby increase the interest in football. The change proved a success. Four teams were organized, and it is quite possible that the same arrangements may be made for next fall.

Baseball and basketball were played with a proportionate share of victories and losses. Inter-class games of basketball were organized, thereby getting more pupils into action. Many thanks are due Mr. Daniel Leavitt for his assistance in coaching the football and boys' basketball teams.

The chief problem of athletics as well as of other extra curricular activities is that of finance. Our only reliable source of income is from basketball, as football and baseball income is barely sufficient to pay for the officials. We have had to resort to drives of various sorts, including dances, but even they have proved insufficient to meet expenses. We were forced to close the year with a deficit. Our basketball season of this year is proving successful financially and we will be able to wipe out debt completely.

The Pupils

We could not let this opportunity pass without giving credit to the pupils for their hearty cooperation in all school enterprises of the past year.

A clothes drive, the purpose of which was the collection of clothing which could be used by less fortunate

NINETY-EIGHTH ANNUAL REPORT

pupils, netted us over six hundred articles which were eventually distributed by Mrs. Mitchell, the school nurse.

Then came a food drive and the children responded equally as well, bringing in fruits, vegetables, groceries and canned goods enough to fill twelve Christmas baskets.

Christmas seals and buttons were sold in good quantity at the school.

Conclusion

All through the school the evidence of more and more seriousness and industry is manifest. Progress in the attention and effort of pupils is noticeable. We exhort parents to make possible for pupils at least two hours a day of undisturbed home study. We believe that standards are being raised and a spirit of helpfulness pervades our classrooms.

We wish to express to you, Mr. Christiansen, to the School Board, and all other school officers, our deep appreciation of the kindness and consideration shown us during the past year.

Respectfully submitted,

HUBERT F. GILGAN,

Principal.

REPORT OF THE STETSON HIGH SCHOOL SCHOLARSHIP FUND

A scholarship fund was started last year by a group of five women interested in promoting scholarship and further education in our high school. The fund is known as the Stetson High School Scholarship Fund.

Shortly after it was organized, a Town Planning Contest was started and this committee made several awards, amounting to \$34.00, which were distributed to the winners in our high school.

Last June at graduation this committee was able to give two scholarships of \$50.00 each. They were awarded to the two pupils holding the highest school honors for four years, who were going to continue their education in higher institutions of learning. The winners were Arthur Anderson and Bernice Wilbur.

This committee takes this opportunity to thank the town's people for their assistance and cooperation in buying tickets for their various whist parties and entertainments. We are pleased to state that at present we have on hand \$138.25. It is the aim of this committee to increase the scholarships to two \$100.00 awards each year.

Respectfully submitted,

ALICE KELLEY,
RAMONA BUTLER,
NELLIE McCARTHY,
GRACE MacLEOD,
EDITH CHRISTIANSEN.

REPORT OF SCHOOL NURSE

January 1, 1933 to December 31, 1933

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts:

All pupils have been weighed and measured.

Pupils who are fifteen per cent (15%) underweight are weighed once every two months.

I have visited the various schools on schedule—521 times.

Number of home calls—375.

Only sixteen pupils have been sent home with impetigo.

The number of pediculosis cases are growing smaller each year. Only eleven stubborn cases have been sent home during the year for treatment.

Diphtheria:

Seventy-five percent of pupils from first grade to the senior year in high school have been immunized. This year a clinic was conducted in which wholesale immunization, so to speak, was given. Each year, now, an opportunity will be afforded to the pupils of the first grade, and all others not immunized, to be given the Toxin-Anti-Toxin. As a result we hope to have 100% of our enrolment immunized.

TOWN OF RANDOLPH, MASS.

Tuberculosis:

This year the usual follow-up clinic, conducted by the State, was given in November. Reports are furnished by the State indicating those who were ten per cent underweight, suspicious or Hilum cases. Every school month those who are reported as needing attention are weighed. Careful follow-up is made and parents are advised as to methods to be pursued in the best interests of the child.

Without question, many pupils who later would develop a type of tuberculosis which would prove fatal are discovered in time to prevent such a catastrophe.

These two clinics—Tuberculosis and Diphtheria—will be responsible for a healthy continuation of life to many local boys and girls.

The school is one of the greatest social agencies existing in any town or city. It is not always fully appreciated or understood. Health work is a coordinate activity of any modern school system for which the public should be grateful and ever ready to cooperate, rather than to expect the health authorities to shoulder the entire burden and responsibility.

Report of the Chadwick Re-examination Clinic:

Number of children recommended for re-examination	26
Number of children re-examined	22
Number of children improved	18
Number of children unimproved	4
Number of children recommended for summer camp	4

NINETY-EIGHTH ANNUAL REPORT

Physical Examination:

Number of children X-rayed	21
Number of children tested	21

Each fall a number of physical examinations are given to our schools by the school physician, Dr. Higgins, and a continuous card is kept for each pupil. Whenever difficulties are noted, notices are sent home. These are followed up by a personal home visit by the school nurse and, when advisable, and with the parent's permission, the child is taken to a physician or to a hospital clinic.

Pre-school clinics were held in the various schools for the physical examination of children entering the first grades in the fall. This examination was given by the School Physician and eighty-two children attended. Many of the defects found at these clinics were corrected before the beginning of school.

Dental Clinic:

A Dental Clinic made possible by the Board of Health cooperating with the school nurse and the local Red Cross, treated a number of school children at the expense of the town and Red Cross.

Clean Teeth Project:

The need for clean teeth still faces the majority of pupils and it is being stressed and emphasized very forcibly this year.

Two charts were exhibited at the Brockton Fair in September, and it is hoped that many more will be in evidence next year. These charts show the number of weeks in which the child has brushed his teeth daily.

TOWN OF RANDOLPH, MASS.

Taunton Travelling Clinic:

The intelligence test is also a part of the yearly program and was given on March 11. Pupils were examined, and parents and teachers advised as to their proper care. Some had physical defects, which have been corrected, while others were given the special class privilege and later put into grades recommended by the examiner.

May Day:

Child Health Day was observed Friday, June 2. Programs were run from every school in which every room participated. Games, songs, playlets, all centering around health, made up the program. Tags were given for teeth and physical fitness.

Physical fitness, as specified by the State, includes such matters as teeth, heart, tonsils, lungs, posture, weight, etc. One hundred per cent was required to secure such a tag. As can be readily seen, the acquisition of a physically-fit tag was not an easy matter. Dental certificates showing good condition of teeth earned a teeth-tag.

Lunch Counter:

A hot lunch is now being provided at the Belcher Schools. This makes four schools in town where the junior high and high school pupils may have a hot meal at noon; the other schools have milk, hot chocolate, chocolate milk and cookies at recess. These lunches are very well patronized, showing that the children are appreciative of the efforts being made to help them keep physically fit.

The need of free milk in the schools has, as usual, been a very important factor. To the organization which so generously answered our appeal for funds, we wish to extend the appreciation of these children who have benefited by the donations.

NINETY-EIGHTH ANNUAL REPORT

Thanksgiving and Christmas baskets were sent to needy families. The children and teachers gave to this cause most generously, as did the Child Study Club, with its donation of candy and hand-made toys, enough for every child in each family.

The Teachers' Club conducted a bridge party in the Stetson Hall which netted \$113. This money was spent for shoes and rubbers for needy school children.

The Belcher School teachers also conducted a bridge to help defray the expenses of sending two children to summer camps.

I wish to take this opportunity to thank the local Red Cross for the many pairs of glasses donated and for the contribution from the Christmas seal money all of which was expended in summer camp work.

I wish to thank you, Mr. Christiansen, for your invaluable assistance; also the school committee, the teachers, the Board of Health and Dr. Higgins, for without their help my work would be most incomplete. This cooperation given to the promotion of health, the care in preventing the spreading of contagion is most evident by the absence of illness among the pupils.

Respectfully submitted,

JESSICA V. MITCHELL,

School Nurse.

REPORT OF THE DRAWING SUPERVISOR

January 3, 1934

Mr. A. O. Christiansen,
Superintendent of Schools

Dear Sir:

I herewith submit my report as Art Supervisor in the town of Randolph.

The aim of the course in Art from Grade I to VIII has been to encourage the student to make progress with the least amount of learning by repetition and the greatest amount of learning by self-directed effort. This aim is traced in all my approaches, which include design, representation, color and figure study. The objective is lost if one cannot induce the student to form mental concepts and from these work out original creations and ideas. When the student receives from the instructor the stimulus necessary to the formation of these concepts the objective is attained. Local landmarks and scenes have been used for illustration with the hope that familiarity would foster a keener interest in their work and environment. Art has been correlated with concurrent subjects as closely as possible with a view to developing a keener desire for further knowledge along all lines.

In the Grades the teachers are supplied with monthly outlines and holiday projects.

The Stetson High School has mechanical and freehand drawing from which to choose. These courses have one

NINETY-EIGHTH ANNUAL REPORT

forty-five minute period a week. The goal of the mechanical drawing course has been to instill into the student a working knowledge of the fundamentals of draftsmanship and of the better understanding of mechanical terms in common use. The drawings range from three-view projection to advanced machine drawing. With the freehand drawing group the objective has been to endow the student with sufficient ability to draw common objects correctly as to general proportions, shape, and the appearance of two and three dimensions. Poster design has been correlated with the school programs as the needs arose. Illustration has been correlated with crafts and holiday projects. Design and creative expression provide balance for the course.

Having had the opportunity to present examples of our work in competition with the work of other schools at the Brockton Fair School Gardens Exhibition, the High School and Grade students have acquitted themselves well. The money prizes and ribbons obtained were tangible evidence of the interest evinced by the students in their work and their success. The Art students in Randolph High School were successful in the Poster Contest held under the auspices of the Massachusetts Society for Prevention of Cruelty to Animals, receiving two medals. The students have availed themselves of the opportunity presented to them by the Practical School of Art. This opportunity provides free instruction Saturday morning, in all approaches to Art.

At this time let me extend my appreciation to the teachers of Randolph for their cooperation and kindness.

I thank you for your advice and counsel.

Respectfully submitted,

LILLIAN E. ELLIOTT.

TOWN OF RANDOLPH, MASS.

REPORT OF THE MUSIC SUPERVISOR

Mr. A. O. Christiansen:

Dear Sir:

It is my pleasure to state that the music throughout the schools manifests proficient and earnest efforts on the part of the teachers.

Many and vigorous attempts have been made to spur the diffident children on by means of individual work, etc., and considering the limited amount of time given to music the general average is excellent.

Progress is somewhat impeded because of lack of material but it is hoped that in the near future that will be corrected.

The classes in instrumental music are active in the grade schools, giving the pupils a foundation for orchestral and band work.

The High School orchestra has been somewhat delayed, but it is hoped that it will soon become active as there is much talent among the members. At the present time a stimulant is necessary for further progress.

I take the opportunity to thank all who have cooperated with me in my work.

Respectfully submitted,

ROSE G. HAND,

Supervisor of Music.

NINETY-EIGHTH ANNUAL REPORT

REPORT OF SCHOOL PHYSICIAN

Beginning January 10th, 1933, examination of all lower grade children was continued. Many minor defects were found, and noted on the health card. Nothing of serious nature was found in any examination. Tonsils and adenoids have been removed in many cases; teeth cared for; underweight children have been given instruction by the school nurse; or, in some cases the nurse has visited the mothers of children at their homes.

We have continued to report scarlet fever, whooping cough, and measles; but no epidemic has occurred here, although other towns in our neighborhood have not been so fortunate.

During the spring session of school, a toxin-antitoxin clinic was held in Randolph. A wonderful response was given by parents of children: about twelve hundred children were inoculated, giving the Randolph school system a very high rating by the State Department of Public Health. At this time, I wish to thank all the nurses and physicians of the town, who so gladly gave their whole hearted support to this clinic. It meant hours of work for both physicians and nurses, but the satisfaction in viewing the result has been more than equal to the effort expended.

At the end of the school year a pre-school clinic was held in the various school buildings, and a goodly number brought their children to be examined and certified for entrance at the Fall Term.

The sanitary equipment in our buildings is in good condition.

TOWN OF RANDOLPH, MASS.

We have had the usual number of minor injuries during school hours, but no serious accidents have been reported.

The State Department of Public Health is most useful in examining our children if there is a single case of suspected tuberculosis. I wish to thank, here, Dr. Pillsbury of the Norfolk County Hospital for the many examinations he has made of cases not examined by the state.

Vaccination against smallpox has now become so well regulated in our town, that no child is admitted into the first grade unless he or she has a certificate.

In my visits to the various school rooms, I have been most happy to see the neatness of clothing and the fresh, clean faces and hands of most of the children. I have spoken to many teachers expressing admiration for parents in these days of depression, who keep their children so well clothed, and so neatly dressed.

In closing, I wish to express my greatest thanks to the people of Randolph who, in my opinion, are second to none in the care and love for their children. I wish to thank the School Committee, school nurses, and Board of Health for their many acts of kindness.

GEORGE V. HIGGINS, M. D.,

School Physician.

Report of the Planning Board and Park Commission

The Planning Board presents its report for 1933, as follows:

During the past year, your Board has held monthly meetings, at which the principal topic of discussion has been the protecting and beautifying of our homes and residential areas, through zoning.

A proper zoning ordinance would make permanent the desirable features incorporated in past endeavors of far-visioned property owners, and so promote the development of the community for the best interests of all. People seeking homes are attracted to a zoned town, because of the added protection which this feature guarantees to them in their investment. A zoning law, we believe, would bring into our community more of the worth-while type of citizen, who is willing and able to pay taxes on a higher valuation, which condition would positively make for a more prosperous town.

We would respectfully call your attention to our thoughts as to the necessity for looking ahead with regard to our rapidly developing areas, as expressed in our report of 1932. The location of Randolph, in the path of the spread of population from the larger cities, such as Boston, Quincy and other metropolitan sections, the improved rapid transit facilities, the natural beauty, and the high altitude of our Town, make it inevitable that there will be a quick growth in residential areas as soon as economic con-

NINETY-EIGHTH ANNUAL REPORT

ditions permit. To the end, therefore, that when this time comes, as it will come, we may be prepared not to hinder or retard, but to guide and assist in that development, and to offer a greater measure of protection to the home owner and to the invested capital, we ask you, the people of Randolph, to cooperate with your Planning Board in the framing of an adequate zoning and building law.

Your Planning Board, therefore, in collaboration with the State Planning Board, has prepared a Zoning Law which it is our purpose to present to and discuss with all interested citizens at our meetings, held on the third Monday evening of each month, in the Hearing Room of Stetson Hall. We hope that you will consider this a most cordial invitation to attend the next meeting of the Planning Board, held on March 19, at eight o'clock in the evening, at the above-mentioned place, and to also attend any meetings thereafter that you may wish. It is our intention to also hold meetings at North and East Randolph for the purpose of discussing with the citizens of Randolph, in informal fashion, the zoning ordinance, and to receive your criticisms and suggestions thereon.

Your Planning Board held two joint meetings with the School Committee and the Board of Selectmen, with a view to applying for Federal Aid for schoolhouse construction. It was voted by this joint committee to call a Special Town Meeting and to present the project to the people for their decision.

The Planning Board has been alert to take advantage of every CWA and PWA project, with the idea of benefiting as many people of Randolph as the funds available would permit.

Your Planning Board was fortunate in securing a Civil Works' project for drainage, and beautifying the

TOWN OF RANDOLPH, MASS.

E. Fannie Belcher Park; we were granted an extension to that project, and it is our aim to endeavor to secure further extension, until the work at the Park is wholly completed, or the Civil Works' appropriations are exhausted.

It is our purpose to expedite the work at the E. Fannie Belcher Park in relation to the skating pond, drainage, and reforestation, with the thought in mind of preserving all natural contours, and woodland loveliness. We will continue in the removal of dead trees, and underbrush, and will plant pine saplings on the borders of the pond, and in other sections of the Park. We feel that this Park will prove a source of pleasure, not only to this generation, but to future generations of Randolph people.

We recommend to your consideration the purchase and development of recreational areas in other sections of the town.

Respectfully submitted,

JOHN E. KELLEY,
HORACE FRENCH,
EDGAR B. COLE
JOHN J. MADDEN,
HELEN M. HANEY.

Report of the Board of Selectmen

Having survived the most trying year known to American municipalities your Board of Selectmen feels justified in sounding a note of encouragement and optimism. With heads up, with courage revived and faith renewed, the Town of Randolph may confidently face the future.

A year ago the outlook was dark. Industry was at its lowest ebb. Unemployment was increasing. Tax collections were steadily declining. A chaotic banking situation rendered borrowing for municipal activities almost impossible. Public welfare had become a national problem.

The universal attitude was one of discontent, uncertainty and uneasiness. Revolution was in the air, the peaceful revolution which expresses itself in holding local officials responsible for conditions which are world-wide in their scope and which have their cause and their cure in economic law.

When revenue collections are at a standstill and the sources of credit are frozen it is difficult to keep government functioning. Under such circumstances and with so gloomy a prospect, it required courage to assume the burdens of leadership. The easy way would have been to let the critics take charge of the situation, especially at a time when leadership paid no dividends except abuse.

Fortunately the people of Randolph had kept their feet on the ground. Local government had not been extravagant. Town meetings had indulged in no spending sprees. Our debt position was one of the soundest. Public welfare

TOWN OF RANDOLPH, MASS.

burdens had not increased in the same proportion as in the Commonwealth at large. In short, we were excellently prepared to meet the crisis.

The worst year for municipal government within the memory of man having passed, it is proper to look ourselves over and see how we have fared. To the surprise and chagrin and disappointment of the birds of ill omen we are still proceeding under our own power.

In the words of the late mayor of Boston we have met every financial and humanitarian obligation. We have not been compelled to resort to the emergency borrowing provisions of recent statutes. We have not shared the unhappy experience of more than a thousand American communities which have defaulted their notes. Except for a brief period in the early summer when it seemed advisable to conserve our resources our current obligations have been met promptly. Town employees have not been compelled to wait one, two or three years for their wages as in some communities. School-houses have not been closed and school-terms have not been shortened as in many localities. A majority of the citizens at the town meeting, apparently believing that the way to recovery was not through lessening income, refused to establish pay cuts.

Yet, the town today is in better financial condition than a year ago. Our surplus, represented by tangible and substantial assets has risen to a high point.

A survey for the last six or seven years reveals municipal progress and affords ground for real satisfaction.

A police department, once the football of politics, has been organized and modernized and is the subject of favorable comment throughout the district. The improvements in the fire department have been so noticeable as to require

NINETY-EIGHTH ANNUAL REPORT

no comment. Our mileage of improved highways has been substantially increased and all approaches to the town, with one exception, are in excellent condition. Modern school-houses have been erected and our school-children adequately housed. The wisdom of a separate health department has been demonstrated. The days when town payrolls and bills for supplies remained unpaid for months and years are now merely an unhappy memory.

Our greatest problem is and will be the administration of public welfare. Local public welfare costs may seem high to the uninformed. As a matter of fact they are relatively low. Because of our geographical location and our rapid growth in population a large proportion of our cases are legally settled elsewhere. Reimbursement is made for these cases. Taking these reimbursements into consideration, together with the aid which the Federal government has extended, the net and ultimate cost of this department for 1933, is ridiculously low.

A needed reform in this department and one which will tend to further economy is the employment of a full-time agent. The lack of such assistance has been commented upon by State officials who state that the town rates the expenditure of at least eighteen hundred dollars for this purpose.

No report for 1933 would be complete without some reference to the local administration of Federal civil works activities.

In November a system of public works, designed to relieve public welfare burdens and unemployment in general during the winter months was inaugurated. Through the splendid spirit of cooperation manifested by our various town departments, Randolph received much more than its allotted quota of money. Twice the number of positions

TOWN OF RANDOLPH, MASS.

provided by the state administration for our town were procured. The original time limit assigned for the approval of our projects, December 15th, was beaten by ten days.

To accomplish this end many days of unremitting work have been required on the part of your officials. This work on the part of members of the Board of Selectmen, the heads of the highway and school departments, and others, has been done absolutely without compensation and at a sacrifice of time and money. Through their efforts tens of thousands of dollars have been put into circulation in the Town of Randolph during the winter months.

The year also has witnessed substantial progress on a public improvement which has engaged the attention of officials for many years. As far back as 1922 a group of citizens made the initial effort to have North Street entirely rebuilt with Federal funds as a part of the system of Federal interstate highways. There have been times in the intervening years when North Street might have been built with the aid of county and state but this involved a substantial contribution on the part of the town.

With the allocation of Federal funds for public works as a part of the Federal emergency programme the possibility became apparent for the first time to accomplish this work with no expense to the town. A petition had been presented to the Selectmen requesting them to take action with regard to the rebuilding of North St. In accordance with this request an article was inserted in the warrant for a special town meeting broad enough to cover any action which the citizens of the town might see fit to take. As a result of this action a committee was appointed to confer with the agencies having charge of the Federal programme and it would appear that there is reason to believe that North Street will be rebuilt in the near future.

NINETY-EIGHTH ANNUAL REPORT

To summarize: The past year has been one of many and diversified activities and a period of progress.

To those who have cooperated during these critical times we wish to express our profound gratitude.

For those whose only activities have been those of criticism and slander, for those who have openly expressed the hope that the town would meet disaster in order that those serving it might be discredited, mere words are inadequate to express the contempt which they merit. The real public enemy is not the bandit or the gunman whose operations are confined to a relatively small sphere. The real public enemy is the agitator who breeds discontent, who fomenting unrest and who seeks to capitalize the misfortunes of others.

For the incoming administration we bespeak the same consideration and cooperation which the majority of our citizens have given us.

WALTER F. STEPHENS,
HAROLD W. MACAULEY,
WILLIAM S. CONDON,

Board of Selectmen.

1934 Town Meeting Warrant

Commonwealth of Massachusetts

Norfolk, ss.

To Either of the Constables of the Town of Randolph, in
said County, Greeting:

In the name of the Commonwealth of Massachusetts
you are hereby directed to notify and warn the inhabitants
of the Town of Randolph, qualified to vote in elections

RESULTS OF RECOUNT

Randolph, Mass., March 10, 1934.

The Board of Registrars of Randolph met this 10th day of March, 1934, in the Town Hall, for a recount of votes cast for the office of Assessor and School Committee, all Registrars being present.

The Registrars were assisted by: Olga C. Howard, Marion L. Bailey, Joseph H. McMahon, Wm. T. McAuliffe, Jr., Leonard A. Robbins, Ethel M. Stetson, Helen C. Sullivan, James G. Hoyer and Elmer L. Burchell.

The envelopes were opened, ballots counted and the following result declared:

Assessor

	Original Count	Recount	Gains	Losses
Raymond E. Lyons	1,276	1,277	1
Frank F. Teed	1,279	1,278	1
Blanks	154	154

William S. Condon	1,225	1,227	2
Thomas E. Daly	1,267	1,266	1

TOWN OF RANDOLPH, MASS.

Elmer L. French	1,239	1,237		2
Blanks	601	604	3	...
	<hr/>	<hr/>	<hr/>	<hr/>
Total	5,418	5,418	5	5

After the recount the ballots, check lists, etc., were sealed up and returned to the Town Clerk.

The time of recount was three hours and five minutes.
A true copy of the record, Attest:

JOHN B. McNEILL, Town Clerk.

All of the appropriations made may be found in the Town Accountant's Report taken from an attested list made by the Town Clerk.

VOTED: Under Article 9, that the pay of Town Laborers and others hired by the day or hour remain the same.

VOTED: Under Article 12, that a committee of nine, three of whom shall be the Trustees of the Stetson School Fund, be appointed by the Moderator to examine into the structural condition of the Town Hall and to confer with the State Department of Public Safety in regard thereto and to report their findings at a later Town Meeting called for that purpose and to take any other action that committee may legally take.

VOTED: Under Article 12, that a committee of seven be appointed by the Moderator to investigate the advisability of reducing the insurance on all town property and buildings; that Theodore S. Luddington be appointed as one of the committee.

VOTED: Under Article 13, that the Water Commissioners be authorized to appoint one of their mem-

NINETY-NINTH ANNUAL REPORT

bers to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929.

VOTED: Under Article 14, that the Board of Health be authorized to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929.

VOTED: Under Article 16 that the town by-laws be amended by adding a new section to Article 4, to read as follows:

Article 4, Section 3. That the Town Treasurer, with the approval of the Selectmen, shall dispose of, for the best interests of the town, all property owned by the town on account of foreclosure of Tax Titles.

Boston, Mass., March 26, 1934.

The foregoing by-law is hereby approved.

Joseph E. Warner,
Attorney General.

Published in Randolph Sentinel News, March 30, April 6, April 13, 1934.

VOTED: Under Article 38, that a committee of five be appointed by the Moderator to study into matter of collection of garbage and report back at the next town meeting as to what disposition shall be made of this question in Randolph.

VOTED: Under Article 39, that a committee of five be appointed by the Moderator to investigate the sewerage situation and report back at the next town meeting.

TOWN OF RANDOLPH, MASS.

VOTED: Under Article 43, that an additional police officer be appointed according to the Civil Service Rules and Regulations.

VOTED: Under Article 44, to accept Chapter 139, Sections 1, 2, and 3 of the General Laws.

SPECIAL TOWN MEETING

April 23, 1934

VOTED: Under Article 3, that a committee of seven, with power to add to and increase its membership, be appointed by the Moderator to associate itself with representatives of the Chamber of Commerce, and the various improvement associations and benevolent and fraternal organizations, in the town, for the purpose of raising, by public subscription or otherwise, the sum of twenty-five hundred (\$2,500.00) dollars, to be expended in paying the expense of moving to Randolph a substantial manufacturing concern which would furnish employment to Randolph residents.

A Special Town Meeting was called for July 16, 1934. As there was not a quorum present the meeting was adjourned to July 30 at 8.15 o'clock. On July 30, there being no quorum present, it was voted to dissolve the meeting.

MILITIA ENROLLMENT FOR 1934

Randolph, Mass., June 11, 1934.

Mr. John B. McNeill,
Dear Sir:

The militia enrollment for 1934 is:

1,575 between 18 and 45.

Very truly yours,

BOARD OF ASSESSORS

By Waldo E. Mann

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chapter 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Section 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of PHYSICIANS and MIDWIVES is called to Chapter 280, Section 1, Acts of 1912: Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

Report of the Selectmen and Overseers of Public Welfare

In submitting their annual report for the year 1934 your Selectmen wish to express their sincere appreciation for the loyal cooperation of all departments of the town government.

During the year through allocation by the Federal government under the E. R. A., the sum of \$102,400.00 was expended for labor on various projects throughout the town, providing employment for many needy families. This money was expended for the most part under the direction of Mr. Walter F. Stephens, administrator for the town, who gave freely of his time and received no compensation for his services. Mr. John Edmund Kelley, the present administrator, prepared the plans, secured the approval and supervised the work on a number of projects at no expense to the town. To both we express our gratitude.

Among the projects completed during the year were the rebuilding and widening of Center street, completion of a six inch water main on Russ street, providing water for many families on that street and adjacent thereto, diversion of certain polluted streams which for years have been a menace to the water supply for the town. Norro-way Brook, a direct tributary to the water supply, now in the process of completion, has been widened, deepened and cleaned. The athletic field in the rear of the High school has been drained, leveled and extended. These activities have reduced the expenditures for public welfare and soldiers' relief during the year.

With the ultimate tapering off of Federal funds for E. R. A. purposes the town will be placed in the position

NINETY-NINTH ANNUAL REPORT

of providing some means of a constructive nature for those unable to secure employment. From information gathered it would appear that that condition would present itself early in the year 1935.

Your Selectmen appeared at a hearing held at Dedham with the County Commissioners and the Commissioners of Public Works jointly, and secured \$2,000.00 for materials and labor for the maintenance of the present Chapter 90, roads of the town, provided the town will raise and appropriate the sum of \$1,000.00. We urge that the town cooperate and that said money be provided.

At the present time the Board of Selectmen act as the Board of Public Welfare and because of that connection are unable to devote the amount of time necessary to the proper conduct of the office of Selectmen. We strongly recommend that the statute pertaining to the election of a Board of Public Welfare be adopted as soon as practicable.

Increased expenditures for the purpose of Old Age Assistance is inevitable, due to the many applications received for that form of relief, together with increased payments in certain cases. We are now carrying 63 cases and a number of applicants eligible because of necessity will require consideration.

Public Welfare in this town as well as all other cities and towns continues to be a matter of concern. During the year ending December 31, 1934, 194 families were assisted, totalling 721 persons, of which 82 families were of unsettled status or with settlements in other towns for which reimbursement eventually will be made. Your Selectmen feel that those assisted by the town have a moral responsibility to the town, which in most cases does prevail, but there are those whose chief concern is

TOWN OF RANDOLPH, MASS.

their ability to patronize those places where liquor is sold at the expense of the town and of their families. The town has the right to expect strict cooperation from all who thru unfortunate circumstances ask assistance.

For the past two years the town has adopted the theory that reduced expenditures for lighting the town ways has effected a saving. A saving has been made of approximately \$2,000.00 each year, but when consideration is given the number of deaths and accidents that have occurred during that period we are of the opinion that it has proven false economy. Proper lighting of the town ways should be provided for in the budget for the coming year.

Your Selectmen would be derelict to their duty if they failed to call to the attention of the citizens the condition of the town lockup situated in the rear of the Central fire station. This building is of wood construction with no sanitation, and entirely surrounded with buildings constructed of wood. Housing of prisoners in this building unattended is dangerous from the standpoint of fire, and it is recommended that a committee be appointed at the annual town meeting to investigate the advisability of building a combination fire and police station with the aid of Federal funds.

In the budget for the year 1934 the town provided for the sum of \$20,182.87 because of overdrafts and unpaid bills due to Public Welfare, Soldiers' Relief, Old Age Assistance, etc., carried over from the year 1933. That condition does not exist this year, and if the ordinary budget for 1935 does not exceed that of 1934, a reduction in the tax rate should be shown. It is up to you Mr. Taxpayer to take a personal interest in the expenditures for town government.

WILLIAM S. CONDON,
HAROLD W. MACAULEY,
ERROL M. THOMPSON.

Board of Assessors.

Report of Collector of Taxes

January, 19, 1934.

When a corporation or individual lacking reserves expends more than is received, inevitably, the end is bankruptcy. In this respect, the position of a town is no different from that of a corporation or a person, and this is the situation facing our town today.

It is common to blame our town officials for this state of affairs. The fact remains, however, that the budget, which is the amount of money expended annually in running a town, is voted at town meetings by the citizens who are there present.

Failure to hold appropriations within our present day ability to meet them should therefore be charged against the entire community. Public officials can be held responsible only so far as they fail to keep within the budget appropriated at the town meetings.

Tax collections the past year have been fair considering conditions. Your Collector has tried to make collections of taxes on homes as little burdensome as possible. In many towns, collection of the tax on homes is rigidly enforced within a short time after the issuance of the tax bills. The policy of your Collector has been to secure as large a percentage of cash payments as quickly as possible resorting to the less agreeable method of advertising the property only as a last resort, and when no other alternative remains.

TOWN OF RANDOLPH, MASS.

A word in regard to collection of Personal, Poll and Auto Taxes. Most people intend to and do pay these taxes within a reasonably prompt time and some others, not then able to pay, report to the Collector how they are situated financially and are allowed further time in which to pay. Some few, however, do not seem to realize that if the Collector does not collect these particular taxes and they are not abated by the Assessors, or paid by those who owe them, the Collector must make good for them out of his own pocket. Possibly this may strike a few as a fine idea. However it is rough on the Collector. These few seem to have the Tax Collector confused with the Rockefeller Foundation.

Below is appended a summary of the tax levies for 1932, 1933 and 1934:

— 1932 —

Poll, Personal and Real Estate Taxes

Outstanding uncollected Dec. 31, 1933	\$34,468.26
Credits and collections during 1934	34,322.28

TOWN OF RANDOLPH, MASS.

PUBLIC LIBRARY

To the Citizens of Randolph:

Pursuant to the provisions of Article 3 of the By-laws of The Turner Free Library, this report, for the calendar year 1934 and being the fifty-ninth annual report, is submitted, showing the condition of the trust consisting of the building, library, and funds, together with the reports of the Librarian and Treasurer and so much of the reports submitted to the Trustees by the various committees as seems of general interest.

The Library Committee reports that the books, charts and furnishings are in good condition and that all books belonging to the library are accounted for by the Librarian. The Library Committee further reports that the books are in process of being reclassified, recatalogued and rearranged. This work, which was begun during 1934 and is still continuing, was made possible through the availability of funds provided in connection with the unemployment situation. It has been and is being done under the supervision of the Division of Public Libraries of the Department of Education of the Commonwealth, and more particularly of Miss E. Louise Jones, Library Adviser of that division, Miss Ruth H. MacQuarrie being actively in charge as her assistant, with a personnel furnished through that division, and with the cooperation of the librarian and her assistants. It is expected to be of much benefit.

In furtherance of the community's efforts to combat the depression, the reading room has been made available as a work room in connection with sewing projects and has been and is regularly in use for that purpose.

The Building Committee reports that a substantial amount of repair work has been done, including the renewal of a ceiling.

NINETY-NINTH ANNUAL REPORT

The work which has been done upon the roof, masonry and other parts of the building, in recent years, appears to have rendered it free from leaks and to constitute a valuable insurance against further deterioration, but in the nature of things any building must from time to time require expenditures for the upkeep of its physical structure and although emergencies cannot be foreseen, it would be unwise to fail to make a reasonable provision for them. With this in mind, the trustees ask an appropriation of \$500.00 for the current year to cover the cost of such exterior and interior repairs, as may from time to time be needed.

The Librarian's report shows an increase in the circulation of magazines over last year, but a small decrease in the circulation of books, which last, as she suggests, is probably due to an improvement in the employment situation. Her report also refers to the setting aside and marking according to grades of some four hundred books for the High School reading list, which it is hoped will increase the accessibility and usefulness of the material, and to the work of re-cataloguing, etc. above mentioned.

The trustees take this opportunity to express their appreciation of the benefits rendered in the matter of recataloguing, etc. by the State Division of Public Libraries and of the able and efficient work of Miss Jones, Mrs. MacQuarrie and her assistants in that connection, as well as of the loyal and effective services of Miss Eunice L. Belcher as Librarian and of her assistants, Miss Ellen P. Henry and Miss Helen C. Elden, and of the janitor, Mr. John T. Moore.

A copy of each of the following reports is hereunto subjoined: the report of the Librarian; the report of the Treasurer showing the investment of the funds and

TOWN OF RANDOLPH, MASS.

the receipts and expenditures of the library; and the report of the Finance Committee.

Respectfully submitted,

SETH T. CRAWFORD,
President, Board of Trustees.

Randolph, Mass., January 14, 1935.

REPORT OF LIBRARIAN

To the Trustees of the Turner Free Library:

I have the honor to submit the annual report of the Librarian for the year ending December 31, 1934:

Books added during the year, 311. There were 301 purchased and 10 gifts. This makes a total of 33,386 accessioned volumes. Borrowers' cards issued, 388. The circulation of books has diminished slightly as it has everywhere owing to many people obtaining work. Total number of books loaned this year, 28,893. Total number of magazines loaned, 2,009, an increase of 1,244 over last year.

We are very fortunate in having the Library recataloged by the State Librarians. To date they have classified, cataloged and arranged the history, biography and literature.

Approximately four hundred books have been set aside and marked according to grades, for the High School list for reading.

NINETY-NINTH ANNUAL REPORT

I wish to express my appreciation of the cooperation of the Trustees and the faithfulness of my assistants, Miss Henry and Miss Elden.

Respectfully submitted,

EUNICE L. BELCHER,
Librarian.

Randolph, Mass., January 7, 1935.

REPORT OF THE TREASURER

To the Trustees of the Turner Free Library:

In compliance with the requirements of the By-Laws, I hereby submit the annual report of the Treasurer of the Turner Free Library:

There has been a depreciation of \$350.72 in the normal income of the funds the past year, six companies having omitted or reduced some of their dividends as follows:

Chicago Rock Island & Pacific R. R.	\$61.22
Consolidated Gas Company	6.00
California Packing Corporation	52.50
New York Central Railroad Co.	91.00
Illinois Central Railroad Co.	70.00
Southern Railway Company	70.00

BILLS PAID BY TOWN OF RANDOLPH, 1934

FRANK W. BELCHER,
Treasurer.

REPORT OF THE FINANCE COMMITTEE

The committee has examined, also, the securities representing the investments of the funds of the Library, and has found them to be intact, and as represented.

NINETY-NINTH ANNUAL REPORT

The following changes have been made in the investments of the funds:

1 Bond—New York Central & Hudson River R. R. Co. matured in May 1934 and the \$1,000.00 received was deposited in the Randolph Savings Bank, Turner Fund.

\$33.37 was transferred from Cash to Randolph Trust Co. checking account.

Respectfully submitted,

RAYMOND L. MASON,

Chairman.

Randolph, Mass., January 14, 1935.

Report of the Board of Health

To the Citizens of the Town of Randolph:

The Board of Health respectfully submits its report for the year ending December 31, 1934.

The Board of Health has inspected all stores and places where food and other goods are distributed, and has found them clean and safe for the sale of their goods. Sanitary conditions were up to the regulations of the Board.

The Dental Clinic was a success, while funds were available, but we need more money to continue this work, and thus combat one of the most important hindrances to public health.

We ask the taxpayers of the town to appropriate more money for cases which we are obliged to send to the hospitals. The Board well knows it has been a year—I should say years—of depression; however, the fact remains that we have had more cases of hospitalization during 1934 than ever before.

The amounts requested in our 1935 Budget Estimate as submitted to the Finance Committee of the Town, are consistent and reasonable with reference to the known demands for 1935. The amounts expended for medical attendance for the care of the Town poor is obviously unfair to the physicians of the Town inasmuch as these demands have been many times greater than in former years when so many more of our people were able to meet their own medical bills. This matter

NINETY-NINTH ANNUAL REPORT

has been submitted to the Finance Committee for their consideration.

Communicable diseases during the year 1934 were as follows:

Tuberculosis	3
Scarlet Fever	5
Dog Bite	6
Chicken Pox	2
Measles	62
Mumps	None
Diphtheria	None
Whooping Cough	16
Vincent's Angina	1

Following is the list of licenses given during the year 1934:

Milk	83
Oleo.	1
Alcohol	12
Hairdressing, Manicuring	8
Cesspool Cleaning	5
Piggery	9
Slaughter House	1
Undertakers	4

Respectfully submitted,

DR. WILLIAM E. BUCK, Chairman

WILLIAM M. COLBY, M. D., Sec'y
FRANK WALES

REPORT OF THE PLUMBING INSPECTOR

Randolph, Mass., December 21, 1934.

To the Board of Selectmen of the Town of Randolph:

Gentlemen:

I hereby submit my report as Plumbing Inspector for the year ending December 31, 1934.

There have been 31 permits issued to install plumbing; of this number 27 have passed inspection and three are held over for final inspection. There have been installed in new and old buildings the following fixtures:

Thirty-one closets, 22 wash bowls, 16 sinks, 13 bathtubs, 4 pressure boilers, 25 wash trays, 2 shower baths, one slop sink, one refrigerator—the estimated value of which was \$5,280.00.

Twenty-six new cesspools.

The number of old and new buildings in which plumbing was installed is as follows: Twenty-five old houses, four new houses, two old stores, one dining room, and one ice cream stand.

Toilet regulations in restaurants and taverns where licenses are issued do not come under the supervision of the local inspector. This comes under the Commonwealth of Massachusetts, Department of Labor and Industries, Division of Industrial Safety, Section 133, Chapter 149 of the General Laws.

NINETY-NINTH ANNUAL REPORT

In 1934, building and repairing where plumbing is used has taken a drop of about 65%, which shows on this report, due to the depression, but in my opinion 1935 looks much better.

Respectfully submitted,

JOHN E. BEACH,
Plumbing Inspector.

REPORT OF THE ANIMAL INSPECTOR

Randolph, Mass., Jan. 18, 1935.

To the Honorable Board of Selectmen:

I herewith submit my report as Inspector of Animals for the year ending December 31, 1934.

Cattle	213
Swine	1,837
Goats	11
Sheep	3

The stables housing these animals were inspected and found to be in satisfactory order. All the cattle in town are under the supervision of The Division of Livestock Disease Control, with the exception of one, which has been reported.

Twenty-two dogs were quarantined by this Department, but none were found rabid.

Respectfully submitted,

CHARLES H. TRUELSON,
Inspector of Animals

TOWN OF RANDOLPH, MASS.

REPORT OF THE MILK INSPECTOR

Board of Health,
Randolph, Mass.

Gentlemen:

I herewith submit report of Milk Inspector for year ending December 31, 1934.

There were issued by me eighty-three (83) Milk Licenses and one (1) Oleo. license.

Total money collected, \$83.50.

All producers and handlers of milk for sale were required to meet the new State regulations appertaining to milk before licenses were granted.

Respectfully submitted,

ERNEST F. GROUT,
Milk Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING

Randolph, Jan. 20, 1935.

To the Board of Selectmen:

I beg to submit my report for the year of 1934:

From January 1, 1934 to December 31, inclusive, I have:

Inspected	392 Heads
Condemned	None
Passed	392 Heads

NINETY-NINTH ANNUAL REPORT

The 392 Heads are classified as follows

Hogs	371
Calves	9
Cows	7
Sheep	3
Bulls	2
	<hr/>
	392

Respectfully submitted,

WESTON L. MANN,
Inspector

Report of the Water Commissioners

To the Citizens of the Town of Randolph:

The forty-ninth annual report of the Water Commissioners is herewith submitted for the year ending December 31, 1934.

Organization of the Board of Water Commissioners for the year 1934 was effected as follows:

John B. McNeill...	Chairman and Collector
Richard F. Forrest	Superintendent
Frederick D. Driscoll	Clerk

During the past year 32 new services were connected.

For the year 1934 25 services were cleaned by pump; 18 services renewed from main to line; 30 service leaks at curb and main; 7 broken hydrants; 5 hydrants re-located; 3 joint leaks in 6 x 8" mains; 4 joint leaks in 14" mains; 25 services metered during the year; 27 services thawed by electricity; 5 1¼" mains thawed by electricity; 1 4" main thawed by electricity; 4" main burst on Pleasant Street.

Installed 2 6" gates, one in Randolph and one in Braintree and connected our mains on North St. with the Braintree Water Mains at the Randolph-Braintree Line. This has been very helpful in supplying residents on North Street near the Braintree Line with water during the last part of the year when the contractor rebuilding the road on North Street broke our water mains. Had it not been for this all North Street

NINETY-NINTH ANNUAL REPORT

beyond the breaks would have been without water until the breaks were repaired.

Lowered 6" main at Stetson Meadow 24" on account of drainage due to new road construction.

All the above paid for out of our maintenance appropriation.

Renewed 78 services on North Street; discontinued 2 services on North Street. There remains to be renewed 15 services and 4 to be discontinued, 8 hydrants to be moved back or re-located, also independent gates to be installed on same and new valve boxes.

Lowered 6" main on Orchard Street two feet due to installing 48" pipe in tributary to Great Pond.

Installed under supervision of Superintendent

500 ft. of 6" main and one hydrant on Hall Street

2,150 ft. of 6" main and three hydrants on Russ Street

450 ft. of 1¼" pipe on Wilmarth Road

During the year we purchased a new up-to-date chlorinator and had it installed at the Pumping Station. This is the new vacuum type MSVM chlorinator which is the most up-to-date machine we could find for chlorinating the water.

We also purchased a new testing outfit with which the Engineer at the Pumping Station can test water several times a day and assures our having just the exact amount of chlorine to kill any bacteria that may be in the water.

The cost of the above was \$1,086.10 plus cost of labor for installation.

TOWN OF RANDOLPH, MASS.

We had the scales at the Pumping Station tested and sealed so that we can keep a more accurate account of the coal burned.

Ever mindful of our thickly populated watershed and realizing that in the near future the town will have to face a large expense to protect the water so as to insure perfect safety for drinking purposes at all times, either by filtration or a new supply, at the suggestion of the Joint Board of Water Commissioners we have been in touch with The Edward F. Hughes "well" people. They have made a survey of the territory near our plant with the view as to the possibility of a new water supply in that vicinity. Their report, which has been made with the understanding that there would be no expense to the town on what they have done so far, arrived just at the time we were preparing our report for the Town Book and your Commissioners have not had time to give it the proper study in order to make recommendations to the Town. In order that every citizen may read this report we are having it published herewith.

(Copy)

EDWARD F. HUGHES

**Artesian, Gravel and Driven Wells for Manufacturing,
Public or Private Water Supply**

1102 Exchange Building, 53 State Street

Telephone Lafayette 8167

Boston, Mass., January 22, 1935.

Board of Water Commissioners,
Randolph, Mass.

Dear Sirs:

Your Chairman has requested that I make a survey of the Town of Randolph to ascertain the possibilities of discovering a supply of ground water to

NINETY-NINTH ANNUAL REPORT

supplement or augment the present supply of water taken from Great Pond to supply Randolph and Holbrook.

After much study of the topography of the area in question with help from your Superintendent at Randolph, it appears that but two areas are of sufficient size to assist in any way with the problem at hand. The area offering the greatest possibilities being the area in which Great Pond is located, the other area that in which Ponkapoag Pond is located.

First let us take up the Great Pond area.

It is the opinion of the writer that a number of test holes should be driven in this area reasonably close to the Pond. These test holes should start at the back of the pumping station and carry toward Holbrook for a distance of approximately 1000 feet. These holes should be made of 2½ inch pipe and placed in such locations as to give very definite knowledge of the contour of the ledge. These holes also will give a complete picture of the geological formation overlaying this ledge. It should be the desire of all interested that a free gravel deposit of sufficient depth and width be found capable of supplying the Town with 2,000,000 gallons per twenty-four hour day.

Likewise the Ponkapoag Pond area should be explored. The watershed surrounding this area is not as large as at Great Pond; however, it is thought to be worth a ground study at this time. Should conditions prove favorable at this area, considerable new pipe would have to be laid to get the water to the larger size mains on Main Street. Testing of this area may appear to be an unnecessary expenditure of money. However, in the writer's opinion it is thought to be of sufficient importance to warrant such expenditure.

TOWN OF RANDOLPH, MASS.

Believing that the joint water board should know for certain all possibilities of water supply in order to protect such tracts of land if they are worthy of such protection.

The writer recommends that the following work be done:

1. Test out the area located at Great Pond by driving approximately twelve test holes.

2. Test out the area located at Ponkapoag Pond by driving approximately eight test holes.

3. Sink a test pit at the location furnishing the largest amount of water as shown by the test holes.

4. Retain a Consulting Engineer to prepare plans and estimates of cost for new construction, also to supervise the running of capacity test on test pit.

5. Get approval of State Board of Health of plans designed by Consulting Engineer.

Should unsatisfactory ground conditions be found after completing Items 1 and 2, further work would be unnecessary and some other method of supply would have to be looked for.

Should Item 3 prove unsatisfactory, a new method would also be required.

An estimate of the costs for the various items would be as follows:—Item 1, \$1,200; Item 2, \$800; Item 3, \$3,000; Item 4, \$1,500, making a total of \$6,500.00 These prices are, I believe, sufficiently high to take care of uncertainties.

NINETY-NINTH ANNUAL REPORT

If \$6,500.00 could be appropriated at the March meeting and the expenditure of said sum be left to the discretion of the Water Board, I believe the problem of ground water supply could be solved forever. As stated above, it may be found necessary to expend \$2,000.00 or less of this amount, in which case the unexpended balance could be transferred or turned back to a future Town Meeting. However, the sum stated will be ample to cover all explorations and tests required.

Respectfull submitted,

EDWARD F. HUGHES.

The expenditures of the Water Department will be found in the Town Accountant's report.

Collections and outstanding water rates will be found in the report of the Water Collector.

Largest day's pumping—July 19, 1934; 1,754,500 gallons.

Largest week's pumping—Week ending July 22: 9,743,200 gallons.

Respectfully submitted,

JOHN J. McNEIL,
Engineer.

TOWN OF RANDOLPH, MASS.

RULES AND REGULATIONS

The following regulations, until further notice, shall be considered a part of the contract with every person who uses water:

1. All applications for use of water must be made at the office of the Water Commissioners, and state fully the purposes for which it is intended to be used. Water will not be introduced to premises except on the written application of the owner thereof, or by a duly authorized agent. The property will in all cases be held responsible for the water rates.

2. All persons taking water must keep their water pipes and fixtures in good repair and protected from the frost at their own expense. They will be held liable for all damages resulting from their failure to do so. They shall prevent all unnecessary waste, and water shall not be left running to prevent freezing. The Water Commissioners or their agents may, from time to time, ascertain the quantity of water used, the manner of its use, and whether there is any unnecessary waste. They and their agents shall have free access to the premises supplied, to examine the apparatus, and if any fixtures are found not to be in good order, they shall direct them repaired, and if not repaired within two days the water shall be shut off and not let on again until such repairs are made, and the sum of two dollars paid for shutting off and turning on the water.

3. The occupant of any premises, when unnecessary waste of water occurs, shall be liable to a fine of two dollars for the first offense, and four dollars for the second offense during the same year, and shall be

NINETY-NINTH ANNUAL REPORT

notified thereof in writing; and if such waste is not prevented and the aforesaid fines paid within two days from the time when the said notice is given, the water shall be shut off the premises, and shall not be again let on for the same occupant until waste be stopped and the fine paid, together with an additional sum of two dollars for shutting off and letting on the water, and in case of a third or subsequent offense the water shall be shut off, and shall not again be let on except by a vote of the Water Commissioners and the payment of such fine, not exceeding ten dollars, as the Water Commissioners may impose.

4. Any person supplied with water shall not allow another to take water from his fixtures without the written permission of the Water Commissioners. If a tenant has no fixtures, he will be charged full rates for any use which he makes of the fixtures of another.

5. All parties using water in stables, for horses or other animals, will be charged scheduled rates for the same, whether it be carried by hand or through hose.

6. All persons using water for building purposes are required to obtain a permit from the Water Commissioners before taking water from any faucet or fixtures connected with the water works, and all water takers are warned not to let any party take water from their premises until they show a permit from the Water Commissioners. Any person furnishing water in violation of this section will be subject to a fine of not less than five nor more than twenty dollars, and if the same when levied is not paid within three days from the time when the notice thereof is given the water will be shut off from the premises and will not be let on again until such fine is paid.

TOWN OF RANDOLPH, MASS.

7. All fixtures and water closets and urinals must be of a kind and quality approved by the Water Commissioners, also a vacuum valve must be installed on all pressure range boilers connected with the system.

8. No person shall in any case be allowed to open any fire hydrants except by a written permit from the Water Commissioners; but the Engineers of the Fire Department shall in all cases have control of hydrants at fires and for practice.

9. The Commissioners reserve the right to restrict the use of hose or fountain, to shut off the water in all cases when it becomes necessary to make extensions or repairs, or for violations of any of the regulations, or whenever they deem it expedient.

10. The regular rates for the use of water shall be payable in advance on the first days of January and July of each year, except where water is supplied to manufacturers by special agreement. In all cases of non-payment of the water rates within ten days after same is due as well as for any violations of these rules and regulations, the supply will be shut off, and payment of the amount due, and payment of two dollars for shutting off and letting on the water, shall be made.

11. The Water Commissioners reserve the right to change the water rates at any time except in cases of dwelling houses and established special rates.

12. For business requiring large quantities of water, and all supplies not enumerated in the tariff of rates, special rates will be made.

13. Parties using water for manufacturing or domestic purposes can erect hydrants on their grounds or standpipes in their buildings to be used only as a

NINETY-NINTH ANNUAL REPORT

protection against fire without additional charge for water.

14. All applicants for the introduction of service pipes to premises are required to make written application therefor at the office of the Water Commissioners.

And in no case will the main be tapped more than once for the same premises, unless the additional expense is borne by the owner.

Charged as follows:

The following water rates are established until further notice:

No connection made with the main for any purpose for less than	\$6.00
--	--------

Dwelling Houses

Occupied by one family, for the first faucet	6.00
Each additional faucet to be used by the same family	2.00
Two or more families occupying one house, one faucet for all, each family	5.00
One faucet for each family	6.00
For first bathtub	5.00
If used by more than one family in same house, each family	4.00
Each additional bathtub	2.00
For first pan or self-acting water-closet	5.00
If used by more than one family in same house, each family	4.00
Each additional pan or self-acting water-closet	2.00

TOWN OF RANDOLPH, MASS.

Where two faucets are used, one for hot and one for cold water, emptying into the same basin, only one charge will be made for both.

Laundry tub	3.00
-------------	------

Hose

For sprinkling streets, washing windows and similar uses, 1/4-inch nozzle, to be used only on premises and street opposite, not exceeding two hours per day for six months in the year	5.00
--	------

For any use not herein enumerated, special rates will be made.

Meter Rates payable at Time of Reading.

For not over 133 cubic feet average per day, per 100 cubic feet	.23
---	-----

For over 133 cubic feet and not exceeding 266 cubic feet average per day, per 100 cubic feet	.19
--	-----

For over 266 cubic feet average per day	.15
---	-----

Provided that in no case where a meter is used shall the annual charge be less than \$7.00.

Meters may be supplied by the Water Commissioners for which annual rental will be charged as follows:

Size 5/8-inch	\$1.00 per year
Size 3/4-inch	\$1.00 per year
Size 1-inch	\$4.00 per year
Size 2-inch	\$6.00 per year

All needed repairs, damages by frost and heat excepted, will be made at the expense of the town.

JOHN B. McNEILL,
RICHARD F. FORREST,
FRED D. DRISCOLL,
Water Commissioners

Report of the Planning Board

The 1934 Planning Board of the Town convened on March 12, shortly after the Town Meeting, and voted to continue its study and recommendations for the benefit of the local public — for the better and more orderly growth of the Town, and for the protection of our townspeople's homes and areas.

Among the first projects that the Planning Board considered was that of sidewalks, to be built on one side of the street, along thoroughfares most frequented by school children. The members of the board made a careful survey of a 7.2 miles' territory—starting from the corner of High and Canton Street as follows: Canton Street, 7/10 mile; Oak Street, 6/10 mile; Pond Street to Morse Street, 7/10 mile; Old Street, 4/10 mile; (Old Street being specified as the trunk line) Lafayette Street, 7/10 mile; West Street 3/10 mile; Center Street, 1 mile; South Street, 7/10 mile; Mill Street, 8/10 mile; South Main Street 1 3/10 miles. It was observed that no widening was necessary over 2/10 mile on Oak Street. On Lafayette Street, sidewalks merely need straightening. A better sidewalk on Union Street was also considered. George H. Tangen of the Board estimated that sidewalks, with an eight-inch gravel base, and with one-half inch of stone-dust surface, could be built for \$2,112 the mile.

Considerable study of zoning has been made, and on November 21, Edward T. Hartman, State Consultant of Planning, was the guest speaker at an open meeting, to which the public was invited. Mr. Hartman explained at length the advantages of zoning,

TOWN OF RANDOLPH, MASS.

under which building lines may be established, without damage to the Town. As a result of its studies of zoning, your Planning Board has caused to be inserted in the Town Warrant an article authorizing the preparing of a comprehensive zoning by-law for the town.

Your Planning Board has made an intensive study of setback lines, on the Westerly side of Main Street, from Avon to the Quincy line; maps of Main Street, in particular that furnished by the County Commissioner, showing the re-location and building of Main Street, have been used in the above-mentioned survey.

The Planning Board has caused to be inserted in the Town Warrant an article recommending the establishment of setback lines in the above-mentioned section of the town. A map of Main Street, illustrating the proposed project, will be shown at the 1935 Town Meeting.

The Board has recommended that Depot Street be made a one-way thoroughfare, going South—from Main Street to the Depot.

The Board voted on September 4, last, that "A Real Property Inventory" be made, in accordance with the recommendations of The National Planning Board. This "Real Property Inventory" would have given us "A true picture of 'What We Have'" as to housing, land, and transportation facilities, so that plans might be taken, with Government help, to make Randolph a better place in which to work, to live, and to play. While but five women would have been employed to do the initial survey work, at an expense under \$700 for two months, your Planning Board felt that this preliminary work would open up the way, a little later, to employing a large number of men, under the Govern-

NINETY-NINTH ANNUAL REPORT

ment's Public Works' expenditures. The project was approved in Washington and at the Boston ERA Office. Orders were given by the Boston ERA Engineer to proceed at once with the work. Through an inadvertance, the words—"The Town"—instead of "The Town Planning Board", as the responsible parties for the materials to be used, were incorporated in the Project Application; there was local opposition to the project, and Boston ERA authorities ruled that another similar project be re-submitted from the Town Planning Board, with "The Town Planning Board" mentioned as the responsible parties for the materials used. This new project application, properly made out, is now awaiting the signature of the local ERA Administrator.

The Planning Board sincerely hopes that this "Real Property Inventory" is speedily signed and forwarded to the Boston Branch of the ERA. Some 80 cities and towns throughout the United States have found such an inventory to be of great value to them. As our townspeople know, Congress will probably vote large sums of money for public works, and it is very desirable that local planning boards be allowed to progress with worthy projects. The purpose of your Planning Board is not to encourage more spending and more developing of improvements prematurely, but to serve as a guide to insure that any and all developments when, as, and if, they take place, will proceed in an economical and orderly manner.

The National Planning Board, since its organization last July, has given special attention to the stimulation of State, City and Regional Planning. This activity has been carried on concurrently with work covering advice to the Administrator of Public Works, co-ordination of Federal Planning Agencies, and the conduct of a Research Program. **The results of intelligent plan-**

TOWN OF RANDOLPH, MASS.

ning mean the reduction of tax rates, and the elimination of unnecessary expense to every citizen, who pays taxes, indirectly, as well as to every real estate tax payer. "It Pays to Plan" should be the slogan of Randolph.

From a recent letter of The Federal Emergency Administration of Public Works, we quote, "If Government costs are going to be reduced intelligently, this must come about through more efficient use of public funds. The solution would seem to lie, **not** in the direction of eliminating the relatively small cost of planning, but in further strengthening the planning function and thereby building up an orderly procedure for avoiding what aptly has been characterized "**The costs of not planning.**" **Community planning is actually a money-saving function.**

On request of The Housing Administration, Title II, and of The New England Regional Planning Commission, your Planning Board has furnished to each one of these groups blue prints of four quarter-sections of the Map of Randolph, made by George Henry Tangen.

The Board is honored in the appointment of Helen M. Haney to the Advisory Committee of The New England Regional Planning Commission, a branch of The National Resources Board.

Two of the members of your Planning Board attended the Fall Conference of The Massachusetts Federation of Planning Boards and were impressed with the important part that planning is taking in the National program of public works.

Your Planning Board is always at your service. It is non-partisan, and works unselfishly, in an advisory

NINETY-NINTH ANNUAL REPORT

capacity, for the welfare of all of the people. We want your ideas, and we would like to have you know authoritatively what we are trying to plan for your benefit.

We again invite you, through the medium of the Town Report, to come to our meetings; to submit to us your problems, and we promise that we will try to **plan with you** for "a better Randolph."

Respectfully submitted,

JOHN J. MADDEN, Chairman,
GEORGE H. TANGEN, Vice-Chairman,
HELEN M. HANEY, Secretary
EDGAR B. COLE, Treasurer,
HORACE B. FRENCH.

Report of the Highway Surveyor

To the Citizens of the Town of Randolph:

The Highway Department of the town of Randolph respectfully submits its report for the year ending December 31, 1934.

During the year 1934 the sum of \$12,000.00 was appropriated for the general use of this department. Of this amount, \$724.00 was paid for a new dump truck; \$6,687.11 was paid out for labor; the balance being used for C. W. A. road work passed previous to the town meeting, and material for the upkeep of drains, highways and equipment. A great deal of damage resulted from the frost, due to the severe weather. At the present time the highways are in good condition with the exception of a few streets that have poor drainage.

Under Article 20, the sum of \$1,500.00 was appropriated to make repairs on eight streets, whereby the town voted to have the labor provided by Federal money such as C. W. A. or welfare labor. The C. W. A. authorities approved projects on Old and Center streets. It was necessary, for the benefit of the tax-payer, that these projects be completed. Therefore, more than their proportionate share of the money was used.

Owing to the lateness of the year in which the North Main Street sidewalk project was approved, coupled with the inclement weather, I was unable to complete the project before the close of the year. We have sufficient money left to complete the east side of the street as soon as the weather permits.

NINETY-NINTH ANNUAL REPORT

At the present time I am working to have the following sidewalk projects passed: West side of North Main street sidewalk; Union street sidewalk on the North side; Warren street sidewalk on the North side; and Depot street sidewalk on the North side. I sincerely hope that the citizens will approve an appropriation for the materials on these projects.

I wish to take the opportunity at this time to thank the citizens for their co-operation during the past year.

Respectfully yours,

JOHN A. FREDERICKSON,
Highway Surveyor.

Report of the Tree Warden

To the Citizens of the Town of Randolph:

The public shade trees of your town are in danger. With the building of new state highways and sidewalks, and widening of streets for travel, little regard is shown for the preservation of the trees.

The trees on North street should be taken care of. The maples in front of the Central Cemetery will have to be trimmed in order to allow the steam shovel to operate, and this should be attended to by your Tree Warden.

The Dutch Elm beetle is the latest plague that has come to destroy the elms and nothing can be done, as far as known, but to cut down and burn all that become infested.

Roadside trimming was carried on and many blind corners cleaned out. More work should be done along this line. Some trees were removed that were a menace and some are yet to be taken down.

Three trees on North Main street are to be removed on account of the new sidewalk but as no money was available the work will have to be done next year.

Two thousand white pine cedars were planted this year in different sections of the town. I also recommend setting out some new trees next year.

Let our motto be: Plan to Plant Another Tree.

Respectfully submitted,

JOHN T. MOORE,
Tree Warden.

Report of the Moth Superintendent

To the Honorable Board of Selectmen:

The Gypsy and Brown Tail moth situation for the year ending 1934 was very satisfactory.

Spraying was carried on during the early Spring and Summer as long as the appropriation lasted.

We will be unable to do any creosoting next year owing to lack of money. I am in hopes to get a project from the E. R. A. to do scouting and creosoting next Spring.

The Elm Tree beetle situation is serious. Spraying must be carried on in order to check this pest.

The Tent caterpillar and Fall webworms are bad and more attention should be given regarding these pests.

The Satin moth or Japanese beetle were not found this year.

The spraying outfit should be overhauled and new parts installed at an estimated expense of \$100.00, also new hose must be purchased.

Respectfully submitted,

JOHN T. MOORE,
Local Moth Supt.

Report of Police Department

Randolph, Mass., Jan. 18, 1935.

To the Board of Selectmen:

Gentlemen:

I herewith submit report of the work done by the Police Department of the Town of Randolph for the year ending December 31, 1934.

Calls answered and investigations made	2,127
*Summons served	128
*Arrests	391
Arraignments in Court	389
Bound over to Grand Jury	4
Pending in District Court	9
Found guilty in District Court	335
†Dismissed for want of Prosecution	18
Appealed to Superior Court	16
‡Found guilty in Superior Court	27
Pending in Superior Court	4
Acquitted	7
Placed on File	105
Placed on Probation	34
Fined	200
Committed to House of Correction	13
Committed to Psychopathic Hospital	8
Committed to Massachusetts Reformatory	2
Committed to Lyman School	3
Committed to State Farm	2
Put up for the Night	1

NINETY-NINTH ANNUAL REPORT

Stolen Property Recovered \$4,315.34

C. W. A. and E. R. A. men notified to report for
work by Police Department 735

Net returns paid to Town Treasurer from fines
over and above expenses of Prosecution \$317.83
Fines taken in by District and Superior Courts, \$2,481.00

*Some arrests and summons were served for out-of-town police.

†Of the eighteen cases dismissed for want of prosecution, the police were complainants on seven.

‡Includes four cases bound over to the Grand Jury, all of which were found guilty in Superior Court.

Total number of miles covered by police car, 48,893.

Total number of miles covered by motorcycles, 13,718.

Respectfully submitted,

PATRICK T. McDONNELL,
Chief of Police.

IN MEMORIAM

The Police Department records, with sorrow, the death on November 3, 1934, of its faithful and courageous Special Police Officer, John A. Forrest. Mr. Forrest had been connected with this Department for over 20 years, and was highly esteemed by all of his brother officers. The Department extends its sincere sympathy to the members of Mr. Forrest's family.

Report of the Fire Department

Randolph, January 31, 1935

To the Honorable Board of Selectmen:

Gentlemen:

I respectfully submit my report of the Fire Department for the year ending December 31, 1934. The department has responded to 154 calls classed as follows. Buildings 40, Automobiles 16, Wood and Grass 86, False Alarms 4, Broken Hydrants 2, Inhalator 1, Aid Call 1, Miscellaneous 4.

Assessed value of property damaged by fire	\$153,900.00
Insurance on property	88,800.00
Damage to property	17,224.61
Insurance paid on damage	13,124.61
Loss not covered	4,100.00

Two losses are still unsettled.

Number of feet of hose used	8,850
Number of feet of ladders used	590
Number of gallons pumped from booster	4,560
Number of gallons of soda and acid used	110
Number of gallons of Foamite used	15

Permits issued were as follows: 51 Oil Burner
390 Open Air Fires, 1 Gas Station and 1 Blasting.

The apparatus connected with the department is
in good condition at the present time.

NINETY-NINTH ANNUAL REPORT

The fire alarm system is inspected at regular periods and is kept in good condition. A punch register was added to the system this year.

Station No. 2 should be painted and shingled this coming year.

Respectfully submitted,

HAROLD L. BAILEY,
Chief of Fire Department.

Report of the Park Commissioners

The Park Commission actively co-operated in the 1934 Arbor Day Exercises, and in accord with President Roosevelt's program of reforestration and of the beautifying of recreational grounds, launched a campaign for the planting of 2,000 pine trees in the E. Fannie Belcher Park, and in the rear of the Stetson High School Building. The Planning Board adopted the slogan of "A Penny Will Plant a Tree."

The Planning Board wishes to thank those citizens who contributed to the tree fund. It also wishes to thank Tree Warden John T. Moore, and T. S. Luddington, who, in conjunction with the chairman of your Planning Board, sponsored the movement. We thank Representative Martin E. Young, who gave us the use of his trucks and other necessary equipment.

Your Planning Board has made several trips to the E. Fannie Belcher Park to see that the Grounds were not used for a dumping place and to note conditions generally.

An investigation of the drainage conditions at the E. Fannie Belcher Park, in reference to the construction going on there, under the ERA, was made. The Board appointed George H. Tangen, civil engineer, to report on his findings. Mr. Tangen's report was to the effect that he had met and walked over the grounds with H. Emery White, the engineer who had made the survey of the Park; that his recommendations coincided with

NINETY-NINTH ANNUAL REPORT

those of Mr. White: namely, to follow the original drainage course; that the spring holes at the end of the Park could be carried out to the water course near the North side of the Park; and that "since the work has been carried out so far, it is well to continue as is."

As the ERA has been working throughout the year in the construction of a drain at the Park, all matters there have been practically out of your Planning Board's hands.

Respectfully submitted,

JOHN J. MADDEN, Chairman,
GEORGE H. TANGEN, Vice-Chairman,
HELEN M. HANEY, Secretary,
EDGAR B. COLE, Treasurer,
HORACE FRENCH.

TOWN OF RANDOLPH, MASS.

Sealer of Weights and Measures

Randolph, Mass., January 14, 1935.

To the Board of Selectmen:

Gentlemen:

During the year 1934 I have sealed:

Scales	137
Weights	118
Liquid Measures	255
Gasolene Pumps	82
Kerosene Pumps	15
Yard Sticks	6
Oil Measuring Pumps	91

These were re-sealed and tested:

Selectmen of Randolph.

Report of the School Committee

To the Citizens of the Town of Randolph,
Randolph, Massachusetts.

Your School Committee, with a knowledge gained by a careful study of all the details of the school system, is pleased to report on the progress of its work during the year 1934.

Education of the Teaching Staff

Each teacher was asked to fill out a questionnaire giving a record of all his schooling, degrees and experience. A study was made of the questionnaires in collaboration with the superintendent of schools.

Teachers showing schooling and experience below the standard deemed necessary were required to improve their rating by attending Teachers' College Summer Schools and studying the subjects in which they were deficient.

In employing new teachers, your committee was exceedingly careful to add to the teaching staff only those whose qualifications and experience were in keeping with the standards set, which would justify their employment.

Consideration and study have been given to the matter of placing all teachers in our school system in grades for which they are suitably qualified.

School Buildings and Equipment

The interior painting of the High School Building which had been started as a C. W. A. project was com-

TOWN OF RANDOLPH, MASS.

pleted with the aid of the E. R. A., which granted the committee two extensions in allotment of funds for payment of the labor, necessary for this project.

The interiors of the Prescott Primary and Grammar Schools were completely painted under E. R. A. projects.

Thirty-five hundred and eighty dollars of Federal funds was expended for labor in painting the inside of the Stetson High School and the Prescott Grammar and Primary buildings.

The heating system in the high school was completely overhauled and many necessary repairs and changes were made, the expense of which was paid out of the General Expense Account.

The plumbing in the Prescott Primary School was overhauled and necessary repairs made to eradicate unsanitary conditions which might have affected the health of the children.

The State Board of the Department of Public Safety has given the School Committee notice that extensive changes in the sanitary facilities at the Prescott Grammar School must be made at once. It is the hope of your Committee to comply with the requirements of the Department of Public Safety as soon as possible.

The roof of the Prescott Primary School must be reshingled as soon as the weather will permit this work to be done.

As mentioned in our report last year, the boiler in the Belcher School was installed in 1907 and with the addition last year, of only two extra rooms, it is totally inadequate to meet the present heating requirements. A special article is to be included in the Town Warrant

NINETY-NINTH ANNUAL REPORT

for an appropriation to cover the expense of installing a new boiler and oil burner in the building.

Certain portions of the interior of the Devine School will have to be redecorated, due to dampness penetrating the side wall of the building. Before the interior can be touched it is advisable to correct this trouble. Your Committee consulted various contractors for their opinions and believe that the soundest plan for correction was that submitted by Mr. Jacobson of the Waples Company. The expense of this work as estimated by them is quoted herewith:

(Copy)

The Waples Company, Inc.—Proposal

Subject—Charles Gabriel Devine School, Randolph.

Dear Sir:

We will furnish at the above building, all labor, material, tools, equipment, supervision, workmen's compensation and liability insurance necessary to complete in a thoroughly workmanlike manner, all the work described below.

Scope of work: Eliminate leaks by cutting out all defective and unsound mortar joints with pneumatic hammers, pack all openings found, and repoint with well-graded cement-lime mortar, colored to match the present work as closely as possible, from and including top of parapet down to a horizontal line level with the top of the first story windows across the entire east and north elevations, including a twenty foot section from the southeast corners on the south wall.

TOWN OF RANDOLPH, MASS.

We guarantee the areas treated to be watertight—for the sum of thirteen hundred and twenty (\$1320.00) dollars.

Respectfully submitted,

THE WAPLES COMPANY, INC.

By Arthur Jacobson, Manager.

The lack of space for additional pupils last September necessitated reopening the Pauline Street School. We are now caring for approximately 88 pupils in the school. This re-opening naturally required a considerable expenditure due to equipping it with desks and supplies, as well as the addition of two teachers and a janitor.

The Pauline Street and Devine School lots should be graded. An E. R. A. project has already been considered for the Pauline Street School. The grading of the Devine School lot will be considered in the coming year.

School Supplies

A careful study was made of the system of ordering, distributing and accounting for school supplies. Changes were made in the system so that one member of the School Committee would be responsible for approving all orders for supplies. The system is still far from being satisfactory owing to the lack of a Central supply room and distributing facilities. Further study will be made to improve the system and cooperation of other departments will be solicited.

School Rating of the Town of Randolph

Your Committee believes that the Town of Randolph, because of the excellence of its teaching staff, and the splendid results obtained, should have a Class A rating with the State Board of Education. Upon applying

NINETY-NINTH ANNUAL REPORT

to the State Board as to what was lacking in our school curriculum which prevented this rating, the State Board sent Mr. Burt, head of the department of secondary education, to study our school system.

The report received from him is quoted herewith:

(Copy)

The Commonwealth of Massachusetts
Department of Education
State House, Boston, Mass.

September 27, 1934

School Committee,
Randolph, Mass..

At the request of yourself and other members of the Randolph School Committee, I made yesterday a lengthy visit at the Randolph High School.

I spent a few minutes in the room of nearly every teacher so as to get a picture of the general situation. I will not, therefore, make detailed comments with regard to any particular instructor.

The general condition of the building impressed me as being good and the attitude and conduct of the pupils were commendable. In several rooms, the posture of the pupils can be improved, particularly when they rise to recite. In a few rooms I noted poor preparation on the part of the pupils but realize that this situation is more likely to be found on Mondays, than on other days of the week.

I was glad to learn that several of the teachers are pursuing graduate work in education. I found minor faults in several of the classes on the part of the teachers

TOWN OF RANDOLPH, MASS.

such as repeating answers which the pupils have already given; such as asking leading questions which can lead only to the right answers; and such as too much talking on the part of the teacher and not enough on the part of the pupils. In one or two cases the teachers were calling on the same few pupils and there was lack of attention on the part of the others. In one room there was a tendency for several pupils to answer in chorus and in another room too much time was spent in my opinion in reading orally from the textbook. In general, the discipline was good and there was good attention on the part of the students. I am pleased to find that you have enough teachers so that there are very few large classes. It is unfortunate, however, that study pupils have to be seated in the rear of the rooms where classes are being held. I noted that only two teachers have a free period during the school day. One teacher has seven classes a day and most of the others have six classes and also a study room to supervise. This makes a rather heavy teaching load, but perhaps cannot be avoided at the present time.

I am sorry that the program of studies does not provide for classes in foods for the girls and in manual training from the boys. In view of the small number of pupils going to college it seems to me that more courses of the manual type should be provided.

I was glad to note that most of the textbooks which I examined were of recent date.

I am glad, also, to learn that a teacher has recently been appointed to take care of the physical education for the boys.

I found the building and its equipment reasonably adequate with the following exceptions:

For good work in general science, the teacher's desk should be fitted with gas and running water.

NINETY-NINTH ANNUAL REPORT

For adequate work in physics more electrical apparatus should be provided.

A well-equipped school library should have a few periodicals.

For efficient carrying on of classroom work, the clock system should be in proper running order.

Where separate chairs are in use as in the book-keeping room, distracting squeaks can be avoided by fitting these chairs, at slight expense, with silence domes.

I was pleased to note the re-decorating that had been done and the work of extending the use of the school playground. If some of the objectionable features herein mentioned can be taken care of this year, I see no reason why it will not be possible to classify the Randolph High School as a Class A school in the Spring.

Very truly yours,

(Sgd.) JEROME BURTT,
Supervisor of Secondary Education.

Your Committee has complied with the recommendations of the State Board, taking the necessary measures to correct the conditions reported.

With the action taken your committee believes the coveted Class A rating will be given to the town in the Spring.

It is the opinion of your committee that the school system of Randolph needs the services of a superintendent who may devote all of his time and energies to directing and guiding our local schools. It would be neces-

sary in order to affect this change to obtain the consent of a majority of the school committees of the three towns comprising the present union. It is the opinion of your committee that the money spent for this purpose would be repaid to the town many times. This proposal is by no means new. It has been advocated in the past and your committee sincerely hopes that the near future will see its adoption.

Your Committee has been fortunate in continuing the E. R. A. project on the high school field. Much work has been accomplished here in the way of drainage and the clearing of the field bordering on Highland Ave. The covered stone drain two feet wide and about three feet deep, extending from the southerly lot line to the lot line on the northerly side of the field, a distance of about five hundred and fifty feet, has been completed and covered with earth. This drain has been supplemented by a system of lateral blind stone drain to properly carry off the surface water in this section of the field.

All stone boulders, rocks, shrubs and trees have been removed in that section of the field between the old swamp area and Highland avenue. Large boulders have been blasted and sunk into the ground, the clay material displaced thereby being used for surfacing. Your committee hopes that, with the advent of more favorable weather, the work of grubbing, leveling and grading this portion of the field may continue so that when the necessity arrives a satisfactory baseball diamond can be laid out in this area to supplement the present athletic field.

At the northerly side of the High School an E. R. A. project is in operation looking to the surfacing of two tennis courts, and a basket ball court and a junior play field for the younger children of the neighborhood. This project contemplates connecting the present State drain with a covered stone drain two feet wide extending along

NINETY-NINTH ANNUAL REPORT

the northerly lot line to connect with the covered stone drain previously mentioned, a distance of about four hundred and fifty feet. Surfacing and seeding of the land at the north of the High School building, adjoining South Main street, and the building of walks, curbs, etc. is part of this project.

Your Committee is confident that much valuable and necessary work could be accomplished, not only at the High School field, but on playgrounds at all school centers if funds were available for materials and equipment which could be used in connection with E. R. A. projects. A much needed cinder track could be constructed on the present athletic field, permanent concrete bleachers constructed, and the low land at the southerly lot line in the rear of the present bleachers filled and graded.

Respectfully submitted,

ELMER L. FRENCH, Chairman,
THOMAS E. DALY,
MARY A. DEAN,
JOHN E. KELLEY,
F. E. CHAPIN,

Randolph School Committee.

Report of the Superintendent of Schools

To the School Committee of Randolph,

Mr. Chairman and Members:

I submit herewith for your approval my annual report of the public schools of Randolph.

The intensive study now going on in the field of social sciences will unquestionably reveal new truths, new values and objectives, which society, as a whole, must face squarely and courageously in its effort to solve ills, legislate wisely, and make it possible for man to work and enjoy life. What specific improvements or social benefits will derive from such a study will be difficult to predict at this stage. There is every indication, however, that all organizations and institutions will undergo a form of self-analysis or examination as to their real objectives, services to the individual, and to the community as a whole. First in this classification will be the re-evaluation and organization of the public school programs throughout the country, a change, in truth, which is already under way and is being felt in school systems generally.

Our immediate problem will be to assist that group of pupils now in our schools but which was formerly absorbed in the trades. The age limit and the unemployability of such pupils turned them back to the regular academic class rooms where many of them prove to have no interest in book-learning, as such, and are therefore

NINETY-NINTH ANNUAL REPORT

receiving little or no benefits from the ordinary instructions. This can also be said of other children in our schools who have special if not keen interests in the practical arts but who are denied the opportunity to develop their ability and potential skill because of the lack of equipment, materials and teachers.

As the greater part of the total load of public school education in the United States is carried on by the smaller school systems, it becomes a stern reality, if not a necessity, that such systems prepare to equalize their educational opportunities and give to all children that education which they can best absorb and profit by most. We have provided departments and classes in Latin, French, Commercial Science, etc., to special-problem classes, but have provided no instruction for that large group of boys and girls who have been endowed with potential skill and workmanship but who today are misfits in our school systems generally, because we cannot shake off the traditional notion of the classical school where Latin and Greek constituted an education and the sign of a learned man.

School systems everywhere, therefore, must recognize the obligation of providing suitable instruction for the present and ever-increasing number of young people who are required to remain in school. Unless we can do something to motivate the work for these and other pupils, provide suitable instruction and leadership in the proper use of leisure, as well as in industry, such pupils may become a problem in school if not a social menace outside the schools.

Extra Curricula Activities

In the endeavor to be of the greatest help to pupils and to interest them in worthwhile use of leisure, teachers in Randolph have very loyally given of their time to

TOWN OF RANDOLPH, MASS.

organize and instruct groups of children in arts and crafts or the making of useful articles for themselves and home. All classes are conducted after school hours. More than 50% of our teachers, from the high school to grade one, have provided some form of activity in knitting, sewing, crocheting, manual training, and games and dancing in the lower grades.

To meet another social problem today, the teachers volunteered their services in the hope of providing a safe and sane Hallowe'en celebration for school children. To offset the growing tendency on the part of children to carry on their "ghost pranks" on the streets with all their attending dangers, teachers above the fourth grade opened their classrooms and acted as hostesses to the "enumerable witches and ghosts" that visited the school rooms that evening. The success of the plan went beyond our highest expectations. Although intended for children "who had no other place to go," over seven hundred children attended and twenty-six teachers reported. Refreshments were abundantly provided by both parents and teachers. Activities began at 7 P. M. and closed at 9 o'clock. At 9.10 a cruise of the town was made and aside from a small group of children on their way home, the streets were deserted by the children. One false alarm was sounded, but reported by Chief McDonnell to have been pulled by a group of strangers "floating" through the town.

In recognition of this practical service on the part of teachers, the cooperation of parents and pupils and our Police and Fire Departments, I extend a sincere thanks and appreciation.

The reconditioning and opening of the Pauline Street school greatly facilitated the seating accommodations in our schools. The removal of the two eighth grades from

NINETY-NINTH ANNUAL REPORT

the Stetson building to the Prescott and Devine schools has greatly assisted the classroom organization in the high school.

Our effort in placing Stetson high school in Grade A is nearing its goal. Mr. Jerome Burt, Director of Secondary School Education, State House, has made several visits to the high school. His findings and recommendations are encouraging. The School Committee and high school faculty are bending every effort to conform to his recommendations to the end that our school may attain the rank and keep it secured by professional improvements and educational results. In this connection I recognize the splendid piece of work volunteered by the teachers in the English department under the supervision of Miss Fay and Mr. Gilgan to revise and bring up-to-date the required reading in English.

We have reason to believe that our teachers are diligently at work and will give an account of their endeavors. Our aim is **service**. Few school systems can boast of a better or a more loyal teaching staff than that which serves in Randolph. Every problem and task presented to them has been successfully executed. I am pleased to record this here, and if space permitted, I could enumerate many instances where teachers have quietly assisted distressed and needy children under their care.

Although our teaching program, from grades one to eight, endeavors to reach the needs of every child, it is always advisable for teachers to check the results of their instruction and note deficiencies or difficulties which the pupils may encounter in their various subjects. To this end, diagnostic tests with remedial follow-up work will be used. The Standard Graduation Examinations for grade eight have been used for a number of years and have showed gratifying results.

No-school Signals

Suspension of school activities due to weather conditions is influenced by two factors: health and safety of school children and the cost to the town and schools because of the interruption. Closing of schools on severe-weather days is unquestioned. There will be days when schools are in session because weather conditions are not severe enough to cause a complete shut-down of all activities. On such days, parents, as in former years, determine whether their children shall attend. This method, for years, has worked out satisfactorily for both home and school and in its operation has proved flexible enough to allow those who wish to attend and yet at the same time place no undue burden on those who find cause to remain at home.

We lost by retirement last June, Miss Hannah F. Hoyer and Mrs. Sarah J. Powderly, both of Randolph. The long and flawless record of these two teachers will remain a lasting memory in the minds of all who attended their classes. Although burdened with large classes and difficult problems, they never lost the common touch nor the interest of the child. As an English teacher, Mrs. Powderly was unexcelled. Miss Hoyer at one time taught at the Tower Hill school and later in both grade and junior high schools, and, at the time of her retirement, was principal of the Prescott Grammar School.

The repairs and improvements of our schools during the summer months were greatly appreciated by teachers and pupils alike. These with many others now under consideration from local and Federal Emergency Administration appropriations will do much to put order and dignity to our classrooms and buildings.

Scholarship and Educational Loans

In recognition of the High school scholarship presented to our school by the North Randolph Women's

NINETY-NINTH ANNUAL REPORT

Club and to the Stetson High School Scholarsh Fund Committee for similar awards. I wish to acknowledge their gifts and extend to them the thanks of all who are interested in education and in the achievement and success of our high school.

I am mindful, too, of the educational advantages offered in the form of loans and sponsored by the Randolph-Holbrook Rotary Club and the Massachusetts State Grange to such of our high school graduates who have the will power and ability to go on.

It is generally not known to the average person that for years the Massachusetts State Grange has included in its already busy program of practical arts a very active and important department of Educational Aid to worthy students. In a recent interview with Mr. Peter L. Vincent of Brookville and Superintendent of the Juvenile Department, State Grange, I was furnished with a report of the Educational Aid Fund of that organization and was deeply impressed with the size and scope of the educational opportunities sponsored by the Grange. The amount of loans to students during the past 23 years reaches the total of \$200,504.00, and that in the same period of time, 1,506 students have received aid. During the year 1934 no less than 134 loans were granted. Here is a challenge to the youth of our day, for such activities on the part of the Grange, constitute a very definite contribution to the advancement of learning in America.

In conclusion let me thank the members of the School Committee for their assistance and cooperation in my work and in the common task to make our schools better schools each year.

Respectfully submitted,

A. O. CHRISTIANSEN,
Superintendent of Schools.

NINETY-NINTH ANNUAL REPORT

STETSON HIGH SCHOOL PRINCIPAL'S REPORT

Mr. Adolph O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

Dear Sir:

It is our pleasure to submit our third annual report as principal of Stetson High School.

Since 1927 there has been an increase in pupils of over one hundred percent, as the following figures will show:

1927	200	1931	334
1928	252	1932	393
1929	244	1933	418
1930	286	1934	447

Our present enrollment is distributed as follows:

Class	Boys	Girls	Total
Freshman	71	85	156
Sophomore	54	47	101
Junior	49	51	100
Senior	29	49	78
Post Graduate	0	5	5
	<hr/>	<hr/>	<hr/>
	203	237	440

The congestion of last year has been relieved by the placing of the two eighth grade divisions in other buildings. This improved situation will apparently continue for the next two years, as the approximate enrollment in grades seven and eight is one hundred and fifty-eight and one hundred and forty-six respectively.

There are many influences affecting the problem of enrollment and some of them are so new that it is quite difficult to foretell their effects even a short length of time in advance. The present time of economic stress has forced child labor out of industry perhaps forever. The pressure being brought to bear on all sides to raise the compulsory school age from sixteen years of age to eighteen will, if successful, mean even larger enrollments. Such a condition will create many new problems besides that of housing.

Faculty

There were some changes in the makeup of the teaching force when school opened in September. Resignations of Miss Mildred Sullivan, Mr. R. Prunty MacGerigle, and Mr. Alfred Whitney were accepted and the appointments of Miss Audrey Carr, sewing; Mr. Hugh Heney, history; and Mr. William Lynch, mathematics; were made. In order to make possible a more comprehensive course in Physical Education, Mr. Daniel Leavitt was added to the staff and has been assigned to part-time academic and physical training work for boys, while Miss Dorothy Gavin is in charge of girls' physical education under the same arrangement. We are especially fortunate that the size of the faculty has kept pace with the growth in school population.

Four of our faculty are the possessors of master's degrees: Miss Genevieve Steffy, Boston College; Mrs. Anna McCann, Boston University; Mr. James Riley, Boston College; and the principal, Harvard University. In addition, some of our teachers are availing themselves of the opportunity of continuing their education. This is an indication that our staff is professionally-minded and progressive. Furthermore some of our teachers are connected with extra-curricula activities in various fields, such as publications, dramatics, athletics, music and clubs.

NINETY-NINTH ANNUAL REPORT

We believe that all teachers deserve highest praise for the commendable way in which they have undertaken the duties of their positions. It is the purpose of our staff to carry on, as far as possible, all types of activities in order that our pupils may not be deprived of any opportunities during their period of secondary education.

The Curriculum

We have in this school three courses of study: College, Commercial, and General. Following is a chart showing the present distribution of pupils by classes and courses.

	College	Commercial	General
Freshman	21.3	64.7	14
Sophomore	26.2	52.3	21.5
Junior	25	55.2	19.8
Senior	17.3	40	42.7

It is evident that not less than seventy percent of the high school enrollment is to be found in the Commercial and General courses and that the Commercial course is, by far, the most popular of the three. Too many pupils, however, have chosen commercial work because they do not want college preparatory work and because the general course, as constituted, does not fill the needs of the majority of the present day type of student. Such pupils in the commercial course should not be there at all; as a result they themselves do poor work and at the same time hold others back. It is our opinion that the addition of other courses and the general enrichment of our curriculum would eliminate this difficulty so that this school would not, of necessity be classed as a commercial high school.

Without doubt the greatest problem we have to face is the indifferent and retarded pupil. There are more of

them today in school because of the times. A study of this type of pupil shows that while he does not respond as well to the printed page as others, his hands will make up for lack of scholarship. Besides sewing, for girls, our school offers nothing to this type of pupil.

Failure, discouragement and in some instances, truancy and poor attendance are the result. The truant is usually the pupil who finds little, if any, interest in mere academic work; so too, the pupil who is irregular in attendance, the pupil who is indifferent to his school work and satisfied merely to "get by".

The answer to all this is to widen the scope of our educational possibilities. Our curriculum is at present too narrow. If we are to train our boys and girls to think, if we are to attempt character education, we must first emerge from scholasticism as such to socialization. We must adapt our curriculum to such purposes in life as to provide each pupil with a normal outlet for his own particular personality. To this end we wish to recommend a reorganization of the courses of study. The high school no longer comprises a high selected group and the realization of this fact should be followed by a revision of our offerings. In this way we may be able to give pupils of varying abilities and interests something more than the traditional subjects which are not suited to many of them. Following are a few specific suggestions which we believe would effect a decided improvement. We recommend:

1. Cutting down the present number of daily class periods and increasing the time of each period to sixty minutes: thirty minutes for class work and thirty minutes for supervised study.

2. Changing the system of achievement recognition from the unit system to the credit system.

NINETY-NINTH ANNUAL REPORT

3. Introducing a course for girls in Home Nursing and Child Care. This course would be supervised by the State Department of Public Health with a registered public health nurse as instructor supplied by the state. There would be no cost except for some reference books and this expenditure would not exceed twenty-five dollars.

4. The introduction of Manual Training and Household Arts. These courses may be made very comprehensive and beneficial. To illustrate, a course in Household Arts could include (a) scientific subjects such as the physics and chemistry of house-management, of foods and textiles, the biology of foods, the chemistry of nutrition; (b) artistic studies such as costume design and construction, home decoration; (c) economic studies such as the economics of commodity consumption; (d) social studies, such as community and civic responsibilities, the organization of the family and child care. A course similar in aims could be worked out for the boys in Manual Training.

5. Adopting some sort of unit system in the social sciences. Along this line we suggest that Ancient History be dropped; World History be advanced to the second year, Modern History to the fourth year, and that both be made elective. The social science course would be something like this: first year, civics; second year, elementary social science, consisting of an introduction to civic, social and economic problems of the United States and the world; third or fourth year, United States History and government; fourth year, senior social science including economics and a study of international relations.

Since the civic and economic status of the coming generation of adults depend greatly on the kind of training given today's youth we believe there is a need for

a more definite training in sound economic living. Such a civic program would better prepare the student to take his proper place in the social life and adult world into which he is inevitably thrust.

6. We also recommend that a committee from the high school faculty be appointed to study the matter of curriculum revision and to report to you the results of their study of the matter.

7. Lastly, we recommend that a set of minimum requirements be set up which grade school pupils must attain in order to be eligible for enrollment in the college course in high school.

Visual Education

Today the motion picture must be regarded as one of the most effective educative forces of present day life. When such a device is so common today and has actually become part of life, we cannot be satisfied with using obsolete ways of instruction and expect to train our pupils to meet problems of contemporary life with any degree of efficiency. There are many excellent pictures on the market today of value to schools and these pictures make a far more lasting impression on children than can the printed page.

We wish to recommend the purchase of a motion picture machine that would be suitable not only for classroom use but also for mass instruction. We also suggest that if possible, some means be provided of darkening Chapin Hall, so that the pupils will in the future have the opportunity of seeing some worth while films.

The Library

The library is as important a factor as any other in the school for helping to give pupils the proper train-

NINETY-NINTH ANNUAL REPORT

ing—the training that will serve them in good stead when teachers and texts are no longer available. Pupils who use a library tend to become independent workers; they learn to do things for themselves; they learn to search out and assimilate facts.

Our English department instituted this year a course in outside reading in an attempt to accomplish these aims: (1) To cultivate a taste for good literature; (2) to develop the reading habit so that the pupil of today may continue his education after the regular school period; (3) to supplement the textbooks in daily use; (4) to enrich the daily experiences of the pupil. To date we have had to rely almost entirely on the Turner Free Library for the necessary books. At this point we wish to thank the officials and librarians of the Turner Free Library for their courtesy and cooperation in making these books available to our pupils. Without their valuable assistance we would have been unable to carry on our project at this time.

The point we wish to make is, however, that supplementary books of this nature should be in our school library as well as in the town library. A large number of our school library books should be discarded as they were damaged by the fire some years ago and others are quite worn out. We have many valuable and good volumes in the library but we wish to suggest a policy of annual purchase of a quantity of books so that we may have at all times books that will attract the type of pupil who most needs this kind of training.

In General

It is our pleasure to say that we are making gradual progress on the road to higher educational standing. During the past year our school privilege to certify to certain colleges was renewed by the College Entrance

Board for a period of four years. Thus, pupils who attain a high scholastic average may be allowed to enter certain colleges without examination.

We were favored early last fall with a visit from Mr. Jerome Burt, Supervisor of Secondary Education, and we believe he was not unfavorably impressed. It is our hope that this impression will be reflected by a higher rating than has been enjoyed for some time.

In Conclusion

We wish at this time to express to you, Mr. Christiansen, and to the School Board, our thanks for the cooperation and inspiration extended to us during the year just ended.

Respectfully submitted,

HUBERT F. GILGAN,
Principal.

SCHOOL PHYSICIAN'S REPORT

The year 1934 was an average year in regard to the health of the children of our town. We had a much smaller number of contagious diseases than in former years, with practically no loss of school sessions from epidemics.

The past year found an increase in the number of minor accidents in our school-yard playgrounds. About one hundred and ten school or office visits were made during the year for various slight injuries.

NINETY-NINTH ANNUAL REPORT

The State Board of Health has delegated the Norfolk County Hospital staff to do the tubercular "skin test" in our schools. If skin test shows a positive reaction, further examination by X-Ray will be made at the Norfolk County Hospital at Braintree. Under the most skillful administration of the test by Dr. Pillsbury, Superintendent of the Norfolk County Hospital, who is a most able man, and with the careful follow-up examination of every positive or suspicious reaction, no parent need be at all afraid of further sickness arising from the test itself.

When a positive case is found, as a result of the test, a most scrutinizing and watchful eye is kept on that child. At this point the duty of the parent is absolute, and his or her co-operation is necessary to combat the progress of positive tuberculosis.

Toxin-antitoxin was given late in the Spring term to pre-school children and other children who had not availed themselves of the opportunity at former clinics.

Several hundred children were examined during the year and the majority were found to be in good physical condition. The health of our children is above average.

Thanking the Superintendent of Schools, the School Committee, teachers, and nurses for their splendid co-operation and good-will during the year, I am,

Yours truly,

GEORGE V. HIGGINS, M. D.

SCHOOL NURSE'S REPORT

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Mass.

I herewith submit a report of my work from September 10, 1934 to December 31, 1934:

All pupils weighed and measured	
Pupils 10% or more underweight	97
Pupils sent home with impetigo	7
Pupils sent home with pediculosis	24
Home visits	86
Pupils sent to Dr. Higgins' office	42
Pupils taken to Norfolk County for X-Ray and Von Pirquet test	2

The Chadwick follow-up Clinic conducted by the State Board of Health was held at the Ladies' Library Association in November.

Pupils Re-examined and X-Rayed	26
Pupils given Von Pirquet Test	6
Pupils recommended for summer camp	5

The importance of clean teeth is being forcibly emphasized. Each class room has a Dental Honor Roll and the pupils are showing keen interest in the Clean Teeth Campaign.

Many children were made happy at Christmas by toys repaired and painted by the firemen of the Randolph Fire Department.

Through the generosity of the teachers and pupils, 36 Christmas baskets were given out. The Child Study Club donated candy and hand-made toys for the baskets.

NINETY-NINTH ANNUAL REPORT

The problem of free milk has been an important one and at this time I wish to thank the organizations who so generously contributed to the Milk Fund. This year the splendid work of the Randolph Chamber of Commerce will make possible the free distribution of milk to nearly 100 needy children in our schools.

In closing my report I wish to thank the School Committee, Mr. Chirstiansen, Dr. Higgins, the Board of Health, pupils, parents, and teachers for their help and cooperation in carrying on the health work.

Respectfully submitted,

HELEN F. CONLON, R. N.,
School Nurse.

DRAWING SUPERVISOR'S REPORT

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

Dear Sir:

The following is my report as Supervisor of Drawing in the schools of Randolph, covering the short period of time from September to December, 1934.

Art is the type of work that goes on quietly and yet with a tremendous significance as far as the future happiness of the individual and the cultural life of the community are concerned. Educational leaders are rediscovering the wealth of artistic ability inherent in

the child. The art work in the schools is giving a new insight into this ability and encourages further expression of the child's own individuality under guidance.

The work in the grade schools has been carried on in relation to the seasons of the year. Nature work was stressed extensively in the fall. This arouses a lively interest in the laws of order as manifested by nature and manufactured objects in our everyday world.

In order to make design work seem of greatest importance it was applied to problems in the form of useful Christmas gifts for the children's mothers and fathers. These problems included saché folders, calendars, match scratchers, handkerchief holders, boxes, gift folders, receipt and recipe holders, telephone pads, note books, and tree ornaments.

Figure drawing has been studied considerably in the lower grades. This permits the child a great use of freedom in expressing his word pictures. This year this work will be correlated with other subjects of the curriculum such as reading and history.

Lettering has been stressed in the junior high grades and at the present time is being applied to health posters, thus greatly emphasizing the necessity of fresh air, cleanliness, proper food, and care of the body.

Owing to lack of proper equipment in the high school it makes it most difficult to progress as rapidly as we desire. Much interest, however, has been shown in the art work.

The aims of the mechanical drawing work in the high school are to help the pupils to make simple working drawings and to read and understand blue prints; and

NINETY-NINTH ANNUAL REPORT

to develop an appreciation of workmanship and design, by teaching skill in handling of tools and drawing. This course is important in giving vocational or semi-vocational training to those who leave school as it gives an insight into the different trades.

The art work lays a foundation for the illustration of ideas which cannot be presented in words. It provides an understanding of the importance of harmony in both home and in business decoration and arrangement. It demonstrates where true economy may be practiced in the selection of many materials, and above all, it leads to the appreciation of the beautiful in nature, the home, and in industry. With these objectives in mind the course of study has been laid out intending to make the instruction most interesting and of greatest practical value to the pupils generally.

In concluding I wish to acknowledge the helpful support of the superintendent of schools and teachers. Their cooperation has made it possible for me to execute my formulated plans.

Respectfully submitted,

RUTH C. LENNON,
Art Supervisor.

REPORT OF THE MUSIC SUPERVISOR

Mr. Christiansen

Dear Sir:

I submit the following outline and report of the music from the First Grade to the High School inclusive.

Grade I

Blackboard work, consisting of scale work from the ladder, presenting the Staff, singing in all keys, including individual work, by pointing out the notes from dictation, also children learn to sing many rote songs.

Grade II

Review of first year's work, after which the Introductory Music Reader is placed in the hands of the children, who then are taught to sing in time, learning the value of the whole, half, and quarter notes.

Grade III

Singing from the Juvenile Music Reader, much the same as the second year, but much more difficult intervals.

Grade IV

Singing from the Elementary Music Reader, learning the Chromatic Scale and the latter part of the year, taking up two-part music, namely "soprano and alto".

Grade V

Singing from the Two Part Music Reader. Songs in harmony, introducing chromatic skips.

NINETY-NINTH ANNUAL REPORT

Grade VI

Singing from the Intermediate Music Reader. Two Part songs the first of the year, later taking up Three Part music—teaching of minor scales and songs.

Grade VII

Singing from the Three-Part Music Reader, learning the Bass Clef. Pupils are taught three part singing. Combining treble and Bass Clef.

Grade VIII

Singing from the Assembly Song Book, much the same as the seventh, but more difficult music.

High School

One period a week of forty minutes is devoted to singing. A chorus of approximately one hundred voices from the Junior and Senior Classes participate in this chorus.

Time does not permit of any more work being done, consequently the pupils from the Freshman and Sophomore Classes do not function in music, I regret to state.

The High School orchestra, composed of about 20 members, assemble every Monday morning for practice. Much enthusiasm is manifested among the pupils.

Trusting that this outline will give you an adequate idea of the work done in our schools, I am

Respectfully yours,

ROSE G. HAND,
Supervisor of Music.

Report of the Trustees of Stetson Hall Fund

Since the advent of the present economic depression, revenues derived from the Stetson Hall have been very much reduced, and have not been sufficient to meet the ordinary running expenses of the building and to pay for the repairs which are necessary from time to time. Previous to the year 1934, the Trustees have been able to meet these expenses by applying the interest on the invested fund to supplement the revenue derived from the rent of Stetson Hall, but during the year 1934, owing to the reduced revenue from the hall, and the reduced earnings on the invested funds, it has been found impossible to meet all of the demands imposed.

During the year 1934, Savings Banks and Trust Companies were forced to reduce interest rates by order of the Federal Government. This cut in interest rates necessarily reduced by a considerable amount the earnings on our invested funds. The re-organization of the Webster & Atlas Bank stocks and the par value of that stock dropping from \$100 a share to \$50 a share has meant a loss of \$400 in the total amount of our funds.

The appended report of the Treasurer of the fund, Dr. V. Higgins, will show the earnings of the fund and the bills paid by him during the year 1934. This statement shows a balance in the bank of \$51.34 checking account. Bills unpaid, however, amount to over \$300, namely, bill of Frank Diauto for fuel oil, Weymouth Lighting Company, Brockton Gas Light Company, and a few small amounts.

NINETY-NINTH ANNUAL REPORT

In the early Spring, certain repairs were made necessary because of the heavy snow loads on the roof of the building during the winter then just passed. The conditions pointed out by the Massachusetts Department of Public Safety, when investigated by the Trustees, were found both by the Trustees and the Department to be not necessarily dangerous, but to prevent possible further damage, it was deemed advisable to have the repair work done at once. Some two hundred heavy iron bolts and iron plates were used in this work to prevent further checking of timbers and to strengthen connections in the roof construction. New and additional hangers were inserted to hold the ceiling securely in place, and one additional heavy tie-rod was installed to anticipate the possibility of the building spreading.

An E. R. A. project has been prepared and has been submitted for approval. This project covers all necessary repairs on the Town Hall Building from the basement to the roof. In the basement it is proposed to enclose the boiler room with masonry walls and a metal lathed and plastered ceiling. A pistol range would be constructed for the Police Department, with all necessary metal safety plates, etc. An entrance would be built over the present bulkhead steps near the Fire Station. The heating pipes and boiler would be overhauled and repaired. All electric wiring, etc. in the basement would be renewed. The first story would have all corridor floors and stair treads repaired, and new tiles inserted where necessary; all windows, blinds, wood work, etc. overhauled and repaired. All wood work, plaster walls and metal ceiling would be cleaned and painted two coats. The second floor would be painted and repaired; all electric wiring renewed; all electric cabinets renewed and all meters and service switch would be wired to new positions in the boiler room. Heating and plumbing would be thoroughly overhauled and repaired where

TOWN OF RANDOLPH, MASS.

necessary. The exterior of the building would have clapboards repaired where necessary; gutters and facias renewed and roof stripped down to old boarding and resingled with heavy asphalt shingles. The exterior of the building would receive two good coats of lead and oil paint.

The project outlined above calls for an expenditure of approximately Seven Thousand Five Hundred Dollars of Federal money for labor and about Three Thousand Dollars for materials and equipment. Money for materials and equipment would have to be furnished by the Trustees of the Stetson School Fund and the Town of Randolph.

The Trustees wish at this time to thank Major Ralph MacLeod for his kindness in donating all of the steel protecting plates, including about three tons of steel necessary for the building of the pistol range for the Police Department. We also wish to thank Major MacLeod for his valuable assistance in the matter of technical advice in this work.

The Trustees are sponsoring an article in the warrant for the forthcoming town meeting, requesting that the Town of Randolph pay the bills which it has been found impossible to meet from the revenue derived from the hall and the income from the fund last year. The Trustees are also asking that the Town of Randolph appropriate a sum of money to be used for materials and equipment for the Town Hall repair project.

January 24, 1935.

This is to certify that I have this day audited the above fund with the following results—receipts and expenditures correct.

NINETY-NINTH ANNUAL REPORT

Deposited in Randolph Savings Bank	\$755.75
Deposited in Randolph Trust Company	8,232.10
Deposited in Randolph Trust Co., Checking	51.34
8 shares of Webster and Atlas Bank Stock	400.00
9 shares of Lawrence Gas Stock	225.00
10 shares of Randolph Co-operative Bank	2,000.00
	<hr/>
	\$11,664.19

Also in the Randolph Savings Bank a deposit of \$1,125.52 to the credit of the Turner Medal Fund.

ELMER L. BURCHELL.

TOWN OF RANDOLPH, MASS.

employment of a District Nurse, as provided for by Section 5, Chapter 40, General Laws, as amended by Section 1, Chapter 371, Acts of 1921.

Article 7. To see what action the Town will take in regard to the pay of Town Laborers and others hired by the day or hour.

Article 8. To hear and act on the reports of Town Officers.

Article 9. To hear and act on the report of any Committee and choose any Committee the Town may think proper.

Article 10. To see if the Town will instruct the Selectmen to appoint a Special Officer, or Officers to enforce the laws.

Article 11. To see if the Town will authorize the Water Commissioners to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

Article 12. To see if the Town will vote to authorize the Board of Health to appoint one of their members to another office or position under their control, and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

Article 13. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 to provide for the rental of Quarters for the Lt. Thos. W. Desmond Post No. 169 of the American Legion.

NINETY-NINTH ANNUAL REPORT

Article 14. To see if the Town will vote to accept Chapter 82, Section 37, General Laws, to make it possible to establish building lines, as petitioned for by the Planning Board.

Article 15. To see if the Town will appoint a Committee to look into the advisability of building a combination Fire and Police Station in conjunction with a P. W. A. project; said committee to report with their recommendations at a Special Town Meeting not later than May 1, 1935.

Article 16. To see if the Town will vote to elect a Board of Public Welfare, to consist of not more than three members, according to the provisions of Section 1, Chapter 41, General Laws.

Article 17. To see if the Town will vote to raise and appropriate money for materials and equipment in connection with E. R. A. projects, as petitioned for by the Selectmen.

Article 18. To see if the Town will vote to purchase and install a new steam heating boiler and oil burner, and a ventilator for the roof at the Belcher School, and raise and appropriate the sum of \$2500.00 therefor as petitioned for by the School Committee.

Article 19. To see if the Town will vote to purchase and install ventilating and sanitary systems in the Prescott and Prescott Primary School Buildings and raise and appropriate the sum of \$12,000.00 therefor and determine how the same shall be raised, or take any other action relative thereto, as petitioned for by the School Committee.

TOWN OF RANDOLPH, MASS.

Article 20. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 for the purpose of repointing and waterproofing the Charles Gabriel Devine School Building, as petitioned for by the School Committee.

Article 21. To see if the Town will vote to raise and appropriate money to pay certain unpaid bills of the Stetson School Fund, as petitioned for by the Trustees of the Stetson School Fund.

Article 22. To see if the Town will vote to raise and appropriate money to purchase materials and equipment for an E. R. A. repair project for the Town Hall Building, as petitioned for by the Trustees of the Stetson School Fund.

Article 23. To see if the Town will vote to raise and appropriate the sum of \$500.00 for the maintenance and care of the Stetson High School Field as recommended by the School Committee and as petitioned for.

Article 24. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 for the purpose of making an engineering study, survey and report, in relation to building a system or systems of sewerage and sewage disposal or take any other action relative thereto, as petitioned for.

Article 25. To see if the Town will vote to authorize the Selectmen to petition the Public Works Administration of the Federal Government for a grant of money or a loan and grant, for the purpose of building, operating and maintaining a system or systems of sewerage and sewage disposal, making the appropriation therefor and provide by borrowing or otherwise, such sum as necessary to meet appropriations made, or take any other action relative thereto, as petitioned for.

NINETY-NINTH ANNUAL REPORT

Article 26. To see if the Town will vote to petition the Legislature for permission to borrow outside the debt limit, a sum not exceeding \$300,000.00 to build a system of sewerage and sewage disposal or take any other action relative thereto, as petitioned for.

Article 27. To see if the Town will vote to raise and appropriate the sum of \$1,200.00 for the purpose of preparing a "Comprehensive Zoning Plan" for the Town, under the direction of the Planning Board, as petitioned for.

Article 28. To see if the Town will vote to raise and appropriate the sum of \$200.00 to be used by the Planning Board in connection with the necessary work of this department, as petitioned for.

Article 29. To see if the Town will vote to accept Chapter 82, Section 37, General Laws, to authorize the Selectmen to establish a twenty feet setback on the existing westerly side of North Main Street from Crawford Square to West Street, or take any other action relative thereto, as petitioned for.

Article 30. To see if the Town will vote to instruct the Assessors to compile a list of all Real Estate Tax Payers and the individual parcels and amounts assessed to each one, as of January 1, 1935, and to have this published in the Town Report for 1935, and raise and appropriate money therefor, as petitioned for.

Article 31. To see if the Town will vote to create the office of Town Counsel, and make any amendments to the By-Laws as may be necessary to effectuate this purpose, and raise and appropriate the sum of \$1,200.00 per annum for the purpose of paying the Annual Salary of a Town Counsel, as petitioned for.

TOWN OF RANDOLPH, MASS.

Article 32. To see if the Town will vote to raise and appropriate the sum of \$350.00 for Memorial Day Expenses, to be expended under the direction of Lt. William Palmer Camp, Sons of Union Veterans of the Civil War, as petitioned for.

Article 33. To see if the Town will vote to raise and appropriate money for a Dental Clinic, as petitioned for by the Board of Health.

LAYOUT OF STREETS

Article 34. To see if the Town will vote to instruct the Selectmen to lay out Fitch Terrace, so called, from South Main Street to Highland Avenue, as petitioned for.

Article 35. To see if the Town will vote to instruct the Selectmen to lay out Lillian Street, so called, commencing at the southerly end and running northerly for a distance of two thousand feet, as petitioned for.

ACCEPTANCE OF STREETS

Article 36. To see if the Town will vote to accept the layout of Russ Street from North Main Street to Dorr Street as made by the Board of Selectmen and raise and appropriate money for land damages.

REPAIRS AND BUILDING OF STREETS

Article 37. To see if the Town will vote to raise and appropriate money for the building and repairing of Druid Hill Avenue for a distance of nine hundred and fifty feet from the present finished construction, as laid out by the Selectmen and as petitioned for.

Article 38. To see if the Town will vote to raise and appropriate the sum of \$700.00 to repair and tar Chestnut Street from the point already completed to the junction of High Street, or to take any other action relative thereto as petitioned for.

NINETY-NINTH ANNUAL REPORT

Article 39. To see if the Town will vote to raise and appropriate the sum of \$500.00 for the rebuilding of, or repairing of, Gordon Street, as petitioned for.

Article 40. To see if the Town will vote to raise and appropriate the sum of \$500.00 to rebuild Gold Street in a westerly direction from that part already constructed, as petitioned for.

STREET LIGHTS

Article 41. To see if the Town will vote to raise and appropriate money for the installation of four street lights on Druid Hill Avenue, said lights to be spaced two hundred feet apart, as petitioned for.

Article 42. To see if the Town will vote to raise and appropriate money for the installation of one street light on Waldo Street, as petitioned for.

Article 43. To see if the Town will vote to raise and appropriate money for the installation of two street lights on Norroway Avenue, as petitioned for.

Article 44. To see if the Town will vote to raise and appropriate money for the installation of one street light on High Street below the residence of Walter L. Hickey, as petitioned for.

WATER EXTENSIONS

Article 45. To see if the Town will vote to instruct the Water Commissioners to lay a six inch water main on Waldo Street, a distance of 700 feet, and raise and appropriate money therefor, as petitioned for.

TOWN OF RANDOLPH, MASS.

Article 46. To see if the Town will vote to instruct the Water Commissioners to extend the water main on Woodlawn Road from the Washington Estate to Sherwood Avenue, a distance of about 700 feet, and raise and appropriate money therefor, as petitioned for.

DRAINAGE

Article 47. To see if the Town will vote to raise and appropriate money for surface drainage on Marion Street, as petitioned for.

Article 48. To see if the Town will vote to raise and appropriate money for surface drainage on Overlook Road, as petitioned for.

Article 49. To see if the Town will vote to raise and appropriate money for surface drainage on Liberty Street, a distance of approximately 240 feet westerly, on the south side of the street from the present catch-basin constructed by the C. W. A., as petitioned for.

Article 50. To see if the Town will vote to raise and appropriate money for materials in conjunction with an E. R. A. project for drainage on Jane, Hall, Rcyal, Emeline and Pauline Streets, as petitioned for.

Article 51. To see if the Town will vote to raise and appropriate money for materials in conjunction with an E. R. A. project for drainage on Highland Avenue, as petitioned for.

SIDEWALKS

Article 52. To see if the Town will vote to raise and appropriate money for materials for a sidewalk on the north side of Union Street, between North and Mill

NINETY-NINTH ANNUAL REPORT

Streets, appropriation not to exceed \$2,500.00. The labor on project to be provided by E. R. A. or other Government Funds, as petitioned for.

Article 53. To see if the Town will vote to raise and appropriate money for a permanent sidewalk (of such material as required by law) on the easterly side of North Main Street, commencing at the Bridge and extending northerly to Orchard Street, the labor to be done by the citizens of Randolph, as petitioned for.

Article 54. To see if the Town will vote to raise and appropriate money for materials for a sidewalk on the north side of Warren Street, from North Main Street to Fowler Street. The labor to be provided by E. R. A. or other funds, as petitioned for.

Article 55. To see if the Town will vote to raise and appropriate money for materials for a sidewalk on the north side of Depot Street, the labor to be provided by E. R. A. or other funds, as petitioned for.

MISCELLANEOUS

Article 56. To see if the Town will vote to raise and appropriate the sum of \$3,500.00 for the collection of garbage. Said collection to be made twice a week for five months and once a week for seven months and to be supervised by the Board of Health. Bids for this contract to be confined to contractors of the Town of Randolph, or take any other action relative thereto, as petitioned for by the appointed Garbage Committee.

And you are directed to serve this Warrant by posting attested copies thereof at the Town Hall, at the Town Clerk's Office, at the Post Office, and at six other public places in the Town, seven days at least, before the day and hour for holding said meeting.

TOWN OF RANDOLPH, MASS.

Hear of, fail not, and make return of this Warrant with your doings thereon, to the Town Clerk, on or before the day and hour appointed for holding said meeting.

Given under our hands at Randolph, this 15th day of February, A. D. 1935.

HAROLD W. MACAULEY,
WILLIAM S. CONDON,
ERROL M. THOMPSON,
Selectmen of Randolph.

Attest:

JOHN B. McNEILL, Town Clerk.

Randolph, Mass., March 12, 1935.

The Registrars of Voters of Randolph met at 7:00 o'clock P. M. in G. A. R. Hall in Stetson Building, to recount the ballots cast for Assessor.

The ballots were all recounted with the following result:

	Original Count	Recount	Gains	Losses
James P. Duffy	1,410	1,409	1	2
Raymond E. Lyons	1,375	1,376	2	1
Blanks	104	104
	<hr/>	<hr/>	<hr/>	<hr/>
Total	2,889	2,889	3	3

ONE HUNDREDTH ANNUAL REPORT

There were no disputed ballots.

Changes in the count came in:

Precinct 2—Block 11—Duffy lost 1, Lyons gained 1.

Precinct 1—Block 22—Duffy gained 1, Lyons lost 1.

Precinct 1—Block 30—Lyons gained 1, Duffy lost 1.

JOSEPH J. DENCH,
CHARLES F. BLAKELY,
WALTER L. HICKEY,

Registrars of Voters of Randolph.

A true copy of the record, Attest:

JOHN B. McNEILL, Town Clerk.

All of the appropriations made may be found in the Town Accountant's Report taken from an attested list made by the Town Clerk.

VOTED UNANIMOUSLY: Under Article 1, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1935, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

VOTED: Under Article 2, That the Town Physicians be paid on the basis of \$2.00 a call for the first 50 calls, all calls over 50 to be free calls, and that a record of names and addresses of all patients treated be submitted to the Board of Health monthly before payment is made.

TOWN OF RANDOLPH, MASS.

VOTED: Under Article 2, That the Highway Surveyor purchase a one and one-half ton dump truck with power hoist at a sum not to exceed \$925.00, such truck to be purchased under competitive bidding by local dealers.

VOTED: Under Article 7, that the pay of town laborers, or others hired by the day or hour, remain the same. Chauffeurs or drivers employed by the Town to be paid the same wage rate as 1934.

Under Article 14, which reads as follows: To see if the Town will vote to accept Chapter 82, Section 37, General Laws, to make it possible to establish building lines, as petitioned for by the Planning Board, it was VOTED: That rules and regulations with reference to the administration thereof be drawn by the Planning Board and approved by the Board of Selectmen. (See Article 29.)

VOTED: Under Article 29, That the Town accept Chapter 82, Section 37, General Laws, to authorize the Selectmen to establish a twenty feet setback on the existing westerly side of North Main Street from Crawford Square to West Street. (See Article 14.)

VOTED: Under Article 30, That the Assessors be instructed to compile a list of all Real Estate owners and the individual parcels and amounts assessed to each one as of January 1, 1935, and to have this list published in the Town Report of 1935, and raise and appropriate the sum of \$300.00 therefor, and that the Assessors be further instructed to omit the names of persons owning property under Tax Titles.

VOTED: Under Article 34, To instruct the Selectmen to lay out Fitch Terrace, so called, from South Main Street to Highland Avenue.

ONE HUNDREDTH ANNUAL REPORT

VOTED: Under Article 35, To instruct the Selectmen to lay out Lillian Street, so called, commencing at the southerly end and running northerly for a distance of two thousand feet.

At a Special Town Meeting held on October 28th, it was VOTED: To name the junction of North and Liberty Streets "McEnelly Square" .

MILITIA ENROLLMENT FOR 1935

Randolph, Mass., March 21, 1935.

Mr. John B. McNeill,
Randolph, Mass.
Dear Sir:

The persons subject to Militia Enrollment in Randolph are 1605.

Very truly yours,

BOARD OF ASSESSORS
Waldo E. Mann, Chairman.

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chapter 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Section 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of PHYSICIANS and MIDWIVES is called to Chapter 280, Section 1, Acts of 1912: Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

Respectfully Submitted,

ELMER L. BURCHELL.

Report of the Selectmen and Overseers of Public Welfare

In submitting their report for the year 1935 your Selectmen wish to call to your attention that as a result of appropriations made at the last annual town meeting, both for general government and special articles, your tax rate for 1935 reached the figure of \$41.40. The endeavors of your Selectmen during the past year have been mainly directed to so plan and efficiently conduct not only those departments directly under their supervision, but to closely cooperate with all town departments to the end that expenditures should be kept within appropriations, and future plans developed which would be reflected in a lower tax rate for 1936, insofar as lies within the control exercised by your elected town officials.

During the summer months of 1935 we were informed by the Federal government of the proposed change from E. R. A. to W. P. A. and the necessity for submitting work projects under the new organization for the allocation of federal funds. Believing that this federal assistance should be directed into those works and purposes which would not only be of assistance to local unemployed but also of direct and material benefit to local taxpayers, your Selectmen called a meeting of all department heads which was held on the evening of August 29, 1935. Each department was asked to submit for federal approval those projects which ordinarily would be included in their regular yearly budget, the entire expense of which would fall upon local taxation. Our object was to reduce the expense and burden on local taxation by transferring the labor cost involved to projects where it would be absorbed by the application of federal funds.

TOWN OF RANDOLPH, MASS.

Your Selectmen cannot compliment too highly the splendid spirit of co-operation rendered by every department whose work could be included in such projects. The trustees of the Stetson School Fund, and the school committee, submitted projects for the painting, repairing, and improving of Stetson hall and school buildings, which have resulted in a considerable saving for the present and next succeeding years.

The water department continued with the Norroway Brook project and submitted other drainage projects designed to eliminate as far as possible dangerous sources of pollution contributory to our water supply. Construction on the P. W. A. project submitted by them for a water filtration plant has already started, and the project submitted by them for extension of existing water mains, tying in of dead ends, and replacements and improvements to the present system, should be reflected in a substantial reduction in their budget for corresponding expenditures in future years. The total value of this water extension and improvement project is \$69,304.00, and by the use of federal funds for labor it is being accomplished at a gross cost to the town of \$22,240.00, employing 150 men for a period of seven months.

The planning board and park commission have completed projects at E. Fannie Belcher Park.

The Highway Department submitted various projects for street improvements and maintenance, the expense of which would ordinarily be included either in their general appropriation or in special articles in the warrant for the annual town meeting. By the inclusion of these items in W. P. A. projects and the application of Federal funds for labor to the amount of \$41,088.00, this amount represents a saving in local taxes, leaving to be raised by the town the sum of \$14,829.88 for materials for these projects.

ONE HUNDREDTH ANNUAL REPORT

Subject to revision in accordance with suggestions of the W. P. A. District Engineer, the Assessors' project for the mapping and plans of the town can be accomplished at a gross cost to the town of not over \$500.00, thereby cutting out of the Assessors' budget in subsequent years, this item, the annual cost of which in the past seven years has averaged \$950.00 per year.

Convinced that the safety of children and pedestrians, as well as convenience to the general public, requires the construction of additional permanent sidewalks, your Selectmen sponsored a project for the construction of approximately four miles of such sidewalks, including Canton, Warren, North, Pond, Old, South, and Liberty Streets. These will cost \$26,583.50, and we anticipate only \$725.62 will have to be raised through local taxation. Labor to the amount of \$17,010.00 for the employment of 61 workers for a period of seven months will be provided from Federal funds. Of the cost of materials amounting to \$9,573.50, your Selectmen are awaiting promised final authorization from W. P. A. authorities of a grant of \$5,316.70 of Federal funds; State funds under the provisions of Chapter 464, Acts of 1935, to the amount of \$1,646.73 have been applied thereto; a balance of \$988.45 from Chapter 90 account of previous years has been transferred to this project; and trucking on the project to the amount of \$896.00 can be afforded by town trucks, leaving a balance of but \$725.62 to be raised by town appropriation.

In addition to this project, your board has sponsored others for the codification of town by-laws; sewing project for needy and unemployed women; gypsy moth control; a health survey, embodying the recording and location of all open sink drains, actual location of cesspools and their relative location as to inhabited dwellings and distance from streams leading to tributaries emptying into Great Pond; necessary repairs and items of main-

TOWN OF RANDOLPH, MASS.

tenance with reference to the town lock-up and our two fire stations; and the improving of the approach and frontage adjacent to the Turner Library. Some of these are already in process.

The total of these projects in addition to the construction of permanent sidewalks amounts in value expended to \$30,285.13, of which the sum of \$28,197.57 will be expended by federal funds in the employment of local labor, at a gross expense to the town of \$2,087.56 for materials.

Approximately four miles of permanent sidewalks along North Main and South Main streets are under construction as a result of proposals submitted by your Selectmen to the Department of Public Works. This should eliminate one of the most dangerous hazards to life from automobile traffic which we have had to contend with. This work is being carried on under the W. P. A. with the employment of 54 local workers, at no direct cost to the town.

The net result of this coordinated and concerted action on the part of the various town departments is that we have secured approval and have pending sufficient W. P. A. projects to take care of all of our eligible unemployed for over a year should the Federal Works Progress programme continue for that length of time. Expenses for maintenance, replacements and improvements to town property and public works, customarily charged 100 per cent to our local budget, have been reduced to a comparatively negligible cost as reflected in local taxes through this programme.

As stated in the previous annual report for the year 1934, increased expenditures for the purpose of Old Age Assistance were inevitable. A year ago the previous Board of Selectmen, acting as the Board of Public Wel-

ONE HUNDREDTH ANNUAL REPORT

fare, asked for an appropriation for Old Age Assistance of \$18,000.00 for the year 1935. At that time there were approved and in force sixty-four applications totaling between \$16,000.00 and \$17,000.00 annually, with many others not acted upon. Your present Board of Selectmen were given an appropriation of \$14,000.00. It would have been not only impractical but inhuman to have sufficiently reduced the assistance being then given to active recipients in order to meet this reduction in appropriation, to say nothing of the many applications pending. A majority of these applicants had been residents of Randolph for many years and had rendered their contribution during that time to the progress and maintenance of the town. Your present Board of Selectmen took the position that of all classes in need of assistance, the aged were entitled to a prior claim upon our consideration. During the past year we have added thirty-one recipients to the Old Age Assistance list. We have expended \$20,413.84. This increase of \$6,413.84 over our appropriation is not represented in an overdraft to be taken care of in our tax rate for 1936. By transfers effected through savings made in welfare expense, soldiers' benefits, interest and discount, costs and claims, and health expense account, we have met these additional demands for assistance. At the present time not a single application representing an actually distressed condition is pending. We realize that the assistance received by many of these cases is hardly sufficient to meet their requirements for existence, but we have endeavored to give every applicant actually in distress some share of the funds at our disposal for their assistance. We anticipate that through the agency of the Federal Social Security Act, further aid will be forthcoming in the near future which will more adequately care for the aged.

Aid through Public Welfare continues to be a source of concern, and has continued during the past year with little or no abatement. Prior to December 1, 1935, indi-

TOWN OF RANDOLPH, MASS.

cations were that a considerable surplus would remain unexpended in the Temporary Aid account. December, however, was a period of payless paydays for the majority of our workers on W. P. A. Projects. Receipt of pay from State headquarters was two and three weeks in arrears. Many workers were consequently without pay for four and five weeks, inclusive of the time actually worked. In such an emergency this board had no alternative but to give aid to these men and women and their families. Unless through further additional administrative changes such an occasion arises during the coming year, we will not have to face this situation in 1936. The present method of paying men on Federal projects, once in two weeks, instead of weekly as under the E. R. A., will result in an increased load on local welfare boards as long as this system is followed. During the year ending December 31, 1935, 232 families totalling 845 persons were assisted through Temporary Aid, Mothers' Aid and Soldiers' Benefits, representing better than 10% of our population.

Our outstanding municipal indebtedness on December 31, 1935, for temporary loans and loans inside the debt limit was reduced to \$216,211.00 from the amount of \$228,189.90 outstanding December 31, 1934. With the \$38,000.00 loan contracted in 1935 for a water filtration plant and water extensions, our indebtedness outside the debt limit and outstanding on December 31, 1935, was \$59,789.00 as compared with \$26,810.10 outstanding on December 31, 1934. Our total indebtedness has therefore increased. Our tax rate for the past year was \$41.40. With these facts in mind your Selectmen cannot emphasize too much the importance of eliminating all frills in local government. Every avenue of waste and unnecessary expenditure should be closed.

We recommend that prior to the annual town meeting, careful scrutiny be given to every phase of local governmental activity. That there be retained only those

ONE HUNDREDTH ANNUAL REPORT

functions required to maintain reasonable and proper service to the general public, and those necessary to coordinate with the agencies of the Federal government rendering assistance to our needy and unemployed citizens. Further, in providing means for the support of these functions, there should be anticipated and provided for only those actually required and consistent with economical and efficient administration, based on actual experience from available records of past years.

May we emphasize to every citizen and taxpayer that you alone are your active representative at town meeting. In accordance with your mandate, as expressed there by your collective action, your elected officials must carry on for the ensuing year.

ERROL M. THOMPSON
MARTIN E. YOUNG
JAMES H. HURLEY

At the Town meeting it was voted to raise and appropriate the sum of \$300.00 to compile and print the valuation list of the town; same to be printed in the Town Report for the year 1935. After careful inquiry with several printers we found that we could not compile and print these valuations because of insufficient money voted for this purpose.

Respectfully submitted,

WALDO E. MANN,
FRANK F. TEED,
JAMES P. DUFFY,
Board of Assessors.

Report of Collector of Taxes

Ever growing appropriations and an increasing tax rate, combined with the continued economic inability of a great number of our citizens to meet these conditions, continue to confront the town.

At each Town meeting for the past few years we have been spending beyond our means and ability to pay, although some of these appropriations have been unavoidable.

It is true that we have a nominal surplus of about \$60,000.00, but it is only a paper surplus, for nearly three-quarters of it or about \$45,000.00 consists of unpaid taxes due the town in the Tax Title account, and in the end a considerable part of this amount will have to be written off as non-redeemable.

In the past six years the net amount we have had to raise by taxation has increased from about \$195,000.00 to around \$265,000.00; a total of about \$70,000.00 or 35%, and the tax rate has climbed from over \$31.00 to over \$41.00 per thousand.

In the face of this discouraging outlook, it is encouraging to note that people are trying to pay their taxes to the best of their ability. If the same spirit were shown at the annual Town Meeting, by voting to hold the appropriations with their ability to pay, within a very few years we would again have a lower and more reasonable tax rate.

Following is a summary of taxes due and collections made from 1932 to 1935 inclusive.

ONE HUNDREDTH ANNUAL REPORT

— 1932 —

Poll, Personal and Real Estate Taxes

* Deceased. Frederick E. Knebel elected Vice-President to fill vacancy.

**Resigned.

PUBLIC LIBRARY

To the Citizens of Randolph :

Pursuant to the provisions of Article 3 of the By-Laws of The Turner Free Library, this report, for the calendar year 1935 and being the sixtieth annual report, is submitted, showing the condition of the trust consisting of the building, library, and funds, together with the reports of the Librarian and Treasurer and so much of the reports submitted to the Trustees by the various committees as seems of general interest.

The Library Committee reports that the books, charts and furnishings are in good condition and that all books belonging to the library are accounted for by the Librarian. The Library Committee further reports that the recataloging and rearrangement of the books under the supervision of the Division of Public Libraries of the Department of Education of the Commonwealth was concluded during the year.

The Building Committee reports various items of repair work done during the year, the most important of which were the installation of new linoleum treads on the stairs and the resetting of the fireplace mantels in the two reading rooms. There were also minor repairs to the ceilings and the outside doors were varnished and provided with a new lock.

The building appears to be in reasonably good condition, but no building can be maintained without provision for repairs, including those occasioned by unforeseen emergencies. In the light of past experience, the trustees ask an appropriation of \$500.00 for the current year to cover the cost of such repairs to the exterior and interior of the building and to its fur-

ONE HUNDREDTH ANNUAL REPORT

nishings and fixtures as may from time to time be necessary.

The Librarian's report, by comparison with that for 1934, shows an increase in the circulation of books. It shows a figure for the circulation of magazines less than in 1934, but still substantially greater than in 1933, so it may be that 1934 was an abnormal year in this respect.

The trustees record with much sorrow the death on March 11, 1935, of their associate, Mr. Harold F. Howard. He was elected trustee April 2, 1923, and on April 6, 1931, became Vice-President, in which office he continued until his death. He gave unstintingly of his time and attention to the library's affairs and by his death the library and board have lost a valued and efficient member.

The trustees desire again to express their appreciation of the always loyal work and cooperation of the Librarian, Miss Eunice L. Belcher, and her assistants, Miss Ellen P. Henry and Miss Helen C. Elden, and of the janitor, Mr. John T. Moore.

A copy of each of the following reports is herewith subjoined: the report of the Librarian; the report of the Treasurer showing the investment of the funds and the receipts and expenditures of the library; and the report of the Finance Committee.

Respectfully submitted,

SETH T. CRAWFORD,
President, Board of Trustees.

TOWN OF RANDOLPH, MASS.

**REPORT OF THE LIBRARIAN OF THE TURNER
FREE LIBRARY**

To the Trustees of the Turner Free Library:

I have the honor to submit the annual report of the Librarian for the year ending December 31, 1935.

The Library has been open to the public 302 days. There have been 308 books added during the past year, 286 purchased and 22 gifts. This makes an accession number of 33,693. We have issued 354 borrowers' cards. Total number of magazines loaned, 1,769. Total number of books loaned 29,642. The installing of the Dewey Decimal system of cataloging and classifying was completed in June.

We hope that this will be of benefit to the public and of special value to students.

Among the books added this year was "Hammond's Perpetual Atlas of the World and Gazetteer."

I wish to thank my assistants, Miss Henry and Miss Elden for their willing help and faithfulness.

The co-operation of the Trustees in giving advice and suggestions has been greatly appreciated by the Librarian.

Respectfully submitted,

EUNICE L. BELCHER,

Librarian.

Randolph, Mass., January 13, 1936.

ONE HUNDREDTH ANNUAL REPORT

REPORT OF THE TREASURER

To the Trustees of the Turner Free Library:

In compliance with the requirements of the By-Laws, I hereby submit the annual report of the Treasurer of the Turner Free Library:

Report of the Finance Committee

To the Trustees of the Turner Free Library:

Your Committee on Finance submits the following report:

The committee has audited the accounts of the Treasurer for the year 1935 and found them correct.

ONE HUNDREDTH ANNUAL REPORT

All moneys received have been duly accounted for, and no moneys have been paid out except upon vouchers properly approved.

The committee has examined, also, the securities representing the investments of the funds of the Library, and has found them to be intact, and as represented.

The following change has been made in the investments of the funds:

1 Bond Pacific Gas & Electric Co. was called in June 1935 and \$1,050.00 received was deposited in the Randolph Savings Bank, Turner Fund.

Respectfully submitted,

RAYMOND L. MASON,
ALBERT C. WILDE,
ERROL M. THOMPSON.

Randolph, Mass., January 14, 1936.

Report of the Board of Health

To the Citizens of the Town of Randolph:

The Board of Health respectfully submits its report and the reports of its appointive agents for the year ending December 31, 1935.

The Dental Clinic was very ably conducted thru the efforts of Dr. Maguire and Dr. Smith, assisted by Miss Conlon, the School Nurse. This year, a definite School Clinic program was inaugurated. 1,473 Children in the elementary schools were examined and through a report card system the parents were notified of the condition of their children's teeth. By this plan, many cases of neglected teeth were brought to the attention of the parents.

A great amount of much needed work on the children's teeth was accomplished with the available funds. With additional funds more of this important work could be performed, thereby preventing more children from starting life handicapped with faulty teeth.

The number of cases, which the law demands we hospitalize, has steadily increased thru the last two years. Our cases of Tuberculosis, which have been hospitalized, has doubled the number of last year. Thru the work of the Chadwick Clinic and the splendid efforts of Miss Scannell, our Visiting Nurse, and Miss Conlon, our School Nurse, the school children are receiving tests and attention that usually arrest tuberculosis at the onset. It is the older people who do not have this constant attention that fall ill with this dread disease, and it is this class

ONE HUNDREDTH ANNUAL REPORT

upon whom a large part of our financial appropriation is spent.

We have purchased a new Babcock Milk Tester, and our Milk Inspector will here after take a test once a month of all milk sold in Randolph, and report his findings to this board. By performing this duty we can be sure that milk of the proper standard is being sold to our townspeople.

We have caused the abatement and removal of many nuisances and conditions that were detrimental to the public health, among which were: A piggery, operating in the business centre of this town, and causing considerable annoyance to the townspeople. Also another piggery, situated in a residential section, and which had been protested against by the neighbors for a number of years.

Our town has now grown to a size that it seems the proper time to seriously consider the regular collection of garbage and rubbish, as is the custom in neighboring towns and cities. The practice of disposing of rubbish and garbage along the highways is a nuisance and could be the cause of a serious epidemic.

Communicable diseases during the year 1935 were as follows:

German Measles	15
Measles	8
Whooping Cough	11
Scarlet Fever	12
Typhoid Fever	1
Infantile Paralysis	1
Tuberculosis	6

TOWN OF RANDOLPH, MASS.

The following is the list of licenses given during the year 1935:

Milk	73
Oleo.	14
Alcohol	
Hairdressing and Manicuring	4
Cesspool Cleaning	2
Piggery	2
Undertakers	4
Piggery and Garbage Collection	8

Respectfully submitted,

FRANK C. WALES, Chairman
CHESTER G. GLIDDEN, Secretary
WILLIAM E. BUCK, M. D.

ONE HUNDREDTH ANNUAL REPORT
REPORT OF THE PLUMBING INSPECTOR

Randolph, Mass., December 30, 1935.

To the Board of Health of the Town of Randolph:

Gentlemen:

I hereby submit my report as Plumbing Inspector for the year ending December 31, 1935.

There have been 47 permits issued for plumbing installation; 45 have passed inspection, 2 are awaiting final inspection. The following fixtures have been installed.

Twenty-eight wash bowls, 31 sinks, 26 water closets, 23 bathtubs, 12 wash trays, 1 slop sink, 1 refrigerator, 3 pressure boilers, 1 glass washer. The estimated value is about \$5,786.00.

The number of old and new buildings in which plumbing has been installed is as follows:

Three stores, 1 ice cream parlor, 1 milk room, 2 lunch rooms, and 18 old and 22 new houses.

Building and repairing has shown a slight increase over the preceding year.

Respectfully submitted,

THOMAS O'RILEY,
Plumbing Inspector.

REPORT OF INSPECTOR OF SLAUGHTERING

Randolph, Mass., January 20, 1936.

Board of Health, Randolph, Mass.

Gentlemen:

I beg to submit my report for the year 1935:

From January 1, 1935 to December 31, inclusive, I have:

Inspected	479 Heads
Condemned	4 Heads
Passed	475 Heads

The 475 Heads are classified as follows:

Hogs	454
Cattle	9
Calves	12
	<hr/>
	475

Respectfully submitted,

WESTON L. MANN,
Inspector of Slaughtering.

ONE HUNDREDTH ANNUAL REPORT
REPORT OF THE MILK INSPECTOR

Randolph, Mass., October 7, 1935.

Board of Health, Randolph, Mass.

Gentlemen:

I enclose herewith, report of licenses issued from January 1, 1935 to October 7, 1935:

70 Milk Licenses @ \$1.00	\$70.00
14 Oleo. Licenses @ 50c	7.00
	<hr/>
Total money collected	\$77.00

Respectfully submitted,

ERNEST F. GROUT,
Milk Inspector.

Due to the resignation of Ernest F. Grout, as Milk Inspector, Henry Merrill was appointed to serve the unfinished term, and we hereby submit his report.

January 20, 1936.

Board of Health, Randolph, Mass.

Gentlemen:

I hereby submit my report as Milk Inspector from October 8, 1935 to December 31, 1935:

3 Milk Licenses @ \$1.00	\$3.00
--------------------------	--------

Respectfully submitted,

HENRY MERRILL,
Milk Inspector.

TOWN OF RANDOLPH, MASS.

REPORT OF ANIMAL INSPECTOR

Randolph, Mass., Jan. 20, 1936.

To the Honorable Board of Selectmen:

I herewith submit my report as inspector of animals for the year ending Dec. 31, 1935:

Cattle	235
Swine	1,985
Goats	17
Sheep	1

The stables housing these animals were inspected and found to be in satisfactory order.

There were also 19 dogs quarantined by this department.

Also, 1 cow was quarantined for lump jaw.

Respectfully submitted,

CHARLES H. TRUELSON,
Inspector of Animals.

Report of Water Commissioners

To the Citizens of the Town of Randolph:

The fiftieth annual report of the Water Commissioners is herewith submitted for the year ending December 31, 1935.

Organization of the Board of Water Commissioners for the year 1935 was effected as follows:

John B. McNeill.....	Chairman and Collector
Richard F. Forrest	Superintendent
Frederick D. Driscoll	Clerk

During the past year 27 new services were connected.

For the year 1935, 11 services were cleaned by pump; 3 services renewed from main to line; 24 service leaks at curb and main; 10 broken hydrants; 1 hydrant re-located; 4 joint leaks in 6 and 8-inch mains; 34 services metered during the year; 7 services thawed by electricity.

Removed and repaired 3 leaks in hydrant valves; 2 new gates installed on old hydrants; 3 broken 6-inch mains on North Street; repaired 1 leak in 12-inch main on Union Street.

Lowered 6-inch main on Grove Street on account of new drain.

Raised 8-inch main on Warren Street on account of new drain.

Raised all service boxes on North and South Main Streets on account of new sidewalk construction.

TOWN OF RANDOLPH, MASS.

Completed renewing services and gated all hydrants from Braintree Line to Crawford Square.

Laid new 6-inch main on Waldo Street, a distance of 700 feet, and installed 2 hydrants and 3 gates.

The expenses on joint work for this year were much less than in previous years. The machinery at the Pumping Station required very little repairs.

On October 28, 1935 the town voted \$20,000.00 towards the erection of a filtering plant at our Pumping Station. The same amount was appropriated by the town of Holbrook. The Federal Government promised \$29,200.00. This will no doubt make a great improvement in the quality of the water. The contract for this work has been let and we expect that the erection of the plant will be completed early in July of 1936.

The town also voted to appropriate \$18,200.00 for water mains and other material necessary to lay the water mains on Center Street, Cincinnati Road, Cole Terrace, Druid Hill Avenue, Grove Street, Highland Avenue, Maple Street, Mill Street, Norroway Avenue, Oak Street, Pleasant Street and Woodlawn Road. The Federal Government has agreed to furnish the labor expense for all this work.

The expenditures of the Water Department will be found in the Town Accountant's report.

Collections and outstanding water rates will be found in the report of the Water Collector.

Largest day's pumping—August 19, 1935; 1,358,000 gallons.

Largest week's pumping—Week ending August 20, 1935, 9,990,500 gallons.

Respectfully submitted,

JOHN J. McNEIL,
Engineer.

ONE HUNDREDTH ANNUAL REPORT

RULES AND REGULATIONS

The following regulations, until further notice, shall be considered a part of the contract with every person who uses water:

1. All applications for use of water must be made at the office of the Water Commissioners, and state fully the purposes for which it is intended to be used. Water will not be introduced to premises except on the written application of the owner thereof, or by a duly authorized agent. The property will in all cases be held responsible for the water rates.

2. All persons taking water must keep their water pipes and fixtures in good repair and protected from the frost at their own expense. They will be held liable for all damages resulting from their failure to do so. They shall prevent all unnecessary waste, and water shall not be left running to prevent freezing. The Water Commissioners or their agents may, from time to time, ascertain the quantity of water used, the manner of its use, and whether there is any unnecessary waste. They and their agents shall have free access to the premises supplied, to examine the apparatus, and if any fixtures are found not to be in good order, they shall direct them repaired, and if not repaired within two days the water shall be shut off and not let on again until such repairs are made, and the sum of two dollars paid for shutting off and turning on the water.

3. The occupant of any premises, when unnecessary waste of water occurs, shall be liable to a fine of two dollars for the first offense, and four dollars for the second offense during the same year, and shall be notified thereof in writing; and if such waste is not prevented

TOWN OF RANDOLPH, MASS.

and the aforesaid fines paid within two days from the time when the said notice is given, the water shall be shut off the premises, and shall not be again let on for the same occupant until waste be stopped and the fine paid, together with an additional sum of two dollars for shutting off and letting on the water, and in case of a third or subsequent offense the water shall be shut off, and shall not again be let on except by a vote of the Water Commissioners and the payment of such fine, not exceeding ten dollars, as the Water Commissioners may impose.

4. Any person supplied with water shall not allow another to take water from his fixtures without the written permission of the Water Commissioners. If a tenant has no fixtures, he will be charged full rates for any use which he makes of the fixtures of another.

5. All parties using water in stables, for horses or other animals, will be charged scheduled rates for the same, whether it be carried by hand or through hose.

6. All persons using water for building purposes are required to obtain a permit from the Water Commissioners before taking water from any faucet or fixtures connected with the water works, and all water takers are warned not to let any party take water from their premises until they show a permit from the Water Commissioners. Any person furnishing water in violation of this section will be subject to a fine of not less than five nor more than twenty dollars, and if the same when levied is not paid within three days from the time when the notice thereof is given the water will be shut off from the premises and will not be let on again until such fine is paid.

7. All fixtures and water closets and urinals must be of a kind and quality approved by the Water Com-

ONE HUNDREDTH ANNUAL REPORT

missioners, also a vacuum valve must be installed on all pressure range boilers connected with the system.

8. No person shall in any case be allowed to open any fire hydrants except by a written permit from the Water Commissioners; but the Engineers of the Fire Department shall in all cases have control of hydrants at fires and for practice.

9. The Commissioners reserve the right to restrict the use of hose or fountain, to shut off the water in all cases when it becomes necessary to make extensions or repairs, or for violations of any of the regulations, or whenever they deem it expedient.

10. The regular rates for the use of water shall be payable in advance on the first days of January and July of each year, except where water is supplied to manufacturers by special agreement. In all cases of non-payment of the water rates within ten days after same is due as well as for any violations of these rules and regulations, the supply will be shut off, and payment of the amount due, and payment of two dollars for shutting off and letting on the water, shall be made.

11. The Water Commissioners reserve the right to change the water rates at any time except in cases of dwelling houses and established special rates.

12. For business requiring large quantities of water, and all supplies not enumerated in the tariff of rates, special rates will be made.

13. Parties using water for manufacturing or domestic purposes can erect hydrants on their grounds or standpipes in their buildings to be used only as a protection against fire without additional charges for water.

TOWN OF RANDOLPH, MASS.

14. All applicants for the introduction of service pipes to premises are required to make written application therefor at the office of the Water Commissioners.

And in no case will the main be tapped more than once for the same premises, unless the additional expense is borne by the owner.

Charged as follows:

The following water rates are established until further notice:

No connection made with the main for any purpose for less than	\$6.00
--	--------

Dwelling Houses

Occupied by one family, for the first faucet	6.00
Each additional faucet to be used by the same family	2.00
Two or more families occupying one house, one faucet for all, each family	5.00
One faucet for each family	6.00
For first bathtub	5.00
If used by more than one family in same house, each family	4.00
Each additional bathtub	2.00
For first pan or self-acting water-closet	5.00
If used by more than one family in same house, each family	4.00
Each additional pan or self-acting water-closet	2.00
Where two faucets are used, one for hot and one for cold water, emptying into the same basin, only one charge will be made for both.	
Laundry tub	3.00

ONE HUNDREDTH ANNUAL REPORT

Hose

For sprinkling streets, washing windows and similar uses, $\frac{1}{4}$ -inch nozzle, to be used only on premises and street opposite, not exceeding two hours per day for six months in the year 5.00

For any use not herein enumerated, special rates will be made.

Meter Rates payable at Time of Reading.

For not over 133 cubic feet average per day, per 100 cubic feet .23

For over 133 cubic feet and not exceeding 266 cubic feet average per day, per 100 cubic feet .19

For over 266 cubic feet average per day .15

Provided that in no case where a meter is used shall the annual charge be less than \$7.00.

Meters may be supplied by the Water Commissioners for which annual rental will be charged as follows:

Size $\frac{5}{8}$ -inch	\$1.00 per year
Size $\frac{3}{4}$ -inch	\$1.00 per year
Size 1-inch	\$4.00 per year
Size 2-inch	\$6.00 per year

All needed repairs, damages by frost and heat excepted, will be made at the expense of the town.

JOHN B. McNEILL,
RICHARD F. FORREST,
FRED D. DRISCOLL,
Water Commissioners.

Report of the Planning Board

Immediately on organizing your Planning Board decided to recommend to the citizens at the Annual Town Meeting, held March 11, 1935, the acceptance of all possible sidewalk construction. We wish to go on record in this report as continuing to recommend the necessity of that program.

Several meetings have been held with the trustees of The Turner Free Library and the Selectmen, with the objective of securing a WPA project for the beautifying of the grounds in front of the Library property. Plans for the project have been drawn through the cordial co-operation of the Selectmen, and we are in receipt of a letter dated January 17, from Frank W. Vye, Randolph's former ERA Assistant Administrator, stating that:

"This project was submitted and has been approved in the Presidential letter numbers 1252, project number 65-14-8613, and that advise of allotment number 6098 has been issued. This means that your Board, or rather the Selectmen, the sponsors, may call for this project when the Town has appropriated the money for the materials, which amounts to at least \$300.

"Trust that this answers your inquiry. I assure you of my willingness to assist in these projects."

A Federal Project to illuminate the clock on the First Congregational Church was accepted and funds were made available for that purpose, through the ef-

ONE HUNDREDTH ANNUAL REPORT

forts of your Planning Board. Due to the fact that the standing committee of the Church were not in favor of the method of illumination, the project had to be abandoned.

Because your Board believes that on account of the tremendous growth in population during the past fifteen years, the Town is in need of a new post office, we have put into motion the initial steps necessary to secure this new Federal Building as a grant from the Federal Government.

We are submitting herewith the most recent correspondence relative to this matter:

(Copy)

United States Senate, January 15, 1936.

Miss Helen M. Haney,
Randolph Planning Board,
Randolph, Mass.

My Dear Miss Haney:

The Post Office Department informed me that they had a survey made in July with reference to a new Post Office in Randolph and that Randolph is one of the places to be considered in additional money for public buildings is provided.

At present, however, the town is not under active consideration, but it will be given further study should additional funds be available.

Sincerely yours,

(Signed) DAVID I. WALSH.

TOWN OF RANDOLPH, MASS.

(Copy)

Congress of the United States, House
of Representatives, Washington, D. C.

January 14, 1936

Miss Helen Haney,
Sec'y Randolph Planning Board,
Randolph, Mass.

Dear Miss Haney:

I have your letter of January 11th in which you advise me that the Planning Board is preparing their annual report and is anxious to obtain information concerning the recommendations made as the result of the investigation as to the need of a new post office building in Randolph.

I shall be very glad to take this matter up with the proper authorities here in Washington immediately, advising you further upon receipt of a report in this connection.

With kindest regards, believe me,

Sincerely yours,

(Signed) RICHARD B. WIGGLESWORTH.

(Copy)

Post Office Department,
Fourth Assistant Postmaster General,
Washington, D. C., January 18, 1936

Miss Helen M. Haney,
Secretary, Randolph Planning Board,
Randolph, Mass.

My Dear Miss Haney:

This is to acknowledge receipt of your letter of the 11th instant, addressed to the Postmaster General,

TOWN OF RANDOLPH, MASS.

with further reference to a Federal Building to house the post office in your city.

At the present time there are no funds available for the acquisition of a site and the construction of a Federal Building at Randolph, but full information concerning conditions and post office requirements is on file with the Department and this is one of the places to be given very careful consideration by the Post Office and Treasury Departments in connection with additional allotments for public building construction which may be authorized at the current session of Congress.

Sincerely yours,

(Signed) S. W. PURDUM,
Fourth Assistant Postmaster General.

Your Planning Board will continue its activities during the current year on the above-mentioned matter.

Because your Board believes that Planning is an important part of public welfare, and knowing that intelligent planning will be the need of the future generation, we have secured the co-operation of the School Department of Randolph by the introduction of "Town Planning" as a part of the courses in Civics and Economics, in the Junior High, and Stetson High Schools; a public exhibition of the pupils' work will be held in Chapin Hall this Spring, and a later public exhibition at the Brockton Fair.

We wish to call the attention of the taxpayers of Randolph to the expense they have borne in the past

TOWN OF RANDOLPH, MASS.

few years in the matter of Town mapping by the Board of Assessors. On investigation, your Planning Board has found that about \$9,000 has been expended for this purpose and that only, approximately, one-sixth of the area of the Town has been mapped. At this rate of progress, and appropriating small sums each year, it will cost in the neighborhood of \$45,000 for this survey, which delayed for a long period is depriving the Town treasury in the meanwhile from the benefits of taxable realty, revealed from a mapping of the entire Town.

Your Board, therefore, recommends, as a much more economical arrangement, the appointment of a **Town Engineer**, whose duties would include the completion of the mapping of the Town, and also the engineering work of all other Departments of the Town, which is now being done at a large outlay of money.

In order to establish the 20 foot setback line, on the Westerly side of North Main Street, from Crawford Square to West Street, as recommended by this Board, and by the Board of Selectmen, it will be necessary to pass legislation for same at the coming Town Meeting. We trust that this matter will have your unanimous approval.

Your Board has caused to be inserted in the Town Warrant, an article for your acceptance of Chapter 80 of the General Laws, known as "The Betterment Act."

Your Board wishes to go on record as being heartily in favor of zoning. We are now making detailed studies of the work and we invite the co-operation of the townspeople in a joint study of this means of protecting our homes and areas.

ONE HUNDREDTH ANNUAL REPORT

Your Board has invited groups from various sections of the Town to send a delegate to a "Fourth Friday" meeting each month, in order that we may better interpret the needs of each section, planning-wise these delegates to act as an "Advisory Committee." Among the groups who sent representatives are: The Ladies' Library Association (Mrs. Isaac Mann); The North Randolph Improvement Association (Mr. Joseph Courtney) and The North Street Improvement Association (Mr. Joseph Pentleton).

Our Secretary, Miss Helen M. Haney, was our delegate at the Annual Conference of The Massachusetts Federation of Planning Boards held last September at Falmouth, Mass. As a result of her attendance at this Conference, she has assembled much valuable data on planning and zoning, which is available in our files, with other valuable data, for the information of our townspeople.

We wish to express our sincere thanks for the cordial co-operation extended to us by the Selectmen and by the other Town Officials, all of whom have worked with us so earnestly for the public welfare.

Respectfully submitted,

THEODORE S. LUDDINGTON, Chairman,
G. HENRY TANGEN, Vice-Chairman,
HELEN M. HANEY, Secretary,
EDGAR B. COLE, Treasurer,
HORACE FRENCH, Member.

Report of the Highway Surveyor

January 20, 1936

To the Citizens of the Town of Randolph:

I hereby respectfully submit my report for the year ending December 31, 1935.

For the year 1935 the sum of \$9,000.00 was appropriated for the General use of this department.

This \$9,000.00 was expended as follows:

New Truck	\$764.00
Labor	5,058.00
Trucking	776.40
Highway Material	1,339.38
Equipment and Repairs	433.80
Gasoline and Oil	431.38
Telephone	63.14
Stationery and Postage	60.19
Miscellaneous	70.28
To Revenue	3.43
	<hr/>
	\$9,000.00

During the year, twenty-two projects were submitted to the W. P. A. with money appropriated for but twelve of them. The whole twenty-two were accepted by the Federal Government but they set money aside for but nine projects, all of which have been started, three **finished, besides which a sidewalk** was laid from the Railroad bridge to School Lane on North Main Street

ONE HUNDREDTH ANNUAL REPORT

(Town Labor) and repairs made on Union, Canton, Warren and Pond Streets under Chapter 90—The remaining Federal projects will be started just as soon as weather permits.

I wish to thank the citizens for their co-operation during the whole year.

Very truly yours,

JOHN A. FREDERICKSON,
Highway Surveyor.

Report of the Tree Warden

January 25, 1936.

To the Citizens of the Town of Randolph:

The beauty of a town or city is the shade trees.

What is more pleasing to the eye than to ride along the highways lined with beautiful trees?

To care and protect the trees is no simple matter, with the building of cement roads and sidewalks, pests of all kinds, and the removing of decayed branches.

I recommend that the town purchase some new trees this year. If a few trees are set out every year, the expense is small.

I also recommend a town nursery where small trees can be transplanted and raised to a proper size for street planting. More street tree planting should be done.

I have offered a project for the trimming and cutting out of dead branches, but have not as yet received any answer from the Federal Supervisor.

Quite a lot of damage has been done to a number of trees this past winter and a few will have to be removed this year.

Let our motto be: Plan to Plant Another Tree.

Respectfully submitted,

JOHN T. MOORE,
Tree Warden.

Report of the Moth Superintendent

To the Honorable Board of Selectmen:

The Gypsy and Brown Tail moth situation for the year ending 1935 is very satisfactory.

Spraying was carried on in the Spring and early Summer as long as the appropriation lasted.

An E. R. A. project was obtained last year for insect control work and ten men were employed on this work. If this project had started earlier, much better results would have been obtained.

I have another E. R. A. project that was submitted two months ago but have heard nothing from it.

The Elm Tree beetle is still a serious menace and spraying must be carried on if we are to hold it in check.

The Tent caterpillar is also a serious problem. Many were destroyed last Spring but unless you cut and destroy the wild cherry trees on your own property it is impossible to fight this pest with good success.

Fall webworms were not as bad this year.

The Satin moth and Japanese beetle were not found this year.

The spraying outfit is getting old and more work is required to keep it in repair. The town needs a new power sprayer and some provision should be made to procure a new outfit.

Respectfully submitted,

JOHN T. MOORE,
Local Moth Supt.

Report of Police Department

Randolph, Mass., Jan 18, 1936.

To the Board of Selectmen:

Gentlemen:

I herewith submit report of the work done by the Police Department of the Town of Randolph for the year ending December 31, 1935.

Calls answered and investigations made	2,566
*Summons served	120
*Arrests	402
Arraignments in Court	384
Bound over to Grand Jury	5

In Memoriam

The Police Department records, with sorrow, the death on June 8, 1935, of its faithful and courageous Special Police Officer, Patrick J. Flynn, who was connected with this Department and was highly esteemed by all his brother officers. The Department extends its sincere sympathy to the members of Mr. Flynn's family.

Respectfully submitted,

PATRICK T. McDONNELL,
Chief of Police.

Report of the Fire Department

Randolph, January 1, 1936.

To the Honorable Board of Selectmen:
Gentlemen:

In accordance with your request I herewith submit my annual report of the Fire Department.

During the year the department responded to 208 calls, described as follows:

Bell alarms	100
Still alarms	108
Fires in buildings	48
Brush and grass fires	129
Automobile fires	16
False alarms	8
Inhalator calls	1
Miscellaneous calls	6
No. of feet of hose used	61,500
No. of feet of ladder used	418
No. of gallons of chemical used	150
No. of gallons of foam used	20
Assessed value of property damage	\$76,700.00
Insurance on property damaged	\$204,625.00
Damage to property	\$7,647.20
Insurance paid on damage	\$5,497.20
Loss not covered by insurance	\$2,150.00

Permits Issued

Storage of oil	32
Gasoline stations	3

ONE HUNDREDTH ANNUAL REPORT

Sale of fireworks	10
Fires in open air	460
Blasting	4

The apparatus, hose and appliances connected with the department are in good condition at the present time. I wish to thank the officials and citizens who have assisted the department in any way throughout the year.

Respectfully submitted,

HAROLD L. BAILEY,
Chief of Department.

Report of the Park Commissioners

Through the assistance and co-operation of the Board of Selectmen, with funds for materials in conjunction with W. P. A. funds, a sizable Skating Rink has been completed at E. Fannie Belcher Park. With the assistance of the Water Commissioners, town water has been piped into the park, a catch basin has been installed at the foot of Park Street, with materials donated by the Highway Department.

Considerable grading and construction of a rock garden has been started. Several rustic benches have been built and a flagpole has been erected. A beautiful American flag, 6 X 12 feet, has been donated by Congressman Richard B. Wigglesworth, for which we extend our sincere appreciation.

Your Board also extends its thanks to Peter B. Schmidt, George W. Stetson and John M. Murphy, for their deep interest shown in their labors and donations of bird houses, rock garden plants, stone bench, and bird bath.

This work has been done under the supervision of Theodore S. Luddington, who has given freely of his time and received no compensation for his services.

Respectfully submitted,

THEODORE S. LUDDINGTON,
Chairman,
HENRY TANGEN,
HELEN M. HANEY,
EDGAR B. COLE,
HORACE A. FRENCH.

FREDERICK E. CHAPIN
SCHOOL COMMITTEE

IN MEMORIAM

Your Committee desires to express its appreciation, in behalf of the people of Randolph, for the long and faithful services rendered by the late Frederick E. Chapin who passed away May 8, 1935.

Mr. Chapin was born in Enfield, Connecticut, November 9, 1860, coming to Randolph shortly after his graduation from Dartmouth College in 1884. He was a teacher in the grade school but later became principal of the Stetson high school, a position he held at the time of his retirement, after serving thirty-six years. He was a member of the School Board for five years and Trustee of the Stetson Fund which offices he held at the time of his death.

Many of the older people in town will recall Mr. Chapin's interest in his work and his great desire to assist the young people in establishing and building up a background which would be of value to them in later life. What the school lacked and could not do in his early days, Mr. Chapin furnished, working unceasingly in and out of school to help his pupils, often providing funds from his own resources in that direction.

His hobby outside the classroom was athletics; his most cherished subjects: mathematics, Latin and Greek. He never lost faith in the youth; always stern but sympathetic and always pleased to hear of the success and achievements of his graduates, in or out of college.

In the passing of Mr. Chapin, this community lost a great character, a hard worker and a faithful servant.

Report of the School Committee

Mr. Fred P. Chase, of 12 Fairview Avenue, was appointed by a joint board consisting of the Board of Selectmen and the School Committee to fill the vacancy caused by the death of Mr. Chapin. Mr. Chase has deeply interested himself in the schools of the town.

COST OF RANDOLPH SCHOOLS

The cost of public education has always been and perhaps always will be a large item of expenditure for any city or town to meet. The citizens of Randolph have always been fair and considerate in their endeavor to give to the schools what they most urgently needed. If the cost has seemed high, your Committee is gratified to compare its cost activities with that of neighboring towns, classified under Group 2 of the Report of the Mass. Department of Education, Nov. 30, 1935. Here it will be noted that the per capita cost for Randolph is low.

Cost Comparison With Neighboring Towns

	Enrolment	Cost per pupil Ave. Membership	Cost per pupil Net Ave. Mem.
Canton	866	\$99.24	\$102.45
Abington	1,176	70.31	70.56

General School Fund, Part 1	\$24,427.05
Tuition, State Wards	2,741.09
Tuition, City Wards	1,631.31
Reimbursement, Trade School	693.80
Tuition, High School Non-residents	161.70
Coddington Fund	57.42
Cash paid Town Treasurer	18.85
<hr/>	
Total	\$29,731.22

NET COST OF SCHOOLS

Appropriation 1935,	
less Dog Tax, \$905.06	\$106,601.86
Receipts	29,731.22
<hr/>	
Net Cost to the Town	\$76,870.64

The following is a brief list of improvements and repairs which we are pleased to report despite the low per capita cost of school expenditures:

1. Reshingled both Prescott School buildings with fire resistance shingles.

2. New boiler with oil heater in the Belcher School.

3. Fences installed or repaired at the Prescott Primary, Belcher and Tower Hill Schools.

4. Twenty-four window ventilators in the Prescott school; up-vent to avoid drafts on pupils.

5. Painted Pauline Street School, in and out; cement walk laid and grading begun.

6. Steel fire-escape at the Belcher School removed, reconditioned and installed on the Tower Hill School at a 40 % cost savings.

ONE HUNDREDTH ANNUAL REPORT

7. Sanitary drinking fountains (outside) for all schools.

8. Playground equipment for the Prescott and Devine Schools.

9. Foundation and base laid for High School tennis courts. Erection of wire fence deferred because of lack of funds.

10. Stone wall built and grading on south side of the Devine School lot.

11. Graded and seeded north side of High School grounds.

RECOMMENDATIONS

Appreciating well that it is necessary for the School Department to do its utmost in keeping the tax rate low, we feel, nevertheless, that it is necessary to report at this time the following recommendations:

Installation of new toilets in the Prescott School.

New boiler in the Prescott Primary building.

Furnish new desks and chairs in one classroom a year to replace old, worn out furniture.

The establishment and organization of a State-aided Vocational School for Household Arts in the High School at a cost of \$1,500, approximately one-half of which cost will be reimbursed to the town together with a further reduction of trade school cost in that department.

Water-proofing the Devine School.

TOWN OF RANDOLPH, MASS.

An extra appropriation of \$1,000
for text books.

Laying cement curbing to protect
lawns at the High and Devine School
grounds.

In conclusion, your Committee feels that it has
endeavored to give of its best to the schools and will
strive to uphold the best interests of the schools, pu-
pils and teachers.

Respectfully submitted,

ELMER L. FRENCH,
WALTER J. FLANAGAN,
FRED P. CHASE.

**REPORT OF THE MINORITY MEMBERS OF THE
RANDOLPH SCHOOL COMMITTEE**

To the Citizens of Randolph:

Your committee is pleased with the progress that
has been made in the past year. We realize that there
is much more to be accomplished and with continued
earnestness we will endeavor to better your system.

The Prescott Schools are being operated without
certificates from the Department of Public Safety ow-
ing to lack of proper sanitation and ventilating facili-
ties. A W. P. A. project has been drawn up and sub-
mitted to headquarters to add an additional room to
each building for toilet facilities. This project will be
subject to the vote of the Annual Town Meeting in
March. These buildings were reshingled and consid-
erable repair work done under E. R. A. projects.

ONE HUNDREDTH ANNUAL REPORT

The new boiler and oil burner at the Belcher School are a wonderful improvement and have given complete satisfaction.

Your committee recommends that a new boiler and an oil burner be installed in the Prescott Primary building.

A grading project was started under W. P. A. at the Devine School and the south side is completed. The extra filling was used to good advantage in grading around the Pauline Street School.

Your committee has consulted with more than a dozen firms to determine which is the least costly and most permanent way to remedy the leakage situation in the side walls of the Devine School. We intend to insert an article in the Town Warrant for this purpose.

Randolph is growing and the school population is constantly increasing. Additional facilities must be provided in the very near future.

Your committee recommends adding the course of Household and Practical Arts in the High School under the State Aided Vocational Schools Act. We intend to insert an article in the Town Warrant for this purpose.

It is the opinion of your committee that the school system of Randolph needs the services of a superintendent who may devote all of his time and energies to directing and guiding our local schools. The mere fact of a school population in Randolph of 1800 with eight buildings and fifty-nine teachers establishes the utter impossibility of one man effectively supervising our schools in conjunction with those of two other Towns.

Respectfully submitted,

THOMAS E. DALY, Chairman,
MARY A. DEAN, Secretary.

Report of the Superintendent of Schools

To the School Committee of Randolph,
Mr. Chairman and Members:

I submit herewith for your approval my annual report of the public schools of Randolph.

The amount of work and improvements made in our schools from local and Federal aid is deeply appreciated by all who are interested in our schools. A great deal of careful planning has been given to it by the Board. Painting, repairs, new installations, enlargements and equipments of playgrounds have been the many projects completed during the past year. Special effort moreover has been made to give each school its fair share of improvements, many of which are permanent, and will be an incentive for further educational developments.

In view of the assistance which the Federal Government has given during the past two or three years for various types of public improvements, it is hardly amiss to entertain the thought and hope that Federal aid could be most effectively applied to local support of public education. Such an assistance would do much to lighten the burden of local taxation by a re-distribution of taxes collected from the more wealthy communities. It would greatly aid if not solve the tremendous inequality of educational opportunities now existing in school systems throughout the country. It would and could greatly augment the help now given by the State and yet preserve

ONE HUNDREDTH ANNUAL REPORT

for the State its rightful jurisdiction and control over its educational activities.

State-aided Household Arts Course

It is earnestly hoped that the citizens of the town will approve the establishment and organization of a State-aided Vocational School in Household Arts. Such a course of study would be given in the high school at an annual cost of \$1,500.00, one-half of which would be reimbursed to the town each year. The course would include instruction in the purchase and preparation of foods; purchase and construction of clothing; furnishing and care of the home, sanitation and management; nursing and care of children and the application of arts and sciences as related to the home.

Home Work

The controversy over the relative value of home study is ever with us. It calls for a careful study in which the pupil, parent and teacher should cooperate for a common end. With the present time allotment for school activities it is difficult to see how home work can be entirely eliminated. However, much can be done in school in the way of reasonable assignments by teachers and in the division or allotment of time for subject periods into a part-time study and recitation. In the homes, parents can do much to regulate hours of study under favorable and proper surroundings. Education is not confined to the classroom alone. It is a continuous process in and out of school. As the chief business of the student is his education, he should be trained both in school and out, to the end that he may learn and practice something of the art of self-direction, concentration and independent study.

I wish to express my appreciation in this way for the many school activities which the teachers have volun-

TOWN OF RANDOLPH, MASS.

teered to carry on for the purpose of enriching and motivating school life and educational objectives. To the layment it must be understood that the following list does not substitute or take the place of legitimate lessons in the classrooms but rather enrich them and are, for the most part, given outside of school hours on the teacher's own time. Aside from the activities mentioned in the report of the high school principal, music and drawing supervisors, the work in the grade schools include the following: Group study by teachers in the interest of better spelling, practical arithmetic, history projects and English. Excellent use of the bulletin boards at the Devine and Belcher schools for weekly display of proficient and meritorious work done by pupils. Daily classroom exhibitions by all teachers—not to be outdone by the Tower Hill, Pauline Street and McNeill schools. Clubs of various sorts, civic, dramatic, 4-H and student activities. Playground supervision with special mention of the newly organized and effective work at the Prescott school. Character talks and civic pride. Hallowe'en celebration in school for pupils from grade 5 to 12 inclusive, where teachers supervised and entertained some five hundred seventy-five pupils.

Recommendations

That an additional appropriation of \$1,000.00 be added to the school budget for books;

That a larger appropriation be made for the Dental Clinic;

That an appropriation of \$300.00 be made for supplies and equipment under Physical Education; \$200.00 for the high school and \$100.00 for the grades;

That a beginning be made to install new clocks in the Prescott and Belcher schools; and a bell control from

ONE HUNDREDTH ANNUAL REPORT

the office of the principal to the Prescott primary building.

In conclusion, I wish to express my thanks to the North Randolph Women's Club and to the Stetson High School Scholarship Fund Committee for the scholarships presented to worthy high school graduates last year.

I wish also to thank the members of the School Committee and all teachers and parents for their interest, assistance and co-operation in my school duties.

Respectfully submitted,

A. O. CHRISTIANSEN,
Superintendent of Schools.

STETSON HIGH SCHOOL PRINCIPAL'S REPORT

Mr. Adolph O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

Dear Sir:

I am pleased to submit my fourth annual report as Principal of Stetson High School.

The total enrollment on November 1, 1934 and 1935 was:

	IX	X	XI	XII	P.G.	Ttl.
1934	156	101	100	78	5	440
1935	125	127	77	89	7	425

Because of this slight drop in enrollment our housing facilities are entirely adequate to fit our needs.

Four names were added in the fall of 1935 to the roster of teachers in the High School. They were the names of Mr. Edward C. McAleer, head of the English Department; Mr. Matthew Walsh, Commercial Department; Miss Helena Krupka, Sewing, and Miss Dorothy Powers, English.

The most outstanding achievement of the past year was the receipt from the State Board of Education of a Class A certificate. Stetson High is now a Class A school for the first time in many years. Too much credit cannot be given to the teachers and pupils for their constant efforts to attain that much desired rating. Our appreciation is also extended to the superintendent and school board for their aid and guidance in helping us reach this high educational standing. Stet-

TOWN OF RANDOLPH, MASS.

son High School is also on the approved list of the College Entrance Certificate Board. Our standards are, therefore, as high as any other school and accordingly, we are able to certify pupils to any college which will admit pupils by this procedure. Our graduates, attending colleges and other institutions of higher learning are all making good records.

The process of curriculum revision has been under way during the past year. Our school day has been increased by thirty minutes, thus enabling us to have six periods of approximately fifty-five minutes each. Each period is so divided that the first part is given over to recitation and the other to supervised study. Junior Business training is now given to freshmen and Business Mathematics to sophomores. Civics and Science are now studied forty weeks, four periods a week instead of five times a week for twenty weeks. Economics has been added to the curriculum and is now available to juniors. Other changes are contemplated when conditions warrant.

We wish to repeat our request of last year that serious consideration be given the adoption of Manual Training and Household Arts courses to the curriculum. There is a great demand for this type of work and it is our belief that these courses would be desirable and beneficial.

Our athletic activities are being carried on with the same faculty supervision as we had last year. Mr. Leavitt has charge of football, Mr. Lynch and Miss Gavin of basketball, and Mr. Powderly, baseball. The football season was unusually successful and the boys have a record of one loss, one tie, and six wins for a total of eight games. Acknowledgment is gratefully given to Mrs. George Dean of a gift of warm-up suits

ONE HUNDREDTH ANNUAL REPORT

for the boy's basketball team. Stetson High School A. A. also fitted out the girls' team with warm-up suits. It is our belief that because of the interest and support of the many patrons of the school we will be able to balance our athletic budget at the end of the year.

The management of the lunch room came under our supervision during the past year. It is quite a problem to prepare appetizing and nourishing lunches, and at the same time keep prices low, but the situation is capably handled by Mrs. Florence Harris. At the present time the lunch room is self-sustaining, but because of the large increase in cost of food it is proving difficult indeed to "keep out of the red" and maintain the present low prices. We intend to make no advance in prices if it can be avoided.

The school library was completely catalogued by the State Department of Libraries during the past year, as an E. R. A. project. All books were repaired when possible; some were rebound. The library is being used extensively at present under the guidance of the English Department and the newly organized Library Club. There is, however, an urgent need for more books and we urge that a policy of purchasing a few new books each year be adopted.

The orchestra and band are functioning again this year as usual. The orchestra is under the capable direction of Mr. McAleer of the faculty, and is making notable progress. It was with regret that the resignation of Mr. Willard Smith as director of the band was accepted. Under his direction and guidance, the band was created and brought to its present degree of excellence. We are fortunate in having as Mr. Smith's successor, Mr. Charles Burke, a musician of note. Both musical groups are handicapped because no attention

is given in the lower grades to instrumental music. Because of this, no replacements are available for those lost to the High School organizations through graduation or other reasons. After a year is spent reaching a marked degree of accomplishment, our loss, without replacements is so great as to force us to begin all over again the next year. We recommend that a study be made of the possibility of introducing a course of instrumental music in the grades. We believe this could be done with little or no expense to the town.

There are too many pupils absent and tardy from school. In this respect there is need today of greater co-operation between home and school. There are so many interests and activities outside of school that claim the attention of pupils that it is reflected in the irregularity of attendance, at school, of many pupils. We wish to appeal to parents to curtail the participation of their children in such activities at times when it would tend to make the children absent or tardy the next day. The importance of regularity and punctuality in attendance should be impressed on the student and the earnest co-operation of the home is requested in this undertaking.

Awards were made to the following students during the past year:

Stetson High School Scholarships

Sylvia Cohen

Barbara M. Dolan

North Randolph Women's Club Scholarship

Helen M. Handrahan

Lieut. Thomas W. Desmond Post, A. L. Award

Ruth E. Frizell

Northeastern University Award in Mathematics and Sciences

Kenneth M. Gray

ONE HUNDREDTH ANNUAL REPORT

Northeastern University Award in History

James P. Whealan

Washington and Franklin Medal

Helen M. Handrahan

Randolph Better Housing Essay Contest

First, Sylvia Cohen

Second, William H. Morse.

Once again the faculty and students of the Stetson High School wish to express thanks to the Superintendent of Schools, the School Committee, and the parents for their co-operation and help during the year just ending. We feel that because of this understanding assistance we were able to make this year so successful.

Respectfully submitted,

HUBERT F. GILGAN,

Principal.

REPORT OF SCHOOL PHYSICIAN FOR 1935

The examination of our school children during this year was more than satisfactory, I am very happy to say. Recommendations for treatment were made in some few cases and at this time I wish to thank the parents for their splendid cooperation with the nurse and teachers, which of course assured the return of good health to these children.

The State Board of Health has again delegated a corps of examining physicians to our schools in order to re-check on all and discover any possible tubercular case which might have developed into a more acute form during the past year. Only two cases have shown any marked advancement in their lung condition, and both cases are in a non-contagious stage, there being no coughing and both have gained in weight.

Very few contagious cases of any serious nature developed during the year. We had an epidemic of German Measles but no complications arose from this.

We again carried on the Toxin-Antitoxin inoculations in our schools and at present we have a large percentage of our school children protected against this disease.

During the year eight hundred and sixteen cases were examined in school and one hundred eighty-six were examined at my office.

The parents of the school children of Randolph are to be commended upon the health report of their children. I firmly believe that the home is the first to be recognized, and the splendid work of our School Nurse and your Teachers next, for this fine health con-

ONE HUNDREDTH ANNUAL REPORT

dition and gratifying report for our nineteen hundred boys and girls.

In closing I wish to thank the School Nurse, School Committee, Superintendent of Schools, Teachers and our local Board of Health for their hearty cooperation during the past year.

Yours truly,

GEORGE V. HIGGINS,
School Physician.

REPORT OF THE SCHOOL NURSE

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

I herewith submit a report of my work for the year 1935.

All pupils given routine inspection after
each school vacation.

All pupils weighed and measured.

Grade pupils three times.

High school pupils twice.

Pupils sent home with Impetigo 11

Pupils sent home with Pediculosis 19

Home visits made 193

Pupils taken to Norfolk County Hos-
pital for X-rays 20

Pupils taken to Quincy Hibit Clinic 1

In January the Tuberculin test was given by Dr. Pillsbury of the Norfolk County Hospital to ninety-six

TOWN OF RANDOLPH, MASS.

pupils from the seventh, ninth and eleventh grades. Only seven of these pupils showed a positive reaction. These seven children were X-rayed and examined and their names placed on the follow-up list to be X-rayed the following year. The parent or guardian of each child was advised as to his condition.

The Taunton Traveling Clinic came to Randolph in March and children who were behaviour problems or retarded in their school work were examined and placed in grades recommended for them by the clinic.

During the month of May, Toxin-Antitoxin immunization against Diphtheria was given to 160 pre-school and school children. Three inoculations were given each child.

The Chamber of Commerce continued its splendid work of supplying milk to underweight children. One hundred and twenty-eight children received free milk in school each day.

The Teachers' Association held an entertainment in Stetson Hall and the proceeds were donated to the "Randolph Teachers' Association Charity Fund." This fund made it possible for me to furnish shoes, rubbers and glasses for many needy school children.

The Chadwick follow-up clinic was held in Stetson High School in October. Twenty-two children were X-rayed and examined. Twenty showed improvement and two were unimproved and recommended for sanitation care.

At the previous Chadwick Clinic in 1933 we were advised that four children be sent to a summer camp.

ONE HUNDREDTH ANNUAL REPORT

Three girls and one boy were sent to Norfolk County Health Camp.

The Christmas Seals Sale Fund sent two children and several organizations contributed the necessary amount to send one child. The Health Department sent the fourth child. The children returned to school in September greatly improved.

In the spring our school dentists, Doctors Smith and Maguire, started work on the children's teeth. A great many children received treatment during the summer months. After the school opened in September each child had a dental examination by Dr. Maguire or Dr. Smith and cards were sent to parents notifying them of defects found. There is a great deal of dental work to be done and we hope that much can be accomplished in 1936.

In closing my report I wish to thank Mr. Christian-
sen, the School Committee and all who have helped me
in any way to carry on my work during the past year.

Respectfully submitted,

HELEN F. CONLON,
School Nurse.

DRAWING SUPERVISOR'S REPORT

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

Dear Sir:

It is with pleasure that I submit my second annual report as Supervisor of Drawing in the public schools of Randolph, covering the art work from the first grade through the Senior High School.

Generally, the art work has dealt with courses of study in those art subjects which have seemed to be needed by the majority of individuals; the subjects which are most likely to be of practical use to the child in everyday life. The ultimate aim of the school courses in art is to teach the children to recognize beauty in their surroundings, also to arouse an interest in art education for the adult.

I feel that during this past year much has been done in the school art work toward accomplishing this important aim.

The work in the schools has been presented to the pupils in such a way as to have their attention directed toward the interesting and beautiful things to be found about them. Lessons in nature work during the fall of the year acquainted the children with the sources of the laws of order and color which have been studied and applied to the design work.

This year particular attention has been given to the correlation of art with the social studies. Through this field the art course has contributed value to other courses in the school.

ONE HUNDREDTH ANNUAL REPORT

In the Senior High School art has been offered both as an elective subject and as a subject required of those who choose to pursue it as a major study. We have concentrated on specific art fields; as: Water color, pencil and ink sketching, Commercial art, Costume Design, and the various Crafts. Special fields of art have been opened to talented pupils, although this type of work has been handicapped by a lack of some necessary school art supplies.

Much interest has been shown in the mechanical drawing work in the High School. The course has proved its value by developing in the pupils, and appreciation of fine workmanship and skill in handling of tools and drawing.

In order to help the teachers to feel better able to carry on their work and to bring their drawing up to the highest standard of other school systems lessons have been presented for the teachers. These are to be continued throughout the school year, being held every second Thursday, at 4 o'clock, at Stetson High School. The purposes of the demonstration lesson are for information, for inspiration, and for expression.

The people of the community realize that Art is taught as a general rather than a special subject. Art is a general subject because it may be used in the teaching of most school subjects.

In concluding I should like to thank the School Committee, Mr. Christiansen, and the teachers for their helpful support and co-operation in aiding me to carry out my plans.

Respectfully submitted,

RUTH C. LENNON,
Supervisor of Art.

REPORT OF THE MUSIC SUPERVISOR

Mr. A. O. Christiansen,
Superintendent of Schools:

I submit for your consideration my report as Supervisor of Music.

Generally speaking, the progress of the pupils has been most gratifying. Occasionally I find in individual singing a small fraction of the class who are not up to the standard in reading, etc. Upon investigation I find that these children have lived in various cities and towns and have not resided in any one place long enough to have grasped the necessary fundamental principles. I regret very much that more time cannot be given to such children, as they certainly retard the progress of the class, but the amount of time allotted to music does not allow the grade teacher to devote much time to these pupils.

The so-called "monotone" or the child who cannot carry a tune, or who cannot coordinate the ear, eye and voice correctly, must receive special attention, the same as a backward pupil in any other subject. Individual singing is of untold value in correcting this fault. It also helps to establish self-control and consciousness of ability to do individually what the class has accomplished as a whole.

The opportunity offered today in the public schools for the study of music develops the kind of knowledge and ability that motivates directly in the community.

In the High School this year credit is given to all classes. Two groups have been formed: (1) fresh-

ONE HUNDREDTH ANNUAL REPORT

men and sophomores, and (2) juniors and seniors. However, if these two groups are given a fair chance, they can sing but once in two weeks; the time between rehearsals is altogether too long to permit of much progress, yet with only one period a week devoted to singing I know of no other alternative.

The music readers used in the sixth, seventh and eighth grades are in a very dilapidated condition and should be discarded. In the High school there is little or nothing to work with. Consequently it is very difficult to produce satisfactory results.

The High School orchestra began rehearsals during the second week of the school year and is now composed of fifteen pupils who play the more common instruments. Most of the members are earnest and enthusiastic, and almost all attend rehearsals faithfully.

Although no music library is at present available, the orchestra plays many of the standard classical selections. The music is supplied by the faculty director, Mr. McAleer.

If the orchestra had a regular schedule of concerts which would allow it to play before an audience, a very tangible incentive would be offered to the pupils. Perhaps this could be supplied in the form of school assemblies or by rehearsals with the choral group of the High School. During the first school term the orchestra has given two public performances.

Six of the members of the orchestra are seniors and consequently they will not be available for the orchestra next year. During the next few years con-

TOWN OF RANDOLPH, MASS.

ditions may be such that more pupils in the grammar schools will undertake to study instruments. A competent High School orchestra which is well known in the community would supply a strong motive for such musical education.

I wish to thank the members of the School Committee, and you Mr. Christiansen, as well as the teachers for their faithful and efficient cooperation.

Respectfully submitted,

ROSE G. HAND,
Supervisor of Music.

ELMER L. BURCHELL, Town Accountant.

Report of the Trustees of Stetson Hall Fund

January 20, 1936.

To the Citizens of Randolph:

Since 1934 the revenues derived from the Stetson Hall have been very much reduced, and have not been sufficient to meet running expenses of the building and to make the necessary repairs.

With aid from the Selectmen many needed repairs were made and the building redecorated through E. R. A. and W. P. A. projects.

We are confronted now with two real problems, the heating system requires a complete overhauling and many new parts, the floors in the main corridors are in bad shape and must be relaid.

Owing to the reduced revenue from the hall and the reduced earnings on the invested funds it will be imposisble for us to attempt to take care of the above, consequently, we intend to insert articles in the Town Warrant for this purpose.

THOMAS E. DALY,
WALTER J. FLANAGAN,
FRED P. CHASE.

1936 Town Meeting Warrant

Commonwealth of Massachusetts: Norfolk, ss.

To Either of the Constables of the Town of Randolph,
in said County, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Randolph, qualified to vote in elections therein, to meet at the polling places in their respective precincts, to wit:

**Polling Place in Precinct No. 1
STETSON HALL, IN SAID TOWN**

Polling Place in Precinct No. 2

NORTH RANDOLPH IMPROVEMENT ASSOCIATION HALL, IN SAID TOWN

**ON MONDAY, THE SECOND DAY OF MARCH, 1936
at 5:45 o'clock in the forenoon**

then and there to bring in to the Wardens of their respective precincts their votes on the official ballot for a Town Clerk for one year, Town Treasurer for one year, Moderator for one year, three Selectmen and Overseers of the Public Welfare for one year, one Assessor for three years, two members of the School Committee for three years, one member of the Stetson Trust Fund for three years, one member of the Board of Health for three years, one Tax Collector for one year, one Water Commissioner for three years, one Highway Surveyor for one year, one Tree Warden for one year, two mem-

ONE HUNDREDTH ANNUAL REPORT

bers of the Planning Board for three years, and seven Constables for one year.

THE POLLS WILL BE OPENED AT FIVE FORTY FIVE O'CLOCK IN THE FORENOON AND WILL BE CLOSED AT FOUR O'CLOCK IN THE AFTERNOON.

You are directed to notify and warn the inhabitants qualified to vote as aforesaid to meet at the Town Hall in said Randolph on Monday, the 9th day of March, 1936, at 7:30 P. M. then and there to act on the following articles:

Article 1. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1936, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 2. To see if the Town will vote to raise and appropriate money to defray the General Town Expenses for the current year, under the following headings:

GENERAL GOVERNMENT

Moderator	Salary
Selectmen	Salaries and Expenses
Accountant	Salary and Expenses
Treasurer	Salary and Expenses (including Treasurer's Bond)

Article 3. To see if the Town will vote to raise and appropriate money for the Reserve Fund for extraordinary or unforeseen emergencies as per Section 6, Chapter 40, General Laws.

Article 4. To see what action the Town will take in regard to raising and appropriating money for the employment of a District Nurse, as provided for by Section 5, Chapter 40, General Laws, as amended by Section 1, Chapter 371, Acts of 1921.

Article 5. To see what action the Town will take in regard to the pay of Town Laborers and others hired by the day or hour.

ONE HUNDREDTH ANNUAL REPORT

Article 6. To hear and act on the reports of Town Officers.

Article 7. To hear and act on the report of any Committee and choose any Committee the Town may think proper.

Article 8. To see if the Town will instruct the Selectmen to appoint a Special Officer, or Officers to enforce the laws.

Article 9. To see if the Town will authorize the Water Commissioners to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

Article 10. To see if the Town will vote to authorize the Board of Health to appoint one of their members to another office or position under their control, and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto.

Article 11. To see if the Town will vote to raise and appropriate money for materials and equipment in connection with W. P. A. projects, as petitioned for by the Selectmen.

Article 12. To see if the Town will vote to raise and appropriate money for UNPAID BILLS of previous years in the following departments: School Department, Town Offices, Charities, Article 52 of 1935.

Article 13. To see if the Town will vote to raise and appropriate money to pay certain UNPAID BILLS of the Stetson School Fund as petitioned for.

TOWN OF RANDOLPH, MASS.

Article 14. To see if the Town will vote to authorize the Board of Selectmen to appoint one of their members to another office or position under their control and fix the salary of such person in accordance with the provisions of Chapter 36, Acts of 1929, or take any other action relative thereto, as petitioned for by the Selectmen.

Article 15. To see if the Town will vote to raise and appropriate the sum of \$350.00 for Memorial Day expenses, to be expended under the direction of Lieut. William Palmer Camp, Sons of Union Veterans of the Civil War, as petitioned for.

Article 16. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 to provide for the rental of quarters for the Lieut. Thomas W. Desmond Post, No. 169, of the American Legion, as petitioned for.

Article 17. To see if the Town will vote to raise and appropriate money for a Dental Clinic, as petitioned for by the Board of Health.

Article 18. To see if the Town will vote to instruct Highway Surveyor to oil High Street from Vine Street to Chestnut Street, or use some other material to keep the dust down, as petitioned for.

Article 19. To see if the town will accept the provisions of Chapter 80 of the General Laws, known as "The Betterment Act," as petitioned for by the Planning Board.

Article 20. To see if the Town will vote to accept Chapter 82, Sec. 37, General Laws, to authorize the Selectmen to establish a twenty-foot set-back on the

ONE HUNDREDTH ANNUAL REPORT

existing westerly side of North Main Street from Crawford Square to West Street, as petitioned for.

Article 21. To see if the Town will vote to instruct the Assessors to compile a list of all Real Estate owners and the individual parcels and amounts assessed to each as of January 1, 1936, and to have this list published in the Town Report of 1936 and raise and appropriate the sum of One Hundred Dollars (\$100.00) for compilation thereof and that the Assessors be further instructed to omit the names of all persons owning property under Tax Titles, as petitioned for.

Article 22. To see if the Town will vote to raise and appropriate the sum of Three Hundred Dollars (\$300.00) for project already approved by the Works Progress Administration to beautify the grounds in front of the Turner Library, as petitioned for.

Article 23. To see if the Town will vote to raise and appropriate the sum of \$150.00 to purchase material to renew floor in Stetson Hall corridor, as petitioned for by the Trustees of the Stetson School Fund. Labor to be furnished by W. P. A.

Article 24. To see if the Town will vote to raise and appropriate the sum of \$160.00 to purchase materials and equipment to build curbing around one side of drive of Stetson High School lawn. Labor to be furnished under W. P. A., as petitioned for by the School Committee.

Article 25. To see if the Town will vote to raise and appropriate the sum of \$225.00 to purchase materials for the purpose of painting exterior of Prescott School Buildings. Labor furnished by W. P. A., as petitioned for by the School Committee.

TOWN OF RANDOLPH, MASS.

Article 26. To see if the Town will vote to raise and appropriate money for materials for the rebuilding of West Street, as petitioned for. This street to be constructed according to plans filed, and approved by W. P. A. authorities, labor to be provided by the W. P. A.

Article 27. To see if the Town will vote, raise and appropriate the sum of Fifteen Hundred Dollars (\$1,500.00) for a survey of the Town of Randolph for a sewage system, as petitioned for.

Article 28. To see if the Town will vote to raise and appropriate the sum of \$3,000.00 for the collection of garbage. Said collection to be made twice a week for five months and once a week for seven months and to be supervised by the Board of Health. Bids for this contract to be confined to contractors of the Town of Randolph, or take any other action relative thereto, as petitioned for.

Article 29. To see if the Town will vote to raise and appropriate the sum of Five Hundred Dollars (\$500.00) for the maintenance and care of the Stetson High School Field, as recommended by the School Committee and as petitioned for.

Article 30. To see if the Town will vote to raise and appropriate the sum of Fifteen Hundred Dollars (\$1,500.00), for the purpose of repainting and waterproofing the Charles Gabriel Devine School Building, as petitioned for by the School Committee.

Article 31. To see if the Town will vote to raise and appropriate the sum of Five Hundred Dollars (\$500.00) to purchase materials and equipment for grading and building stone wall around Devine School, as petitioned for by the School Committee.

ONE HUNDREDTH ANNUAL REPORT

Article 32. To see if the Town will vote to raise and appropriate the sum of \$300.00 for painting and repairs at the Belcher School, as petitioned for by the School Committee.

Article 33. To see if the Town will vote to purchase and install a new steam heating boiler and oil burner, at the Prescott Primary School Building, and raise and appropriate the sum of Twenty-five Hundred Dollars (\$2,500.00) therefor as petitioned for by the School Committee.

Article 34. To see if the Town will vote to raise and appropriate the sum of \$6,700.00 for the purpose of adding a room to each of the Prescott Schools. These rooms to be used to improve sanitation problem. Work to be done under W. P. A., as petitioned for by the School Committee.

Article 35. To see if the Town will vote to raise and appropriate the sum of \$900.00 to waterproof and replace flashing on Stetson High School, as petitioned for by the School Committee.

Article 36. To see if the Town will vote to raise and appropriate the sum of \$1,300.00 to purchase and install a new boiler, and make necessary repairs to the heating system in the Town Hall, as petitioned for by the Trustees of the Stetson School Fund.

Article 37. To see if the Town will authorize the School Committee to establish and maintain state-aided vocational education in accordance with the provisions of Chapter 74, of the General Laws and Acts amendatory thereto, or dependent thereon, and to raise and appropriate the sum of \$1,200.00 therefor, as petitioned for.

TOWN OF RANDOLPH, MASS.

STREET LIGHTS, ETC.

Article 38. To see if the Town will vote to install an electric light on North Main Street, approximately half way between Liberty Street and the A. & P. Store, and raise and appropriate money therefor, as petitioned for.

Article 39. To see if the Town will vote to install three electric lights on Allen Street and raise and appropriate money therefor, as petitioned for.

Article 40. To see if the Town will vote to install five electric lights on Russ Street, and raise and appropriate the money therefor, as petitioned for.

Article 41. To see if the Town will vote to raise and appropriate money for the installation of a flood light at the Skating Rink at Belcher Park, as petitioned for.

Article 42. To see if the Town will vote to install a fire alarm box on Canton Street, opposite Irving Road, and raise and appropriate \$250.00 for the same, as petitioned for.

LAYOUT OF STREETS

Article 43. To see if the Town will vote to instruct the Selectmen to lay out Druid Hill Avenue 1,000 feet southerly from its present finished construction, and raise and appropriate money therefor, as petitioned for.

Article 44. To see if the Town will vote to instruct the Selectmen to lay out Cole Terrace, beginning from the westerly side of Highland Avenue and running in a westerly direction approximately 600 feet, and raise and appropriate money therefor, as petitioned for.

ONE HUNDREDTH ANNUAL REPORT

Article 45. To see if the Town will vote to instruct the Selectmen to lay out Junior Terrace, beginning from the southerly side of Cole Terrace and running in a southerly direction to the north side of Fitch Terrace for approximately 600 feet, and raise and appropriate money therefor, as petitioned for.

Article 46. To see if the Town will vote to instruct the Selectmen to lay out Fitch Terrace beginning from the westerly side of Highland Avenue and running in a westerly direction approximately 600 feet, and raise and appropriate money therefor, as petitioned for.

Article 47. To see if the Town will vote to instruct the Selectmen to lay out Maitland Avenue from a point already accepted, in a westerly direction for 500 feet, and raise and appropriate money therefor, as petitioned for.

Article 48. To see if the Town will vote to instruct the Selectmen to lay out Pond Lane for a distance of 2,000 feet, and raise and appropriate money therefor, as petitioned for.

ACCEPTANCE OF STREETS

Article 49. To see if the Town will vote to accept Bennington Street, as laid out by the Selectmen, a distance of 300 feet in an easterly direction from North Main Street as petitioned for.

Article 50. To see if the Town will vote to accept Druid Hill Avenue 1,000 feet south from its present finished construction as laid out by the Selectmen, as petitioned for.

Article 51. To see if the Town will vote to accept Jane Street, from North Main Street to Mitchell Street, as laid out by the Selectmen, as petitioned for.

TOWN OF RANDOLPH, MASS.

Article 52. To see if the Town will vote to accept Maitland Avenue from the point already accepted in a westerly direction 500 feet, as laid out by the Board of Selectmen, and as petitioned for.

Article 53. To see if the Town will vote to accept Pond Lane as laid out by the Selectmen for a distance of 2,000 feet in a northerly direction from Oak Street, as petitioned for.

REPAIRS AND REBUILDING OF STREETS

Article 54. To see if the Town will vote to build a sidewalk on West Street from Drinkwater's hot house to Lafayette Street, and raise and appropriate money therefor, as petitioned for.

And you are directed to serve this Warrant by posting attested copies thereof at the Town Hall, at the Town Clerk's Office, at the Post Office, and at six other public places in the Town, seven days at least, before the day and hour for holding said meeting.

Hear of, fail not, and make return of this Warrant with your doings thereon, to the Town Clerk, on or before the day and hour appointed for holding said meeting.

Given under our hands at Randolph, this 3rd day of February, A. D., 1936.

ERROL M. THOMPSON,
MARTIN E. YOUNG,
JAMES H. HURLEY,
Selectmen of Randolph.

Attest:

JOHN B. McNEILL, Town Clerk.

TOWN OF RANDOLPH, MASS.

All of the appropriations made may be found in the Town Accountant's Report taken from an attested list made by the Town Clerk.

VOTED UNANIMOUSLY: Under Article 1, That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1936, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

VOTED: Under Article 7, That a Committee of one, the clerk of this meeting, be instructed to send the following message to Congressman Richard B. Wigglesworth, Senator David I. Walsh, and Senator Marcus A. Coolidge:

"Because of the tremendous increase in population in the Town of Randolph in the past ten years, the citizens of the Town of Randolph assembled at their annual Town Meeting respectfully request that you do everything in your power to receive recognition from the Postal and Treasury Departments to secure a new Post Office Building for the Town of Randolph."

MEETING OF TOWN CLERKS OF REPRESENTATIVE DISTRICT No. 9

Randolph, Mass., November 13, 1936

We, the undersigned Town Clerks of Randolph, Holbrook and Avon, comprising Representative District No. 9, in the County of Norfolk, hereby certify that at an election duly held at the respective towns aforesaid on the third day of November, 1936, to vote for one Representative in the General Court, the following votes were given:

ONE HUNDRED AND FIRST ANNUAL REPORT

	Randolph	Avon	Holbrook	Total
Noel C. King of Holbrook	1630	526	611	2,767
Roy C. Smith of Holbrook	1,683	585	1,157	3,425
Blanks	144	55	34	233
	<hr/>	<hr/>	<hr/>	<hr/>
Total	3,457	1,166	1,802	6,425

JOHN J. COLLINS,
Town Clerk of Avon.

FRANCIS W. McGAUGHEY,
Town Clerk of Holbrook.

JOHN B. McNEILL,
Town Clerk of Randolph.

A true record,
Attest:

JOHN B. McNEILL, Town Clerk.

Randolph, Mass., Dec. 1, 1936.

The Registrars of Voters of Randolph met at 7:30 o'clock P.M. in the Town Hall to recount the ballots cast for Lieutenant Governor at the State Election held November 3, 1936.

The ballots were all recounted, resealed and placed under seal in the election cases.

Representatives were present from the two political parties.

Result of the recount was declared by the Town Clerk, as follows:

	Original Count	Recount	Gains	Losses
Henning A. Blomen	11	11		
Freeman W. Follett	11	11		
Walter S. Hutchins	9	10	1	

TOWN OF RANDOLPH, MASS.

Francis E. Kelly	1,561	1,557		4
Leverett Saltonstall	1,736	1,739	3	
Paul C. Wicks	8	9	1	
Blanks	121	120		1
	<hr/>	<hr/>	<hr/>	<hr/>
Total	3,457	3,457	5	5

There were no disputed ballots.

Changes in the count came in the following blocks:

Block	Precinct
12	1—Kelly gained 1, Saltonstall lost 1
18	1—Wicks gained 1, Blanks lost 1
20	1—Kelly lost 1, Saltonstall gained 1
39	1—Hutchins gained 1, Saltonstall lost 1
41	1—Kelly lost 1, Saltonstall gained 1
53	1—Kelly lost 1, Blanks gained 1
55	1—Saltonstall gained 1, Blanks lost 1
6	2—Kelly lost 1, Saltonstall gained 1
7	2—Kelly lost 1, Saltonstall gained 1

JOSEPH J. DENCH,
CHARLES F. BLAKELY,
WALTER L. HICKEY,
Registrars of Voters of Randolph.

A true copy of the record,
Attest:

JOHN B. McNEILL, Town Clerk.

CERTIFICATE—ENROLLED MILITIA

A certified copy of the number of persons liable to enrollment in and for the Town of Randolph, County of Norfolk, for the year 1936, has been placed in my hands by the Assessors of this town and filed according to law. It contains the names of 1630 men.

JOHN B. McNEILL, Town Clerk.

ONE HUNDRED AND FIRST ANNUAL REPORT

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chapter 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Section 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of PHYSICIANS and MIDWIVES is called to Chapter 280, Section 1, Acts of 1912: Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law,, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

Respectfully submitted,

WILLIAM J. McLAUGHLIN,

Report of the Selectmen and Overseers of Public Welfare

Your Selectmen tender herewith their report for the year 1936 with particular reference to those administrative activities which have fallen directly under their supervision.

During the past year we have been faced with increasing difficulties under the W. P. A. due principally to the fact that the quota of men for Randolph has been gradually reduced from 220 men, which it was a year ago, to 127 men at the present time. In spite of this fact numerous improvements have been made to schools and school grounds; the large program for the extension of water mains in the town has been brought to within approximately two months of completion; additional work has been done upon some of our larger highways, including the drainage and reconstruction of West Street, which has been suspended temporarily due to weather conditions and will be resumed in the spring; and in addition to the permanent sidewalks on Main Street under the sponsorship of the State Department of Public Works, several miles of permanent sidewalks have been constructed upon town roads, which will further insure the safety and convenience of the public.

From now until June 30th we have had accepted or under proposal various projects which will include additional permanent sidewalk construction, several drainage projects, additional repairs to public buildings and public property, and the inauguration of a

TOWN OF RANDOLPH, MASS.

mosquito control project which will consist of draining areas conducive to mosquito breeding.

During the past four or five years, it has been necessary for the town to expend considerable sums of money which otherwise would not have been necessary under normal economic conditions. This, together with the fact that during the past several years the item of snow removal has increased to large proportions, has made it impossible to appropriate sufficient funds for highway maintenance without raising the tax rate to a point which would be beyond the ability of taxpayers to sustain. For this reason your Selectmen have asked recommendations by the Highway Surveyor for a list of streets to be incorporated in a blanket W. P. A. project in an attempt to remedy this situation which has accumulated over the past four or five years. We hope that during the next few months Randolph's quota of men for W. P. A. work may be increased, as there are many small projects which it has been impossible for us to put into operation during the past nine months due to the arbitrary reduction in our personnel by the State W. P. A. headquarters.

The reduction of our quota during the year from 220 men to 127 men has also had its effect upon the Welfare Department, resulting in an increased load upon this department. Whereas we had anticipated during the year 1936 a reduction in our case load, we actually have had during the year the same case load as in 1935, namely 232. The number of persons represented by this case load have increased from 845 persons in 1935 to 880 persons for the past year.

During the year 1936 the federal Social Security law has become operative and with the reduction in

ONE HUNDRED AND FIRST ANNUAL REPORT

the age limit for old age assistance cases from 70 years to 65 years has resulted in an increase in our local cases for the year from 95 cases in 1935 to 165 cases in 1936. This increase was most apparent in the last four months of 1936, increasing our expenditures in this department to \$29,527.35 from \$20,440.84 in 1935. Our expenditures for the year 1937 with the case load at the peak for the entire year will necessarily be larger than in 1936, but with the refund from the federal government, which comes back directly into the old age account, we feel that appropriation by the town itself will not have to be materially increased, although some slight increase will probably be necessary.

In summary, we find that our total expenditures for 1936 for public welfare, state and mother's aid, soldier's relief, and old age, have totaled \$74,940.11, as compared with the total expenditure in 1935 of \$69,207.24. During the year 1936 we have, however, received reimbursement from all sources, including federal, state, towns and cities, \$41,526.69, as compared with the total reimbursement in 1935 from sources of \$26,009.93.

The Town Infirmary again has been held within its appropriation for the past year. In fact, a considerable balance was left unexpended, which was in part due to savings effected by the installation last year of an oil burner and a refrigerating unit. During the coming year, however, considerable repairs must be made to the Town Infirmary in order to maintain it in proper condition, and your Selectmen will ask the town for approximately the same appropriation as received in 1936.

There has been a recurrence of the claim for

TOWN OF RANDOLPH, MASS.

water damage on the area northerly of Cottage Street, and it is the intent of your Selectmen to ask the consent of the town meeting for permission for making a land taking in this area in order that suitable drainage may be constructed to remove for all time this recurrence of damages and consequent expense which the town has periodically been forced to sustain.

The Fire and Police Departments have been maintained during the past year on a standard of high efficiency although it is apparent from the two major conflagrations which occurred in the last few months of 1936 that serious consideration should be given by the citizens of the town as to the adequacy of the equipment with which our Fire Department has to work.

In closing, your Selectmen again wish to impress upon the citizens of the town the need for caution in making appropriations for unnecessary expenditures. Our tax rate during the past year was reduced to \$38.20 from \$41.40 in 1935. If we as a town are to make the most of our natural advantages in fostering the growth of Randolph and increasing our taxable valuation by the further addition of homes and industries, it is necessary that in the next few years our tax rate must be still further reduced. It is only by so doing that we can attract potential home owners and industries to locate in Randolph.

ERROL M. THOMPSON,
MARTIN E. YOUNG,
HAROLD W. MACAULEY,
Board of Selectmen.

Assessor's Report, 1936

The following report is submitted by the Board of Assessors for the year 1936:

In Memoriam

JAMES F. KENNEDY

School Committee	1920-1924
Moderator	1928-1936
Tax Collector	1932-1936

IN MEMORIAM

With the passing of Mr. Kennedy, Randolph suffers a loss from the intelligent type of service which he contributed during his sixteen years in public office.

As Moderator, his conduct of town meetings was an example of efficient and fair administration. His fundamental purpose was the greatest good to be accomplished for the general welfare.

He served as Tax Collector during a time of great financial stress, which called for keen judgment tempered by a friendly spirit of fairness to all concerned. The qualities of courage, ability and judgment, which he exercised in a fearless but humane manner under circumstances at times most difficult, were foremost characteristics of the man.

Those who knew him well appreciate in his passing the loss of a loyal friend and associate, and the town in general recognizes the loss of an intelligent, able and fearless public servant of the highest type.

Report of the Collector of Taxes

Randolph, Mass., Jan, 18, 1937.

To Citizens of the Town of Randolph:

ONE HUNDRED AND FIRST ANNUAL REPORT

PUBLIC LIBRARY

To the Citizens of Randolph:

Pursuant to the provisions of Article 3 of the By-Laws of The Turner Free Library, this report, for the calendar year 1936 and being the sixty-first annual report, is submitted, showing the condition of the trust consisting of the building, library, and funds, together with the reports of the Librarian and Treasurer and so much of the reports submitted to the Trustees by the various committees as seems of general interest.

The Library Committee reports that the books, charts and furnishings are in good condition and that all books belonging to the Library are accounted for by the Librarian.

The Building Committee reports that the reading room has been restored to its normal uses after having been loaned for over two years for the use of a sewing project, and that the furniture and, where necessary, the woodwork in that room and in the reference room have been refinished. This committee, however, reports as its major activity for the year an extensive overhauling of the electric lighting system, involving the removal of the old wiring, which had remained in place for many years, and the substitution of new wiring throughout, the rearrangement and relocation of the lights and the replacement of the old lighting fixtures by modern ones. The institution of the work was preceded by a scientific study and survey of the situation by experts. It is confidently believed that the results, when completed, will be found to be an improvement of the greatest importance. Aside from the general benefit of more and better diffused light, the better location of the lighting units will make it easier for the Library staff to locate books called for by the public, and for the public to examine the books on the shelves in search of interesting material.

TOWN OF RANDOLPH, MASS.

It is believed that the change will tend to a more comfortable use of books in the reference and reading rooms. The protection of the eyesight of readers and especially of school children, by good lighting facilities is of paramount importance and, from that point of view, if for no other reason, the expenditure involved seems abundantly justified.

For the completion of this work and for such exterior and interior repairs to the building and its furniture and fixtures as may from time to time be necessary, an appropriation of \$700.00 is requested.

The Librarian's report indicates a slight decrease as compared with 1935 in the circulation of books and magazines. More books have been added than during 1935. In that connection the Trustees desire to add their thanks to those of the Librarian to the donors of the books received as gifts.

The Trustees take this opportunity again to express their appreciation of the unfailing efficiency and loyalty of Miss Eunice L. Belcher, the Librarian, and her assistants, Miss Ellen P. Henry and Miss Helen C. Elden, and of the janitor, Mr. John T. Moore.

A copy of each of the following reports is herewith subjoined: the report of the Librarian; the report of the Treasurer, showing the investment of the funds and the receipts and expenditures of the Library; and the report of the Finance Committee.

Respectfully submitted,

SETH T. CRAWFORD,

President, Board of Trustees.

Randolph, Mass., January 20, 1937.

ONE HUNDRED AND FIRST ANNUAL REPORT

REPORT OF LIBRARIAN OF
TURNER FREE LIBRARY

To the Trustees of the Turner Free Library:

I have the honor to submit the annual report of the Librarian for the year ending December 31, 1936.

The Library has been open to the public 302 days. There have been 332 books added the past year, 304 purchased and 28 gifts, making the accession number 34,025.

The circulation is slightly lower than last year, 29,496 books having been loaned. Total number of magazines loaned 1,417. We have issued 296 borrowers' cards.

I wish at this time to thank those who gave the books mentioned above.

The Librarian wishes to thank Miss Henry and Miss Elden for their help and loyalty, also the Trustees for their cooperation and interest.

Respectfully submitted,

EUNICE L. BELCHER,

Librarian.

TOWN OF RANDOLPH, MASS.

REPORT OF THE TREASURER

To the Trustees of the Turner Free Library:

In compliance with the requirements of the By-Laws, I hereby submit the annual report of the Treasurer of the Turner Free Library:

There has been a depreciation of \$459.00 in the normal income of the funds the past year, seven companies having omitted or reduced some of their interest or dividends as follows:

Chicago, Rock Island & Pacific R.R. Co.	80.00
Consolidated Edison Company	18.00
California Packing Corporation	\$50.00
New York Central Railroad Company	91.00
Illinois Central Railroad Company	70.00
Southern Railway Company	70.00
Rio Grande Western Railroad Company	80.00
	<hr/>
	\$459.00

Income Receipts

Turner Fund	\$508.46

Report of the Finance Committee

To the Trustees of the Turner Free Library:

Your committee on finance submits the following report:

The committee has audited the accounts of the Treasurer for the year 1936 and found them correct. All moneys received have been duly accounted for, and no moneys have been paid out except upon vouchers properly approved.

The committee has examined, also, the securities representing the investments of the funds of the Library, and has found them to be intact, and as represented.

There has been no change during the past year, in the investment of the funds.

Respectfully submitted,
RAYMOND L. MASON,
Chairman

Report of the Board of Health

To the Citizens of the Town of Randolph:

The Board of Health respectfully submits its report and the reports of its appointive agents for the year ending December 31, 1936.

The disease, diphtheria, attacks children more frequently between the ages of 6 months and 6 years than at any other age. If all children of pre-school age were immunized against this disease, it could be completely eradicated from our community. To this end, this year, our efforts were directed to notifying every parent in this town about the immunization clinic. Printed cards were mailed to every home in which there was a known child of pre-school age, notifying parents of the clinic to be held, and requesting them to immunize their children. Co-operation by the parents resulted in 351 children being immunized.

A successful immunization serum has never been perfected against many of the diseases which attack mankind, but as diphtheria has been proven beyond the shadow of a doubt as being a disease that can be prevented through the use of toxin-anti-toxin, all parents should avail themselves of this great preventive measure for their children.

Tuberculosis in grown people is still a major

ONE HUNDRED AND FIRST ANNUAL REPORT

problem to be combated. This disease is definitely one of a contagious nature and is unfortunately on the increase. Hospitalization with medical attention and with complete rest and care is the only known successful way to combat this disease once it has been contracted. Seventeen persons were hospitalized this year for positive cases of Pulmonary T. B. as suspected cases.

The Dental Clinic was ably conducted by Dr. Smith and Dr. Maguire with the result that 382 Fillings, 229 Extractions and 154 Treatments and Cleanings were performed.

Dental caries in children, as in adults, may lead to serious illnesses, often affecting the whole body. Parents of children who can afford to pay for dental service are urged to have their children's teeth attended to regularly and those who can not afford to pay are urged to avail themselves of the Dental Clinic. Permission may be obtained from Miss Conlon, the School Nurse, to visit the dentist.

We strongly recommend the continuance of this Clinic as it is one of the most deserving expenditures in the Town budget.

The annual "clean up day" was not held this year as the Finance Committee would not recommend, or transfer funds for, this service to the Town's people. As the presence of empty tins which have contained food, also rubbish and general household refuse, could

TOWN OF RANDOLPH, MASS.

be a possible source of sickness and contagious disease, it would seem a "clean up day" is a measure for the protection of the public health and should be carried on each year.

It is urged that children who have sore throats, colds or show other symptoms of illness be kept at home by their parents, as these symptoms may be the forerunner of a contagious disease which could be spread to other children in the school. The frequency of cases of measles, mumps, chicken pox and other so-called "children's diseases" each year, is the reason the above recommendation is made to the parents.

The inhalator which was purchased by the Board of Health and which is in the care of the Fire Department was the means of saving the lives of two people which (in our opinion) has proven the value of this investment by this Board this year. If any one is overcome with carbon-monoxide, illuminating gas or other conditions requiring the use of the inhalator, the Fire Department will respond upon call. Five members of the Fire Department have been trained in the use of this inhalator, so expert care will be given a victim. The Board of Health is responsible for the maintenance and good order of this apparatus.

Communicable diseases during the year 1936 were as follows:

German Measles	2
Measles	112
Diphtheria	1

ONE HUNDRED AND FIRST ANNUAL REPORT

Dog Bite	21
Mumps	15
Scarlet Fever	17
Pulmonary T. B. and Pulmonary Suspects	17
Lobar Pneumonia	1
Chicken Pox	18
Typhoid	1
Whooping Cough	3

The following is the list of licenses given during the year 1936:

Alcohol Permits	22
Piggery and Garbage	4
Cesspool Cleaning	2
Undertaking	3
Collection of Tallow and Grease	1
Hairdressing	3

We would indeed be ungrateful if we omitted an expression of gratitude concerning our Chadwick Clinics—a conception of the present Massachusetts Commissioner of Public Health, Dr. Henry D. Chadwick. This far-sighted measure provides for a careful follow-up of all the suspected cases of child tuberculosis. In this State, the so-called peri-bronchial type of tuberculosis in children is not reportable as such, but it is wise and necessary to follow up these cases each year, because so many of them are directly traceable to infection from adult cases. Through the cooperation of the State and County officials, especially the Norfolk County Tuberculosis Hospital, this procedure is carried out year after year at no expense to our town, but with incalculable benefit to our future adult population. Parents are invited to learn more of this plan, which is so interesting. If they desire, the

TOWN OF RANDOLPH, MASS.

information in regard to these clinics will be sent to them from the Board of Health Office.

We very gratefully acknowledge the fine cooperation of the Randolph Visiting Nurse Association in helping us to choose those children who most need the benefits of the summer health camp at the Norfolk County Hospital. The general health of children who have had this privilege has been greatly improved by the above-mentioned treatment. The expense of this camp treatment per child is \$50. We feel that it is the duty of every father and mother in this community to visit the summer health camp at the Norfolk County Hospital, which ranks among the very best in our Commonwealth.

CHESTER G. GLIDDEN, Chairman.

WILLIAM E. BUCK, M.D., Secretary.

FRANK C. WALES.

ONE HUNDRED AND FIRST ANNUAL REPORT

REPORT OF THE PLUMBING INSPECTOR

Randolph, Mass., December 30, 1936.

To the Board of Selectmen of the Town of Randolph:
Gentlemen:

I hereby submit my report as Plumbing Inspector for the year ending December 31, 1936.

There have been fifty-two permits issued for plumbing installation. All have passed inspection.

The following fixtures have been installed:

Thirty-nine water closets; thirty-eight sinks; thirty-four wash bowls; twenty-nine bathtubs; eight wash trays; one urinal; two refrigerator connections; one drinking fountain; one glass rinser; sixteen pressure boilers.

The estimated value is about Seven Thousand (\$7,000.00) Dollars.

The number of permits issued in 1936 shows a slight increase over 1935.

Respectfully submitted,

THOMAS O'RILEY,

Plumbing Inspector.

TOWN OF RANDOLPH, MASS.

REPORT OF INSPECTOR OF SLAUGHTERING

Randolph, Mass., January 1, 1937.

Board of Health of Randolph, Mass.

Gentlemen :

I hereby submit my report for the year of 1936 :

From January 1, 1936 to December 31, inclusive,
I have :

Inspected	299 Heads
Condemned	4 Heads
Condemned 42 livers, unfit for food	

The 299 Heads are classified, as follows :

Hogs	285
Cattle	4
Calves	9
Goats	1
	<hr/>
	299

Respectfully submitted,

WESTON L. MANN,

Inspector of Slaughtering.

ONE HUNDRED AND FIRST ANNUAL REPORT

REPORT OF INSPECTOR OF MILK

Randolph, Mass., January 18, 1937.

Board of Health, Randolph, Mass.

Gentlemen :

I herewith submit my report for the year of 1936 :

Milk Licenses Issued	61
Milk Permits Issued	10
Oleomargarine Licenses Issued	3

Respectfully submitted,

HENRY MERRILL,

Milk Inspector.

TOWN OF RANDOLPH, MASS.

REPORT OF ANIMAL INSPECTOR

Randolph, Mass., January 20, 1937.

To the Honorable Board of Selectmen :

I herewith submit my report as Inspector of Animals for the year ending December 31, 1936 :

Cattle	204
Swine	2,011
Goats	17

The stables housing these animals were inspected and were found to be in satisfactory order.

There were also 12 dogs quarantined by this department.

Respectfully submitted,

CHARLES H. TRUELSON,

Inspector of Animals.

Report of Water Commissioners

To the Citizens of the Town of Randolph :

The fifty-first annual report of the Water Commissioners is herewith submitted for the year ending December 31, 1936.

Organization of the Board of Water Commissioners for the year 1936 was effected as follows :

John B. McNeil Chairman and Collector

Richard F. Forrest Superintendent

Frederick D. Driscoll Clerk

During the past year 24 new services were connected.

For the year 1936, 15 services were cleaned by pump; 10 services renewed from main to line; 32 service leaks repaired at curb and main; 26 services metered during the year; 7 services thawed by electricity; removed, repaired and reset 2 hydrants that were leaking; eliminated 9 dead ends.

Raised and renewed all services on west side of South Main Street sidewalk on account of new sidewalk construction from Avon Line to Crawford Square.

Moved to new location hydrants on account of new sidewalk construction on North Main Street.

Have raised and renewed some boxes on North Main Street on account of sidewalk construction.

The expenditures of the Water Department will be found in the Town Accountant's report.

TOWN OF RANDOLPH, MASS.

Collections and outstanding water rates will be found in the report of the Water Collector.

Of course the high lights in the Water Department activities in 1936 were the W. P. A. and P. W. A. work.

On the W. P. A., 6 in. pipe was installed on the following streets:

Center Street, near Fencourt	350 ft.
Center Street, from Madison Ave. to near the property of John Marcille	1,200 ft.
Cole Terrace	475 ft.
Highland Avenue	370 ft.
Highland Avenue	970 ft.
Highland Avenue	2,350 ft.
Grove Street	1,100 ft.
Maple Street to connect with South Street	500 ft.
Mill Street to connect with Union Street	550 ft.
Oak Street	4,750 ft.
Norroway Avenue	800 ft.

and at the end of the year work had begun on Druid Hill Avenue, a project of 1,500 ft.

When work was started on these extensions it was plain to your Board that, in view of the large amount of rock that had to be excavated on the different projects, it was necessary for the town to own an air compressor to prepare the rock for blasting, therefore your Board made arrangements with the Cutter Renewal Company to rent a compressor, and, if the town at the Annual Town Meeting wished to buy the compressor they would get credit for all the rentals paid the Cutter Renewal Company for the compressor. The

ONE HUNDRED AND FIRST ANNUAL REPORT

price of this compressor was to be \$2,564.45. It looks now that we will have paid up to the time of the Annual Town Meeting over half the price of the compressor and it appears to your Board that it would be a good investment for the town to purchase the compressor as it is used quite often by the Water Department, Highway Department, etc.

Of course the other high light of the water activities was a P. W. A. contract for building a filtration plant for the towns of Randolph and Holbrook. This plant can be described best by publishing our Consulting Engineer's report to the Water Commissioners, as follows:

January 14, 1937.

Joint Board of Water Commissioners,

Towns of Randolph and Holbrook, Mass.

Dear Sirs:—

It is customary, on completion of a municipal project like your new filtration plant for the consulting engineer to render a final report.

Since you are all familiar with the preliminary, financial and construction history of this project, I believe that my report will be of most value if it is devoted to an understandable description of the plant as it stands, a brief review of the results obtained and some suggestions as to future management and operation.

Description of Plant and Process

The object of the treatment which the new plant makes possible is the removal from Great Pond water of a high vegetable color, vegetable and other matter carried in suspension, and harmful bacteria. This object is accomplished as follows:

Water enters the suction well under the old pump room as in the past. From here it is lifted to a mixing and dosing chamber by means of motor driven centrifugal pumps. There are two of these motor driven pumping units, one of 750 g.p.m. capacity, driven by a 7 horsepower motor, and one of 1000 g.p.m. capacity driven by a 10 horsepower motor. Pumps are automatically primed by a Nash, rotary type, vacuum pump driven by a 3 horsepower motor. The two main pumps, and all three motors are Allis-Chalmers and controls are Clark-Sundh.

The discharge of the low lift pumps is measured by a recording and integrating Baily flow meter of the orifice type. This meter is very necessary to the determination of the amount of chemicals to be applied to the raw water, and great care should be taken to have it always operating correctly.

The mixing chamber into which the low lift pumps discharge is of reinforced concrete 14'-0" x 12'-0" and carrying an effective depth of water of 11'-0". Sulphate of alumina and soda ash are fed into the water in this chamber, in just the right amount, by Wallace & Tiernan Type MO dry feeders.

It is in this chamber that the chemical reaction takes place that is the all important feature of this process. This reaction between the alum, the soda ash

and the water, produces aluminum hydroxide which appears diffused throughout the water in the form of small particles resembling, more than anything else, fine snow flakes.

These particles, which are commonly called "floc," have the faculty of drawing to them and absorbing, as it were, the color, sediment and bacteria in the water. If we can by proper application of chemicals create a good floc, mix it thoroughly and evenly with the entire body of water to be treated and give it time to settle, we can accomplish a major portion of the desired clarification before the water reaches the filters themselves, and are therefore able to pass it through the sand at a high rate. This means that a much smaller area of sand is required than would be necessary if the water were filtered by the old "slow sand" process without treatment, and therefore a great saving in original construction. (To handle your water would require about 80 beds instead of the four you have). Moreover, the true vegetable color cannot be entirely removed without treatment. Thus we see that the mixing chamber with its motor driven "stirrer" has a very important function.

From the mixing chamber the "treated" water passes to a 50' x 56' x 13' reinforced concrete settling basin, where the floc is given an opportunity to settle. The more slowly the water passes through this basin, the greater amount of floc deposited there, the less to be removed by the filters and the more efficient the operation. I want to emphasize the desirability of operating this plant at a rate of not over 1,500,000 gals per day or 60,000 gals. per hour, except when absolutely necessary. When the demand requires it, the plant is good for 2,000,000 gals. per day, and can

TOWN OF RANDOLPH, MASS.

be crowded to 2,500,000; but its best efficiency is at 1,500,000 or less.

From the settling basin the water passes on to the filters proper, four in number, each one having 180 sq. ft. of filtering area and nominal capacity of 500,000 gallons per 24 hrs. The filtering medium consists of 30 inches of sand resting on an 18" laver of carefully graded gravel, which is in turn supported by a concrete filter bottom, made up of 9" x 9" pyramidal depressions filled with a clever combination of different sized porcelain balls. The water passes down through the sand; through the gravel; through the balls; and through an opening in the bottom of the depression, to a pressure tight chamber underneath the filter, from which it follows a system of piping to the filtered water basin.

The filtered water basin is of reinforced concrete, 50' x 56' partly under ground, and has a capacity of 275,000 gallons. From this the water is pumped to the town.

Each filter unit is equipped with valves controlling settled water to filters, filtered water from filters, wash water and drain. Each unit also has a combination rate of flow and loss of head gage; showing the rate of flow of water through the filter, and the loss of head, which is an index of the extent to which the filtering surface is "plugged up," and the necessity of cleaning.

Cleaning of the sand surface is accomplished by "backwashing" with filtered water. Filtered water, under a head from the elevated tank, is admitted to the pressure tight chamber beneath the filters; flows upward through the gravel and sand, loosening the

ONE HUNDRED AND FIRST ANNUAL REPORT

deposits on top of the sand and washing the waste matter away through the wash troughs and connected drains. After about five minutes' washing, the filter may be put back into commission again at top efficiency.

All chemicals are stored on the top floor of the chemical house from which they may be fed by gravity, through steel hoppers and chutes, to the chemical feeders.

This description is a long one, a bit technical, and perhaps rather hard to follow in the text; but if anyone is sufficiently interested to take the text with him to the plant, and with it as a guide, follow through the process step by step, I am sure that he can gain a clear understanding and appreciation of what has been done to improve the quality and appearance of the water supplied the towns of Randolph and Holbrook.

Very truly yours,

FRED O. STEVENS,

Consulting Engineer.

We wish our citizens would follow the advice of the Consulting Engineer and go to the Station and have our Engineer and his assistant show them around the works so that they will understand the process under which the water is drawn from the pond, through the many different operations, and delivered to the mains pure, sparkling filtered water, equal, we are told, to the best spring water; a great asset to the Town and a wonderful insurance to the health of the consumers.

TOWN OF RANDOLPH, MASS.

Realizing the rather thickly settled condition of the water shed of Great Pond your Commissioners, with the Water Commissioners of Holbrook, have for some time considered a plant of this kind and when the Federal Government offered assistance on such projects the filtration plant was placed before you in Town Meeting for your consideration. Your Commissioners were much pleased to see that you accepted their proposition unanimously.

The plant was completed within the appropriation (\$69,000.00) and seems to give entire satisfaction to your Water Commissioners, to the Massachusetts Department of Health and to the water consumers.

Largest day's pumping Dec. 20, 1936: 1,933,300 gallons.

Largest week's pumping, week ending June 13, 1936: 8,598,600 gallons.

Respectfully submitted,

JOHN J. McNEIL,

Engineer.

RULES AND REGULATIONS

The following regulations, until further notice, shall be considered a part of the contract with every person who uses water:

1. All applications for use of water must be made at the office of the Water Commissioners, and state fully the purposes for which it is intended to be used. Water will not be introduced to premises except on the written application of the owner thereof, or by a duly authorized agent. The property will in all cases be held responsible for the water rates.

2. All persons taking water must keep their water pipes and fixtures in good repair and protected from the frost at their own expense. They will be held liable for all damages resulting from their failure to do so. They shall prevent all unnecessary waste, and water shall not be left running to prevent freeezing. The Water Commissioners or their agents may, from time to time, ascertain the quantity of water used, the manner of its use, and whether there is unnecessary waste. They and their agents shall have free access to the premises supplied, to examine the apparatus, and if any fixtures are found not to be in good order, they shall direct them repaired, and if not repaired within two days the water shall be shut off and not let on again until such repairs are made, and the sum of two dollars paid for shutting off and turning on the water.

3. The occupant of any premises, when unnecessary waste of water occurs, shall be liable to a fine of two dollars for the first offense, and four dollars for the second offense during the same year, and shall be notified thereof in writing; and if such waste is not pre-

TOWN OF RANDOLPH, MASS.

vented and the aforesaid fines paid within two days from the time when the said notice is given, the water

shall be shut off the premises, and shall not be again let on for the same occupant until waste be stopped and the fine paid, together with an additional sum of two dollars for shutting off and letting on the water, and in case of a third or subsequent offense the water shall be shut off, and shall not again be let on except by a vote of the Water Commissioners and the payment of such fine, not exceeding ten dollars, as the Water Commissioners may impose.

4. Any person supplied with water shall not allow another to take water from his fixtures without the written permission of the Water Commissioners. If a tenant has no fixtures, he will be charged full rates for any use which he makes of the fixtures of another.

5. All parties using water in stables, for horses or other animals, will be charged scheduled rates for the same, whether it be carried by hand or through hose.

6. All persons using water for building purposes are required to obtain a permit from the Water Commissioners before taking water from any faucet or fixtures connected with the water works, and all water takers are warned not to let any party take water from their premises until they show a permit from the Water Commissioners. Any person furnishing water in violation of this section will be subject to a fine of not less than five nor more than twenty dollars, and if the same when levied is not paid within three days from the time when the notice thereof is given the water will be shut off from the premises and will not be let on again until such fine is paid.

ONE HUNDRED AND FIRST ANNUAL REPORT

7. All fixtures and water closets and urinals must be of a kind and quality approved by the Water Commissioners, also a vacuum valve must be installed on all pressure range boilers connected with the system.

8. No person shall in any case be allowed to open any fire hydrants except by a written permit from the Water Commissioners; but the Engineers of the Fire Department shall in all cases have control of hydrants at fires and for practice.

9. The Commissioners reserve the right to restrict the use of hose or fountain, to shut off the water in all cases when it becomes necessary to make extensions or repairs, or for violations of any of the regulations, or whenever they deem it expedient.

10. The regular rates for the use of water shall be payable in advance on the first days of January and July of each year, except where water is supplied to manufacturers by special agreement. In all cases of non-payment of the water rates within ten days after same is due as well as for violations of these rules and regulations, the supply will be shut off, and payment of the amount due, and payment of two dollars for shutting off and letting on the water, shall be made.

11. The Water Commissioners reserve the right to change the water rates at any time except in cases of dwelling houses and established special rates.

12. For business requiring large quantities of water, and all supplies not enumerated in the tariff of rates, special rates will be made.

13. Parties using water for manufacturing or domestic purposes can erect hydrants on their grounds

TOWN OF RANDOLPH, MASS.

or standpipes in their buildings to be used only as a protection against fire without additional charges for water.

14. All applicants for the introduction of service pipes to premises are required to make written application therefor at the office of the Water Commissioners.

And in no case will the main be tapped more than once for the same premises, unless the additional expense is borne by the owner.

Charged as follows:

The following water rates are established until further notice:

No connection made with the main for any purpose for less than	\$6.00
--	--------

Dwelling Houses

Occupied by one family, for the first faucet	6.00
Each additional faucet to be used by the same family	2.00
Two or more families occupying one house, one faucet for all, each family	5.00
One faucet for each family	6.00
For first bathtub	5.00
If used by more than one family in same house, each family	4.00
Each additional bathtub	2.00
For first pan or self-acting water-closet	5.00
If used by more than one family in same house, each family	4.00
Each additional pan or self-acting water-closet	2.00

ONE HUNDRED AND FIRST ANNUAL REPORT

Where two faucets are used, one for hot and one for cold water, emptying into the same basin, only one charge will be made for both.

Laundry tub 3.00

Hose

For sprinkling streets, washing windows and similar uses, $\frac{1}{4}$ -inch nozzle, to be used only on premises and street opposite, not exceeding two hours per day for six months in the year 5.00

For any use not herein enumerated, special rates will be made.

Meter Rates payable at Time of Reading.

For not over 133 cubic feet average per day, per 100 cubic feet .23

For over 133 cubic feet and not exceeding 266 cubic feet average per day, per 100 cubic feet .19

For over 266 cubic feet average per day .15

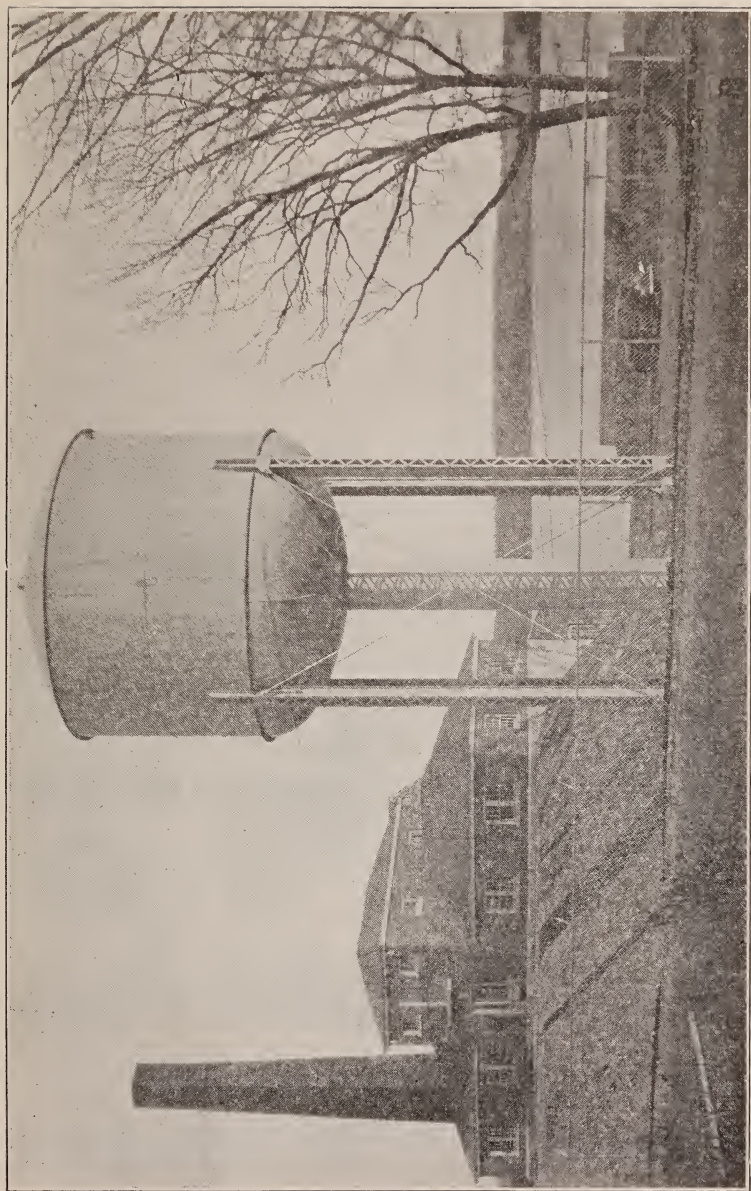

Provided that in no case where a meter is used shall the annual charge be less than \$7.00.

Meters may be supplied by the Water Commissioners for which annual rental will be charged as follows:

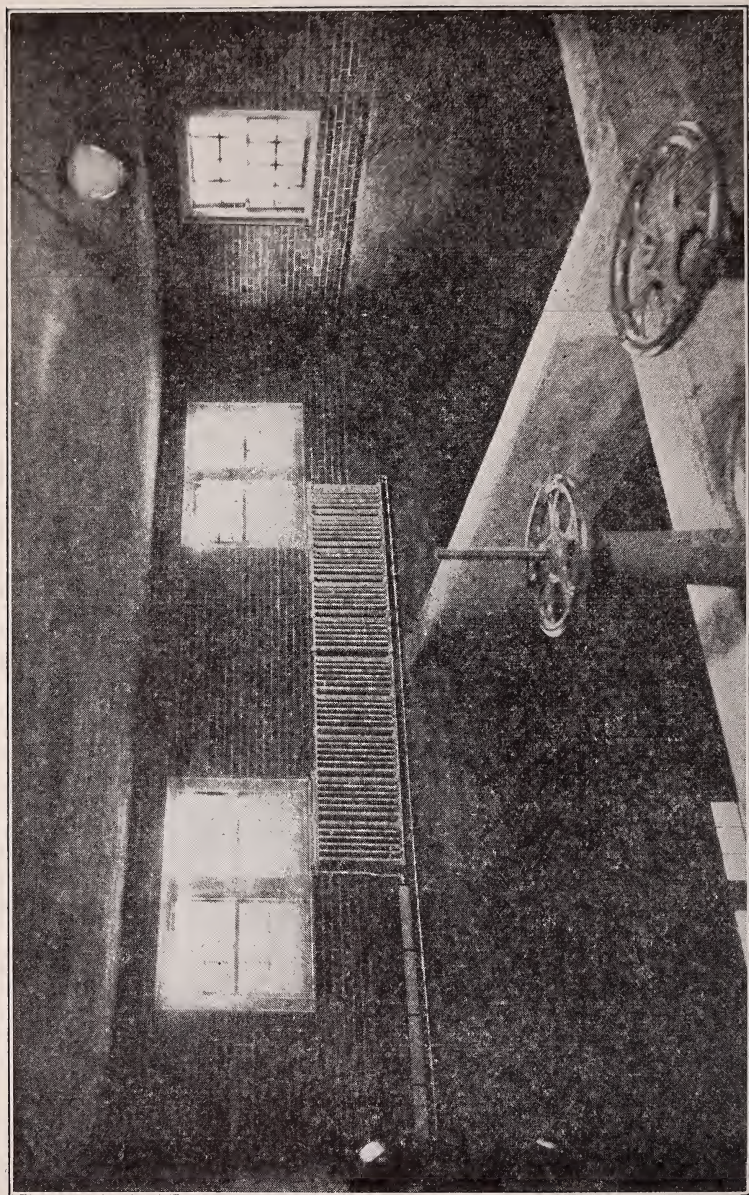

Size $\frac{5}{8}$ -inch	\$1.00 per year
Size $\frac{3}{4}$ -inch	\$1.00 per year
Size 1-inch	\$4.00 per year
Size 2-inch	\$6.00 per year

All needed repairs, damages by frost and heat excepted, will be made at the expense of the town.

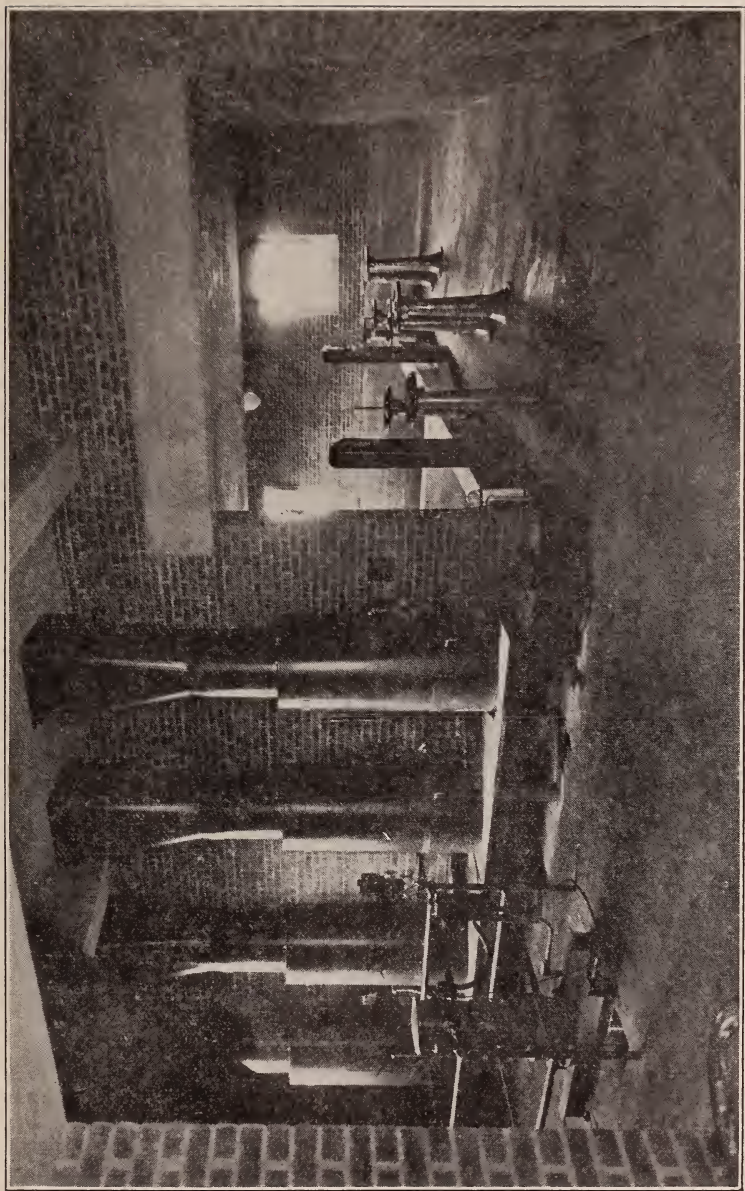

JOHN B. McNEILL,
RICHARD F. FORREST,
FRED D. DRISCOLL,
Water Commissioners.

PUMPING STATION AND NEW FILTRATION PLANT

FILTER BEDS OF NEW FILTRATION PLANT

MIXING CHAMBER OF NEW FILTRATION PLANT

Report of the Planning Board

Your Planning Board has been alert to the fact that the W. P. A. cooperates, one hundred per cent., in all worth-while and needy local projects, and it has accordingly been successful in securing many of these projects for Randolph. The Board has continued its studies of zoning, for the purpose of giving the citizens of this town the very best protection of their homes and lands.

The Planning Board welcomes all suggestions from the citizens of the Town with the idea of securing any W. P. A. projects adapted to the wants of the greatest number of persons in the community, especially regarding physical improvements that will make possible long-range and coordinated planning for future development of town property, and for which there is no normal appropriation of funds. Included in physical improvements are: roadways, sidewalks, buildings, schools and parks.

Your Planning Board has continued its correspondence with Senator David I. Walsh and with Congressman Richard B. Wigglesworth, relative to securing a new Post Office building for Randolph, and we are looking forward to favorable action on this matter during 1937.

We have made many safety suggestions: For instance, "Stop" signs at the junction of several streets, greater wattage, better drainage, and several "one-way" streets. Among the specific recommendations are the following: "Stop" sign on Union Street, enter-

TOWN OF RANDOLPH, MASS.

ing Crawford Square; "Stop" sign on North Street, entering Crawford Square; "Stop" sign on Depot Street, entering North Main Street; parking on one side only on Allen Street, from North Main Street east 150 feet; "Slow" sign on West Street, east of Lafayette Street, 100 feet; all electric lights on Main Street from Avon line to Quincy line to be in use; a light of greater wattage to be installed in front of Thomas' Store, North Main Street; an illuminated "Warning" sign at Avon line, entering South Main Street; an illuminated "Warning" sign at the Holbrook line entering Union Street; an illuminated "Warning" sign at the Quincy line, entering North Main Street; an illuminated "Warning" sign at the Stoughton line entering West Street; an illuminated "Warning" sign at South Braintree line entering North Street.

We have recommended that rounded corners, to increase visibility, be made on all new street layouts; that High, Oak and Russ Streets be made safer for travel; that Short and School Streets be declared one-way thoroughfares, and so designated.

The costs of legal expenses—claims and judgments—caused by the disposal of surface water from the Cottage Street area into private property totals over \$5000 to the present date. This is a needless waste of public funds. To correct this evil, your Planning Board is submitting an article in the Annual Town Warrant for a pipe drainage project—labor to be furnished by W. P. A. The acceptance of this article will save further unnecessary expense to the tax payer.

Many streets of the Town are in deplorable condition, due to lack of proper drainage. We recommend as a start in the right direction acceptance by the

ONE HUNDRED AND FIRST ANNUAL REPORT

citizens of Articles of W. P. A. projects for pipe drainage on Liberty and Lafayette Streets; also for similar work on Pond Street, which will alleviate the adverse flood conditions on Jane, Hall and adjacent streets.

The elimination of the "Clean-Up Day" this year we believe to be false economy. This results in cluttering the sides of the back roads with unsightly debris, which should be disposed of in the Town Dump. We recommend the resumption of the annual "Clean-Up Day," at the slight expense of \$150.

The Board has recommended roadside beautification and adequate school housing.

We wish to again emphasize the importance of zoning the town, with the particular thought in mind of giving the citizens of the town **the very best protection**. As it will take some time to effect a "Comprehensive Zoning" law, regulating coverage and height, or "Use" zoning—meaning that type of zoning which is best adapted to the present and future physical needs of Randolph—we have caused to be inserted in the Town Warrant an article, which, if accepted at the 1937 Annual Town Meeting, will put "A Temporary Comprehensive Zoning" law into immediate operation, thus affording the people of Randolph the greatest possible protection, until a permanent zoning law is accepted. It will not cost the Town any money if "the Temporary Zoning Law" is accepted at the 1937 Town Meeting, but it will give to the citizens of the Town "blanket" coverage against any infringements of their rights and happiness from the selfishness of those who try to injure their homes, buildings and lands. This "Temporary Zoning Law" has stood the test of Supreme Court decisions, in its favor, in every case in which it has been presented.

TOWN OF RANDOLPH, MASS.

The Temporary Zoning Law, like the Zoning Law, does not disturb any property layouts, or lines, already established, but it guards against future mistakes from too crowded areas, and the resultant dangers of destruction by fire, or sickness, or from the lack of home playgrounds for the children; or from an injudicious placing of factories, filling stations, lunch carts and stores in residential areas, and many other annoying conditions.

We are appending "the Temporary Zoning" law for a reading by the people of the Town prior to the Town Meeting. We sincerely hope, for the welfare of all the people of the Town, that it will be accepted.

Respectfully submitted,

THEODORE S. LUDDINGTON, Chairman.

EDGAR B. COLE, Cice-Chairman.

HELEN M. HANEY, Secretary.

THOMAS F. SCANNELL, Treasurer.

G. HENRY TANGEN. Member.

Temporary By-Law Establishing Certain Building Districts

Section 1. Under the provisions of General Laws, Chapter 40, Sections 25 to 30A, inclusive, as amended by Chapter 269 of 1933, the Town of Randolph is hereby divided into districts to be known respectively as non-residence districts and residence districts, as follows:

Non-residence districts shall comprise all lands which at the time this by-law becomes effective are

ONE HUNDRED AND FIRST ANNUAL REPORT

used, or obviously intended to be used, for any business or industry other than farming, truck gardening, the growing of trees, shrubs, vines or plants, the raising of animals, the conduct of a boarding or lodging house or a telephone exchange.

Residence districts shall comprise all areas not included in non-residence districts.

Section 2. Except as hereinafter provided, no parcel of land lying in any residence district and not at the time this by-law becomes effective devoted to any business or industry, other than those specified in Section 1, shall hereafter be used for any business or industry, or for any purpose except for residences or buildings appurtenant thereto, or for churches, schools and similar non-commercial or non-industrial buildings, and no permit shall be issued for the erection, alteration, or conversion of any building for or to any such prohibited use upon any such parcel.

Section 3. A permit may be issued for the erection in any residence district of a building for the purpose of any business or industry or for the alteration or conversion of a building in such district for or to such purposes, if the Selectmen shall after public hearing so order; provided that there be filed with the application for such permit consents thereto signed and acknowledged by three-fourths of the owners or legal representatives of the owners of all lands used for the purposes for which said district is restricted as provided in Section 1, including vacant lands, which are within four hundred feet in all directions from the land in question.

Section 4. No permit shall be granted under the foregoing section except after a public hearing before

TOWN OF RANDOLPH, MASS.

the Selectmen. Notice of said hearing shall be given by publication of the time and place thereof in a local newspaper not less than two weeks before said hearing, the expense of such publication to be borne by the petitioner. After such hearing the Selectmen shall render a decision in writing, stating the decision and the reason therefor, and file the decision with the Town Clerk and send a copy thereof to the applicant. In reaching a decision the Selectmen shall be guided by what they consider the best interests of the Town, and by the probable results of the proposed use of the building or of land. The applicant shall show to the satisfaction of the board that the use of the premises for which application is made shall not constitute a nuisance because of noise, vibration, smoke, gas, fumes, odor, dust or other objectionable features, or be hazardous because of fire or explosion, and that such use shall not otherwise be injurious to the inhabitants or their property, or dangerous to the public health or safety. When not so satisfied the board shall refuse a permit. When, in the opinion of the board, such a permit may be granted if accompanied by conditions specially designed to safeguard the district and the Town, it shall impose such conditions and make them a part of the decision, and they shall be made a part of the permit issued by the Building Inspector. The board may, after a hearing and proof of violation of such conditions, or any of the terms of the permit, withdraw the permit, after which the use shall be discontinued.

Section 5. All by-laws and parts of by-laws inconsistent herewith are hereby repealed.

Report of the Highway Surveyor

To the Citizens of the Town of Randolph:

In submitting the report of the Highway Surveyor from March 3, 1936, to December 31, 1936, I wish to call to your attention the deplorable condition of practically all of the side streets of the town, due, mostly, to the severe rains and floods of the early spring. Because of lack of sufficient funds being appropriated to cope with this situation, it was impossible to rebuild certain roads that were badly in need of rebuilding. Nevertheless, without creating overdrafts, Maple Street, Grove Street, Old Street, Hall Street and a portion of Chestnut Street have been rebuilt. The entire length of Pond Street and a section of High Street were tarred and sanded. Gutters of Col-Provia have been constructed on Union Street hill to remedy a bad condition there, and as far as possible within the appropriation, the streets in the poorest condition have been repaired. All catch basins have been cleaned.

Because of the critical unemployment situation existing in the town, every endeavor has been made to apportion the work in the Highway Department as equitably as possible, to the extent that over 225 different men have been employed during the year.

The Main Street sidewalk has been completed to the bridge, and a section of curbing has been con-

TOWN OF RANDOLPH, MASS.

structed on the west side of the street. Depot Street sidewalk has been completed, as well as the Highland Avenue drainage project.

Streets in various sections of the town are sadly in need of proper drainage, and I strongly recommend that all street drainage projects in the future be voted by the citizens, as a street properly drained will save the tax payer considerable over a period of years.

To all the town officers and citizens who have cooperated with me during the year I wish to express my sincerest appreciation.

Respectfully yours,

LOUIS J. COURTNEY,

Highway Surveyor.

Report of the Tree Warden

Randolph, January 20, 1937.

To the Citizens of the Town of Randolph:

It is a great loss to any town or city not to have shade trees. Nothing adds more to the beauty of a locality than streets lined by shade trees.

To care and protect these trees is no simple matter, with the building of State highways, pests of all kinds, cutting out dead wood, repairing wounds in trees and the care and protection of broken or unsightly limbs.

I would recommend that the town purchase some new trees each year to replace those removed.

I also recommend a town nursery where small trees can be transplanted and raised to a proper size for street planting. More shade tree street planting should be done.

A number of trees were removed last year and a number are requesting tree removals, which will have to be taken care of this year.

For the removal of a tree the law requires a written application to your Tree Warden for a permit. I am ready at any time to cooperate with any of the citizens in regard to the trees.

Thanking the citizens for their co-operation the past year, I remain.

Respectfully yours,

JOHN T. MOORE,

Tree Warden.

Let our motto be: "Plan to plant another tree."

Report of the Local Moth Superintendent

Randolph, January 20, 1937.

To the Honorable Board of Selectmen :

The gypsy and brown tail moth situation for the year ending 1936 is not as good as in 1935. The number of egg clusters of the gypsy moth are greater this winter. A P. W. A. project is now under way with twelve men employed. Creosoting is being carried on and I hope to destroy many of these egg clusters.

Owing to an accident to our spray tank this spring we were obliged to purchase a new tank. This money had to be taken from the moth appropriation. On account of this we were unable to do as much spraying as usual, and, to keep our appropriation within bounds, had to curtail our operations.

The elm tree beetle is a serious problem, and to protect your grand old elms more spraying will have to be done this year.

The tent caterpillar is another pest and is going to be bad again this year. The woods are full of nests and we have no way of being able to destroy them. If every citizen on whose land wild cherries are grow-

ONE HUNDRED AND FIRST ANNUAL REPORT

ing would cut down and burn them they would help the situation a great deal.

Fall webworms are not as bad this year, and the satin moth and Japanese beetle were not found.

The town needs a new spraying outfit, and I would recommend that a committee be appointed to look into the matter.

Respectfully submitted,

JOHN T. MOORE,

Local Moth Superintendent.

Report of Police Department

Randolph, Mass., January 20, 1937.

To the Board of Selectmen:
Gentlemen:

I herewith submit report of the work done by the Police Department of the Town of Randolph for the year ending December 31, 1936:

Calls answered and investigations made	4,140
*Summons served	128
*Arrests	516
Arraignment in Court	503
Bound over to Grand Jury	6
Pending in District Court	9
Found guilty in District Court	430
†Dismissed for want of prosecution	23
Appealed to Superior Court	24
‡Found guilty in Superior Court	30
Nol prossed in Superior Court	1
Pending in Superior Court	1
Acquitted	11
Filed	224
Probation	25
Fined	257
Committed to House of Correction	15
Committed to Psychopathic	4
Committed to Lyman School	2

ONE HUNDRED AND FIRST ANNUAL REPORT

Committed to Shirley	1
Put up for the night	6
Stolen property recovered	\$2,991.84
Notices posted	142

Net returns paid to Town Treasurer from fines over and above expenses of prosecution	\$782.98
--	----------

Fines taken in by District and Superior Courts	\$3,452.75
---	------------

*Some arrests and summons were served for out-of-town police.

†Of the 23 cases dismissed for want of prosecution the police were complainant on 6.

‡Includes six cases bound over to the Grand Jury, all of which were found guilty in Superior Court.

Total number of warnings on motor violations	497
Total number of suspensions of licenses	41
Total number of miles covered by police car	55,081
Total number of miles covered by motorcycles	19,163

Respectfully submitted,

Patrick T. McDonnell

Chief of Police.

Report of Fire Department

Randolph, January 1, 1937.

To the Honorable Board of Selectmen :

Gentlemen :

I respectfully submit the report of the Fire Department for the year ending December 31, 1936.

The department has responded to 179 calls during the year, classified as follows :

Bell alarms	83
Still alarms	96
	<hr/>
	179
Fires in buildings	53
Automobile fires	13
Brush and grass fires	91
False alarms	12
Aid	2
Inhalator	2
Miscellaneous calls	6
Number of feet of hose used	15,630
Number of feet of ladders used	708
Gallons of water pumped from booster tank	3,285
Gallons of soda acid used	145
Gallons of foam used	15
Pump was used 75 hours	

ONE HUNDRED AND FIRST ANNUAL REPORT

Assessed value of property endangered by fire	\$182,175.00
Insurance on property	150,075.00
Insurance paid on loss	90,650.92
Damage to property	151,142.92
Loss not covered by insurance	60,490.00

The First Congregational Church fire and the recent fire at the E. C. Young Company imposed a severe test to our pumping engine. It will be necessary to make extensive repairs at once. The remaining apparatus is in good mechanical condition at this time. The Fire Alarm System is also in good condition.

The roof of No. 2 Station is in poor condition and should be resingled this coming year. I feel that the time has arrived for the purchase of a pumping engine of a size more suitable to our needs. I sincerely hope the town will take some action at their March meeting.

I wish to express my appreciation to the Chief and men of the City of Brockton and the towns of Avon, Holbrook and Stoughton for the quick response to our call for aid on October 26 and December 19, 1936.

In conclusion I wish to extend my thanks to the Board of Selectmen for their cooperation and interest in the welfare of the Department.

Respectfully submitted,
HAROLD L. BAILEY,
Chief of Fire Department.

Report of the Park Commission

Because of the fact that your Park Commissioners believed that Sidewalk and Drainage Projects, under the W. P. A., were more necessary than work at The E. Fannie Belcher Park, we did not submit any applications for further development in this area.

However, we are requesting an appropriation this year of \$100, which will be sufficient to complete the skating rink and put it in operation during wintry weather.

A N. Y. A. Project was sponsored by the Park Department, which employed several youths during the summer months, in profitable labor, at the tennis courts on Stetson High School grounds.

Respectfully submitted :

THEODORE S. LUDDINGTON,

Chairman.

EDGAR B. COLE, Vice-Chairman.

HELEN M. HANEY, Secretary.

THOMAS F. SCANNELL, Treasurer.

G. HENRY TANGEN, Member.

ERROL M.. THOMPSON,

MARTIN E. YOUNG,

HAROLD W. MACAULEY,

Selectmen of Randolph.

Report of the School Committee

To the Citizens of Randolph:

The following report of the School Committee embodies the major activities of the Board for the year 1936.

In the administration of our public schools, economy and necessity have been two controlling factors governing the policies and activities of the Committee. The Board has endeavored at all times to practice economy when that economy was consistent with educational needs and requirements. There has been no waste in the expenditure of public money.

The school population of Randolph is exceptionally large as compared with its total population. In the list of sixteen towns having a population approximately between six and seven thousands, Randolph has by far the largest school enrollment. This means added cost to the tax payers, and yet according to the tabulation of the Department of Education for November, 1936, the per capita cost of public schools in Randolph is so low in the average cost that the town ranks fourth from the last among eighty-three towns in the State. It is fair to say that on the basis of such a comparison there has been no unnecessary expenditure of public money. It is very possible that there has been too great an emphasis on economy. Notwithstanding, our schools are doing good work and our High School retains its "A" rating.

TOWN OF RANDOLPH, MASS.

Below is another tabulation of our per capita cost of operating all schools in Randolph as compared with our neighboring towns under similar headings:

COST COMPARISON WITH NEIGHBORING TOWNS

Report of State Dept. of Education, Nov. 30, 1936

	Enrolment	Cost per Pupil Ave. Membership	Cost per Pupil Net Ave. Membership	Rank, Group 2, 83 Towns
Canton	833	\$116.07	\$120.97	5
Abington	1121	80.97	80.97	40
Bridgewater	1437	84.66	86.60	26
Rockland	1460	76.18	77.71	55
Stoughton	1595	64.47	67.48	76
RANDOLPH	1815	60.41	63.78	80

As there are many citizens in town who are unaware of the financial assistance received from the State and other sources, it has seemed fitting to the Committee to repeat again the amount of money received during the year 1936. This money does not go to the School Department in Randolph but to the Town Treasurer for the purpose of reducing local taxes.

RECEIPTS FROM STATE AND OTHER SOURCES

General School Fund, Part 1	\$25,225.00
Tuition, State Wards	2,620.29
Tuition, City Wards	2,144.67
Reimbursement, Trade Schools	789.72
Tuition, High School, non-residents	91.56
Coddington Fund	57.42
Town of Holbrook, reimbursement, Supt.'s telephone	44.60
Cash paid Town Treasurer, tel. tolls, etc.	23.80
Total received	\$30,997.06

ONE HUNDRED AND FIRST ANNUAL REPORT

NET COST OF SCHOOLS

Appropriation, 1936	\$105,982.29
Transfer, 1936	2,059.84
<hr/>	
Total appropriation	\$108,042.13
Total receipts	30,997.06
<hr/>	
Net cost to the town	\$77,045.07

The Committee recommends that the school appropriation be appropriated under two items: salaries and expenses.

IMPROVEMENTS AND REPAIRS TO SCHOOLS

On our tours of inspection and examination of school property we have been convinced that there is much to be done to keep our buildings in repairs and in good condition so that teachers and pupils alike may have some of the common improvements and conveniences so necessary for the work of our schools today. With the money at our disposal we have completed the following:

Prescott School

Installation of new boiler with oil heater in the primary building; new chimney; new toilet and sanitation; new floors where needed; grammar building painted; safety fence; playground equipment; shrubbery and a few clocks.

Devine School

Two substantial stone walls built, north and south sides; graded grounds under WPA supervision; new sidewalk in front of the school with the co-operation and interest of our Street Commissioner; new playground equipment.

TOWN OF RANDOLPH, MASS.

McNeill School

The erection of posts at the dead-end streets to safeguard children and for traffic regulation; new playground equipment.

High School

Kitchen painted and the floor of the lunch room; completion of the tennis courts and with the aid of public subscription a wire fence was erected; new shrubbery.

Belcher School

Playground equipment.

Tower Hill School

Installation of new pump and playground equipment.

Pauline Street School

New fence and shrubbery.

RECOMMENDATIONS

The establishment and organization of a State-aided Vocational School for Household Arts in the high school at a cost of approximately \$1200, one-half of which will be reimbursed to the town together with a further reduction of trade school cost in that department.

Oil burners be installed in the Devine and Prescott grammar schools.

New toilet for the Prescott primary school and proper grading of the school yard for greater safety to children.

ONE HUNDRED AND FIRST ANNUAL REPORT

For better protection to school property, electric lights should be placed on standards in front and in back of the high and Devine schools, such lights including the two now at the high school to be connected to the Town's service system.

That all sidewalks in front of schools be built or reconditioned along the lines of the newly completed sidewalk at the Devine school. This walk and approach to the school is a credit to the Town and of real service to our pupils.

That serious consideration and study be given to the introduction of manual training in the junior high school department; that an addition of two rooms and an auditorium-gymnasium be made to the Devine school and the recognition of a recent request by citizens from Tower Hill for a new and modern school in that district.

That in the interest of better playground facilities at the Prescott primary school, land should be acquired for school playground purposes.

In closing this report the Committee expresses its thanks to all who have in any way co-operated with them and to Messrs. Shea and Mahoney for their very effective work as school traffic officers.

Respectfully submitted,

School Committee

ELMER L. FRENCH, Chairman
FRED P. CHASE,
THOMAS E. DALY,
JOHN E. KELLEY,
WALTER J. FLANAGAN.

Report of the Superintendent of Schools

To the School Committee, Randolph,

Mr. Chairman and Members:

In keeping with the modern emphasis on preparing our students for the social-economic environment in which they live, our endeavor has been to enrich and motivate our subject matter and instruction along the lines of what is most practical, serviceable and conducive to wholesome life, character and citizenship. The obligations of school administrators and particularly of teachers as to what constitute legitimate and proper instruction, subject matter and objectives in a fast changing social order and growing democracy are exceedingly great if not confusing. No definite answers to these problems have thus far been made and yet in the light of possible errors and hasty judgments it may well be that we shall need more time for sober thinking and unified action in order to reach a satisfactory solution for a common good. While new and progressive curricula are in the making we have still the schools, teachers, pupils and parents in our midst. I am happy to say that there is a splendid spirit of work and comradeship within this quartet of social security. It means to us better schools, better students, better work and better citizens.

We are most desirous of expressing our appreciation for the many and various improvements and repairs made to our school buildings during the year.

ONE HUNDRED AND FIRST ANNUAL REPORT

If this systematic procedure is observed each year our schools will not only be attractive and well-kept but the cost of repairs and upkeep will be greatly reduced.

The comprehensive reports of the Principal of the high school, Mr. Gilgan, supervisors, nurse and school physician, Dr. Higgins, follow this report. They relate clearly the work of the year and their interest in the schools.

During the year a study has been conducted by grade teachers for the purpose of clarifying and unifying reading in the primary grades. Miss Jane Lynch and her group of teachers have shown keen interest in the work and will endeavor to work out new and effective methods for primary classes.

As an aid to instruction, four motion picture machines have been purchased by our pupils in the high school, Prescott, Devine and Belcher Schools. These projectors are of the 16 m.m. size and suitable for films loaned by the Department of Education and other sources for visual education.

Special emphasis and attention have been placed on safety of children on the public highways. At dismissal times, children are lead in groups by teachers to a cross-over where an officer is stationed for traffic control. The Safety Patrol under Principal Dillon has worked well at the Prescott School where no less than five streets and as many cross-overs add to the problem of safety around his immediate buildings. Street markers and signs have been added. This with the wholehearted co-operation of the Police Department and Messrs. Shea and Mahoney have been contributing factors in our local safety campaign.

TOWN OF RANDOLPH, MASS.

Each year there are new and growing demands on lunch-room service. The improvements made and to be made by your committee for this service have been of great value to us. Good food and hot dishes are served daily but there is much to be done by us in the direction of proper selection of foods and a balanced diet. The State Department of Health and Hygiene has very generously volunteered to assist us in this important work so that our pupils may enjoy good and wholesome food at a minimum cost to service and pupils.

If our schools are to serve all pupils and not only the academically-minded students which our colleges seem to control, learning must be associated with doing. We cannot begin to train for this social-economic order unless we begin to liberate our activity-pupils to and in a field of doing. The immediate fields to which I refer are those of the State-aided Household Arts, Manual training (often called prevocational training) and some class of special activities for pupils in grades five to eight in which they can work out their special abilities along creative and practical lines. The splendid work of our Special class under Miss Harhan could be expanded, enriched and adapted to a larger range of pupils who are not "misfits" but who have pronounced abilities along lines often ignored by the traditional methods of evaluation.

As an indication of professional improvement among our teachers, their interest in their work and pupils, I am submitting the following list of grade teachers who have taken courses after graduation and who have received during the past few years the following credits for work completed—the list does not include the teachers of the high school.

ONE HUNDRED AND FIRST ANNUAL REPORT

Prescott School

Kathleen Walsh	11	Boston University
Claire Lucey	1	Mass. Extension Course

Recommendations

The establishment of a State-aided Household Arts Course in the high school at an approximate cost of \$1200. a year, one-half of which would be reimbursed to the Town each year. The course would include instruction in the purchase and preparation of foods; purchase and construction of clothing; furnishing and care of the home, sanitation and management; nursing and care of children and the application of arts and sciences as related to the home.

TOWN OF RANDOLPH, MASS.

Enlargement of the shower facilities, high school.

An appropriation of \$300. for supplies and equipment under Physical Education; \$200. for the high school and \$100. for the grades.

Installation of gas or electric ranges (or steam tables) at the lunch counters, Prescott and Devine Schools.

Two scholarships were again presented by the Stetson High School Scholarship Fund Committee this year to worthy graduates of our school. Records show that recipients of these awards for the past few years have carried on successful work at their respective institutions.

I am gratified to report a most active and loyal corps of teachers, supervisors and principals. They are interested in their work and give unstintingly of their time to the welfare of their pupils and schools. This is equally true of your Committee whose co-operation has been an incentive and a source of inspiration during the year.

Respectfully submitted,

A. O. CHRISTIANSEN,

Superintendent of Schools.

ONE HUNDRED AND FIRST ANNUAL REPORT

STETSON HIGH SCHOOL PRINCIPAL'S REPORT

Mr. Adolph O. Christiansen,

Superintendent of Schools,

Randolph, Massachusetts.

Dear Sir:

It is my privilege to submit to you my fifth annual report as Principal of Stetson High School.

Our enrollment on October 1, 1936 was 429, which was approximately that of 1935, and slightly less than that of 1934. It would seem, then, that unless the population of the Town increases materially, we have reached the peak of our enrollment. We have at the present time no congestion, and have adequate space for all of our present needs.

The personnels of our teaching staff remained unchanged during the past year, no teachers being lost to us and none being added. This is particularly gratifying because the loss of a teacher or two would have brought about a serious situation since we have need of all teachers now on our staff.

During the past year the school has purchased a 16 m.m. moving picture projector and a beginning has been made to augment classroom teaching with appropriate films rented from the State Department of Education. Because of the large skylight in the auditorium, it has been impossible to darken this room sufficiently to make a satisfactory showing of these pictures. As a consequence, it has been necessary to present films in the various classrooms, and as only a

TOWN OF RANDOLPH, MASS.

few rooms can be used for the purpose, only a relatively small percentage of pupils have been reached. As there is no doubt as to the place, in the education of today, of this type of visual aid, we would suggest that a curtain be provided which can be drawn across the skylight on the inside of the auditorium. Also, that electricity outlets be placed in several classrooms so that the projector can be used in those rooms when the films to be shown are of such a nature as to be applicable to certain groups.

We find that our plan to devote part of each of the six periods to supervised study has produced results. We still have a long way to go before it becomes entirely satisfactory, and to this end we wish to say that this supervised study period is not meant to supplant home study entirely, but rather to complement it. We are constantly striving to impress on pupil and parent that home study is necessary for good results.

We are pleased to report the addition of seventy-five books to our library. This is in line with a recommendation made last year and it is hoped that this policy will be continued each year. The latest acquisition of books brings our total number up to eleven hundred volumes.

Our athletic situation is much the same this year as in the past. We have sponsored football, basketball and baseball for boys and for girls, basketball. Through these sports we are not able to reach so many pupils as we would like, but due to financial considerations, we are not able to offer other branches of sport. Football has been a constant drain on our resources and has been operating at a loss, as has baseball. This is due, in part, to the fact that we have no enclosed field on which to play. Basketball operates at a profit,

ONE HUNDRED AND FIRST ANNUAL REPORT

but not sufficiently as to offset the losses of the other two sports. However, during the past year, an organization called the Stetson Sports Sponsors came into being, and since its beginning this group has been an invaluable help to our athletic association. The sponsors consist of Murray Lewis, Franklin Porter, Frank Higgins, John R. Luddington, Frank Hess, Frank McCarthy, Charles Byron, Jr., Clarence Dean, Joseph Harris, Herbert Mills, William J. Lynch, Daniel W. Leavitt, Cyril W. Powderly and Hubert F. Gilgan.

The thanks of the student body and faculty is herewith extended to these citizens, and it is our hope that the Sponsors will function for many years to come.

One of the finest additions to our playground was made with the completion of the two tennis courts at the rear of the school. The courts won the immediate approval of all the tennis enthusiasts, and the fact that the courts have been in almost constant use during seasonable weather, gave evidence of their popularity.

We believe that the time has come when some consideration should be given in the schools to matter of safety education. As the years pass, the number of automobiles on the road increases, while accidents and fatalities grow in proportion. The number of deaths is appalling, particularly of children. Many of our pupils are drivers, and many are in high school when they reach sixteen, at which age they can apply for a driving license. We believe that the high school is the logical place to give these young people some training in the matter of safety, and we recommend that the course of study on highway safety education of the State Department of Education be adopted.

We urge at this time that a study be made of our shower accommodations with a view toward making

TOWN OF RANDOLPH, MASS.

the showers available to a larger number of boys and girls. At the present time the showers are inadequate.

Once again, we present for your consideration the possibility of introducing a Household Arts course for girls and a Manual Training course for boys. There is a demand for this type of work in the school and it would be a worthwhile step.

If we are to meet effectively the challenge of the modern business world, consideration should be given to the enrichment of our commercial course. Once in a while, one of our graduates secures a position as a typist or a bookkeeper, but the general trend of the business world of today is gradually turning high school graduates away from that field. We suggest that facilities be provided so that our students will have a working knowledge of modern office appliances, of filing, and of other phases of the work about which they will need to know something when they seek a position.

Awards were made to the following students during the past year:

Stetson High School Scholarship

Priscilla M. Bowley, College Course

Thelma V. Hennigar, Commercial Course

Northeastern University Awards

Lena M. Thayer, Social Science

Priscilla M. Bowley, Mathematics.

Washington-Franklin Medal

Frances L. Bennett.

In closing, we wish to express to you our sincere appreciation of the help you have given us during the

ONE HUNDRED AND FIRST ANNUAL REPORT

past year in our endeavors to place Stetson High School on an efficient and satisfactory basis; also, to the members of the School Board for their earnestness and seriousness of purpose, for without this mutual cooperation it is impossible to reach that degree of success which we are constantly striving to attain.

Respectfully submitted,

HUBERT F. GILGAN.

REPORT OF THE MUSIC SUPERVISOR

Mr. Adolph O. Christiansen,

Superintendent of Schools,

Randolph, Massachusetts.

The interest in music has been well maintained during the past year; the classes respond enthusiastically and manifest a very good knowledge of the work, which includes two and three part singing together with the theoretical side of music. Music writing books in the upper grades, however, would be productive of better results along those lines.

I sincerely hope that in the near future we may be able to equip the Prescott and Belcher School buildings with pianos. The Devine School is already so equipped and this affords much help to the Junior High classes. The purchase of such instruments would entail very little expense, and would prove to be a great stimulant for both orchestral and vocal music.

I commend very highly the work being done by the high school chorus. The group numbers approximately one hundred and thirty-five voices, including boys and girls from the Junior and Senior classes. With the hearty co-operation of the Principal, Mr. Gilgan, the discipline and interest manifested are very gratifying. I regret to state, however, that the Freshmen and Sophomores have no part in the singing. I strongly advise the purchase of a community song book whereby all pupils could participate in an occasional song period.

ONE HUNDRED AND FIRST ANNUAL REPORT

The high school orchestra, under the direction of Mr. Edward McAleer of the faculty, has held weekly rehearsals during the school year and has studied the lighter classics both for instruction and for public entertainment. A joint concert by the high school orchestra and band is presented annually at Chapin Hall.

Under the direction of Mr. Charles M. Burke, the high school band has made steady progress and is well under way toward being an outstanding school band. This is being accomplished by Mr. Burke with the co-operation of pupils, teachers, and interested parents. Unfortunately, some musicians are lost each year through graduation, and if progress is to continue, the study of band instruments should be begun in the grammar schools.

I wish sincerely to thank the superintendent of schools, principals, and teachers for their co-operation in making this musical year successful and happy.

Respectfully submitted,

ROSE G. HAND,

Supervisor of Music.

TOWN OF RANDOLPH, MASS.

REPORT OF THE DRAWING SUPERVISOR

Mr. Adolph O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

Dear Sir:

The following is my report as Supervisor of Art in the public schools of Randolph from the first grade through the Senior High School.

The function of Art Education in our public schools is to teach children to see and appreciate beauty in the realm of art and nature; to aid them to think clearly and express emotional experiences in the language of line, mass and color, and to develop the use of leisure time in an intelligent, enjoyable and profitable way.

Comparatively few pupils are talented and will enter the field of creative art. However, all are consumers of art and are therefore artists in the field of appreciation. A knowledge and understanding of art helps to make living itself an art.

The art work in the Randolph public schools has been organized under six general headings: Representation, color, abstract, design, Lettering, Pictorial and Illustrative Drawing, and Correlation with Social Studies.

The aim of Representation, Pictorial and Illustration Drawing has been to develop a readiness to illustrate ideas and a habit of using drawing commonly as a language. The visual image is strengthened by drawing directly from an object. The recognition of the design plan of beautiful things will help pupils to

ONE HUNDRED AND FIRST ANNUAL REPORT

appreciate and retain visual images to use later in creative experiences.

The teaching of color has included both theory and practice. Color theory is based upon the spectrum colors and their variations as observed in nature and art. The refinement of the color sense is developed through experiences gained in the analysis of beautiful color combinations in nature and art.

The laws of order found in nature and practiced in art which stimulate and guide invention are most easily studied through the principles of Abstract Design. A knowledge of this has helped form the background for an intelligent appreciation of design and has been the basis of creative expression in the original design work.

The importance of correlating art with the Social Studies should not be overlooked for it develops a clearer understanding of the varied subjects.

The aims of the mechanical drawing work in the high school are to teach the pupils the principles of projection, accuracy and neatness in execution of working drawing, and to give an insight into the various vocational mechanical trades.

In concluding I should like to thank the School Committee, Mr. Christiansen, and the teachers for their helpful support and co-operation with me in my work.

Respectfully submitted,

RUTH C. LENNON,

Supervisor of Art.

TOWN OF RANDOLPH, MASS.

REPORT OF THE SCHOOL NURSE

Mr. A. O. Christiansen,
Superintendent of Schools,
Randolph, Massachusetts.

Dear Sir:

Following is a report of my work for the year
1936.

All pupils weighed and measured.

Grade pupils three times.

High School pupils once.

Those who were on follow-up lists were
weighed three times.

All pupils inspected after each vacation.

Home visits	201
Pupils excluded with Impetigo	14
Pupils excluded with Pediculosis	22
Pupils sent to School Physician's Office	78
Pupils taken to Norfolk County Hospital for X-Rays	20
Pupils taken to Quincy Habit Clinic	2

The Norfolk County Chest Clinic was held in
January for pupils in grades seven, nine and eleven.

158 Children were given Tuberculin Test

29 Children reacted.

27 Children were X-rayed.

5 Children were examined.

Four children were able to go to the Norfolk
County Health Camp. Three children were sent
through the financial aid of the Board of Health, and
one through the Christmas Seals Sale Fund. All chil-
dren returned with added weight and greatly im-
proved in health.

ONE HUNDRED AND FIRST ANNUAL REPORT

Fifteen children who were retarded in their school work were examined by the Taunton Traveling Clinic.

In May Three Hundred and Seventy-three (373) school and pre-school children were immunized against Diphtheria.

This year as in the past two years one hundred and thirty-eight underweight children received milk through the courtesy of the Chamber of Commerce.

Many pupils were outfitted with shoes, rubbers, and glasses, by the "Randolph Teachers' Association Charity Fund."

Our school dentists, Doctors Smith and Maguire, deserve much credit for the large number of children they have treated during the past year.

In closing this report I wish to thank the School Committee, the Superintendent, the School Physician, and all who have helped me carry on the health work during the past year.

Respectfully submitted,

HELEN F. CONLON, R. N.,

School Nurse.

REPORT OF SCHOOL PHYSICIAN FOR 1936

To the Citizens of Randolph :

The work among our school children, both in the High School and grade classes during the year 1936 made it an unusually busy one.

On two occasions cases gave us very great concern and a daily examination of some 493 pupils was given for several days in succession. The condition was, I assure you, a serious one when I thought of what might occur. Parents were notified by me whenever I felt a watchful eye was necessary, consequently, with all concerned helping, no epidemic or even the alarm of one entered into the school life of the children, and teachers, parents and school nurse went happily on, thankful I am sure, that such was the case.

We had the common and usual contagious diseases such as mumps, colds, chicken pox and the like but nothing of a serious nature developed. Each child out of school from any of these illnesses, whether attended by a physician or not, must obtain a certificate to return to school and I issued over 600 such certificates at my office this year. But this does not indicate in any way that 1936 was an unhealthful year. These illnesses occur in every school system in every city and town each year, and for a town of over 1900 school age children our record is above average. I firmly believe that great credit is due our school nurse and our teachers for their keen interest and prompt reporting of anything pertaining to the health problems of a child.

In the past few years our school population has steadily increased thus imposing on your school nurse and physician countless minor accidents to be treated

ONE HUNDRED AND FIRST ANNUAL REPORT

and cared for at the school buildings or at my office. Most of these injuries occur while the children are at play in the yards; it being a well-known fact that we have some pretty uneven and rough surfaces about our school buildings. Some much more serious accidents occurred among the higher grades and of these 87 such cases were treated during the past school year. It makes no difference how great or small or from what source the accident may occur, they all must receive attention.

Let me extend my thanks to the School Nurse, School Superintendent, School Committee, Teachers and the Board of Health for their co-operation during the past year.

Very truly yours,

GEORGE V. HIGGINS,

School Physician.

WILLIAM J. McLAUGHLIN, T.A.

1937 Town Meeting Warrant

1937 TOWN MEETING WARRANT

Commonwealth of Massachusetts: Norfolk, ss.

To Either of the Constables of the Town of Randolph,
in said County, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Randolph, qualified to vote in elections therein, to meet at the polling places in their respective precincts, to wit:

Polling Place in Precinct No. 1

STETSON HALL, IN SAID TOWN

Polling Place in Precinct No. 2

NORTH RANDOLPH IMPROVEMENT ASSOCIATION HALL, IN SAID TOWN

**ON MONDAY, THE FIRST DAY OF MARCH, 1937
at 5:45 o'clock in the forenoon**

then and there to bring in to the wardens of their respective precincts their votes on the official ballot for a Town Clerk for one year, Town Treasurer for one year, Moderator for one year, three Selectmen and Overseers of the Public Welfare for one year, one

TOWN OF RANDOLPH, MASS.

Assessor for three years, two members of the School Committee for three years, one member of the Stetson Trust Fund for three years, one member of the Board of Health for three years, one Tax Collector for one year, one Water Commissioner for three years, one Highway Surveyor for one year, one Tree Warden for one year, two members of the Planning Board for three years, and seven Constables for one year.

THE POLLS WILL BE OPENED AT FIVE FORTY-FIVE O'CLOCK IN THE FORENOON AND WILL BE CLOSED AT FOUR O'CLOCK IN THE AFTERNOON

You are directed to notify and warn the inhabitants qualified to vote as aforesaid to meet at the Town Hall in said Randolph on Monday, the 8th day of March, 1937, at 7:30 P.M. and then and there to act on the following articles:

Article 1. To see if the Town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1937, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 2. To see if the Town will vote to raise and appropriate money to defray the General Town Expenses for the current year, under the following headings:

TOWN OF RANDOLPH, MASS.

to Lafayette Street, and raise and appropriate money therefor.

Article 49. To see if the Town will vote to raise and appropriate the sum of \$500.00 for tarring all of Lafayette Street and resurfacing some sections that are needed, as petitioned for.

Article 50. To see if the Town will vote to raise and appropriate the sum of \$3000.00 for resurfacing High Street, from Canton town line as far as the money will cover, as petitioned for.

Article 51. To see if the Town will vote to raise and appropriate the sum of \$1000.00 for tarring all Chestnut Street, and resurfacing some sections that are needed, as petitioned for.

Article 52. To see if the Town will vote to raise and appropriate the sum of \$400.00 to build Fitch Terrace from South Main Street to Highland Avenue as laid out by the Selectmen, as petitioned for.

Article 53. To see if the Town will vote to raise and appropriate the sum of \$1500.00 to build Lillian Street, commencing at Pond Street and working in a northerly direction as petitioned for.

Article 54. To see if the Town will vote to reconstruct and rebuild Oak Street in an easterly direction from North Main Street to North Street under Chapter 90 of the General Laws, and raise and appropriate money therefor, as petitioned for.

Article 55. To see if the Town will vote to raise and appropriate the sum of \$600.00 to build Junior

ONE HUNDRED AND FIRST ANNUAL REPORT

Terrace in a southerly direction from Cole Terrace to Fitch Terrace, a distance of about 600 feet, as laid out by the Selectmen, and petitioned for.

Article 56. To see if the Town will vote to raise and appropriate the sum of \$600.00 to build Cole Terrace from Highland Avenue in a westerly direction 600 feet, as laid out by the Selectmen, as petitioned for.

Article 57. To see if the Town will vote to build a sidewalk on West Street from the junction of Warren Street to Drinkwater's Hothouse, and raise and appropriate money therefor, as petitioned for.

Article 58. To see if the Town will vote to raise and appropriate money to extend the water main from Corner of High Street through Vine Street to Lafayette Street, and to connect the dead ends at a distance of about 1600 feet, as petitioned for.

DRAINAGE

Article 59. To see if the Town will vote to raise and appropriate funds for material for pipe drainage on Lafayette Street according to plans submitted to the Finance Committee, labor to be furnished by W. P. A. as recommended by the Planning Board, as petitioned for.

Article 60. To see if the Town will vote to raise and appropriate the funds for materials to construct pipe drainage from Cottage Street to Mill Pond Brook through Puzone property, labor to be furnished by W. P. A., as petitioned for.

Article 61. To see if the Town will vote to raise and appropriate funds to secure an easement from the

TOWN OF RANDOLPH, MASS.

Puzone Estate to construct a pipe drain through this property, as petitioned for.

Article 62. To see if the Town will vote to raise and appropriate funds for materials for pipe drainage on Liberty Street according to plans submitted to the Finance Committee, labor to be furnished by W. P. A., as petitioned for.

Article 63. To see if the Town will vote to raise and appropriate funds, by bond issue or otherwise, for pipe drainage on Pond Street from North Main Street to outlet of Great Pond in Braintree, as petitioned for.

Article 64. To see if the Town will vote to instruct the Water Commissioners to lay six inch water mains along the following streets: Bartlett Road, 580 feet; Orchard Street, 570 feet; High Street from Chestnut to Canton, 3750 feet; from end of water main on Canton Street to Canton line, 4725 feet; Pauline Street, 925 feet; Emmeline Street, 600 feet; and to lay eight inch mains along the following streets: High Street from Stacy to Vernon, 3450 feet; Vernon Street to Main Street, 450 feet; all work to be done on a W. P. A. project. And that a sum of money be raised and appropriated to pay the Town's share of said project (the Town may borrow said sum of money under the provisions of Chapter 40, General Laws) or to take any action relative thereto.

Article 65. To see if the Town will vote to abandon that portion of Canton Street, as a Town way, a parcel lying between a point about 1900 feet easterly and a point about 2300 feet easterly of the Randolph-Canton Town line, where it crosses Canton Street, said parcel of land now lying on the northerly side of

ONE HUNDRED AND FIRST ANNUAL REPORT

Canton Street, as laid out by the Norfolk County Commissioners by return dated November 28, 1922, as petitioned for.

And you are directed to serve this Warrant by posting attested copies thereof at the Town Hall, at the Town Clerk's Office, at the Post Office, and at six other public places in the Town, seven days at least, before the day and hour for holding said Meeting.

Hear of, fail not, and make return of this Warrant with your doings thereon, to the Town Clerk, on or before the day and hour appointed for holding said meeting.

Given under our hands at Randolph, this 28th day of January A. D., 1937.

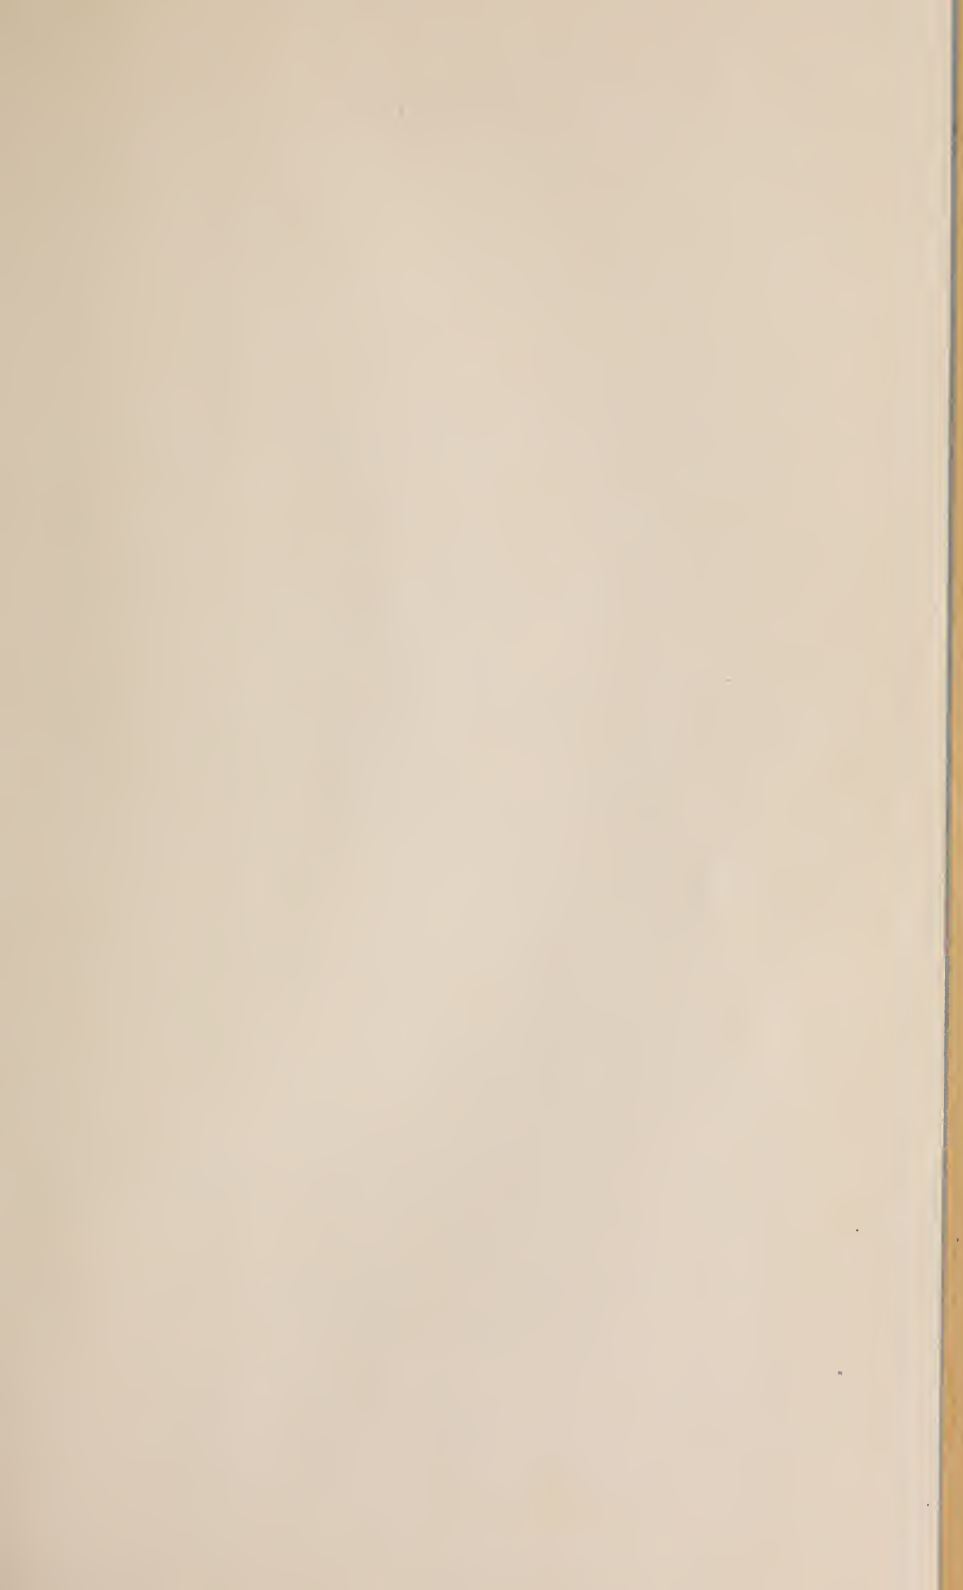

ERROL M. THOMPSON,
MARTIN E. YOUNG,
HAROLD W. MACAULEY,

Selectmen of Randolph.

ARTICLE 11. VOTED: That the sum of \$6,000.00 be raised and appropriated for materials and equipment in connection with W. P. A. projects, this to include \$1,500.00 for salaries and expenses.

ARTICLE 12. No Action Taken.

ARTICLE 13. VOTED: That the sum of \$300.00 be raised and appropriated for Memorial Day expenses, to be expended under the direction of Lieut. William Palmer Camp, Sons of Union Veterans of the Civil War.

ARTICLE 14. VOTED: That the sum of \$750.00 be raised and appropriated for the rental of quarters for the Lieut. Thomas W. Desmond Post, No. 169, of American Legion.

ARTICLE 15. UNANIMOUSLY VOTED: That the sum of \$10,500.00 be raised and appropriated for the purpose of purchasing a one thousand gallon Motor Pumping Engine for the Fire Department and that \$2,500.00 of said amount be raised this year and for the purpose of paying the remainder of this appropriation, the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$8,000.00 and to issue a note or notes of the Town therefor, payable under the provisions of Section 19 of Chapter 44 of the General Laws, and amendments thereto, so that the whole loan shall be paid in not more than five (5) years from the date of issue of the first note, or at such earlier date as the Selectmen and Treasurer may determine. The purchase to be made by the Board of Selectmen acting in conjunction with the Chief of the Fire Department.

ONE HUNDRED AND SECOND ANNUAL REPORT

ARTICLE 16. VOTED: That the sum of \$900.00 be raised and appropriated for the purchase of a compressor as per agreement made by the Water Commissioners with the Cutter Renewal Company.

ARTICLE 17. Appropriation made under Article 2.

ARTICLE 18. VOTED: That the sum of \$50.00 be raised and appropriated for a diphtheria clinic.

ARTICLE 19. VOTED: That the sum of \$150.00 be raised and appropriated for "Clean up Day".

ARTICLE 20. No action taken.

ARTICLE 21. VOTED: That this article be laid on the table until the Adjourned Annual Town Meeting.

ADJOURNED ANNUAL TOWN MEETING,

MARCH 15, 1937

ARTICLE 22. VOTED: 258 Affirmative—7 negative, that the town erect and originally equip and furnish a new four room school building in the section of the Town known as Tower Hill, at an expense not to exceed \$34,000.00 provided that the town secure 45 per cent of said appropriation, amounting to \$15,300.00 from the Federal Government on P. W. A. Grant, and to meet the Town's share of said appropriation the Treasurer, with the approval of the Selectmen be and hereby is authorized to borrow the sum of \$20,000. and to issue bonds or notes of the Town therefor, under authority of and in accordance with the provisions of Chapter 404

TOWN OF RANDOLPH, MASS.

of the Acts of 1935, as amended, said bonds or notes to be payable in not more than twenty years at such term and maximum rate of interest as may be fixed by the Emergency Finance Board.

All moneys received by way of grant from the Federal Government on account of this project shall be applied first to meet the cost of construction and originally equipping thereof (including preliminary expenses), and any balance thereof shall be applied to the payment of the loan herein authorized.

The selectmen are hereby authorized and directed to accept on behalf of the Town an offer of the United States of America to aid in financing the construction of said project by making a grant of money to the Town, and a committee of eight composed of the School Committee and the Selectmen are authorized to proceed with the construction of said project and enter into all necessary and proper contracts and agreements in respect thereto, all subject to applicable Federal Regulations; and the Selectmen and the School Committee are authorized to do all other acts and things necessary or convenient for obtaining said grant, for making said loan, and for constructing said project.

STREET LAYOUTS

ARTICLE 23. VOTED: To instruct the Selectmen to lay out Woodlawn Road from South Main Street to the Holbrook line, and raise and appropriate \$200.00 for the expense of same.

ARTICLE 24. No action taken.

ARTICLE 25. VOTED: To instruct the Selectmen to lay out Woodland Parkway from South Main Street in an easterly direction, 450 feet, and raise and appropriate \$50.00 for the expense of same.

ONE HUNDRED AND SECOND ANNUAL REPORT

ARTICLE 26. No action taken.

ARTICLE 27. No action taken.

ARTICLE 28. No action taken.

ARTICLE 29. VOTED: To instruct the Selectmen to lay out Tileston Road as a Town way, and raise and appropriate \$100.00 for the expense of same.

STREET ACCEPTANCES

ARTICLE 30. VOTED: To accept Fitch Terrace from South Main Street to Highland Avenue as laid out by the Selectmen.

ARTICLE 31. VOTED: To accept Druid Hill Avenue a distance of 1000 feet southerly from a point opposite the house of Francis Sullivan, as laid out by the Selectmen, and that the balance of \$164.37 remaining unexpended on Druid Hill Avenue be transferred to the Highway Department for use on Druid Hill Avenue.

ARTICLE 32. VOTED: That only that part of Lillian Street, as laid out by the Selectmen, and shown on the plan of Beulah Park, be accepted.

ARTICLE 33. VOTED: To accept Maitland Avenue as laid out by the Selectmen, an extension of 500 feet, westerly.

ARTICLE 34. VOTED: To accept Junior Terrace from Cole Terrace to Fitch Terrace about 600 feet as laid out by the Selectmen.

TOWN OF RANDOLPH, MASS.

ARTICLE 35. VOTED: To accept Cole Terrace from Highland Avenue 600 feet in a westerly direction, as laid out by the Selectmen.

ARTICLE 36. VOTED: That no action be taken on this article.

ARTICLE 37. VOTED: That no action be taken on this article.

STREET LIGHTS

ARTICLE 38. VOTED: That two electric lights be installed on Druid Hill Avenue and that the sum of \$35.00 be raised and appropriated for the same.

ARTICLE 39. VOTED: That two electric lights be installed on Woodlawn Road (from Fern Avenue to Sherwood Avenue approximately 670 feet) and the sum of \$35.00 be raised and appropriated for the same.

ARTICLE 40. VOTED: That four electric lights be installed on High Street between Chestnut Street and Canton Street, and that the sum of \$70.00 be raised and appropriated for the same.

ARTICLE 41. VOTED: That two electric lights be installed on Wales Avenue and that the sum of \$35.00 be raised and appropriated for the same.

ARTICLE 42. VOTED: That one electric light be installed on Norroway Avenue and that the sum of \$17.50 be raised and appropriated for the same.

ONE HUNDRED AND SECOND ANNUAL REPORT

ARTICLE 43. VOTED: That no action be taken under this article.

STREET CONSTRUCTION

ARTICLE 44. VOTED: That the sum of \$235.00 be raised and appropriated for materials for the rebuilding of Druid Hill Avenue. This street to be constructed with W. P. A. labor.

ARTICLE 45. VOTED: That this article be taken care of under Article 11.

ARTICLE 46. No action taken.

ARTICLE 47. No action taken.

ARTICLE 48. VOTED: That this article be taken care of under Article 11.

ARTICLE 49. VOTED: That tarring all of Lafayette Street and resurfacing some sections that are needed be taken care of under Article 2, Highway Department.

ARTICLE 50. No action taken.

ARTICLE 51. VOTED: That no action be taken under this article.

ARTICLE 52. VOTED: That the Highway Surveyor be instructed to build Fitch Terrace from South Main Street to Highland Avenue as laid out by the Selectmen.

ARTICLE 53. VOTED: That this article be taken care of under Article 11.

ARTICLE 54. VOTED: That no action be taken under this article.

TOWN OF RANDOLPH, MASS.

ARTICLE 55. VOTED: That this article be taken care of under Article 11.

ARTICLE 56. VOTED: That this article be taken care of under Article 11.

ARTICLE 57. VOTED: That the Highway Surveyor be instructed to prepare a W. P. A. project to build a sidewalk on West Street from the junction of Warren Street to Drinkwater's Hothouse, and raise and appropriated \$350.00 for material.

WATER EXTENISONS

ARTICLE 58. VOTED: That no action be taken under this article.

DRAINAGE

ARTICLE 59. VOTED: That this article be taken care of under Article 11.

ARTICLE 60. VOTED: That the sum of \$1,000.00 be raised and appropriated for materials to construct pipe drainage from Cottage Street to Mill Pond Brook through Puzone property, under a W. P. A. project.

ARTICLE 61. VOTED: That this article be taken care of by the Town's Legal Department, under the direction of the Board of Selectmen.

ARTICLE 62. VOTED: That no action be taken under this article.

ARTICLE 63. VOTED: That no action be taken under this article.

ARTICLE 64. No action taken.

ONE HUNDRED AND SECOND ANNUAL REPORT

ARTICLE 65. VOTED: To abandon that portion of Canton Street, as a Town way, a parcel lying between a point about 1900 feet easterly and a point 2300 feet easterly of the Randolph-Canton Town line, where it crosses Canton Street, said parcel of land now lying on the northerly side of Canton Street, as laid out by the Norfolk County Commissioners by return dated November 28, 1922.

SPECIAL TOWN MEETING, May 13, 1937

ARTICLE 14. VOTED: That the Moderator appoint a committee to look into the advisability of accepting zoning and building laws for the town and report their findings at the next annual town meeting, said committee to include the members of the Planning Board; the size of the committee to be left to the best judgment of the Moderator.

ARTICLE 1. VOTED: That the sum of \$500.00 be transferred from W. P. A. to the Board of Assessors, for maps and plans.

ARTICLE 2. VOTED: That the sum of \$5,000.00 be raised and appropriated to complete maps and plans for the entire town.

ARTICLE 13. VOTED: That the sum of \$4,000.00 be raised and appropriated to defray the expenses in connection with W. P. A. projects.

ARTICLE 3. VOTED: That the sum of \$1,500.00 be raised and appropriated for salaries and expenses for a revaluation of the Town by the Assessors, to be divided as follows:

\$1,380.00 for salaries
120.00 for expenses

TOWN OF RANDOLPH, MASS.

ARTICLE 4. VOTED: 183 affirmative—6 negative, that the Town amend the vote passed under Article 22 of the Warrant for the Annual Town Meeting of 1937, by striking out the words:

“provided the Town secures 45 per cent of said appropriation amounting to \$15,300.00 from the Federal Government on a P. W. A. Grant.”

where they occur in said vote; and by striking out the words:

“and to meet the Town’s share of said appropriation.”

and inserting in place thereof:

“and to meet said appropriation that there be raised in the levy of the current year the sum of \$2,000.00 and,”

and striking out

“\$20,000.00” and inserting in place thereof “\$32,000.00.”

and striking out the words:

“in accordance with the provisions of Chapter 404 of the Acts of 1935 as amended, said bonds or notes to be payable in not more than 20 years at such terms and maximum rate of interest as may be fixed by the Emergency Finance Board.”

and insert in place thereof:

“said Bonds or Notes to be payable in accordance with the provisions of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than 20 years or at such earlier dates as the Treasurer and Selectmen may determine,”

so that the first paragraph will read as follows:

ONE HUNDRED AND SECOND ANNUAL REPORT

VOTED: That the Town erect and originally equip and furnish a new four room school building in the section of the town known as Tower Hill, at an expense not to exceed \$34,000.00; and to meet said appropriation that there be raised in the levy of the current year the sum of \$2,000.00 and the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$32,000.00 and to issue bonds or notes of the town therefor, said bonds or notes to be payable in accordance with provisions of Chapter 44 of the General Laws so that the whole loan shall be paid in not more than twenty years or at such earlier dates as the Treasurer and Selectmen may determine.

ARTICLE 5. VOTED: That the sum of \$1,000.00 be raised and appropriated to purchase land and provide for other expenses in connection with engineering services and preparation of title.

ARTICLE 6. VOTED: To indefinitely postpone.

ARTICLE 7. VOTED: That the Town raise and appropriate the sum of \$1,196.68 to pay bill for emergency repairs to the Maxim Pumping Engine.

ADJOURNED SPECIAL TOWN MEETING, OCTOBER 21, 1937

ARTICLE 1. VOTED UNANIMOUSLY: 303 votes being cast in the affirmative and none in the negative, that the Town appropriate \$20,000.00 for W. P. A. expenses, and to meet said appropriation that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow \$20,000.00 under the provisions of Chapter 107 of the Acts of 1937. Said loan shall be due and payable in not more than ten years or at such earlier date as the Treasurer and Selectmen shall determine.

TOWN OF RANDOLPH, MASS.

ARTICLE 2. VOTED: To transfer the sum of \$800.00 from the Salary Account to the Expense Account of the School Committee.

ARTICLE 3. VOTED: To transfer the sum of \$450.00 from the State Aid account to the Soldiers' Relief Account.

ARTICLE 4. VOTED: To transfer the sum of \$200.00 from the Public Welfare Expense Account to the Soldiers' Relief Account.

ARTICLE 5. VOTED: To transfer the sum of \$300.00 from Fire Alarm Expense Account to the Fire Department Expense Account, Central Station.

VOTED: That there be no money expended for a parking area in the rear of the Town Hall, from the amount appropriated under Article 1.

A true copy of the record,

Attest:

JOHN B. McNEILL

Town Clerk

Notice

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chapter 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Section 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of PHYSICIANS and MIDWIVES is called to Chapter 280, Section 1, Acts of 1912: Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

[illegible]

James H. Hurley

In Memoriam

On March 7, 1937 the inhabitants of the town of Randolph and surrounding towns were shocked to hear of the sudden passing of James H. Hurley, well known town official and real estate operator. Mr. Hurley died in the Town Hall while talking to a friend on whom he was calling.

Mr. Hurley's first official duty in Randolph was on the Lighting Committee, to which he was appointed at the annual town meeting in March 1922, to see if a reduction in lighting rates could be obtained. Many reductions were made by the Lighting Company. Mr. Hurley served on this committee until his death.

He was elected an Assessor for 1924, 1925 and 1926.

He was elected a Selectman for 1925, 1926, 1928, 1929, 1930, 1931 and 1935.

He was also Sponsor's Agent for the W. P. A. from March 1936 until February 1937.

He was also one of the committee of five which drew up the present town by-laws, which were adopted at the annual town meeting in 1931.

Mr. Hurley was a man of splendid personality, who honorably and efficiently performed his duties as a town official.

Report of the Selectmen

In submitting their annual report your selectmen wish to thank the various departments of the town government for their support and co-operation during the past year.

Due to an unexpected recession in employment during the last quarter of the year appropriations made at the annual meeting for Old Age Assistance, Public Welfare and Soldier's Relief were overdrawn. Under present economic conditions it is practically impossible to estimate accurately the amount which will be necessary. All relief expenditures for the year 1938 will call for a substantial increase over the preceding year. The number of active cases under Old Age Assistance as of December 31, 1937 were 203, as compared with 143 as of December 31, 1936, at a total expense of \$58,312.01, of which \$26,072.92 was reimbursed by the Federal government, the balance of which is reimbursed on a two-thirds basis by the State leaving the town one-third to assume. During the year 226 families representing 767 persons were wholly or partially supported, as compared with 165 families for the year 1936.

Under W. P. A. the town received over \$100,000.00 for labor to carry on projects of various kinds. A detailed report of these expenditures will be found in the report of the Town Accountant.

In the early part of the year, through a reduction in electric light rates for all types of consumers, by the Weymouth Light Co. according to their promise to your Selectmen, street lighting was increased from 60 c. p. to 100 c. p. on North Main Street from West Street

TOWN OF RANDOLPH, MASS.

to Hills Street. Due to a series of accidents in the north part of the town, some of which proved fatal, a further increase of lighting with a more satisfactory type of fixture was ordered by your Selectmen from Gordon Street to Hills Street. Whether or not this improvement will have any effect on the accident rate in this area remains to be seen. Increased lighting should be extended on North Main Street from Gordon Street in a southerly direction to the center of the town, if, and when the town is financially able to do so.

It is recommended that a reasonable sum of money be raised by the town for the salary of a town counsel to defend the town in a number of actions now pending, and to give much needed advice to department heads. It is further recommended that consideration be given to the advisability of the town employing a qualified engineer whose duty it would be to have charge of the highways of the town, and in addition to make street layouts, drainage studies, and such changes as may be from time to time necessary in the maps and plans of the town. A committee should be appointed to make a study of this matter.

In preparing their budget for the year your Selectmen have taken into consideration the fact that a rate of taxation within the limits of reason must be followed if the town is to be successfully financed during the year 1938. It is hoped that all departments will do likewise. Until expenses for W. P. A. and Public Welfare can be minimized, caution will have to be used by the voters to the end that it will not be necessary to borrow money for current expense, but pay as we go, or go without.

Harold W. Macauley	of
Martin E. Young	Randolph

Assessor's Report, 1937

December 31st, 1937.

To the Honorable Board of Selectmen:-

We herewith submit the report of this department for the year 1937.

On March 1st Mr. Frank F. Teed was re-elected for a three year term, and on March 8th the board was organized with Mr. Raymond E. Lyons, Chairman, and Mr. James P. Duffy, Clerk.

The tax rate for the year was computed on the following basis of expenses and receipts:

EXEMPTIONS AND ABATEMENTS

Some confusion was occasioned this year in connection with applications for statutory exemption of real estate taxes, because of a sincere desire on our part to conform to statute law in the consideration and determination of eligibility for exemption. In order that the situation might be clarified and understood by all, we

ONE HUNDRED AND SECOND ANNUAL REPORT

would like to bring to the attention of the citizens certain existing requirements which are absolutely necessary in the granting of exemptions and abatements.

First, all applications for exemption under the so-called widow's clause, and the disabled veteran's and Spanish War veteran's clauses of Section 5, Chapter 59, of the General Laws, must be in writing on a form approved by the Commissioner of Corporations and Taxation, which form can be secured at our office. The information called for on the form must be supplied in full, and the application is subscribed to under the penalty of perjury. The application must be filed with our board each year, on or before October 1st of the year to which the tax relates. Any applications presented after such date cannot be accepted. The property must be occupied by the applicant, and his or her status on taxing date each year is one of the deciding factors.

Second, the same requirements of filing date also apply to all requests for abatement of real estate taxes because of overvaluation.

Third, male persons above the age of seventy years on taxing date must be listed by the assessors, but are exempt from the payment of a poll tax.

Fourth, Section 1, Chapter 60A, of the General Laws, referring to motor vehicle excise tax reads in part as follows: "The tax assessed under this section shall not be less than two dollars, and no abatement under this section shall reduce the tax collected to less than two dollars." Another part of the same section reads: "For the purpose of this tax the value of each such motor vehicle shall be deemed to be the value as determined by the commissioner of corporations and taxation." We quote

the foregoing by way of explanation of our inability to grant reductions requested by some taxpayers. In assessing each car we have used the value specified by the commissioner in a book he furnishes for the purpose. All applications for abatement must be in writing on an approved form within six months of the date of sale or transfer of a car, but in no case later than January 31st of the year following the year of the tax.

The above noted requirements are not set up as an action of our board, but are in conformity to statute law, and will be adhered to in fairness to all concerned.

REVALUATION

In accordance with the vote of the citizens at the special town meeting held on May 24th, your board of assessors has completed a very thorough and comprehensive survey of all of the real estate in the town. We have inspected approximately three thousand parcels of land, including about twenty-five hundred buildings, and have recorded on cards especially prepared for the purpose sufficient information to enable us to place a fair and honest value on each individual parcel. In the case of buildings we made a record as to age, size, number of rooms, condition, type, side additions, as well as the interior improvements of heat, floors, plumbing, lighting, etc. As to the land we noted its physical condition, location, frontage, availability and surroundings. We commenced the work the first part of July and completed our inspection about the middle of December,

actually visiting every piece of property in the town. At the present writing we are engaged in transcribing our notes into actual figures, and anticipate the completion of the entire project about May 1st. We are making our computations on the basis of a definite system of replacement value less depreciation, and are giving full

consideration to all known factors which enter into a proper assessment of real estate. We are using the very best judgement at our command in placing each assessment, guided by a sincere intention to be fair and honest, and are absolutely not permitting any political, racial, religious or any other kind of consideration to enter our work.

While we have called this project "Revaluation" we feel that its proper title is "Equalization," since our entire effort has been directed towards perfecting a system of assessment which will honestly distribute the burden of taxation in our town on the basis of fairness and equality.

MAPS AND PLANS

Under the provisions of the vote of the town at the above mentioned special town meeting, in which we were authorized to completely map the town, we have received a number of new plans covering portions of the town not previously mapped. The new plans are a distinct advantage, and have been of considerable assistance in our work of assessing, showing actual boundaries of all property, thereby eliminating any guesswork as to the exact area of each parcel, and providing a complete record of the present owner. We have on file in our office the original tracing of each of the new plans, together with similar tracings of each plan furnished the town in previous years.

It is our earnest hope that in the absence of a regularly employed engineer that our department will be granted an annual appropriation which will permit keeping all the plans up to date. There have been many divisions of property in the districts mapped during the past several years, and there will doubtless be some

TOWN OF RANDOLPH, MASS.

changes occur in the areas represented by the maps being received now, and inasmuch as there is a considerable investment involved in our map purchases to date we feel that in the interest of economy and accuracy it is advisable and essential that these maps be kept up to date annually, and we believe that it can be done with only a slight expense to the town.

We have striven throughout the year to systematize our work, and have instituted many changes which we feel tend to modernize our equipment and procedure. We have installed a modern, cross reference system of cards, giving us an accurate and complete description of each individual parcel of land, including all buildings thereon, with full reference to its location, lot number, deed reference, map and plan number, present record owner, previous owner, date of transfer, which will be a permanent record for the town. Other changes have been made which we hope will enable us to keep pace with the ever increasing details and work of the office.

Because of the vast increase of population in the town over the past ten to fifteen years, with the accompanying increase in the number of buildings, additional registration of automobiles, records to be maintained, reports to be issued to other town departments, as well as the commissioner of corporations and taxation, there has been such a great amount of additional detail work added to our department that it should no longer be considered as part time work. In the interest of better service to our taxpayers, many of whom call at our office during each day of the week, seeking information or adjustments to which they are entitled, the prompt handling of considerable mail correspondence, the furnishing of data to prospective purchasers of home sites or business locations here, the compilation of required reports without delay, we feel that there should be at

ONE HUNDRED AND SECOND ANNUAL REPORT

least one of our members on duty throughout regular business hours each day. Then, too, there are so many new regulations and statute laws being enacted, affecting assessing work, that it should be considered a matter of economy and protection to the town to enable at least one of the assessors to devote full time to the work. We hesitate to recommend any action which might result in any additional burden to the taxpayers, and will continue to do our utmost in the performance of our various duties. We do, however, wish to acquaint the citizens with our problems, in the belief that they will give full recognition to the needs of our department.

In concluding this report we desire to express our sincere appreciation to the taxpayers, and to the other town departments, for their very kind and generous co-operation.

Respectfully submitted by

RAYMOND E. LYONS .

Board of Assessors.

Report of the Collector of Taxes

To Citizens of the Town of Randolph:

I herewith respectfully submit my report for the
year ending December 31, 1937:

1935

Poll, Personal and Real Estate Taxes:

Outstanding, uncollected Jan. 1, 1937	\$37,678.26
Credits and collections during 1937	37,678.26

1936

Poll, Personal and Real Estate Taxes:

Outstanding, uncollected Jan. 1, 1937	92,216.99
Tax Titles Disclaimed	444.89

	92,661.88
Collections and credits during 1937	59,067.60

Balance January 1, 1938	33,594.28
-------------------------	-----------

Excise Taxes:

Outstanding uncollected Jan. 1, 1937	2,682.99
Collections and credits during 1937	2,354.41

Outstanding January 1, 1938	328.58
-----------------------------	--------

ONE HUNDRED AND SECOND ANNUAL REPORT

1937

Poll, Personal and Real Estate Taxes:

Two commitments—July and December	270,973.85
Collections and credits during 1937	158,433.44
	<hr/>
Outstanding January 1, 1938	112,540.41

Excise Taxes:

Committed May 24, Aug. 30, Nov. 27, and December 30	12,774.05
Collections and credits during 1937	9,782.56
	<hr/>
Balance outstanding Jan. 1, 1938	\$2,991.49

I would like to state regarding above report that about 86 per cent of the 1936 taxes and 52 per cent of the 1937 taxes have been paid, which considering the lack of work and general hard times shows I believe, a splendid co-operation on the part of the people.

CLARA F. KENNEDY

PUBLIC LIBRARY

To the Citizens of Randolph:

Pursuant to the provisions of Article 3 of the By-Laws of The Turner Free Library, this report, for the calendar year 1937 and being the sixty-second annual report, is submitted, showing the condition of the trust consisting of the building, library, and funds, together with the reports submitted to the Trustees by the various committees as seems of general interest.

The Library Committee reports that the books, charts and furnishings are in good condition and that all books belonging to the library are accounted for by the Librarian.

The Building Committee reports a number of items of repairs, including painting, during the year. It is gratifying to note that the aggregate of all items charged to the Town's appropriation of \$700. came to only \$578.15, which resulted in a saving to the Town of \$121.85. In the light of past experience as to the need of current repairs and as to the occurrence of unforeseen emergencies, the trustees ask an appropriation of \$500. for the year 1938 to cover the cost of such repairs to the exterior and interior of the building and to its fixtures and furnishings as may from time to time be necessary. During 1937 the Library grounds were greatly improved by the installation of a semi-circular driveway and cement walks and grass plots. This work was done through a Works Progress Administration appropriation and has not been entirely completed. It is hoped that it may be completed during the present year.

The Librarian's report shows an increase over the preceding year both in the number of new books added to the Library and in circulation, with an increase in

TOWN OF RANDOLPH, MASS.

the number of borrowers' cards issued. The trustees wish to record their appreciation of the gift of books from the late Mrs. Charles Mitchell and from Mr. Erskine H. Cox and of the Asa Palmer French Memorial, all of which are referred to in the Librarian's report. The magazines purchased with the income of the fund established by Mr. Cox in memory of Mrs. Ethelwyn M. C. Cox have throughout the period since the establishment of the fund proved a very helpful and worthwhile addition to the Library's means of service.

During the year Mr. Frank W. Belcher resigned the office of treasurer after giving the Library many years of faithful and painstaking service in that capacity. Fortunately, he still remains a trustee. He was succeeded as treasurer by Mrs. Mollie F. Howard.

The trustees desire to express their thanks for the loyal and efficient work of the librarian, Miss Eunice L. Belcher, and her assistants, Mrs. Ellen P. Henry and Miss Helen Elden, and of Miss Barbara Hill, who became a member of the Library staff after Miss Elden's resignation, and of the janitor, Mr. John T. Moore. The trustees were very sorry to lose Miss Elden's services.

A copy of each of the following reports is hereunto subjoined: the report of the Librarian; the report of the Treasurer showing the investment of the funds and the receipts and expenditures of the library; and the report of the Finance Committee.

Respectfully submitted,

SETH T. CRAWFORD

President, Board of Trustees.

Randolph, Mass., January 26, 1938.

**REPORT OF LIBRARIAN
OF
TURNER FREE LIBRARY**

To the Trustees of the Turner Free Library:

I have the honor to submit the annual report of the Librarian for the year ending December 31, 1937.

The Library has been open to the public 302 days.

There have been 375 books added the past year, 274 purchased and 101 gifts, making the accession number 34,398.

The circulation is larger than last year, 29,993 books having been loaned, and 1296 magazines. Borrowers' cards issued, 317.

Among the gifts received were several volumes from the late Mrs. Charles Mitchell:

Twelve volumes -	Waverly Novels
Twenty	" Bulwers Novels of Romance
Fifteen	" Beacon Lights of History
Four	" Maine Coast Romances
Fifteen	" Stoddard's Lectures
Eighteen	" Balzac's Works

From Mr. Erskin H. Cox, "Fourscore Years of Sport" by Kendall. We also have Mr. Cox to thank for the following magazines given by him in memory of Mrs. Ethelwyn M. C. Cox: "Readers Digest", "World Wide", "Flower Grower", and "Time".

We have added to our list of magazines, "The American Home" and "Time".

TOWN OF RANDOLPH, MASS.

In accordance with the provisions of the Asa Palmer French Memorial, we received from the Yale Press, "Colonial Period of American History" by Charles M. Andrews, an engraving of the Capital at Washington by Louis Orr, also the privilege of purchasing a limited selection of books at half price.

In February Miss Helen Elden resigned to take a position in Boston. We regretted her going, as she had shown great ability. We have secured Miss Barbara Hill as a helper, and she is taking much interest in her work.

The Librarian wishes to thank Miss Henry and Miss Hill for their help and loyalty, also the Trustees for their co-operation and interest.

Respectfully submitted,

EUNICE L. BELCHER, Librarian.

ONE HUNDRED AND SECOND ANNUAL REPORT

REPORT OF THE TREASURER

To the Trustees of the Turner Free Library:

In compliance with the requirements of the By-Laws, I hereby submit the annual report of the Treasurer of the Turner Free Library:

ONE HUNDRED AND SECOND ANNUAL REPORT

REPORT OF THE FINANCE COMMITTEE

To the Trustees of the Turner Free Library:

Your committee has audited the accounts of the Treasurer for the year 1937 and found them correct. All moneys received have been duly accounted for and no moneys have been paid out except upon vouchers properly approved. The committee has examined also, the securities representing the investment of funds of the Library and has found them to be intact and as represented.

Respectfully submitted,

RAYMOND L. MASON

Chairman

Randolph, Mass.

January 17, 1938.

Report of the Board of Health

The health of the town, with reference to contagious disease, has shown a marked improvement over that of other years, due to the operation of several factors the influence of which we are now feeling. For instance Diphtheria is now a rare disease, and we predict that in a few years the student of medicine will find it difficult to supplement his textbook study with a few actual cases of this disease. Under the auspices of this board all children of pre-school age were invited to participate in the benefits of the Diphtheria clinic recently held in the Town Hall and in the N. R. C. C. Hall.

The number of persons availing themselves of this privilege (i. e. a life-time immunity) is not a proper index of the number of persons who have been thus immunized, because the modern mother is beginning to have her baby immunized by her family doctor at a very early age. It is estimated that fully 90 per cent of all children in our town 4 years of age or older have been immunized.

The Chadwick follow up clinic for T. B. contacts, children reacting to the skin test for T. B. or showing enlarged glands in the space between the lungs, has placed such children under regular supervision, and as far as our finances permit and having in mind the limited capacity of the hospital, these children have been given the benefit of the summer camp at the Norfolk County Hospital. But for the whole-hearted assistance

of the local chapter of the Red Cross this board would not have been able to care for some of these children. Of course if our finances permitted it would be ideal to send many more worthy cases to this camp, but as it is we are obliged to send those children, who, thru the fine co-operation of the School Nurse and the Visiting Nurse, are considered to be the most urgent cases. The benefits of this short period of camp-life must be observed to be appreciated.

The number of Scarlet Fever cases has been considerably less than in some recent years. Measles, of one type or another, Mumps, Whooping-cough and Chicken Pox are always with us, and only a small percentage are seen by a physician. There is an unfortunate tendency to regard these as only the natural heritage of children and not requiring medical attention. It should be borne in mind that the complications of these diseases such as kidney glandular infection, and Bronchial Pneumonia, one visit by your doctor would result in a much better understanding of these things and prevent the spread of these diseases.

Due to expert medical supervision and pasteurization of milk, only one case of Typhoid Fever appeared in our midst. The source of this infection was not our common water supply and could not in any way be traced to any article of food offered for sale in our town.

Two cases of Infantile Paralysis were reported. No one as yet can offer any satisfactory explanation of its source, and the one immediate need for treatment is to put the affected group of muscles at rest with an appliance made for the individual case. All serum and

TOWN OF RANDOLPH, MASS.

vaccine treatments have been unavailing to date. Physio-therapy and surgery are the two sources of aid to which the victim has to turn.

The visiting-nurse's work is so necessary and the results so definite that this service is now a fixed institution in our town, and in the character of the work done and the splendid co-operation with our town physicians, does not take second place to any such service in our commonwealth. Donations to this cause guarantee a fine dividend for all our citizens.

The one great expense to this department is the care of Tuberculosis patients. This seems to be an increasing problem but in reality the numerical increase means earlier recognition that the public now realize the value of prompt hospitalization.

The ever-increasing burden of records and correspondence in this department would easily justify the employment of a part-time clerk, which would guarantee that every financial interest of the town is pursued, such as the matter of caring for cases having a legal residence other than Randolph or those properly listed as "unsettled" cases. This involves continuous investigation and correspondence and is in no sense an easy task. It involves training, persistence, and much hard work. All other departments are provided funds for clerk-hire and considering that this department spends many thousands of dollars annually, it is high time that it is considered one of the really major departments of the town.

The Dental Clinic has proved to be next to a life-saver to hundreds of children since its inception, and

ONE HUNDRED AND SECOND ANNUAL REPORT

the past year has been no exception to this rule. Care of children's teeth in early or late childhood is a guaranteed safeguard against such diseases as Glandular Infection, Rheumatism and eventually heart infections. We are very enthusiastic about this work and any attempt to narrow this field of work would be a shameful backward step..

Scarlet Fever	15
Measles	29

Infantile Paralysis	2

W. E. BUCK, M. D.

CHESTER G. GLIDDEN

TOWN OF RANDOLPH, MASS.

REPORT OF THE PLUMBING INSPECTOR

Randolph, Mass., January 25, 1938

To the Board of Selectmen of Randolph:

I hereby submit my report as Plumbing Inspector for the year ending December 31, 1937.

There have been forty-two permits issued. All have passed inspection but three.

The following fixtures have been installed:

Twenty-five closets; twenty-four sinks; twenty-three washbowls; nineteen bathtubs; seven washtrays; eight urinals; nine pressure boilers.

The estimated value is about Four Thousand Two Hundred and Ten (\$4,210.00) Dollars.

The number of permits issued in 1937 shows a slight decrease over 1936.

Respectfully submitted,

THOMAS O'RILEY,

Plumbing Inspector.

ONE HUNDRED AND SECOND ANNUAL REPORT

REPORT OF INSPECTOR OF SLAUGHTERING

Randolph, Mass., January 1, 1938

Board of Health of Randolph, Mass.

Gentlemen:

I hereby submit my report for the year of 1937.

I have inspected a total of	430 head
Condemned	4 head
Condemned 19 livers	
Passed and Stamped	426 head

The 430 head are classified as follows:

Hogs	417
Calves	6
Cattle	5
Bulls	2
	<hr/>
Head	430

Respectfully Submitted,

WESTON L. MANN

TOWN OF RANDOLPH, MASS.

REPORT OF INSPECTOR OF MILK

Board of Health, Randolph, Mass.

Gentlemen:

I hereby submit my report as Milk Inspector of the Town of Randolph for the year ending December, 1937.

Forty-eight licenses were issued to dealers after a general inspection. May it be noted that all stores and peddlers have complied with the rules and regulations set down by the Town and State Boards. It is also a pleasing situation for the Towns people that they may feel assured that their milk is of high nutritive value, and given to them bottled under sanitary conditions prevailing in the dairies.

According to the readings of tests applied to the different milks, it was found that they have the required amount of butterfat content.

Respectfully Submitted,

HENRY MERRILL,

Milk Inspector.

ONE HUNDRED AND SECOND ANNUAL REPORT

REPORT OF ANIMAL INSPECTOR

Randolph, Mass., January 20, 1938

To the Honorable Board of Selectmen:

I herewith submit my report as Inspector of Animals for the year ending December 31, 1937:

Cattle	237
Swine	1503
Goats	16

The stables housing these animals were inspected, and found in satisfactory order.

There were also 21 dogs quarantined by the department.

Respectfully Submitted,

CHARLES H. TRUELSON

Inspector of Animals.

Report of the Water Commissioners

To the Citizens of the Town of Randolph:

The fifty-second annual report of the Water Commissioners is herewith submitted for the year ending December 31, 1937.

Organization of the Board of Water Commissioners for the year 1937 was effected as follows:

John B. McNeill	Chairman and Collector
Richard F. Forrest	Superintendent
Frederick D. Driscoll	Clerk and Meter Reader

During the year 28 new services were connected; 15 services were cleaned by pump; 6 services renewed from main to line; 29 service leaks repaired; 24 services metered; discontinued one 4-inch service formerly used for manufacturing; raised and renewed 15 boxes on account of road construction; moved and raised 15 hydrants on account of sidewalk construction; 1 broken hydrant; 1 break in 6-inch main on Allen Street; standpipe emptied and cleaned for inspection and painting.

Installed 6-inch service to New Theatre for sprinkler system.

Installed 2-inch service to New Theatre for domestic use.

ONE HUNDRED AND SECOND ANNUAL REPORT

Installed 1,700 feet of 6-inch cast iron main on Woodlawn Road with 3 hydrants and 5 gates on same.

Completed installation of 1,953 feet of 6-inch cast iron main on Druid Hill Avenue, installed 4 hydrants and 6 gates on same.

Started trenching on Lillian Street on December 9, 1937 for the laying of 1,600 feet of 8-inch cast iron water main, 3 hydrants, 4 8-inch gates and 3 6-inch gates.

In laying the main on Woodlawn Road 1,200 cubic yards of ledge had to be removed, excavating to depths of 8 feet, 10 feet and 12½ feet through solid ledge, on account of new grades established for road construction.

Owing to the large amount of ledge that had to be removed on the different W. P. A. projects, it showed that sound judgement was used by the Water Commissioners in purchasing the compressor a year ago. This compressor is in first-class shape, had very little trouble with it and the expense for repairs has been exceedingly low.

The Randolph standpipe was painted in 1937. We expect to paint the Holbrook standpipe in 1938.

Everything seems to be going very good at the Filtration Plant at Great Pond. The water has been analyzed every month and has proven that it is perfectly safe for drinking purposes. We added a new sludge basin on the grounds at the Pumping Station, completing

TOWN OF RANDOLPH, MASS.

the Filtration Plant. The coal sheds were also repaired and put in first-class shape.

We expect to paint the station inside and outside, and the house in connection with the station, during the year 1938.

The expenditures of the Water Department will be found in the Town Accountant's report.

Collections and outstanding water rates will be found in the report of the Water Collector.

Largest Day's Pumping August 8th, 1937—1,554,400 Gallons.

Largest Week's Pumping—Week Ending August 8th, 1937—9,142,600 Gallons.

Respectfully submitted,

JOHN J. McNEIL, Engineer

RULES AND REGULATIONS

The following regulations, until further notice, shall be considered a part of the contract with every person who uses water:

1. All applications for use of water must be made at the office of the Water Commissioners, and state fully the purposes for which it is intended to be used. Water will not be introduced to premises except on the written application of the owner thereof, or by a duly authorized agent. The property will in all cases be held responsible for the water rates.

2. All persons taking water must keep their water pipes and fixtures in good repair and protected from the frost at their own expense. They will be held liable for all damages resulting from their failure to do so. They shall prevent all unnecessary waste, and water shall not be left running to prevent freezing. The Water Commissioners or their agents may, from time to time, ascertain the quantity of water used, the manner of its use, and whether there is unnecessary waste. They and their agents shall have free access to the premises supplied, to examine the apparatus, and if any fixtures are found not to be in good order, they shall direct them repaired, and if not repaired within two days the water shall be shut off and not let on again until such repairs are made, and the sum of two dollars paid for shutting off and turning on the water.

3. The occupant of any premises, when unnecessary waste of water occurs, shall be liable to a fine of

TOWN OF RANDOLPH, MASS.

two dollars for the first offense, and four dollars for the second offense during the same year, and shall be notified thereof in writing; and if such waste is not prevented and the aforesaid fines paid within two days from the time when the said notice is given, the water shall be shut off the premises, and shall not be again let on for the same occupant until waste be stopped and the fine paid, together with an additional sum of two dollars for shutting off and letting on the water, and in case of a third or subsequent offense the water shall be shut off, and shall not again be let on except by a vote of the Water Commissioners and the payment of such fine, not exceeding ten dollars, as the Water Commissioners may impose.

4 Any person supplied with water shall not allow another to take water from his fixtures without the written permission of the Water Commissioners. If a tenant has no fixtures, he will be charged full rates for any use which he makes of the fixtures of another.

5 All parties using water in stables, for horses or other animals, will be charged scheduled rates for the same, whether it be carried by hand or through hose.

6 All persons using water for building purposes are required to obtain a permit from the Water Commissioners before taking water from any faucet or fixtures connected with the water works, and all water takers are warned not to let any party take water from their premises until they show a permit from the Water Commissioners. Any person furnishing water in violation of this section will be subject to a fine of not less

ONE HUNDRED AND SECOND ANNUAL REPORT

than five nor more than twenty dollars, and if the same when levied is not paid within three days from the time when the notice thereof is given the water will be shut off from the premises and will not be let on again until such fine is paid.

7. All fixtures and water closets and urinals must be of a kind and quality approved by the Water Commissioners, also a vacuum valve must be installed on all pressure range boilers connected with the system.

8. No person shall in any case be allowed to open any fire hydrants except by a written permit from the Water Commissioners; but the Engineers of the Fire Department shall in all cases have control of hydrants at fires and for practice.

9. The Commissioners reserve the right to restrict the use of hose or fountain, to shut off the water in all cases when it becomes necessary to make extensions or repairs, or for violations of any of the regulations, or whenever they deem it expedient.

10. The regular rates for the use of water shall be payable in advance on the first days of January and July of each year, except where water is supplied to manufacturers by special agreement. In all cases of non-payment of the water rates within ten days after same is due as well as for violations of these rules and regulations, the supply will be shut off, and payment of the amount due, and payment of two dollars for shutting off and letting on the water, shall be made.

11. The Water Commissioners reserve the right to change the water rates at any time except in cases of dwelling houses and established special rates.

TOWN OF RANDOLPH, MASS.

12. For business requiring large quantities of water, and all supplies not enumerated in the tariff of rates, special rates will be made.

13. Parties using water for manufacturing or domestic purposes can erect hydrants on their grounds or standpipes in their buildings to be used only as a protection against fire without additional charges for water.

14. All applicants for the introduction of service pipes to premises are required to make written application therefor at the office of the Water Commissioners.

And in no case will the main be tapped more than once for the same premises, unless the additional expense is borne by the owner.

Charged as follows:

The following water rates are established until further notice:

No connection made with the main for any purpose for less than	\$6.00
--	--------

Dwelling Houses

Occupied by one family, for the first faucet	6.00
--	------

Each additional faucet to be used by the same family	2.00
--	------

Two or more families occupying one house, one faucet for all, each family	5.00
---	------

ONE HUNDRED AND SECOND ANNUAL REPORT

One faucet for each family	6.00
For first bathtub	5.00
If used by more than one family in same house, each family	4.00
Each additional bathtub	2.00
For first pan or self-acting water-closet	5.00
If used by more than one family in same house, each family	4.00
Each additional pan or self-acting water-closet	2.00
Where two faucets are used, one for hot and one for cold water, emptying into the same basin, only one charge will be made for both.	
Laundry tub	3.00

Hose

For sprinkling streets, washing windows and similar uses, $\frac{1}{4}$ -inch nozzle, to be used only on premises and street opposite, not ex- ceeding two hours per day for six months in the year	5.00
For any use not herein enumerated, special rates will be made.	

Meter Rates payable at Time of Reading.

For not over 133 cubic feet average per day, per 100 cubic feet	.23
--	-----

TOWN OF RANDOLPH, MASS.

For over 133 cubic feet and not exceeding 266
cubic feet average per day, per 100 cubic
feet .19

For over 266 cubic feet average per day .15

Provided that in no case where a meter is used
shall the annual charge be less than \$7.00.

Meters may be supplied by the Water Commis-
sioners for which annual rental will be
charged as follows:

Size $\frac{5}{8}$ -inch	\$1.00 per year
Size $\frac{3}{4}$ -inch	\$1.00 per year
Size 1-inch	\$4.00 per year
Size 2-inch	\$6.00 per year

All needed repairs, damages by frost and heat ex-
cepted, will be made at the expense of the town.

JOHN B. McNEILL,

RICHARD F. FORREST,

FRED D. DRISCOLL,

Water Commissioners.

Report of the Planning Board

Traffic Signs

Because of the failure of the Departments responsible for the safety of the motorists and pedestrians to take action on Safety Measures recommended by the Planning Board in 1936 and 1937 an article has been prepared for the Annual Town Meeting in 1938, that, if adopted will help eliminate many hazardous traffic dangers. We recommend the following:-“Stop” sign on Depot St. entering North Main St. “Stop” sign on Cottage St. entering North Main St. “Stop” sign on North St. entering Crawford Sq. “Stop” sign on Union St. entering Crawford Sq. “Stop” sign on Maple St. entering South Main St. “Stop” sign on Cottage St. entering North St. “Stop” sign on Mill St. entering North St. “Stop” sign on Mill St. entering Union St. “Stop” sign on South St. entering Union St. “Stop” sign on South St. entering Center St. “Warning” sign at entrance on North Main St. at Quincy Line. “Warning” sign entrance on South Main St. at Avon Line. “Slow” sign on South Main St. south of Crawford Sq. near Fisher Shoe Co.

Coasting

To protect the coasters during the winter season your Planning Board has recommended to the Board of Selectmen that Maple St., Howard St., and Allen St., be closed to unnecessary traffic during hours to be determined by the Chief of Police, also that any other streets approved by the Chief of Police be closed and that suitable signs be placed on these streets notifying the autoists. The adoption of this recommendation may be the means of saving the lives of some of the children of Randolph.

Electric Lights

Because of the heavy pedestrian traffic in the area from West Corners to Waldo St. on North Main St., considerable study was given to the end that upon our recommendation the Board of Selectmen increased the candlepower of eighteen street lights from 100 C. P. to 400 C. P. on North Main St. This action has decreased the danger to the pedestrian as the street is now well lighted.

Considerable thought and study has been given the present so called "White Way Lights" in the business area from Crawford Sq. to the R. R. bridge on North Main St. with the result that we have found that for the same amount of funds expended this area could be far better illuminated if the Acorn Type of fixture available from the Weymouth Light and Power Co. without cost to the town is installed in place of the present ornamental fixtures. Recommendation on this important matter has been made to the Board of Selectmen for their consideration.

Sidewalks

Few sidewalks have been constructed under the W. P. A. Program this year and as your Planning Board strongly believes that good sidewalks are a great asset to a town and one of the most important safety assurances, we recommend the adoption at the Annual Town Meeting of the three articles relating to sidewalk construction. Included in these projects are the following areas: Project No. 1—Cottage, Mill, a distance of 1500' from North, Ward, Moulton, Short, School, Plain, and Howard Street. Project No. 2—Pleasant St., Park, West from North Main to Fowler, Abbey, Silver, Fowler, Warren Avenue. Project No. 3—Roel, Allen, Mount Pleasant

ONE HUNDRED AND SECOND ANNUAL REPORT

Square, Belcher, Wales Ave., Cross, Grove St. from North Main Street to Cross.

These three W. P. A. Projects with all labor being furnished by Federal Funds, we firmly believe should be approved at the 1938 Town Meeting as such sidewalk improvements serve the interest of the majority of the taxpayers.

Zoning and Building Laws

The Planning Board in conjunction with the Zoning and Building Laws Committee appointed by the Moderator as directed by a vote of the Annual Town Meeting has made an extensive study of Zoning and Building Bylaws. Weekly meetings and several hearings have been held and we strongly emphasize the importance of adopting these Bylaws for the best protection of the citizens of Randolph.

The Zoning Bylaw does not disturb any property layouts already established but it guards against future mistakes from too crowded areas, and the resultant dangers of destruction by fire, or sickness, or from the lack of home playgrounds for the children, or from an injudicious placing of factories, filling stations, lunch carts, auto grave yards and stores in residential areas and many other annoying conditions.

In furthering the recommendation of the Planning Board to establish a set-back line on the West Side of North Main Street from Crawford Sq. to West St. until such time that Zoning Bylaws be approved by the vote of the citizens, a public hearing was called by the Board of Selectmen on May 10, 1937, and as a result of this

TOWN OF RANDOLPH, MASS.

hearing the owners of the Theatre property agreed to set their building 15' back from the front line of their property. This favorable action on the part of the Theatre owners is of benefit to the abutters and will be of decided advantage to the taxpayer in case a taking of land in the future for street widening should be adopted.

Grade Crossing Overpass

To secure Randolph's share of Federal Funds for public improvements and employment for the unemployed your Planning Board has requested the Massachusetts Dept. of Public Works to consider recommending to the proper authorities in Washington, D. C. the elimination of the dangerous railroad crossing on Union Street by the construction of an overpass bridge. A hearing on this important matter was attended by an Engineer of the Dept. of Public Works, Board of Selectmen of Holbrook and the Representative from this District, and as a result of this hearing the Dept. of Public Works are making an extensive survey of an overpass to eliminate this dangerous grade crossing.

New Post Office Building

We regret that our efforts to secure a new Post Office Building for Randolph did not materialize in 1937, as recent correspondence from Senators David I. Walsh and Henry Cabot Lodge and Congressman Richard B. Wigglesworth advise that Wollaston has been granted the new Postal Building in this District this year, however, as the result of the efforts of your Planning Board the Procurement Division of the U. S. Treasury has informed us that approximately \$75,000 will be allocated for the Federal Building at Randolph when favorable action is taken. We are continuing our efforts on this matter and trust that Randolph will secure the grant of a new post office in 1938.

Work or Public Welfare?

Due to the fact that after a careful study the Planning Board has ascertained that thousands of dollars during the past few years have been expended for Public Welfare without receiving dollar for dollar value in the labor program of the Welfare Department we strongly urge that the article establishing an "Employment Fund" be approved by the citizens at the Annual Town Meeting in March, 1938. There are many needed improvements such as the building of catch basins on various streets, rebuilding and painting of fences in all parts of the town, the cleaning out of brush on dangerous curves and the collection of garbage weekly and the collection of rubbish which at the present time is being scattered on the side streets of our town and the care of the grounds around our schools and public buildings including Stetson High School ball field.

These improvements under a definite planned program could be made by the adoption of this "Employment Fund" article, and work and wages could be given the unemployed instead of Public Welfare.

Drainage

We respectfully bring to the attention of the citizens, that, although appropriations were voted at the Annual Town Meeting for drainage from Cottage Street through the Puzone estate and pipe drainage on Lafayette Street the failure of the Board of Selectmen to secure easements or to take a right of way by eminent domain, these projects approved by the Planning Board, Finance Committee, and the vote of the citizens have not materialized. We emphasize the importance of all Town Officials acting in accord with the vote of the citizenry.

TOWN OF RANDOLPH, MASS.

To our United States Senators and Congressmen for their continued efforts for a new postal building and to the Department of Public Works for their co-operation on the Union St. R. R. overpass and to all local Town Officials and Citizens who have co-operated with us in our efforts to make Randolph a finer place in which to live we extend our sincerest appreciation.

Respectfully submitted,

THEODORE S. LUDDINGTON, Chairman

EDGAR B. COLE, Vice Chairman

WILLIAM M. COLBY, M. D., Secretary

THOMAS F. SCANNELL, Treasurer

EUGENE L. McAULIFFE.

Report of Highway Surveyor

To the Citizens of the Town of Randolph:

In January of this year, with many highways in a deplorable condition, due to lack of sufficient funds being appropriated in 1936 to cope with the situation, and the lack of proper equipment to rebuild the roads, it was first necessary to secure sufficient appropriations for materials and equipment.

After witnessing demonstrations of road equipment in several towns, I recommended to the Finance Committee, the purchase of a Caterpillar Auto Patrol. At the March town meeting this was approved. This Auto Patrol has proved to be a most valuable piece of road equipment both in the construction of highways and the removal of ice and snow.

During the year approximately eight miles of streets have been rebuilt and tarred, the major portion under Highway General, and the balance under WPA projects, including

Center, Druid Hill Ave., South, Mill Street approximately 2000 feet from Union, Maple, School, Moulton, Cottage, Depot, West, Lafayette, Gold, High, Vine to Chestnut, lower end of Allen Street, Mt. Pleasant Square, Orchard, Vesey Road, Grove from Cross to North Main, Highland Ave., approximately 1000 feet from Warren, Chestnut, Oak approximately 3500 feet from North Main, Overlook Road, Marion, Old, Stacy and Russ approximately 1600 feet.

TOWN OF RANDOLPH, MASS.

Several drainage problems have been taken care of including the waterway through the Taber property at the corner of Canton and North Main Streets, also be-

tween North Main Street and Wales Ave. in the rear of the George Mann estate, and from Mt. Pleasant Square through the Arthur Holbrook property to Belcher Street.

All catch basins have been attended to, and catch basins and pipe drainage have been installed on Maple Street to alleviate a bad condition there.

CHAPTER 90 HIGHWAYS

Considerable work has been done on Pond Street including widening of the shoulders in many places and all approaches to catch basins have been constructed with bituminous material. A new 300 foot fence has been erected opposite the pumping station at a dangerous curve, and all fences have been painted.

The entire length of Canton Street was re-surfaced with an emulsion of sand and asphalt, and shoulders have been widened in several places, and catch basin approaches have been constructed with bituminous material. Brush on both sides of the street from Canton line to Overlook Road has been removed.

On Union Street a distance of 600 feet was widened and tarred, and necessary repairs were made in several places. Shoulders and catch basin approaches were constructed of bituminous material. Approximately 300 feet of gravel sidewalk was rebuilt and a 90 foot guard fence was erected, and several fences repaired and re-painted.

ONE HUNDRED AND SECOND ANNUAL REPORT

On North Main Street widening of the road was necessary, and from Warren Street to a point beyond Cottage Street on the east side, including the entrance to Cottage Street, considerable improvement was made.

W. P. A. PROJECTS

The Col-Provia sidewalk from Crawford Square on North Street to Central Cemetery was completed. A sidewalk was constructed on Warren Street from North Main Street to Toomey's store.

In operation at the present time is the sidewalk project on West Street from Warren Street to Drinkwater's greenhouse.

Also under construction are Lillian Street, Norro-way Avenue, Pauline, Emmeline and Grove Streets. Abbey Street and Bartlett Road are to be built under this project.

Catch basins and pipe drainage were installed on Overlook Road for a distance of approximately 600 feet.

Although a great amount of clerical work was entailed, because of the critical unemployment situation in town, every endeavor has been made to apportion the work, both in labor and hire of trucks, as equitably as possible, to the extent that over 275 men have received employment in the Highway Department during the year.

To all town officials, and to the men who were employed under the supervision of the Highway Department, and others who have co-operated with me during the year, I wish to express my sincerest appreciation.

Respectfully yours,

LOUIS J. COURTNEY,

Highway Surveyor

Report of the Tree Warden

Randolph, Mass., January 15, 1938

To the Citizens of the Town of Randolph:

It is a loss to any city or town not to have shade trees. Nothing adds more to the beauty of a locality than streets lined with shade trees.

The care and protection of your shade trees is no simple matter, with the building of new highways, pests of all kinds, repairing wounds in trees, cutting out dead and broken limbs.

I recommend the purchase of some new trees each year for replacements. I also recommend a town nursery where small trees can be transplanted and raised to a proper size for street planting. More shade tree planting should be done.

A number of trees were removed last year and a number are requesting tree removals which will have to be taken care of this year. For the removal of a tree the law requires a written application to your Tree Warden for a permit. I am ready and willing, at any time, to co-operate with any of the citizens in regard to the trees.

Thanking the citizens for their co-operation the past year, I remain

Respectfully yours,

JOHN T. MOORE,

Tree Warden.

And let our motto be: "Plan to plant another tree."

Report of the Local Moth Superintendent

Randolph, January 15, 1938

To the Honorable Board of Selectmen:

The gypsy moth situation in the town is very bad. The north and west ends of the town are badly infested.

Under Chapter 152, Section 14, General Laws, as amended by Chapter 415, Acts of 1937, the town may be required to expend during the year 1938, the sum of \$2,465.76. This amount the town is liable for.

The town is badly in need of a new spraying machine. The one we now have has outlived its usefulness.

If a stiff fight is not waged this spring your town is going to be overrun with caterpillars. If you raise your allotted amount we will be able to hold them in check.

The mild winter of 36 and 37 and the absence of ice and snow is partly the reason for so much infestation. Not only will your trees, but your plants and shrubs will be stripped and destroyed.

Respectfully yours,

JOHN T. MOORE

Local Moth Superintendent

Report of Police Department

To the Board of Selectmen:

Gentlemen:

I herewith submit report of the work done by the Police Department of the Town of Randolph, for the year ending December 31, 1937.

Calls answered and investigations made	3170
*Summonses served	129

PATRICK T. McDONNELL

Chief of Police.

Report of Fire Department

Randolph, Mass., January 1, 1938

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report of the Fire Department for the year ending December 31, 1937.

The department responded to 194 calls during the year classified as follows:

Bell alarms	104
Still alarms	90
	<hr/>
	194
Building fires	30
Brush and grass fires	139
Automobile fires	12
Aid calls	1
False alarms	1
Inhalator	1
Miscellaneous calls	6
Number of feet of 2½hose used	7,960
Number of feet of 1½ hose used	3,850
Number of feet of ladder used	256

ONE HUNDRED AND SECOND ANNUAL REPORT

Assessed value of property damaged by fire	\$ 73,450
Insurance on property	171,550
Damage to property	8,754
Insurance paid on loss	8,394
Loss not covered by insurance	360

The apparatus connected with the department is in good condition at the present time.

The Forest Fire Engine, which has been in continual service since 1931, will have to be overhauled this year.

The new Seagrave pumping engine, purchased this year, was placed in commission September 20, 1937 following a test made by the New England Insurance Exchange.

In conclusion I wish to extend my thanks to the Board of Selectmen and the citizens for their co-operation and interest in the welfare of the Department.

Respectfully submitted,

HAROLD L. BAILEY

Chief of Fire Department

Sealer of Weights and Measures

Randolph, Mass., January 6, 1938

To the Board of Selectmen, Randolph, Mass.

Gentlemen:

During the year 1937 I have sealed:

Scales	127
Weights	119
Liquid measures	104
Gasoline pumps	78
Oil jars	86
Kerosene pumps	16
Grease pumps	26
Yard sticks	15
Taxi meters	7
Oil measuring pumps	84

Re-sealed and tested:

Gasoline pumps	30
Scales	25

Inspections made:

Pedlars' licenses	20
Pedlars' Scales	20

Fees collected and turned over
to the Town Treasurer

\$101.77

ONE HUNDRED AND SECOND ANNUAL REPORT

Salary of Sealer	\$150.00
Transporting weights	44.48
Purchase of equipment	15.52

\$210.00

Appropriation

\$210.00

Respectfully submitted,

DANIEL P. LYONS,

Sealer of Weights and Measures

Report of School Committee

The School Committee hereby submits its annual report for the calendar year of 1937. Further elaboration and details of this report will be found in the report of the Superintendent of Schools and in the reports of various departments.

The School Committee, following the precedent of past years, has given much time and thought to the improvement of school property. It has been the endeavor of your Committee, whenever possible, to make the repairs and improvements permanent, thereby avoiding the expense of redoing hastily put together repairs. It is unavoidable that certain necessary, minor repairs,—such as painting, patching and renewals, return year after year. These repairs must be attended to as the necessity occurs and should not be allowed to accumulate, as it is then a double burden the following year.

There are about seventy rooms in our school system, not including corridors, stair-halls, etc. This means the painting of about twelve rooms, with accessory rooms each year plus the painting of the exterior of, at least, two buildings each year. There are fifty-six rooms equipped with school furniture. Assuming the life of this furniture to be approximately twenty years, it would mean the replacing of about two and one-half rooms each year. Some of this furniture lasts considerable longer than twenty years and some a lesser time.

In order to effect a permanent cure for the water seepage through the parapet wall, and into the building,

TOWN OF RANDOLPH, MASS.

over the second story windows, it was decided to apply for a W. P. A. project for the Devine School and Stetson High School. The project was granted by the Federal Government. An article was inserted in the Town Warrant to cover the cost of materials but because of the adjournment of the Town Meeting, the article was not acted upon. The School Committee was compelled to finance this work from their current expense account with the exception of about \$300.00 taken from the town's appropriation for W. P. A. material. Because of this difficulty, it was found necessary to discontinue the project at the completion of the Devine School.

At the Devine School a permanent cure has been effected and all seepage through the parapet wall has been stopped. The parapet was taken down to the level of the stone cornice. Flashing was installed over this stone cornice, through the wall connecting with the roof flashing, on the back side. All brick, stone and copper was removed, cleaned and replaced. About 27,000 bricks were handled in the progress of the work and many men were given employment. Your Committee feels that with the aid of the W. P. A., a splendid job was done. Your Committee recommends that this project be continued next year at the Stetson High School.

For many years the sanitary conditions at the two Prescott school buildings have been a source of great annoyance. Because of the insistent demands of the Mass. Dept. of Public Safety, the School Committee of the year 1936, were compelled to make a beginning on this work. In that year the Prescott Primary building work was begun. The toilet rooms were completely redone. New plumbing fixtures and piping were installed; new

duct work and a ventilating fan satisfactorily completed the work done in that building. This year, continuing the work so well begun in 1936, the toilet rooms in the main Prescott building were overhauled; new toilet fixtures installed in the boys' toilet room and a new ventilating system with new ventilating fan, installed in both girls' and boys' toilet rooms. Because the basement of the main Prescott building is sunk into the ground, dangerously close to the level of the cesspools, your Committee feels that no permanent cure can be hoped for in this building until the plumbing is moved out of the basement to the floors above. However, this thought was kept in mind while making the present repairs and all fixtures, fans, etc. can be readily transferred at some future time. We feel that the plumbing in this building is now quite satisfactory.

A complete new system of electric wiring and fixtures was installed at the Prescott Primary building. During the summer, the exterior of this building was repaired and painted two coats. The Devine School classrooms and all exterior window trim in the easterly side of the building was painted under a W. P. A. project. All school buildings where the necessity required, were painted during the summer, with the aid of the janitors in their respective buildings.

Electric ranges have been installed in the lunch rooms of the Devine and Prescott School buildings. Proper counters for the serving of food, shelves and cupboards for the storage of dishes, etc. have been built. The serving of hot lunches, at a minimum cost to the pupils of the Devine, Prescott and Stetson High Schools, is being efficiently handled.

TOWN OF RANDOLPH, MASS.

The High School is continually in need of repairs and an extensive repair job on the heating system was necessary during the winter vacation. About fifty-four steam traps including thermostatic and float traps on steam mains were replaced. A radiator was installed in the library and two speed heaters installed in the lunch room. Earlier in the year a tankless heater was installed, connected directly to the hot water boiler, giving a continuous flow of warm water to the shower baths; a valuable and necessary addition for the comfort and convenience of the children.

For economy of operation, the heating system in the Stetson High School will eventually have to be entirely redone. This can be accomplished gradually, and in progressive stages as the Committee plans to do. There is no provision, at the present time, for the recirculation of warm air from the building, to be mixed with the in-coming cold air in the fan room. We believe it is necessary for the sake of economy and comfort that proper ducts with thermostatic control dampers, located in the main cold air duct be installed. We believe the heating system should be so adjusted and arranged that the auditorium and parts of the building used for community and school activities at night, could be cut off and heated separately from the main building. We believe that it is wasteful to continue the use of light and medium fuel oil in this building. This accounts, in a large measure, for the tremendously heavy cost of heating. The present oil burners are inadequate and are incapable of developing the full capacity of the boilers. We recommend two new oil burners be installed, capable of burning fully automatically heavy "Bunker C" fuel oil. This item alone would save the cost of nearly half the fuel used in this building and would pay for the installation in less than three years.

ONE HUNDRED AND SECOND ANNUAL REPORT

Your Committee feels strongly the need for the proper maintenance and care of all school buildings and the necessity of making permanent, any change or extensive improvement. Mindful, however, of the present economic conditions, we feel that progress must, of necessity, be made slowly and in easy stages. However, where existing conditions contribute to a continual yearly waste, they should not be allowed to remain uncared for.

In order to conform to the state requirement governing transportation, it was found necessary at the beginning of the year, to break an age-old precedent established in this town many years ago. Due to the increased number of children attending high school from the North Randolph district, we were obliged to furnish free transportation to high school children living two or more miles from the high school. This threw an added burden on our already overburdened expense account, but with the cooperation of the bus drivers, the Committee was enabled to continue this work up to December 31st at no additional expense to the town. Beginning January 1st, however, we were compelled to increase the contract price for transportation to cover the increased mileage and labor involved.

Your Committee, in the interest of safety, has formally requested the Board of Selectmen to take whatever necessary and appropriate steps that may be required, to have the lane leading to the Belcher School, known as "School Lane" closed to public traffic; also the making of Old Street, on which the Devine School is located, a one-way street, entering from the Canton Street end. We believe these two measures will materially add to the safety of children attending these two schools. In the case of the Belcher School, the closing

TOWN OF RANDOLPH, MASS.

of School Lane will eliminate a great source of potential danger. We quote from the school report for the year 1933:

"Last year your Committee recommended the purchase of the lot of land located on the corner of Belcher Street and School Lane and the closing of that section of School Lane within the bounds of the Belcher School property to public traffic. To quote from our report of last year, 'We believe this School Lane to be a source of great danger to the children attending the Belcher School. It is inevitable that serious accidents may be caused by automobiles swinging out of Belcher Street up the steep incline into School Lane.'

"Your Committee still believes School Lane, so called to be a source of danger to the children attending this school, cutting through the school yard, as it does, with playgrounds extending across the street into the grove on the opposite side; your Committee feels that if it were not for the eternal vigilance of the teachers, serious accidents would be unavoidable."

It is proposed that your Committee insert an article in the warrant for the year 1938, requesting the appointment of a Committee, to act with the School Committee, to make a report at the next Annual Town Meeting, on the question of acquiring the land mentioned above, this land to be added to the Belcher School property.

Your Committee earnestly recommends the establishment of a state-aided household art course in the High School. An article has been inserted in the Town Warrant for the year 1938, asking for an appropriation of \$1200.00 for this purpose. Such a course, established at

ONE HUNDRED AND SECOND ANNUAL REPORT

the High School would include sewing, cooking, furnishing and care of the home, nursing and care of children, etc. Half of the money spent in the maintenance of this course would be reimbursed to the Town Treasury by the state, thereby reducing the expense of operating this department.

It is to be regretted that the Town of Randolph has never found it possible to establish vocational education courses for the boys in our public schools. The nearest to such a course we have ventured, has been the dress-making class in the Stetson High School, for girls. Your Committee pledge themselves to a careful study of the situation relative to the establishment of a state-aided, district vocational school in order that children not wishing to continue college or commercial work, might learn to express themselves with their hands. A district sufficiently large to offer the student a better equipped and manned school would be a distinct advantage and would be in a position to give the students a more thorough training at a lesser cost to the town than any small effort that the local communities could put forward.

In the Fall of 1937 the School Committee was faced with the necessity of providing for a larger additional enrollment in the High School. Sixty-two pupils were enrolled in excess of the previous year. This increase, crowded to capacity, every possible room in the building that could be used for home room purposes. It was found necessary at the opening of school to add an additional teacher to the faculty. With the Stetson High School, now crowded beyond its capacity, and with an increase of students entering the high school, (eighty-two above the number to be graduated), your Committee will be faced with a more serious problem beginning the school year in September 1938. It will be found neces-

TOWN OF RANDOLPH, MASS.

sary to provide home room space, wardrobes for clothing and books and an addition to the teaching force to take care of this added enrollment of eighty-two pupils. Your Committee feels that the situation can be handled without the necessity of a two-session day.

Your Committee submits the following budget for the operation of the School Department for the year 1938:

COST OF INSTRUCTION

	Salary	Expenses	Total
Salaries of teachers, principals and supervisors	82,907.50		
Books and supplies & miscellaneous		5,500.00	88,407.50

COST OF OPERATING SCHOOL PLANT

Salaries of Janitors	7,395.00		
Cost of fuel		3,400.00	
Cost of light and power		1,300.00	
Janitors' supplies & tel. and expense		1,301.55	
		<hr/>	<hr/>
		6,001.66	13,396.66

COST OF MAINTAINING SCHOOL PLANT

Repairs, replacements & renewals	9,215.00
-------------------------------------	----------

COST OF AUXILIARY AGENCIES

Salary of School Nurse	1,350.00
Salary of School	

ONE HUNDRED AND SECOND ANNUAL REPORT

Physician	700.00		
Tuition, Trade and Con- tinuation Schools		2,000.00	
Transportation		3,800.00

	<hr/>	<hr/>	
	2,050.00	5,875.00	7,925.00

GENERAL CONTROL

Superintendent's salary	1,604.44		
Salary of clerks	554.66		
Attendance officer	250.00		
Superintendent's expense		175.00	
School committee expense		100.00	
Miscellaneous expense		50.00	
	<hr/>	<hr/>	
	2,409.10	325.00	2,734.10
Total expense		\$26,916.66	
Less dog tax	1,084.90		
Less coddington fund	56.20	1,141.10	
		<hr/>	
Total appropriation	94,761.60	\$25,775.56	120,537.16

We respectively ask that the above be appropriated.
in two items, one as Salary and the other as Expense.

RECEIPTS FROM STATE AND OTHER SOURCES

General school fund	25,585.00
Tuition, state wards	2,766.00

TOWN OF RANDOLPH, MASS.

Tuition, city wards	2,683.85
Continuation school	1,934.23
Miscellaneous tuition	56.20
Other miscellaneous receipts	19.70
	<hr/>
Total	\$33,044.98

Total cost of schools from local taxation 87,284.18

The definite function of the School Committee, is to act as a Board of Directors of the School System, and as such, to lay out the educational and financial policy and to ascertain that its duties are fulfilled. The Superintendent of Schools is the executive officer of that Board and we earnestly recommend that you read his report, together with the reports of the various departments, which are appended hereto.

Respectfully submitted,

The School Committee of the
Town of Randolph.

JOHN E. KELLEY, chairman

WALTER J. FLANAGAN

MRS. GEORGE W. BREWSTER

FRED P. CHASE

EDMUND J. BRADY

Report of the Superintendent of Schools

To the School Committee, Randolph,

Mr. Chairman and Members;

We are in accord with the principle that education is the tempered tool which will skillfully shape our democracy and preserve for us that American principle of liberty, self-government, tolerance and justice for all which have been our inheritance for so long a time. These in truth, constituted the pillars of construction erected by the Founders of this great Republic. These, too, are our principles today. In the poetic words "In Flanders Field" the American classroom has taken up the torch passed on by them "Who fought to make the world safe for Democracy." We recognize this sacred obligation. We recognize, too, that in order to attain these objectives that the best approach to a practical democratic society is through our classroom organizations, their pattern of democratic behavior, diversified courses and the study of current social, economic and political problems. That is our immediate job.

The task of our teachers today, particularly in the secondary schools, is difficult. They offer no complaint but they realize that they are confronted with an old traditional course of study serving only about 40 per cent of our high school pupils who are so-called academically minded. What about the other 60 per cent? Many, to be sure, have crowded our commercial department as the only way out but do not belong there. The others

TOWN OF RANDOLPH, MASS.

have been very fittingly termed "the forgotten boys and girls" in our American system of education. They constitute a real problem. They are real, wholesome and worthy students, having special skill and ability and are entitled to recognition and training in the public schools of a democracy.

Some two months ago an experiment was tried out in Avon. Mr. Carrol Gilgan with the aid of a C C C instructor, Mr. Johnson, organized a class in shop mechanics in the basement of the high school building. The class sprang into existence over night; composed of boys who donned overalls, worked in groups and in shifts, were happy and actually forgot to watch the clock and were often told to go home when the day's work was done. Here was an actual and practical example of job morale; qualities which cannot be brought out or taught by lectures or scored on an academic test sheet. At the height of the course, Mr. Johnson was removed for the reason that such a class and its type of work was intended for adults only, such as were out of school. True, his removal was justified on the basis of regulation but wrong from the point of view of what was good for the adults was denied our boys, particularly during this their flexible and adventurous period of learning, their spirit of achievement and determination to succeed. This same spontaneity and desire to work in the trades has likewise been noted by Mr. Hubert Gilgan, principal of our local high school.

A revision of high school studies has been under consideration and study for some years. When it comes it will recognize hand training as well as academic. It will cost more but the investment will pay.

ONE HUNDRED AND SECOND ANNUAL REPORT

We are informed that it costs \$14,000,000,000 to support crime in the United States. If that is so, very likely society will soon prefer to pay it by way of educational institutions and not correctional institutions. However, schools cannot alone carry the load. The qualities of the home and church are essential. Industry or the world of business and trade unions must lend their assistance. Leading industrialists have already begun to recognize the obligation. With the breakdown of the apprentice system our students today are denied the right to choose or learn a trade. Their only recourse is the trade schools which in themselves offer excellent facilities but are limited as to enrolment and are scattered over the State in the larger communities. We are told, moreover, that there is an actual shortage of skilled labor. If that is so, let us begin to do our share of the training, co-operate with local industry, prepare for the job, find the job and make worthwhile citizens of our students.

Under the coordinator method of vocational training now under consideration and study in this State, it may not be amiss to propose that this school district of Randolph, Holbrook and Avon go on record as in favor of such a training. There could be established here a center with a coordinator whose job it would be to sit in and study local industry, understand it and assist in the adjustment, training and care of the student employed. In the words of Robert O. Small, Director of Vocational Education, Mass. Department of Education, "We propose to use the Federal funds that are coming to Massachusetts to such an extent as we can in financing that kind of service, putting a man in industry to find the needs we are not meeting, to find the ways that industry could co-operate to help get the job done that should be done, and then go to the schools and set up that program."

TOWN OF RANDOLPH, MASS.

Study is under way to accommodate an extra large entering class in the high school next fall. Out of a class of 179 graduates of our junior high schools, it is safe to say some 159 or more will register. This will mean a change in our organization, a crowding of classes and the probable use of our library and other available floor space in the building for classes. Everything will be done to take care of this situation both from the point of view of education and minimum cost to the town.

According to Commissioner Reardon, the Department of Education is endeavoring to organize and unify a course of study for all grades to be used throughout the State. This will be of great value to school systems everywhere. It will establish minimum essentials for each grade and bring about a continuity of work and achievements heretofore lacking in our school systems.

Randolph teachers are credited with the introduction and organization of an Extension Course for teachers in this town. The class is held in the Prescott school once a week and is made up of teachers from Randolph, Holbrook and Avon with the major enrolment from Randolph. The instructor is Mr. John Maloney and the subject of his lectures is "Modern Tendencies in Education."

We are looking forward to the opening of the new Tower Hill school. This building is a distinct addition to the educational system in Randolph and will be a building of real service, having four spacious classrooms, offices for principal and nurse, clinic room, library and accomodation for 4-H work and assembly in the basement. We express our appreciation, therefore, for this equipment both to the town and to the Building Committee who have made possible this new and modern school.

ONE HUNDRED AND SECOND ANNUAL REPORT

Safety education is a necessity and a definite part of our school work today. Our fair town has had its high quota of accidents. To be sure, this does not mean that our inhabitants have caused these accidents but it does mean that our inhabitants and particularly our children have been the victims. We propose to continue this campaign for safety by classroom instruction, motion pictures, slides, posters and school traffic patrols to the end that we can say and have observed that "Our Children Are To Be Seen And NOT HURT".

In this safety drive we wish to acknowledge the valuable service rendered by Mrs. Ina Curley, Supervisor of Safety Education, Inspector Coldrick of Quincy, Chief McDonnell and his officers, school principals, teachers and janitors.

The following teachers in the high school have taken advanced or graduate work during the past four years. Last year a similar list was given for teachers in the grades.

Winifred M. Brennan	B. C. Graduate School.
Mary E. Connors	B. U. Graduate School.
George E. Crimmins	B. C. Graduate School.
Joseph W. Daly	St. Anselm College.
Helen T. Dole	B. U.; B. C.; Boston T. College.
Hugh W. Heney	B. U. and Uni. Extension.
Eleanor M. Kelley	B. U. Graduate Work.
William J. Lynch	Harvard & B. U. Graduate Schools.
Louise H. Maguire	B. C. and Harvard " "
Genevieve R. Steffy	Harvard and B. U. " "
Matthew V. Walsh	B. U. Graduate School.
Helena K. Krupka	Farmer's School of Cooking.

TOWN OF RANDOLPH, MASS.

No greater compliment can be paid any school system, large or small, than the one expressed by so many of our teachers during the past year, "I enjoy my work." Such an attitude in ones work is most ideal; it knows no fear or defeat, needs no supervisor nor the array of so-called educational gadgets for classroom motivation. It is the quality which makes for deeper enthusiasm and better instruction which, in turn, are the products of cooperation and coordination from the School Committee down to the little folks in grade one.

Respectfully submitted,

A. O. CHRISTIANSEN

Supt. of Schools.

**REPORT OF THE PRINCIPAL OF
STETSON HIGH SCHOOL**

To Mr. A. O. Christiansen

Superintendent of Schools

I herewith submit to you my sixth annual report as principal of Stetson High School.

Faculty Changes

The year 1937 saw more changes than at any time during the past five years. Mr. Edward McAleer resigned to take a position in Greece, Miss Dorothy Gavin and Miss Dorothy Powers to be married, and Mr. James Riley to accept a position in Dedham. The following appointments were made to fill the vacancies: Miss Louise Maguire, Miss Elizabeth Mead, Mr. W. Joseph Daly, and Mr. George Crimmins. Miss Helen Dole was an additional appointment to the faculty to relieve a heavily overburdened commercial department.

Cost of Education

A study of the school budgets for the town of Randolph will show a large increase over a span of years and the question will naturally arise as to the reason for it. The logical conclusion for this rise in costs would seem that schools have increased in cost because of increased attendance, even though such an increase in attendance would seem to be entirely out of proportion with the increase of the town's population. Higher costs have been reached also, because increased enrollment has been greater in the high school than in the grade schools. This is not merely a local situation, but a nation-wide one because, while in 1910 there were about one million

pupils in the nation's high schools, in 1930 this number reached approximately four million. Teacher standards are higher; our buildings are more modern, safer, and more comfortable; the school year is longer; we try to think of the health, physical condition, and safety of our boys and girls; in short, we try to give educational opportunities to a greater degree and in such a manner as to enable the young people to reach that goal which their native intelligence and ambition make possible. All of these things mean higher costs, but to quote from an address made by President Roosevelt, "The main point is that we need to make indefinitely better the average education which the average child now receives. The crisis can be met, but not in a day or a year, and education is a vital factor in the meeting of it."

Enrollment

The total enrollment for the year at the close of 1937 was considerable larger than for 1936.

Freshmen	157	Seniors	97
Sophomores	127	Post-Graduates	4
Juniors	105	Total	490

At the present time our high school building is taxed to capacity, and in view of the fact that the next few years will bring increases in enrollment, we believe that now is the time to give serious thought and study to a situation which will arise in the immediate future.

The enrollment for the past six years is as follows:

1932	1933	1934	1935	1936	1937
393	418	440	425	429	490

ONE HUNDRED AND SECOND ANNUAL REPORT

In 1927, the enrollment was exactly 200, so it can be readily seen that the high school population has more than doubled itself in the period of ten years from 1927 to 1937. According to the statistics of your 1936 report, there were 197 students in the seventh grade which will be next September's high school Freshman class. With 97 more seniors graduating and 197 potential Freshmen entering, there will be at least 80 more pupils in our school, allowing for a loss of 20 pupils between grades 8 and 9. The loss may not be so great, and, if not, the enrollment will be even larger. The fact has been already mentioned that the high school building is, even now, crowded to capacity. The problem is how to accommodate these additional pupils.

At the present time, every available room is being used for home rooms, including the science laboratory and the sewing room, and all the rooms are used for classrooms and study rooms with the exception of the science laboratory. Even that room has been put into use two days a week for drawing classes. As we see it, one immediate solution to the situation is to use the lunch room for both home room and classroom purposes. This, we believe, is highly undesirable because this room is not suited for either purpose and could not be used for the periods just before and after the lunch period.

Another solution is the use of the two platoon system whereby part of the pupils go to school in the morning and part in the afternoon. The two lower classes could attend school say from 8 to 12 and the two upper classes from 12:30 to 4:30. The disadvantages of such a plan, however, are immediately apparent. Some of the teachers would have morning and afternoon classes. There would be a transportation problem, to say nothing of the difficulty to parents who might have children

TOWN OF RANDOLPH, MASS.

attending both sessions as well as the grade schools. The pupils, themselves would suffer from shorter hours with less time for their studies. All extra curricula activities would have to be curtailed and some even eliminated. This plan, however, is a possibility but practically every school that has used it has found it unsatisfactory.

We recommend that a study be made of future enrollments of the high school and if large high school enrollments are to be constantly high, that more room be provided the high school either by means of a new building or an addition to the present building.

Study Pupils

Except in isolated instances, all study pupils who have free periods are placed in the rear of all recitation rooms. Such practice brings many complaints from pupils, themselves, that they cannot place sustained and concentrated attention to the work at hand because distractions are bound to occur when some pupils are

reciting while others are trying to study. From the teacher's point of view, the teacher should be giving her undivided attention to the class, without the necessity of caring for study pupils. This is only another instance of more room being needed.

Safety Education

Every citizen of Randolph knows that there is need of some type of safety education particularly for young people, because this town has had a bad accident record. In our report of last year, we mentioned that the schools could and should help in this matter. We are pleased

to report that during the past year a course of study in safety was put into effect through the cooperation of Mr. Hugh W. Heney of the faculty. This course embraces such topics as vehicular and pedestrian traffic, coasting, skating, and all activities in which young people are involved. We have worked out this safety course with the help and assistance of the State Department of Education and the Governor's Safety Council. It is our hope this course will be enlarged as time goes on and that it will prove to be a valuable addition to our curriculum.

Commercial Course

In our report of 1934 it was brought out that about seventy per cent of our students were in the commercial course and this situation has not changed in the years following. We have in our eleventh and twelfth grades one hundred and fourteen boys and girls taking stenography, one hundred and thirty-eight taking Typewriting and seventy-three taking Bookkeeping. We believe it is safe to say that many of those seventy-three in Bookkeeping will never become capable bookkeepers or that many taking the other two subjects will ever be placed in actual employment along the lines in which they are being educated. We believe that a great many of these pupils are taking this work because there is nothing else to take; that if other courses were provided such as Manual Arts and Household Arts many of these misfits would find work more suitable for their natural inclinations.

A survey of modern business needs will show that there is far more opportunity for employment in other fields besides bookkeeping, shorthand, and typing. There are salespeople, billing clerks, duplicating clerks, filing

TOWN OF RANDOLPH, MASS.

clerks, cashiers, and others. This being the case, why not revise our commercial course to enable the pupil to cope with these opportunities? The skills best calculated to insure initial employment would best be classified under the following headings: clerical, stenographic, bookkeeping, and retail salesmanship. Too, we already have and we give some time to clerical and retail salesmanship, but we believe that the same amount of time should be given to all. There should be opportunity for the pupil to get actual practice in the use of modern devices and methods for the filing and indexing of important records. There should be given instruction in the care and use of such modern office machines as the comptometer, adding machine, addressograph, ediphone, and mimio-graph. These last two suggestions would involve some expense but we believe that the results would justify expenditures.

The Assembly

A regular program of assemblies has been organized this year on the basis of pupil participation. These assemblies are presented twice a month with the aim of realizing higher standards of citizenship and scholarship through cooperative effort. The programs already presented have had a popular appeal, and have been received with enthusiasm. Twice a month, too, we now have homeroom assemblies with the purpose of improving school spirit and loyalty. Good results have been apparent from the start.

Vocational Guidance

All school officials feel that at the present time, with so many pupils of varied capacities and inclinations seeking an education, there is a great need for some type of vocational guidance in the schools. Such a course

should include a study of the trends of employment opportunities open to high school graduates, a study of all means of earning a livelihood, the necessary preparation for each vocation so that each pupil might be directed into that type of work where he will best fit according to interest and adaptibility. To be properly done, such a program needs the services of some teacher trained in this work. Lacking this, much of this work is being done, as time permits, by the homeroom teacher and the principal.

Conclusion

We take this opportunity of expressing sincere thanks for the cooperation of students and teachers. This kindly relationship makes our work pleasant and team work highly successful. Your generous assistance and advice and the understanding support of the School Board have done much to make the past year one of enjoyment and achievement.

Respectfully submitted,

HUBERT F. GILGAN

Principal of Stetson High School.

TOWN OF RANDOLPH, MASS.

REPORT OF THE MUSIC SUPERVISOR

Mr. A. O. Christiansen, Superintendent

In compliance with your request, I submit the following report as Supervisor of music.

Teachers and pupils respond very enthusiastically, and considering the limited time allotted to music, good results are maintained.

I have introduced group singing in many of the schools, and find it very helpful to the pupils, as it develops a spirit of confidence and pride in being able to stand before the class and sing in one, two and three parts. In some schools this work is excellent.

I am in need of material at the present time, but feel certain that I will be permitted to obviate this difficulty very soon.

I still emphasize the fact that music writing books would be a great factor in developing the theoretical knowledge of music. A writing lesson once a month would be sufficient and helpful. I do not mean to infer that the pupils are not taught the fundamentals, but with the aid of the writing books, the pupils would acquire a more lasting and advanced knowledge.

The High School Chorus, numbering one hundred and forty members, meets once a week for one period. Considering the large number and the limited time allotted, results are very favorable. The Principal, Mr. Gilgan, takes the attendance and disciplines the class which is very helpful. Credit is given accordingly.

ONE HUNDRED AND SECOND ANNUAL REPORT

The High School Band and Orchestra under the leadership of Mr. Burke of Brockton, are doing very good work. The band has a membership of thirty-five and the orchestra twenty-five students.

Mr. Burke suggests that if the pupils would become more interested in the clarinet, flute, etc. results would be even more satisfactory. The orchestra also could use to advantage more students able to play the violin, cello and string bass.

Mr. Burke makes these suggestions in the hope of building up both organizations.

I take this opportunity of thanking the members of School board, the teachers and you, Mr. Christiansen, for the hearty cooperation I have received.

Respectfully submitted,

ROSE G. HAND

Supervisor of Music.

TOWN OF RANDOLPH, MASS.

REPORT OF THE SUPERVISOR OF ART

Mr. A. O. Christiansen,

Superintendent of Schools.

Public schools should more and more encourage the study and appreciation of art ideals. Without such an education the beauty of the better things in life is lost. It is through art that ideals, character and the appreciation of beauty is more highly developed. One need not necessarily be a connoisseur to realize that art enters into every phase of life. Our shopping centers and windows reflect the touch of artistic symmetry. How to select clothing, to furnish a home or to choose any well designed commercial product are questions which the study of art will greatly assist in their proper solution.

People make a great mistake in thinking of child art as merely a preliminary stage to adult art. It is a thing in itself, quite shut off and isolated, following its own laws. Art temperament among school children is increasing with the utmost rapidity. This is evident, by the progress made from year to year by the pupils in our schools. It is important that the child be started correctly. Every child with a growing art knowledge from the first grade through the finishing years of school will have his eyes, mind, and hands attuned to the thousand and one beauties which nature displays everywhere, often hidden from those who do not have this training. This is sufficient reason why our pupils should have art as a subject in this curriculum.

It gives me the utmost of pleasure to see the splendid work being carried on in our schools. Our annual exhibition held last June received the highest commendations from many. The work was carefully executed, each

ONE HUNDRED AND SECOND ANNUAL REPORT

individual's effort was strongly portrayed, both in color and proportion. It has seemed good to see such an outstanding amount of interest shown in the art work of the pupils of the Randolph schools.

My deepest gratitude, I extend to the teachers, principals and the superintendent for the assistance accorded me, in executing my formulated projects.

Respectfully submitted,

RUTH C. LENNON

Supervisor of Art.

TOWN OF RANDOLPH, MASS.

REPORT OF THE SCHOOL NURSE

Mr. A. O. Christiansen,
Superintendent of Schools.

Following is a report of my work for calendar year 1937.

All grade pupils weighed and measured three times during the school year.

Number of schools visited	431
Number of individual inspections (Pupils inspected after each school vacation)	6742
Number of Home Visits	173
Number of children taken to Norfolk County Hospital for X-rays	10
Number of children given T. A. T.	38
Number of children in grades seven, nine and eleven given Von Pirquet (Skin)	
Test by Norfolk County Clinic.	200
Number of children X-rayed	36
Number of children examined	30
Recommended for Summer Camp.	4

Three girls and one boy were sent to the Norfolk County Health Camp. Two of these children were sent through the Board of Health. All children returned showing marked improvement after their eight-weeks at the Health Camp.

ONE HUNDRED AND SECOND ANNUAL REPORT

The Taunton Traveling Clinic came to Randolph and examined six pupils who were retarded in their school work. These pupils were placed in Grades recommended for them by the clinic Psychiatrist.

This year our school children with the exception of grades one and two had their hearing tested with the Audiometer.

1413 children were tested.

230 children were retested.

46 children were found to have defective hearing.

Parents of these children were notified of the defect and were advised to consult their family Physician.

Through the kindness of the Chamber of Commerce one hundred and thirty-eight children received milk each day in school.

Our School Dentists, Doctor Smith and Doctor Maguire had a busy year and they deserve much credit for the large number of children they treated during the year.

In closing my report I wish to thank the School Committee, the Superintendent, the School Physician and Board of Health for their kind cooperation during the past year.

Respectfully submitted,

HELEN F. CONLON, R. N.

School Nurse

TOWN OF RANDOLPH, MASS.

REPORT OF SCHOOL PHYSICIAN

Another school year in the lives of our school children has closed. This past year left us one of the best records in regard to health that the town has known in many years. No epidemic such as suffered in other towns has occurred here; outside minor colds, our children have been physically well. Numerous small accidents were reported; none, however, of a serious nature.

I feel that great credit should be given to our school Nurse and to our teachers for being on the alert to avert sickness.

During the past few years I have felt that our High School boys were engaging in football games with High School teams far beyond us in numbers, weight, and size. There were many accidents during the past season: one or two severe brain concussions, and several badly sprained knees and ankles. Football is a very strenuous game; it would seem to me that although boys naturally desire to seek glory on the playing field, the element of danger to life is an important factor for consideration when games are being scheduled.

It was unfortunate that our local Board of Health did not see its way clear to have the Toxin-antitoxin clinic held in June. If a board of this nature is too busy with other matters, it would seem to me that power might be delegated by them to the School Physician and the School Nurse; and I am quite certain that a large number of parents would have availed themselves of the opportunity for those children who have not already been given the injection.

GEORGE V. HIGGINS, M. D.

Report of Trustees of Stetson School Fund

For the past twenty-five years, the income from rentals in our Stetson Hall have been sufficient to cover ordinary expenditures and to have enabled our Trustees to add to the Trust Fund created by Mr. Amasa Stetson. This fund at one time amounted to around twenty-two thousand dollars. By vote of the town, alterations in our hall and the opening of town offices on the lower floor were made. While the town aided with part of these expenses, the Trustees were called upon to pay quite a large share for this work. The fund was reduced by these changes to around twelve thousand dollars. At the present low rate of interest of this invested fund, it will be necessary for the town to appropriate from time to time various sums of money for the upkeep of this building. There was a change in the investment of Stetson School Fund during the past year. Webster and Atlas Bank Stock, and Lawrence Gas Stock was sold and a bond of the Boston and Albany Railroad purchased. In Mr. Stetson's gift to our town he made it evident that he wished the building kept in perfect repair.

TOWN OF RANDOLPH, MASS.

The Fund is invested as follows:

January 20, 1938—

10 shares Randolph Co-operative Bank	\$2,000.00
1 Boston & Albany Railroad Bond	1,000.00
Deposits in Randolph Trust Company	8,243.34
Deposit in Randolph Savings Bank	802.11
	<hr/>
	\$12,045.45

Also a Deposit of \$1,000.00 in the Randolph Savings Bank to the credit of the Turner Library Fund.
